3. Individuals or committees may recommend potential local PD offerings to the professional development committee for consideration.
4. All approved PD must be directly related to teacher's area of assignment.
5. Only time outside of the instructional day will count toward PD hours.
6. Documentation of attendance at PD must be submitted each semester to the building principal; running record of PD hours will be kept by the building principals. For purposes of documentation, staff members are encouraged to record all PD attended, even hours beyond the required.
7. Each teacher is responsible for ensuring that they fulfill 7 hours of approved professional development between the last day of the preceding school year and the last day of the current school year. PD hours that have not been fulfilled by the last day of school will be deducted from the staff member's last paycheck of the school year based upon the individual teacher's rate of daily pay.
8. The district will cover the entire cost of registration, meals, travel and lodging if an administrator requires the teacher to attend the professional development day(s).
9. Teachers may request to their building administrator to have the district cover costs of registration, meals, travel and lodging (may include any combination of these items) if they are attending a professional development opportunity that is relevant to their teaching responsibilities. The building administrator will bring such requests to the superintendent and/or professional development committee for approval. Approval will also depend upon the district budget for professional development.
10. Teachers that accumulate 13 or more hours of professional development will not be required to be in attendance the last staff workday of the current school year.
