Measuring Progress

As a system, we need to have ways to measure progress toward our strategic objective of ensuring students are meeting achievement benchmarks throughout their K-12 education, culminating with graduation.

Keeping in mind that expectations for students are changing—with a switch to Common Core State Standards, a revised assessment system (SBAC), and changing diploma requirements.

Measuring Progress

In addition, Oregon recently joined most other states in the U.S. by requesting a waiver to the Elementary and Secondary Education Act (ESEA), commonly known as No Child Left Behind (NCLB).

This meant each district in the state needed to complete a state-designed achievement compact, outlining goals for student progression and preparation for college and career in certain predetermined areas.

These targets are likely to change over time.

Measuring Progress

Taking all these factors into account, our District identified checkpoints in six areas by which to measure our progress toward the strategic objective:

- **Benchmark Reading** (Gr. 3,4,5,6,7,8,11)
- **Benchmark Math** (Gr. 3,4,5,6,7,8,11)
- **Strong Attendance** (Gr. K,1,2,3,4,5,6,7,8,9,11)
- **Advanced Coursework** (Gr. 8,9,10,11,12)
- **Academic Extensions** (Gr. 8,10,11,12, including ACT/SAT completion and earning of 9 or more college credits)
- **Graduation** (4-yr cohort, 5-yr cohort, high school completion, post-secondary enrollment)
