Edgenuity Course Grade Breakdown Information

- **RELATIVE GRADE** – ***This is the grade that goes on the transcript.***
  - At the end of the semester, this grade will reflect ALL GRADED assignments, including missing assignments and the semester exam. It is suggested that you only look at this grade at the end of the semester once the final exam is completed.
  - End-of-Course counts for 20% of the Final Grade for 2nd Semester

- **ACTUAL GRADE**
  - This is the grade used to monitor progress throughout the semester. This is the overall grade adjusted for progress if the student is behind on coursework. This grade calculates late/missing work into the average.

- **OVERALL GRADE**
  - This grade indicates the average of the completed and shows us the mastery of the content and skills achieved on the work that is completed. If the student falls behind, as you begin to catch up, the ACTUAL GRADE will rise and should match the OVERALL GRADE.

- **DAILY GOAL**
  - This is the daily commitment needed to make in each course to finish coursework by the end of the semester.
