December 4, 2017

Members of the Board of Education School District 27J Brighton, CO 80601

The Local Government Audit Law requires Colorado local governments to have an annual audit of their financial statements and publish, within six months of the close of each fiscal year, a complete set of audited financial statements. This Comprehensive Annual Financial Report (CAFR) is published to fulfill that requirement for the fiscal year ended June 30, 2017.

The District management assumes full responsibility for the completeness and reliability of the information contained in the CAFR, based upon a comprehensive framework of internal control that it has established for this purpose. The District's financial services department prepared this report which contains management's representations concerning the finances of the District. To the best of our knowledge and belief, the enclosed data is accurate in all material aspects, reported in a manner to present fairly the financial position and results of operations of the District's funds. As the cost of internal controls should not outweigh the benefits, the outcome is to provide reasonable, rather than absolute, assurance the financial statements are free of any material misstatements.

The CAFR is presented in three sections: Introductory, Financial, and Statistical.

• The introductory section includes this letter of transmittal, the District's organizational chart, a list of principal officials and a reproduction of the 2016 GFOA Certificate of Achievement.

• The financial section includes the report of the independent auditor, management's discussion and analysis (MD&A), basic financial statements, required supplementary information and notes, combining statements, and individual fund statements and schedules.

• The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

RubinBrown LLP, Certified Public Accountants, have issued an unmodified ("clean") opinion on the School District 27J's financial statements for the year ended June 30, 2017. The independent auditors' report is located at the front of the financial section of this report.

MD&A immediately follows the independent auditors' report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of School District 27J

Counties of Adams and Weld School District 27J, commonly referred to as School District 27J, formed in 1959 upon the reorganization and consolidation of several former school districts. School District 27J is located northeast of the Denver, Colorado metropolitan area and encompasses approximately 212.4 square miles in northwest Adams County, northeast Broomfield County and southwest Weld County and serves a population of 97,292.

The District is the only school district serving the City of Brighton and also serves segments of the cities of Thornton and Commerce City, in addition to the surrounding unincorporated and generally rural areas.

The District is a legally separate, primary government entity that operates under a publicly elected seven-member Board of Education. The Board of Education members are elected to alternating four-year terms with elections held every two years. Board members represent a specific area of the District, but are elected at-large. The School District 27J Board of Education voted January 26, 2009 to adopt the Policy Governance model of board governance. The Board of Education adopts the budget, employs all personnel required to maintain the operations, determines the educational programs provided by the district, and is primarily accountable for fiscal matters.

The District provides a full range of educational programs and services authorized by Colorado State Statutes to approximately 17,200 enrolled students. Included are basic kindergarten through twelfth-grade (K-12) education as well as preschool, vocational, special education, gifted and talented, bilingual education and numerous services and programs. The District's K-12 curriculum is delivered in its neighborhood school system of 11 elementary schools, 4 middle schools, 3 high schools (2 comprehensive and 1 alternative), 1 blended learning school, and 5 charter schools.

School District 27J is financially accountable for five charter schools and one capital foundation that are legally separate entities; all financial activity of the six component units is discretely presented in the District's financial statements for the year ended June 30, 2017. The District's six component units, are Belle Creek Charter School, Bromley East Charter School, Eagle Ridge Academy, Foundations Academy and Landmark Academy (charter schools operated by National Heritage Academies), and the School District 27J Capital Facility Fee Foundation (CFFF). Additional information on all of these legally separate entities can be found in the notes to the financial statements (see note 1-A).

Colorado State Statutes require that the District adopt the budget by June 30 prior to the beginning of the subsequent fiscal year. Budget revisions may be adopted prior to January 31 of the current fiscal year. The District maintains extensive budgetary controls, to ensure compliance with legal requirements, Board of Education policies and District administrative guidelines. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by fund. Staffing levels are authorized for each site and are tracked monthly to insure usage within budgeted limits. Monthly reports are provided to each site's administrative staff, to allow monitoring of their discretionary budgets. As demonstrated by the statements and schedules included in the financials section of this report, the District continues to meet its responsibility for sound financial management.

Local economy

School District 27J provides educational services in the Metro Denver area inclusive of the cities of Brighton, Thornton and Commerce City. The District has a significant economic presence, employing in total more than 1,700 teachers, professionals and support staff.

Overall, Colorado's economy performed better than the U.S. economy in 2016. The economic forecast provided by the Colorado Legislative Council staff states that Colorado is further along in the business cycle than the nation. The labor market, consumer spending, income, wages, housing prices, and construction activity in Colorado have all outperformed the national economy for at least a year and many of the improvements in Colorado's economy are concentrated in the Denver area. Through the end of 2017, the Colorado economy will continue to feel the effects of the slow-down in the oil and gas industry.

Strong growth throughout Metro Denver's economy has helped to highlight the region as a leading area in which to live and do business. Metro Denver added 52,000 jobs in 2016 (a 3.3% increase) and dropped its unemployment rate to 3.0% (at its lowest rate since 2000) compared to the national unemployment rate of 4.7%. The Adams County unemployment rate was 3.0%, as well, down from 3.9% in 2015.

Metro Denver has a limited supply of residential real estate and above-average population growth so home prices and appreciation are rising, and construction activity is robust. The number of single family housing permits issued in Brighton in 2016 was 175. Thornton issued 237, Commerce City issued 471, Adams County issued 129, and Aurora issued 98. Total permits issued in 2016 were 1,110, as compared to 762 in 2015. School District 27J is one of the few remaining areas in Metro Denver with large amounts of land for development. The population in Brighton increased by 755 from 2015 to 2016 for a total population of 38,314. The population in Thornton increased by 3,374 from 2015 to 2016 for a total population of 136,703. The population in Commerce City increased by 1,214 from 2015 to 2016 for a total population of 54,869.

Brighton City Council has continued its commitment to expanding both the employment base and range of retail opportunities by funding and working in cooperation with the Brighton Economic Development Corporation, Brighton Urban Renewal Authority, and Adams County Economic Development and Upstate Colorado Economic Development.

The District maintains a credit rating for schools of "A+" with a stable outlook. Credit ratings, provided by independent third parties, serve as an indicator of an organization's financial stability, as well as the safety and security of the debt sold by that organization. The most recent report from Standard and Poor referenced the District's access to, and participation in, the large and diverse Denver economy, coupled with very strong per capita wealth levels and good to very strong income indicators; which include continued growth in enrollment, the primary influence on the District's operating revenues; and consecutive years of positive operations with strong available general fund balances. In general, higher credit ratings often result in lower borrowing costs for the District because our interest rates are lower and there is a wider market of buyers.

Long-term financial planning and major initiative

Unrestricted fund balance (the total of the committed, assigned, and unassigned components of fund balance) in the general fund at year end was 14.7 percent of the total general fund revenues.

Student enrollment increased annually through fiscal year 2016-2017. Enrollment in fiscal year 2017-2018 will increase compared to the prior fiscal year due to the opening of Reunion Elementary in the fall of 2017. The District has worked through budget policy and practice of a structurally balanced budget in order to maintain stability, despite the inclusion of the negative factor in the Colorado School Finance Act which has limited growth on a per pupil basis.

During the fiscal year 2016-2017 state budgeting process there was an increase to K-12 education funding with no change to the negative factor in the Colorado School Finance Act, as well as increased funding for targeted educational programs. Increased funding for education initiatives in Colorado still lies in the hands of local, not statewide, electorates. This is especially challenging because School District 27J has experienced limited success in the passage of mill levy tax increase efforts. The District's one mill levy override was passed in 2000 for a flat amount of \$750,000.

The District was successful in passing a \$248 million bond in the November 2015 election supporting building four new schools, including a third district high school, a fifth district middle school and two new elementary schools as well as making renovations and expansions to existing schools and safety and security upgrades at all district schools. This is the largest single authorization in the history of the District. In fiscal year 2017 the District completed the construction of Reunion Elementary, along with planned renovations, expansions and deferred maintenance to existing buildings. In fiscal year 2018 the district will complete construction on Riverdale Ridge High School, to open for the 2018-2019 school year.

<u>Achievement</u>

- Students in 27J are not meeting the state average on Colorado Measures of Academic Success (CMAS).
- Students in 27J are scoring below the state average in nearly every assessment.
- These proficiency gaps widen as students approach graduation.
- There is a significant gap in performance with ELA students, Hispanic students, and free and reduced lunch students within 27J.

Growth

• Students in 27J are not making enough yearly growth.

<u>Gaps</u>

- Proficient or advanced 27J students are not "keeping up" with their proficiency at the same rate that other Colorado students are, nor are the proficient students "moving up" toward an advanced score.
- "Students with Disabilities" received a "Does Not Meet" rating in Reading, Math, and Writing at the elementary and middle school levels. They also received a "Does Not Meet" rating for Graduation rate.

The three major improvement strategies outlined in the 27J Unified Improvement Plan are:

Thinking Classrooms provide a framework for outlining the structures for 27J leaders. The Thinking Classroom is a classroom that transfers the definition of learning from the teacher delivering knowledge to the teacher being a driver of focused intentional learning, and students moving from a passive receiver of facts to a thinker using information.

All students will have access to the same goal derived from the adopted 27J standards which are based on Colorado Academic Standards and the Common Core Standards.

The Thinking Classroom will have student evidence that is thoughtfully considered for each goal and assessed against the desired learning. Adjustments will be made in the instruction, and accommodations are offered to ensure the goal attainment based on the evidence.

The Thinking Classroom will provide student with opportunities to interact with their learning in meaningful ways. The learning experience will be planned so that students have ownership of their own learning.

The second focus is to use 27J curricular frames to align instruction toward big ideas. The 27J curricular frame is used to help create unit goals. These unit goals consider big ideas, the acquisition of essential knowledge and understandings, and the skills that a student will need to transfer this learning.

Daily lessons are planned backwards from the unit goals. Each daily lesson's objective is essential in the development of larger unit goals.

The third area is to use 27J common assessment evidence to improve instruction. The teacher is also clear about what successful learning looks like and sounds like for each unit goal, daily objective and assignment. The teacher uses these learning criteria to tune in smartly to every student conversation, project, quiz, exit ticket or homework assignment as a way to gather evidence of learning, provide feedback, adjust future lessons, organize instructional supports, etc.

Relevant financial policies

The District's accounting system is designed to provide reasonable assurance that its assets are adequately safeguarded and that transactions are accurately recorded and have proper authorization. The District's budgetary and accounting controls provide reasonable assurance that errors or irregularities of a material nature are prevented or are detected in a reasonable period of time. The District is required by state law to adopt an annual budget that represents a complete financial plan for the ensuing fiscal year. A detailed programmatic budget is used as a guideline for expenditures, and monthly financial variance reports are prepared and distributed to the Superintendent and District leadership. The monthly reports contain information for all funds regarding revenue and expenditures as compared to the approved budget and prior fiscal year. While minor deviations from budget areas stay within their total budgeted appropriations. School principals and department managers use the reports to monitor budgetary variances and significant differences are discussed with the appropriate supervisory staff as they occur. The Board of Education also receives monitoring reports throughout the fiscal year providing further detailed financial information on all funds as well as charter school operational and financial activity.

The financial accounting and budgetary system is automated and includes edits and balancing routines to ensure the integrity of the data entered. An evaluation of internal controls conducted by our auditors is included as part of this annual financial audit. The auditors' findings are presented to the Board of Education in the Single Audit report in the Compliance Section.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to School District 27J for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2016. This is the twenty-eighth consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, the government had to publish an easily readable and efficiently organized CAFR that satisfied both generally accepted accounting principles and applicable program requirements.

A Certificate of Achievement for Excellence in Financial Reporting is valid for a period of one year only. However, we believe that our current CAFR continues to meet the Certificate of Achievement for Excellence in Financial Reporting Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

This preparation of this report would not have been possible without the skill, effort, and dedication of the entire Finance Office staff. Each and every member of the Finance Office staff provides input into this report. We commend the Board of Education for their interest and unfailing support related to the planning and management of the District's finances in a responsible and progressive manner. Additionally, we would like to express our appreciation to the cities of Brighton, Commerce City, Thornton, Adams and Weld Counties, and other public entities which provided meaningful information in the preparation of this report.

Respectfully submitted,

Aple

Dr. Chris Fiedler Superintendent of Schools

Board of Education Adams/Weld School District 27J Brighton, Colorado

Report On The Financial Statements

We have audited the accompanying financial statements of the governmental activities, the discretely presented component units, each major fund and the aggregate remaining fund information of the Adams/Weld School District 27J (the District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility For The Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Capital Facility Fee Foundation, Bromley East Charter School, Eagle Ridge Academy Charter School, Belle Creek Charter School, Foundation Academy Charter School or Landmark Academy Charter School, which represent 100% of the assets, net position and revenues of the aggregate discretely presented component units. Those statements were audited by other auditors, whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Capital Facility Fee Foundation, Bromley East Charter School, Eagle Ridge Academy Charter School, Belle Creek Charter School, Foundation Academy Charter School and Landmark Academy Charter School, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statements of the Capital Facility Fee Foundation, Bromley East Charter School and Belle Creek Charter School were not audited in accordance with Government Auditing Standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component units, each major fund and the aggregate remaining fund information of the District as of June 30, 2017 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 15 through 26, budgetary comparison information, schedule of the District's proportionate share of the net pension liability and schedule of the District's contributions to the pension plan on pages 86 through 91, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedule of expenditures of federal awards, as required by the U.S. Office of Management and Budget Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (the Uniform Guidance); the Colorado Department of Education Auditor's Electronic Financial Data Integrity Check Figures; combining and individual fund financial statements and schedules; the statement of changes in fiduciary assets and liabilities and introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedule of expenditures of federal awards, the Colorado Department of Education Auditor's Electronic Financial Data Integrity Check Figures, the combining and individual fund financial statements and schedules and the statement of changes in fiduciary assets and liabilities are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and the other auditors. In our opinion, based on our audit, the procedures performed as described above and the report of the other auditors, the schedule of expenditures of federal awards, the Colorado Department of Education Auditor's Electronic Financial Data Integrity Check Figures, the combining and individual fund financial statements and schedules and the statement of changes in fiduciary assets and liabilities are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required By Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 4, 2017 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of School District 27J, counties of Adams, Weld and Broomfield, Colorado (the School District), we offer readers of the School District's Comprehensive Annual Financial Report this narrative overview and analysis of the financial activities of the School District for the fiscal year ended June 30, 2017. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal; which can be found on pages 5-10 of this report, and the School District's financial statements, which follow this section.

Financial Highlights

- Effective July 1, 2014, the District is required to apply the Governmental Accounting Standards Board (GASB) Statement No. 68 Accounting and Financial Reporting for Pensions (GASB 68). GASB 68 revises and establishes new financial reporting requirements for governments that provide their employees with pension benefits. The School District provides its employees with pension benefits through a multiple employer cost sharing defined benefit retirement program administered by the Public Employees' Retirement Association of Colorado (PERA).
- Due to the effect of GASB 68, the liabilities and deferred inflows of resources of the School District exceeded its assets and deferred outflows of resources at June 30, 2017, by \$160.9 million (net position).
- During the November 2015 election, the School District voters successfully passed an authorization for issuance of \$248 million of bonds. The bonds are funding building a new high school; Riverdale Ridge to open in fall of 2018, a new middle school (Rodger Quist) opening in fall of 2020 and two new elementary schools; Reunion Elementary opening in fall of 2017, the second elementary to open in fall of 2020. In addition, the School District will lengthen the life of existing educational facilities through repairs, maintenance and renovations.
- The net position of the School District governmental activities includes \$159.2 million net investment in capital assets; net position of \$18.6 million restricted for debt service payments, required emergency reserves; and an unrestricted net position balance of negative \$(438.8) million.
- At the close of the current fiscal year, the School District's governmental funds reported combined fund balances of \$140.1 million, a decrease of \$(75.4) million in comparison with the prior year. The decrease is due to a reduction in the restricted fund balance for capital projects associated with the expenditures of bond dollars from the Series 2015 issuance of \$160 million. The District will issue the remaining \$88 million of general obligation bonds in fiscal year 2018. Approximately 2.9% of this amount; \$4.1 million, is available for spending at the School District's discretion (unassigned fund balance).
- The School District's general fund balance increased by \$1.2 million due to higher than estimated local property taxes and specific ownership taxes.

Overview of the Financial Statements

The discussion and analysis provided are intended to serve as an introduction to the School District's basic financial statements. The School District's basic financial statements consist of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) the notes to the financial statements. This report also includes required supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-wide Financial Statements

The government-wide financial statements are designed to provide the reader of the School District's Comprehensive Annual Financial Report a broad overview of the School District's finances in a manner similar to a private sector business. The government-wide financial statements include the statement of net position and the statement of activities.

The statement of net position presents financial information on all of the School District's assets, deferred outflows or resources, liabilities and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the School District as a whole is improving or deteriorating. Evaluation of the overall health of the School District would extend to other non-financial factors

such as diversification of the taxpayer base or the condition of School District infrastructure, in addition to the financial information provided in this report.

The statement of activities presents information showing how the School District's net position changed during the current fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods. The purpose of the statement of activities is to show the financial reliance of the School District's activities or functions on revenues provided by the School District's taxpayers.

In the government-wide financial statements, the School District's activities include:

• *Governmental activities:* Most of the School District's basic services are included here, such as instruction and support services that are principally supported by property taxes and state funding.

The government-wide financial statements include not only financial data for the School District itself (known as the primary government), but also the legally separate Capital Facility Fee Foundation and five legally separate charter schools for which the School District is financially accountable. Financial information for these component units is presented separately from the financial information presented for the primary government itself.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School District uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Individual fund data for non-major funds is provided in the form of combining statements in a later section of this report. All of the funds of the School District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the governmental funds and the governmental activities report information using the same functions, it is useful to compare the information presented. Because the focus of each report differs, a reconciliation is provided on the fund financial statements to assist the reader in comparing the near-term requirements with the long-term needs.

The School District maintains ten individual governmental funds. The major funds are the general fund, the capital projects fund, the debt service fund, nutrition services fund and the government designated purpose grants fund. They are presented separately in the fund financial statements with the remaining governmental funds combined into a single aggregated presentation labeled other governmental funds. Individual fund information for the non-major funds is presented as supplementary information in this document.

The School District adopts an annual appropriated budget for each of the governmental funds. Budgetary comparison statements for the ten governmental funds are included in the supplementary information to demonstrate compliance with the amended budget.

Proprietary funds: Effective July 1, 2014 the School District maintains one type of proprietary fund, internal service funds. Internal service funds are used to accumulate and allocate costs internally among the governmental functions. The School District has two internal service funds, the risk management/dental insurance fund, which is used for the School District self-insured dental program and the print shop fund, which is used for the in-house printing services. The School District adopts an annual appropriated budget for each of the proprietary funds. Budgetary comparison statements for the two proprietary funds are included in the supplementary information to demonstrate compliance with the amended budget.

Fiduciary Funds: Fiduciary funds are used to account for resources held for the benefit of parties outside of the School District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the School District's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The School District has two fiduciary funds, the private purpose trust fund, which is primarily used for scholarship activity, and the pupil activities agency fund, which is for student clubs.

Notes to the Basic Financial Statements

The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the School District's budget presentations. Budgetary comparison statements are included as "required supplementary information" for the general fund and the government designated purpose grant fund. Budgetary comparison schedules for all other governmental funds can be found in a later section of this report. These statements and schedules demonstrate compliance with the School District's adopted budget.

As discussed, the School District reports major funds in the basic financial statements, combined and individual fund statements and schedules for non-major funds.

Government-wide Overall Financial Analysis

Government-wide Net Position

As noted earlier, net position may serve as a useful indicator of a government's financial position. Due to the effect of GASB 68, the liabilities of the School District exceeded its assets and deferred outflows of resources at June 30, 2017, by \$160.9 million.

The assets of the School District are classified as current assets, capital assets, net of depreciation and other non-current assets. Cash, investments, deposit with insurance pool, receivables, inventories and prepaid expenses are current assets. These assets are available to provide resources for the near-term operations of the School District. Cash and investments account for 89.1% of the current assets. Receivables are due in large part as a result of the property tax collection process. The School District receives close to 95% of the annual property tax assessment between March and June. The School District reports deferred outflows of resources related to the loss on refunding.

Current and noncurrent liabilities are classified based on anticipated liquidation either in the near-term or in the future. Current liabilities include accounts payable, accrued salaries and benefits, early retirement payable, compensated absences payable, estimates for claims and premiums, and current debt obligations. The liquidation of current liabilities is anticipated to be either from current available resources, current assets or new resources that become available during fiscal year 2017-2018. Noncurrent liabilities such as long-term debt obligations and compensated absences will be liquidated from resources that will become available after fiscal year 2017-2018.

The School District's net position includes a \$159.2 million investment in capital assets net of accumulated depreciation and any related outstanding debt that was used to acquire those assets. The School District uses these capital assets to provide educational services to its students. Although the School District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Net position of \$18.6 million, accumulated due to voter approved bonded debt mill levy assessments, have been restricted to provide resources to liquidate the current general obligation bond principal and related interest payments.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) June 30, 2017

Unrestricted net position is different than what would be reflected on a governmental fund accounting basis. This is due to GASB 68 along with the accounting treatment in the government-wide statements of accrued salaries and benefits earned but unpaid and compensated absences payable. The \$.92 million long-term portion of compensated absences is recorded as a liability on the government-wide statements, but not on the governmental fund statements because they are not payable with current funds. The GASB 68 net pension liability is reported in the same manner as compensated absences and is \$454 million.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) June 30, 2017

While the continued loss in funding due to the inclusion of the negative factor in the Colorado Public School Finance Act (SFA) has certainly had an impact on the School District, management has been able to limit expenses to minimize the impact on governmental activities over the long term. The (SFA) provides for the majority of the funding of local school districts based on a funded pupil count formula and a maximum property tax mill levy determined for each school district. Funding for the SFA comes from property taxes, specific ownership tax and state equalization. State equalization provided 53% of the School District's total governmental revenues, which is an increase of 1% over the prior fiscal year. Local taxes provided 32% of governmental revenue. The \$1.7 million decrease in local property taxes from the prior fiscal year is associated with an overall (2.5)% decrease in assessed valuation, primarily in Weld County. Adams County, the District's largest county stayed primarily flat with an increase of .51%. The School District levies 26.262 mills annually for the SFA. The \$3 million increase in equalization is due to a combination of an increase in per pupil funding in 2016-17 and a decrease in the District's assessed valuation. As components of Total Program Funding in the School Finance Act, they are directly affected by the increase or decrease of each other. The program revenue funds 16% of the total expenses, which means that the taxpayers through either state, local taxes, or other general revenues fund 84% of the governmental activities. For school districts, in general, self-generated revenue is a relatively small percentage of total revenues.

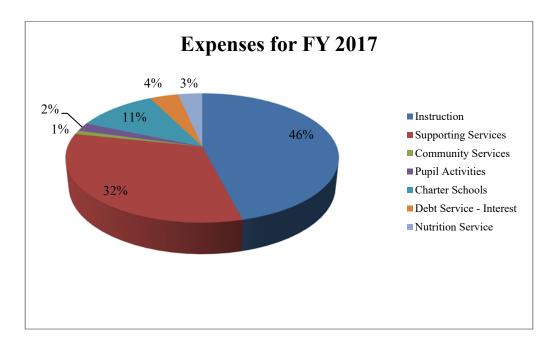

Year	Student Count	% Change
2006-2007	11,569	10.7%
2007-2008	12,068	4.3%
2008-2009	13,711	13.6%
2009-2010	14,469	5.5%
2010-2011	15,063	4.1%
2011-2012	15,649	3.9%
2012-2013	16,163	3.3%
2013-2014	16,698	3.3%
2014-2015	17,103	2.4%
2015-2016	17,042	-0.4%
2016-2017	17,115	0.4%

Government-wide expenses increased \$77.3 million from the prior year. The recording of the School District's share of the Public Employees' Retirement Association of Colorado (PERA) net pension liability in accordance with GASB 68 totals \$87.9 million of expense for the fiscal year 2017.

Direct governmental instructional expenses make up 46% of the total governmental expenses. This category includes direct instruction to students. Support services, which includes, but is not limited to, operations and maintenance, transportation, pupil services, and other general support services is 32% of the total governmental expenses. Charter schools' governmental expenses constitute 11% of the total governmental expenses in fiscal year 2017. The remaining 11% of the total governmental expenses include community services, pupil activities, and debt service interest payments.

Financial Analysis of Governmental Funds

As noted earlier, the School District uses fund accounting to ensure and demonstrate compliance with finance-related laws and regulations.

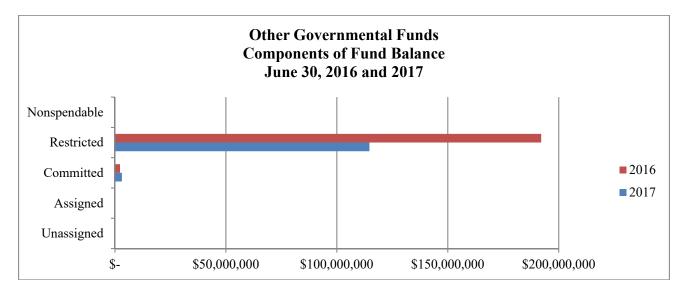

Governmental Funds

The focus of the School District's governmental funds is to provide information on near-term inflows, outflow, and balances of spendable resources. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by either an external party, the School District, or a group or individual that has been delegated authority to assign resources for use for a particular purposes School District's Board of Education.

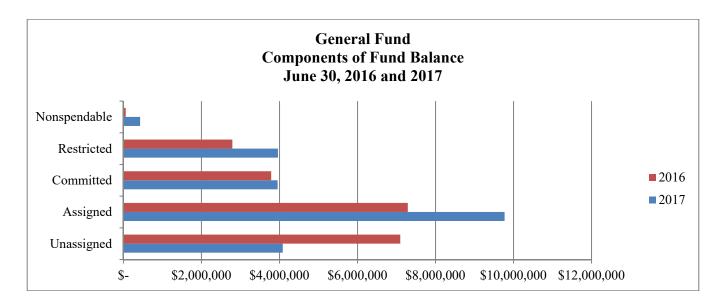

At June 30, 2017 the School District's governmental funds reported combined fund balances of \$140.1 million. This is a decrease of \$(75.4) million over fiscal year 2016. The decrease is due to a reduction in the restricted fund balance for capital projects associated with the expenditures of bonds dollars from the Series 2015 issuance of \$160 million. The District will issue the remaining \$88 million of general obligation bonds in fiscal year 2018.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) June 30, 2017

Of this year-end total, \$4.1 million is unassigned, indicating availability for continuing School District service requirements. Legally restricted fund balances include \$18.6 million for debt service, \$92.8 million for capital projects, \$3.1 million restricted pursuant to the TABOR Amendment and \$1.06 million for government-designated purpose grants. Article X 20(5) of the Colorado State Constitution (TABOR Amendment), requires that an amount equal to 3% or more of its fiscal year spending excluding debt service be set aside. Committed fund balances include \$3.16 million for special revenue funds, \$3.1 million for Board contingencies, \$.96 million for capital reserve projects, \$.2 million for risk management insurance and \$.6 million for contracted services.

The General Fund is the School District's primary operating fund and the largest source of day-to-day service delivery. At the end of the current fiscal year, unassigned fund balance in the general fund was \$4.1 million, while total fund balance increased \$1.2 million to \$22.1 million. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total general fund expenditures. Unassigned fund balance represents approximately 4.2% of total general fund expenditures net of intergovernmental – charter schools, while total fund balance represents approximately 23.6% of that same amount.

Proprietary Funds

The School District's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. In fiscal year 2017 the School District accounted for the School District's self-insured dental plan and print shop as part of the proprietary funds.

The unrestricted net position for the School District's self-insured dental plan and print shop it was \$0.53 million, with the School District's self-insured dental plan accounting for 100 percent of the total.

General Fund Budgetary Highlights

Revenue - Actual revenues were \$3.9 million more than the final approved budget. This is primarily due to higher than estimated local property and specific ownership tax revenue.

General Fund Revenue	Budget		Actual	Difference		
Taxes	\$ 29,393,723	\$	31,805,644	\$	2,411,921	
Intergovernmental Revenue	92,166,555		93,391,543		1,224,988	
Pupil Activities	(300)		300		600	
Charges for Services	616,500		683,852		67,352	
Investment Earnings	24,385		85,547		61,162	
Miscellaneous	417,856		515,717		97,861	
Total	\$ 122,618,719	\$	126,482,603	\$	3,863,884	

Expenditures – General fund expenditures were \$8.6 million less than budgeted. The District passed the \$248 million bond in the 2015 election. The fiscal year 2017 budget includes reserves to account and prepare for the new school openings, specifically Reunion Elementary school in fiscal year 2018. In addition, the District negotiated an increase to compensation of 3.7% which was budgeted in fiscal year 2017 to go into effect in fiscal year 2018, since this is a recurring cost to the District.

Capital Assets and Debt Administration

Capital assets

The School District's investment in capital assets, net of accumulated depreciation, for governmental activities as of June 30, 2017, was \$283.3 million. The overall increase in this net investment was \$69.3 million. Construction in progress, related to the bond program, was the primary source of the increase for fiscal year ended June 30, 2017. See Note 2-D for additional information about changes in capital assets during the fiscal year and outstanding at the end of the year. The following table provides a summary of capital asset activity:

Capital Assets As of June 30, 2017									
		Governmental Activities Total							
		2017		2016	2017			2016	
Non-depreciable assets:									
Land	\$	13,131,691	3	\$ 9,318,212	\$	13,131,691	\$	9,318,212

Book Value - all assets	\$	283,317,552		\$ 214,045,687	\$	283,317,552	\$	214,045,687	

Long-term debt

At the end of the fiscal year, the School District had outstanding general obligation bonds of \$268.4 million. The decrease as compared to last fiscal year is due to the principal and interest payments on the \$160 million, Series 2015 bonds issued December 15, 2015. The District will issue the remaining \$88 million of general obligation bonds in fiscal year 2018. This debt is backed by the full faith and credit of the School District (general obligation bonds) with debt service fully funded by voter-approved property taxes.

The School District refunded the Series 2006A, 2006C and the 2008 general obligation bonds in November of fiscal year 2017. This resulted in an approximate present value savings of \$6.5 million. The School District has incurred liabilities for early retirement obligations and compensated absences earned by employees. The following chart provides summary information on the School District's long-term debt:

Long Term Debt											
As of June 30, 2017

Total	\$	2,857,721	\$ 2,890,474	- -	\$ 2,857,721	\$	2,890,474	-1.1%			

The School District maintains an "A+" rating from Standard & Poor's and an "Aa3" from Moody's Investors Service for general obligation debt.

Additional information on the School District's long-term debt can be found in Note 2-G of this report.

Economic Factors and Budget Highlights

The School District is highly dependent upon the State of Colorado for operating revenue. Amendment 10 of the Colorado Constitution, TABOR, restricts the School District's ability to raise property taxes without a vote of the electorate. The School District has seen lower than expected funding from the state for seven consecutive years, beginning with the 2009 -2010 fiscal year.

The State economy heading into the 2017-2018 fiscal year reflects a stable outlook for revenue. The effect of the School Finance Act for the School District is anticipated to increase Net Total Program Funding from \$139 million in the 2016-2017 fiscal year to an estimated \$142.8 million in the 2017-2018 fiscal year, an increase of \$3.2 million. Per pupil funding for the School District for the 2017-2018 fiscal year is projected to be \$7,389, which is an increase of \$234 per pupil over the prior fiscal year.

For the 2017-2018 fiscal year, the School Finance Act provides no change to the School District's negative factor in the School Finance formula which remains at \$16.0 million in fiscal year 2017-2018.

The Board of Education established a course of action for 2017-2018 fiscal year planning and budgeting. The direction from the Board is "Financial planning for any fiscal year or the remaining part of any fiscal year will not deviate materially from the Board's Goals priorities, risk financial jeopardy, or fail to be derived from a multi-year plan." The Board's Global Goals are:

- The graduation/completer rate will increase by 2% per year until 95% is attained at which it will not drop lower.
- The School District's average composite ACT score will increase by .5 points per year until the score reaches 22 at which it will not drop lower.
- Students with continuous enrollment during an academic year will achieve at least one year's academic growth grades 1-10 in reading, writing, math and science. The core content areas of social studies and world language will have this same academic growth expectations beginning one year after the state's assessment for these areas have been developed.

The key principles of the budget development process are:

- Maximize resources in direct and indirect instruction of students
- Increase parent involvement and communications
- Focus on enrollment growth and seat capacity where needed
- Maintain fiscal stability by keeping expenditures (of which employee compensation is the largest component) in-line with revenue expectations
- Continued support of current technology in schools
- Investment in asset protection and maintenance of facilities
- Maintenance of strategic long range financial plan

Contacting the School District's Financial Management

The intent of this financial report is to provide a general overview of the School District's finances, comply with finance-related laws and regulations, and demonstrate the School District's commitment to public accountability. If there are questions about this report or you would like to request additional information, contact the School District's Finance Office at the Educational Services Center located at 18551 E. 160th Avenue in Brighton, CO 80601. You can also visit the School District's website at www.sd27j.org for additional information about its schools, departments, and finances.

Counties of Adams, Weld and Broomfield School District 27J, Colorado (the School District) is a school district located northeast of Denver, Colorado. The School District provides Preschool through 12th Grade Public Education.

Note 1 - Summary of Significant Accounting Policies

The financial statements of the School District have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) in the United States of America as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for government accounting and financial reporting. The most significant of the School District's accounting policies are described below.

1-A. Reporting Entity

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the School District. For the School District, this reporting entity includes the legal entity, School District 27J, Colorado and six discretely presented component units.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organizations; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units also may include organizations that are fiscally dependent on the School District in that the School District approves the budget, levies their taxes or issues their debt. Finally, the School District may include separate legal entities that do not meet the above criterion; however, the School District would consider the financial statements to be misleading if omitted.

The component unit columns included on the government-wide financial statements identifies the financial data of the School District's discretely presented component units. They are reported separately to emphasize that they are legally separate from the School District.

Significant transactions between the School District and its component unit Charter Schools consist of monthly payments to each Charter School for their share of mill levy override and state equalization money and charges from the School District to each Charter School for contracted purchased services. Brief descriptions of the discretely presented component units follow:

The Bromley East Charter School was established by contract with the School District during fiscal year 2000. The School is a legally separate entity. The contract between the Bromley East Charter School and the School District was executed on April 26, 2000, for the purpose of establishing and clarifying the relationship between the Bromley East Charter School and the School District. The Bromley East Charter School is deemed to be a component unit of the School District because the organization is dependent upon the School District for the majority of its funding and the School District approves the charter and excluding the Bromley East Charter School would result in misleading financial reporting. Financial activity of the Bromley East Charter School District's financial statements for the year ended June 30, 2017.

The Belle Creek Charter School was established by contract with the School District during fiscal year 2002. The School is a legally separate entity. The contract between the Belle Creek Charter School and the School District was executed on June 25, 2002, for the purpose of establishing and clarifying the relationship between the Belle Creek Charter School and the School District. The Belle Creek Charter School is deemed to be a component unit of the School District because the organization is dependent upon the School District for the majority of its funding and the School District approves the charter and excluding the Belle Creek Charter School would result in misleading financial reporting. Financial activity of the Belle Creek Charter School District's financial statements for the year ended June 30, 2017.

The Landmark Academy Charter School was established by contract with the School District during fiscal year 2008. The School is a legally separate entity. The contract between the Landmark Academy Charter School and the School District was executed on January 23, 2007 for the purpose of establishing and clarifying the relationship between the Landmark Academy Charter School and the School District, but the school did not open until fiscal year 2008. Landmark Academy Charter School has entered into a management agreement with National Heritage Academies, Inc. (NHA) which requires NHA to provide administration, strategic planning and all labor, materials, equipment and supervision necessary for the provision of educational services to students. As part of the consideration received under the agreement, NHA also provides the facility in which the Landmark Academy Charter School operates. Under the terms of the agreement, NHA receives as remuneration for its services an amount equal to the total revenue received by the Landmark Academy Charter School from all revenue sources. The Landmark Academy Charter School District for the majority of its funding and the School District approves the charter and excluding the Landmark Academy Charter School would result in misleading financial reporting. Financial activity of the Landmark Academy Charter School is included within the School District's financial statements for the year ended June 30, 2017.

The Foundations Academy Charter School was established by contract with the School District during fiscal year 2011. The Foundations Academy Charter School is a legally separate entity. The contract between the Foundations Academy Charter School and the School District was executed on October 19, 2008, for the purpose of establishing and clarifying the relationship between the Foundations Academy Charter School and the School District, but the school did not open until fiscal year 2011. Foundations Academy Charter School has entered into a management agreement with National Heritage Academies, Inc. (NHA) which requires NHA to provide administration, strategic planning and all labor, materials, equipment and supervision necessary for the provision of educational services to students. As part of the consideration received under the agreement, NHA also provides the facility in which the Foundations Academy Charter School operates. Under the terms of the agreement, NHA receives as remuneration for its services an amount equal to the total revenue received by the Foundations Academy Charter School District because the organization is dependent upon the School District for the majority of its funding and the School District approves the charter and excluding the Foundations Academy Charter School would result in misleading financial reporting. Financial activity of the Foundations Academy Charter School is included within the School District's financial statements for the year ended June 30, 2017.

The Eagle Ridge Academy Charter School was established by contract with the School District and is a legally separate entity. A contract between the Eagle Ridge Academy Charter School and the School District was executed in July 2010 for the purpose of establishing and clarifying the relationship between this Eagle Ridge Academy Charter School and the School District. The Eagle Ridge Academy Charter School is deemed to be a component unit of the School District because the organization is dependent upon the School District for the majority of its funding and the School District approves the charter and excluding Eagle Ridge Academy Charter School would result in misleading financial reporting. Financial activity of the Eagle Ridge Academy Charter School is included within the School District's financial statements for the year ended June 30, 2017.

The School District 27J Capital Facility Fee Foundation (Foundation) was established during fiscal year 2001 in response to rapid growth with the onset of the development of the Denver International Airport. The School District wanted to be proactive about the growth rather than reactive and began discussion in the late 1990's with the primary municipalities within the School District. This included Brighton, Commerce City and Thornton as well as a group of developers with projects within the School District. At the time, the primarily rural School District would not have had the financial capacity to raise enough capital through the sale of voter-approved bonds to meet the needs for new schools in a timely manner.

A small group of builders and developers and School District representatives formed a working group to find solutions to address the shortfall needs. A program of voluntary financial contributions was implemented. The Foundation is a 501(c)(3) organization whose purpose is to promote and assist in the development, financing, and acquisition of educational facilities and capital improvements in the School District. The Foundation consists of a nine-member board of directors and includes three representatives of contributing builders or developers, three School District representatives, and one city council representative of each city. Voluntary contributions are accepted by the Foundation and kept in foundation-managed accounts. The Board of Education makes requests for the release of Foundation funds for school construction purposes as needed. The Foundation Board determines if the request meets the requirements for disbursement of the funds.

The Capital Facility Fee Foundation is deemed to be a component unit of the School District because the Foundation may only distribute funds to the School District and only at the request of the School District. Because of this restricted use of Foundation Funds, The Foundation is a discretely presented component unit. Complete financial statements for each of the individual component units may be obtained at each entity's administrative offices.

Related Organization - The Brighton Education Foundation provides opportunities for individuals and/or groups beyond what the School District can offer. Their mission is to preserve, support and improve the educational opportunities within the community by developing a community partnership among schools, businesses and individuals. Through this partnership, this Foundation encourages a wide variety of educational experiences through grants awarded to individuals and organizations. The Foundation is governed by a twelve-member board consisting of community members and education members. The School District Board does not appoint members of the Brighton Education Foundation, nor is this Foundation fiscally dependent on the School District and therefore, this Foundation is not considered a component unit and is not included in the School District's financial statements.

1-B. Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a Statement of Net Position and a Statement of Activities and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements - The government-wide financial statements include the Statement of Net Position and the Statement of Activities. These statements report financial information for the School District as a whole. The primary government and the component units are presented separately within these financial statements with the focus on the primary government. Individual funds are not displayed but the statements distinguish governmental activities, generally supported by grants and governmental general revenues, from business-type activities, generally financed in whole or in part with fees charged to external customers. Fiduciary funds and fiduciary-type component units are excluded from the government-wide financial statements because the School District holds these assets in a purely custodial capacity and cannot use these resources for School District programs.

The Statement of Net Position presents the financial position of the governmental and business-type activities of the School District's discretely presented component units at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each function of the School District activities and for each identifiable activity of the business-type activities of the School District. Direct expenses are those that are specifically associated with a function and therefore clearly identifiable to that particular function. The School District does not allocate indirect expenses to functions in the Statement of Activities.

The Statement of Activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees and other charges to users of the School District's services; (2) operating grants and contributions which finance annual operating activities including restricted investment earnings; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. When identifying which function program revenue pertains to, the determining factor for charges for services is which function generates the revenue. For grants and contributions, the

determining factor is for which function the revenues are restricted. Other revenue sources not properly included with program revenues are reported as general revenues of the School District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function and each identifiable business activity is self-financing or draws from the general revenues of the School District.

Fund Financial Statements - During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. Fund financial statements are provided for governmental and proprietary funds.

Major individual governmental funds are reported in separate columns.

Fund Accounting - The School District uses funds to maintain its financial records during the year. A fund is a fiscal and accounting entity with a self-balancing set of accounts. The School District uses three categories of funds: governmental, proprietary and fiduciary.

Governmental Funds - School District funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Fund liabilities are assigned to the fund from which they will be liquidated. The School District reports the difference between governmental fund assets, liabilities, and deferred inflows of resources as fund balance. The following are the School District's major governmental funds:

General Fund - The general fund accounts for all financial resources except those required to be accounted for in another fund.

Capital Projects Fund - This fund accounts for bond proceeds and other revenues used for the construction and acquisition of major capital facilities other than those related to the food service fund.

Governmental Designated-Purpose Grants Fund - This fund accounts for grants received for designated programs funded by federal, state or local governments.

Debt Service Fund - This fund accounts for the accumulated resources (normally property taxes) used to retire principal and interest on general long-term debt.

Nutrition Services Fund – This fund accounts for financial resources related to food service operations. The School District receives USDA school breakfast/lunch money in this fund.

The School District also has five non-major governmental funds that account for financial resources specific to each funds purpose.

Additionally, the School District reports the following fund types:

Proprietary Funds - Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. The School District's proprietary funds are classified as an internal service fund.

Internal Service Funds - The internal service funds account for the School District's self-insured dental plan and the School District's print shop.

Fiduciary Funds - The School District's fiduciary funds account for assets held in a trustee capacity or as an agent for individuals or private organizations. The key distinction between trust funds and agency funds is that the trust funds normally are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held. An agency fund does not involve a formal trust agreement and the government's role

is purely custodial. The School District's fiduciary funds are classified as a private purpose trust fund and an agency fund.

Fiduciary (Private Purpose Trust) - The School District's fiduciary fund provides scholarships to students.

Agency Fund – The pupil activity agency fund records financial transactions related to school-sponsored pupil organizations and activities.

1-C. Measurement Focus

Government-wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows/inflows of resources and liabilities associated with the operation of the School District are included on the Statement of Net Position. The Statement of Activities reports revenues and expenses.

As a general rule, the effect of interfund activity has been eliminated from the government-wide statements. Exceptions to this general rule are charges between the School District's governmental and business-type activities and component units. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Fund Financial Statements - The governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the Balance Sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances reports the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus on both financial reporting levels. All assets and all liabilities associated with the operation of these funds are included on the Statements of Net Position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities. The School District's fiduciary funds are accounted for on an economic resources measurement focus.

1-D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. At the fund reporting level, governmental funds use the modified accrual basis of accounting. Proprietary funds use the accrual basis of accounting at both reporting levels. The fiduciary funds use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows and outflows of resources, and in the presentation of expenses versus expenditures.

Revenues – **Exchange Transactions** - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded when the exchange takes place and in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, the phrase "available for exchange transactions" means expected to be received within sixty days of year-end.

Revenues – Non-exchange Transactions - Non-exchange transactions in which the School District receives value without directly giving equal value in return, include grants, taxes and donations. Revenue from property taxes and specific ownership taxes is recognized in the fiscal year for which the taxes are levied (Note 2-C). Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include: timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements,

in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions also must be available (i.e., collected by the School District within 60 days except for specific ownership taxes which use a 30-day available period, and grant revenues which use a 180 day available period) before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be susceptible to accrual: property taxes, specific ownership taxes, interest and federal and state grants.

Unearned Revenue - Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

On governmental fund financial statements (i.e., on the modified accrual basis), receivables that will not be collected within the available period have been reported as deferred inflows of resources (i.e., they are measurable but not available) rather than as revenue.

Grants and entitlements received before the eligibility requirements are met (e.g., cash advances) also are recorded as unearned revenue at both reporting levels.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. On the modified accrual basis, expenditures generally are recognized in the accounting period in which the related fund liability is incurred and due, if measurable.

1-E. Assets, Deferred Outflows, Liabilities, Deferred Inflows of Resources and Fund Balance/Net Position

1-E-1. Cash, Cash Equivalents, and Investments

The School District utilizes the pooled cash concept whereby cash balances of each of the School District's funds are pooled and invested by the School District in short-term certificates of deposit, repurchase agreements, money market deposit accounts, government pools, and U.S. Treasury obligations.

For the purposes of the Statement of Cash Flows, Cash and Cash Equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the School District to be cash equivalents. Investments are stated at fair value based on quoted market prices.

Generally, the School District invests in governmental securities, local government investment pools, and collateralized certificates of deposits in Colorado banks and repurchase agreements. Investments are either measured at net asset value, which approximates fair value, or at fair value in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*.

1-E-2. Receivables

All trade and property tax receivables are reported net of an allowance for uncollectibles, where applicable.

1-E-3. Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/ interfund payables". Any residual balances outstanding between the governmental and business-type activities are reported in the government-wide financial statements as "internal balances".

1-E-4. Consumable Inventories

On the government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used (i.e., the consumption method).

On the fund financial statements all inventories are stated at cost. For all fund level reporting, cost is determined on a first-in, first-out basis. Inventories of the proprietary funds are expensed when consumed. Donated surplus commodities received are valued based upon the cost furnished by the Federal Government.

1-E-5. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2017, are recorded as prepaid items using the consumption method by recording an asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed. At the fund reporting level, an equal amount of fund balance is non-spendable in the governmental fund types as this amount is not available for general appropriation.

1-E-6. Capital Assets

Capital assets from governmental activities are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in governmental funds. The School District reports these assets in the governmental activities column of the government-wide statement of net position but does not report these assets in the governmental fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition value as of the date received. The School District maintains a capitalization threshold of five thousand dollars. Improvements to capital assets are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed. Interest incurred during the construction of capital assets utilized by the enterprise fund is capitalized, if applicable. All reported capital assets are depreciated except for land, water rights and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. The adjustment for removal of salvage value is shown in the Capital Assets Note 2-D. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental	Business-Type	Component
	Activities	Activities	Units
	Estimated Lives	Estimated Lives	Estimated Lives
Buildings	25-50 years		50 Years
Equipment	5-20 years	5-15 years	5-20 years

At the inception of capital leases at the governmental fund reporting level, expenditures and an "other financing source" of an equal amount are reported at the net present value of future minimum lease payments.

1-E-7. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position and fund level balance sheet will sometimes report a separate section for deferred outflows of resources. This section represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expenditure) until then. Deferred charge on refunding is reported in the government-wide statement of net position as a deferred outflow of resources. A deferred charge on refunding results from the difference in the carrying value of refunded debt and reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. In addition to liabilities, the statement of net position and fund level balance sheet will sometimes report a separate section for deferred inflows of resources. This section represents acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

Deferred outflows of resources and deferred inflows of resources as related to pensions can result from the net difference between expected and actual experience, projected and actual earnings on pension plan investments, changes in the District's proportionate of the net pension liability, changes of assumptions, as well as contributions made by the District to PERA after PERA's measurement date. Generally, deferred inflows are not aggregated with deferred outflows.

1-E-8. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Temporary leave (sick leave, personal and bereavement) benefits are accrued as a liability using the termination payment method. An accrual for earned temporary leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the School District's past experience of making termination payments.

In fiscal year 2014, the District offered Early Separation Plans and Long Term Service Benefits to its employees. Only those employees who have completed fifteen or more years of service in the District as of July 1, 2009 are eligible after completing twenty years of service. These plans ended on June 30, 2014. Classified employees may receive 90% of their current year's salary at either July 31st or January 31st of the year following their retirement. Eligible certified employees who voluntarily resign or retire shall receive a payout that equals the difference between the certified employee's actual salary for the 2008-2009 school years and the \$45,129 average salary of full-time teachers hired by the District during that school year. Administrators may receive the average paid out to certified employees during the year of their retirement. One employee received their early separation plan/long term service payment at a total cost of \$21,972 in fiscal year 2017. As of June 30, 2017, there were fourteen certified employees who were eligible for future payments at a total remaining cost of \$565.375.

All compensated absence liabilities include salary-related payments, where applicable.

The total compensated absence liability is reported on the government-wide financial statements. Proprietary funds report the total compensated liability in each individual fund at the fund reporting level. Governmental funds report the compensated absence liability at the fund reporting level only *"when due"*.

1-E-9. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of these funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are "due for payment" during the current year. Bonds are recognized as a liability in the governmental fund financial statements when due.

1-E-10. Bond Premiums, Discounts and Issuance Costs

On the government-wide statement of net position and the proprietary fund type statement of net position, bond premiums and discounts are netted against bonds payable and bond issuance costs are reported as an expense in the year they are charged. On the government-wide and proprietary fund type statement of activities, gains/losses on refunding are recognized as deferred inflows/outflows and amortized over the life of the bonds using the effective interest method. Bond premiums and discounts are recognized as liabilities.

At the governmental fund reporting level, bond premiums and discounts are reported as other financing sources and uses, separately from the face amount of the bonds issued. Bond issuance costs are reported as an "expenditure".

1-E-11. Fund Balance/Net Position

Fund equity at the governmental fund financial reporting level is classified as "fund balance". Fund equity for all other reporting is classified as "net position".

Fund Balance – Generally, fund balance represents the difference between the current assets and current liabilities. The School District restricts those portions of fund balance which are legally segregated for a specific future use or which do not represent available, spendable resources and therefore are not available for appropriation or expenditure. Unassigned fund balance indicates that portion of fund balance that is available for appropriation in future periods.

Assignments are management's intent to set aside these resources for specific services. For fiscal year ending 2016, the School District follows GASB 54, *Fund Balance Reporting and Government Fund Type Definition*, and record fund balances in the following classifications depicting the relative strength of the spending constraints placed on the purposed for which resources can be used:

Non-spendable fund balance – amounts that are not in a spendable form (such as inventory or prepaid items) or are required to be maintained intact (such as the corpus of an endowment fund).

Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders and higher levels of government), through constitutional provisions, or by enabling legislation.

Committed fund balance – amounts that can be used only for specific purposes determined by a formal action of the Board of Education, the highest level of decision-making authority for the District. Commitments may be established, modified or rescinded only through resolutions approved by the Board of Education.

Assigned fund balance – amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the Board of Education's adopted policy, only the Superintendent or his/her designee may assign amounts for specific purposes.

Unassigned fund balance – amounts that are available for any purpose; these amounts are reported only in the general fund.

The School District adopted fund balance policy (Superintendent Policy DA-R(1)) in fiscal year 2011. The governing body's process for assigning fund balance is determined by the Chief Financial Officer.

The District's order of fund balance spending policy is to apply expenditures against restricted fund balance, committed fund balance, assigned fund balance. The District reserves the right to selectively spend unassigned fund balance.

Net Position - Net position represent the difference between assets and liabilities. The net investment in capital assets consists of capital assets, net of accumulated depreciation and related debt. Net position are reported as restricted when there are limitations imposed on their use either through an election of the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. All other net positions are reported as unrestricted.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

1-E-12. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. Proprietary funds distinguish operating revenues and expenses from non-operating items. For the School District, these operating revenues are sales of meals in the food service program. Operating expenses are necessary costs incurred to provide the sale of meals, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenue and expense.

1-E-13. Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets or from grants or outside contributions of resources restricted to capital acquisition and construction.

1-E-14. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after the non-operating revenues/expenses section in proprietary funds. The effect of interfund activity has been eliminated from the government-wide financial statements. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Transfers between governmental and business-type activities on the government-wide statement of activities are reported as general revenues. Transfers between funds reported in the governmental activities column are eliminated.

Since the internal service fund revenues are employee payments for dental insurance, they are not eliminated (i.e., they do not relate to other funds, rather they relate to third parties).

1-E-15. Estimates

The preparation of the financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

1-E-16. Budgets

A budget was adopted for all government funds, proprietary funds, internal funds and fiduciary funds for fiscal year 2016, on a basis consistent with Generally Accepted Accounting Principles.

A proposed budget is submitted to the Board of Directors for the fiscal year commencing the following July 1. The budget is adopted by the board prior to June 30.

Expenditures may not legally exceed appropriations at the fund level. Revisions must be approved by the Board. The budget includes proposed expenditures and the means of financing them.

Note 2 – Detailed Notes on All Funds

2-A. Cash and Investments

At June 30, 2017, the School District had the following cash and investments:

	District		Component Units		
Cash on Hand	\$	159,188	\$	404,771	
Deposits		2,121,926		3,188,156	
Investments		156,994,049		8,969,785	
Total	\$	159,275,163	\$	12,562,712	
Governmental Activities	\$	48,354,690	\$	6,765,477	
Restricted Cash and Investments		110,605,502		5,713,516	
Subtotal	\$	158,960,192	\$	12,478,993	
Fiduciary Activities		314,971		83,719	
Total	\$	159,275,163	\$	12,562,712	

Restricted Cash and Investments – As of June 30, 2017, the School District has restricted cash and investments of \$110,605,502 recorded in the School District's capital projects fund for that purpose.

Cash Held in Trust – As of June 30, 2017, the School District has \$154,828 held in trust. Adams County and Weld County collected property taxes for the School District and holds the funds in trust until sent to the School District on a monthly basis. Cash held in trust is grouped in deposits in the Cash and Investments Note 2-A.

Deposits – The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. At June 30, 2017, the State regulatory commissioners had indicated that all financial institutions holding deposits for the School District are eligible public depositories. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. PDPA allows the financial institution to create a single collateral pool for all public funds held. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The fair value of the collateral must be at least equal to 102 percent of the uninsured deposits. As of June 30, 2017, the School District's name.

At June 30, 2017, Component Unit Eagle Ridge Academy Charter School had deposits with financial institutions with a carrying amount of \$1,153,059. The bank balances with the financial institutions were \$1,232,646, all of which was covered by federal depository insurance or collateralized under PDPA. At June 30, 2017, Bromley East Charter School had bank deposits of \$500,928 collateralized with securities held by the financial institution's agent but not in the School's name. At June 30, 2017, Belle Creek Charter School had bank deposits of \$612,630 collateralized with securities held by the financial institution's agent but not in the School's name.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure the School District's deposits may not be returned to it. The School District and the discretely presented component units do not have a deposit policy for custodial credit risk. At June 30, 2017 the School District had no deposits exposed to custodial credit risk.

Investments – Colorado statutes specify investment instruments meeting defined rating maturity and concentration risk criteria. The School District has adopted an investment policy which is more restrictive and limits investments to the following:

- Obligations of the United States Treasury
- Agencies and Instrumentalities of the federal government
- Bank deposits collateralized according to PDPA
- AA or AAA rated corporate bonds
- A-1 or P-1 rated commercial paper or negotiable certificates of deposit
- A, AA or AAA rated municipal bonds
- Money market mutual funds
- Local government investment pools ("LGIP")

The District and its component units have investments either at net asset value (NAV), which approximates fair value, including certain external investment pools, money market funds and certificates of deposit, amortized cost, in accordance with GASB Statement No. 72, Fair Value Measurement and Application. This includes certain external investment pools, or others, including treasury securities, measured at fair value.

The District's ColoTrust external investment pool of \$35,571,213 at June 30, 2017 is valued using the NAV per share (or its equivalent) of the investments. The District's Wells Fargo Money Market Mutual Fund of \$18,349,938 at June 30, 2017 is valued using the NAV per share (or its equivalent) of the investments. The component units' external investment pools of \$6,639,318 at June 30, 2017, are valued using the NAV per share (or its equivalent) and amortized cost of the investments. The investments do not have any unfunded commitments, redemption restrictions or redemption notice periods. The component units' have \$1,150,276 of U.S. Agency Securities valued at a Level 2. The investments conform to C.R.S. Section 24-75-601 and therefore invest primarily in securities of the United States Treasury, United States Agencies, Primary Dealer Repurchase Agreements, highly rated commercial paper, highly rated corporate bonds, Colorado depositories collateralized at 102% of market value according to the guidelines of the PDPA. The investments will conform to its permitted investments and will meet Standard & Poor's investment guidelines to achieve an AAAm rating, the highest attainable rating for a Local Government Investment Pool.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

	Fair Va			ir Value Mea	surem	ents Using		
Investments by Fair Value Level	Jı	une 30, 2017		Level 1]	Level 2	Le	vel 3
Wells Fargo Money Market Mutual Fund	\$	18,349,938	\$	18,349,938				
U.S. Treasury Obligations		7,111,060		7,111,060		-		-
Total Investments by Fair Value Level	\$	25,460,998	\$	25,460,998	\$	-	\$	-
Investments at Net Asset Value (NAV)	Jı	une 30, 2017						
ColoTrust Investment Pool	\$	35,571,213						
Total Investments held at Net Asset Value (NAV)	\$	35,571,213						
Investments at Amortized Cost	Jı	une 30, 2017						
CSAFE Investment Pool	\$	1,272,202						
CSIP Investment Pool		94,689,636						
Total Investments held at Amortized Cost	\$	95,961,838						
Total Investments	\$	156,994,049						

As of June 30, 2017, the School District had the following fair value investments, excluding agency. Deposits and investments are internally pooled to maximize investment safety, liquidity and interest yield:

				Maturity			
Type of Security	Fair Value	Concentration	S&P Rating	12 Months or Less	12 - 24 Months	24 - 36 Months	36 - 60 M onths
ColoTrust (external investment pool)	\$ 35,571,213	22.66%	AAAm	\$ 35,571,213	\$ -	\$ -	\$ -
CSAFE (external investment pool)	1,272,202	0.81%	AAAm	1,272,202	-	-	-
CSIP (external investment pool)	94,689,636	60.31%	AAAm	94,689,636	-	-	-
UMB Construction Escrow	7,111,060	4.53%	AAAm	7,111,060	-	-	-
Wells Fargo Advantage							
Government Money Market Fund	18,349,938	11.69%	AAAm	18,349,938	-	-	-
	\$ 156,994,049	100.00%		\$ 156,994,049	\$ -	\$ -	\$ -

At June 30, 2017, the School District's discretely presented component units' investments are as follows:

Eagle Ridge Academy CSAFE	\$ 1,371,203
Bromley East Charter School	
Colotrust and CSAFE	\$ 3,096,502
U.S. Agency Securities	1,150,276
Money Market Fund	15,968
Total	\$ 4,262,746
Belle Creek Charter School	
CSAFE	\$ 2,120,692
Colotrust	 50,921
Total	\$ 2,171,613
Total Charter Schools	\$ 7,805,562

Local Government Investment Pool - The School District has invested in the Colorado Government Liquid Asset Trust (COLOTRUST), Colorado Surplus Asset Fund Trust (CSAFE) and Colorado Statewide Investment Program (CSIP). At June 30, 2017, the School District had \$35,571,213 invested in COLOTRUST, \$1,272,202 invested in CSAFE and \$94,689,636 in CSIP. These are investment trusts established for local government entities in Colorado to pool surplus funds and are registered with the State Securities Commissioner. These pools operate similarly to a money market fund and each share is equal in value to \$1. Investments of the pool consist of U.S. Treasury bills, notes and note strips, and repurchase agreements collateralized by pools in connection with the direct investment and withdrawal functions of the pools. Substantially all securities owned by the pool are held by the Federal Reserve Bank in the account maintained for the custodial banks. The custodian's internal records identify the investments owned by the School District. Due to their high liquidity, these funds are classified as cash equivalents for reporting purposes. The Trusts are rated AAAm by Standard and Poor's.

Interest Rate Risk – The School District and the component units do not have formal investment policies that limit investment maturities as a means of managing its exposure to fair value loss resulting from increasing interest rates. The Colorado Revised Statute 24-75-601 limits investment maturities to five years or less without governing board approval. Based on the current rate environment, the School District and the component units assume that investments will be held to maturity. As of June 30, 2017, no coupon and discount securities had investment maturities greater than five years. The weighted average maturity of the local government entity investment pools investments shall not exceed 60 days for COLOTRUST and CSAFE at June 30, 2017.

Credit Risk – State statute limit investments in U.S. Government Agency securities to the highest rating issued by Nationally Recognized Statistical Rating Organizations (NRSROs).

Concentration of Credit Risk – State statutes do not limit the amount the School District may invest in one issuer. The School District has adopted a policy which is more restrictive and limits investments to: not more than 25% of the School District's portfolio invested in the securities in any "one" government agency with the exception of United States Treasury securities; not more than 25% of the School District's portfolio invested in deposit accounts; money market mutual funds shall be diversified so that no fund shall hold more than 50% of the School District's portfolio; combined fund investments not to exceed 75% of the total portfolio and not exceeding 25% of the School District's total portfolio in repurchase agreements.

All of the Charter Schools and the Capital Facility Fee Foundation have adopted an investment policy that does not vary significantly from Colorado State Statutes.

Belle Creek Charter had \$50,921 and \$2,120,692, respectively, invested in ColoTrust and CSAFE at June 30, 2017. The investment pools were rated AAAm by Standard & Poor's. Cash and investments of \$764,157 are unspent debt proceeds and are restricted in the Education Center for future debt service. In addition, the Charter School has restricted cash and investments of \$88,018 for building repairs, as required by the building lease agreement.

Bromley East Charter had invested \$768,806 and \$2,327,696, respectively, invested in ColoTrust and CSAFE at June 30, 2017. The COLOTRUST pool is rated AAAm by Standard and Poor's and CSAFE is rated AAAm by Standard and Poor's. Cash in the amount of \$2,327,696 is restricted for debt service.

Eagle Ridge Academy had \$1,371,203 invested in CSAFE at June 30, 2017. The pool is rated AAAm by Standard and Poor's. Cash and investments of \$1,370,680 have been restricted by the Brighton Charter School Building Corporation for future debt service. The restricted cash and investments are reported in the financial statements.

Foundation Academy Charter School, Landmark Academy Charter School and Capital Facility Fee Foundation did not have investments in marketable securities or COLOTRUST and CSAFE investment pools at June 30, 2017.

2-B. Receivables

Receivables at June 30, 2017, consisted of taxes, interest, accounts (billings for user charges) and School District receivables arising from grants and Fiduciary activity.

Receivables and payables are recorded on the governmental financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables, collectability.

2-C. Property Taxes

The Board of Education levies property taxes. The levy is based on assessed valuations determined by the County Assessors' offices generally as of January 1st of each year. The levy is set by December 15th by certification to the County Commissioners to put the tax lien on the individual properties as of December of each year. The County Treasurers' offices collect the determined taxes during the ensuing calendar year. The taxes are payable by April 30th or, if in equal installments, at the taxpayer's election on February 28th and June 15th. Delinquent taxpayers are notified in August and tax sales of the liens on delinquent properties are held in November. The County Treasurers' offices remit the taxes collected to the School District on the 10th of each month and on March 25th, May 25 and June 25th.

2-D. Capital Assets – Capital asset activity for the year ended June 30, 2017, was as follows:

	Balance 07/01/2016	Additions	Deductions	Balance 6/30/2017

2-E. Interfund Receivables, Payables and Transfers

Interfund receivable and payable balances at June 30, 2017, consisted of the following amounts and represent charges for services or reimbursable expenses. These remaining balances resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting period, and (3) payments between funds are made. The School District expects to repay all interfund balances within one year.

Receivable Fund		Payable Fund	
Government Designated Purpose Grant Fund \$	36,365	Government Designated Purpose Grant Fund \$	-
Nonmajor Govermental Funds	2,283,624	Nonmajor Govermental Funds	-
General Fund	3,603,800	General Fund	-

Internal Service Fund	556,900	Internal Service Fund	-
Debt Service Fund	41,043	Debt Service Fund	-
Total \$	6,521,732	\$	6,521,732

Interfund transfers for the year ended June 30, 2017, consisted of the following:

	Nonm	ajor Funds	Internal Service		
	Pupil		Special		
	Activity	Transportation	Programs	Print Shop	
	Fund	Fund	Fund	Fund	Total
Transfers Out					
General Fund	\$ 500,188	\$ 3,668,769	\$ 205,496	\$ 74,063	\$ 4,448,515

Transfers are used to report revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; to segregate money for anticipated capital projects; to provide additional resources for current operations.

All School District transfers either occur on a regular basis or are consistent with the purpose of the fund making the transfer.

2-F. Compensated Absences

School District policy limits the accumulation of earned employee vacation to the equivalent of 2 years earned vacation. Also, the School District grants temporary (sick, personal & bereavement, etc.) leave to all classes of employees. Unused leave balances are paid at termination. Upon termination, all certified personnel are paid at a rate of \$70.74 per day for all accumulated temporary leave days. Classified personnel are paid at a rate of \$5.95 per hour for the first 75 days; after 75 days they are paid \$7.08 per hour. Employees with more than 75 days of accrued temporary leave have the option of being paid for the excess days each June. In addition, eligible employees may elect to contract with the School District for early retirement

upon terms and conditions specified by School District policy. Eligible employees may contract for early retirement benefits after twenty years of service to the School District.

2-G. Long-Term Debt

Periodically, the School District issues bonds to finance the construction of its various facilities.

Certificates of Participation Series 2015– Certificates of Participation, Series 2015, dated and issued January 5, 2016, were a direct purchase non-bank qualified tax exempt obligation of \$2,290,000. The Certificates of Participation were refunded and deposited into a refunding escrow account for the purpose of defeasing the outstanding Services 2005 Certificates of Participation.

Interest on the Certificates at a rate of 2.03% is payable at each June 15 and December 15. Principal payments are payable on December 15, 2006 and each calendar year thereafter to 2026. The certificates are payable solely from annually appropriated base rentals and any purchase option price paid by the School District under the lease. Refunding the Certificates of Participation at 2.03% equates to a net present value savings of \$237,228 and a \$242,828 present value of savings from cash flow in fiscal year 2016.

The certificates may be called for redemption, in whole, from either proceeds of general obligation bonds or other debt of the School District or moneys made available to the School District from a lease-purchase financing or refinancing with respect to the leased property, at the option of the School District, on or after December 15, 2016 at the redemption price of 100%, plus accrued interest to the redemption date.

Fiscal Year Ending June 30	Principal	Interest	Total
2018	\$ 190,000	\$ 40,803	\$ 230,803
2019	195,000	36,892	231,892

2021	205,000	28,775	233,775
2022	255,000	24,106	279,106
2023	255,000	18,930	273,930
2024	260,000	13,703	273,703
2025	270,000	8,323	278,323
2026	275,000	2,792	277,792
Total	\$ 2,105,000	\$ 207,210	\$ 2,312,210

Annual debt service requirements to maturity for the Certificates of Participation, Series 2015, are as follows:

General Obligation Building and Refunding Bonds Series 2008 – General Obligation Bonds, Series 2008, were issued in denominations of \$5,000, dated and issued April 2, 2008, total issue of \$18,700,000. A portion of the bonds constitutes the remaining \$15,000,000 of authorization to incur general obligation indebtedness approved at the November 7, 2006 election, and the proceeds of such bonds were used to complete the construction of two new elementary schools, two new middle schools, and making improvements to existing School District's schools that was begun with proceeds of the Series 2006C Bonds. A portion of the proceeds of the bonds were used to refund, in advance of maturity, \$3,555,000 in aggregate principal amount of the School District's General Obligation Building and Refunding Bonds, Series 1998 and paying costs of issuance of the bonds.

Interest at a rate of 3.25 - 4% is payable at each June 1 and December 1. Principal payments are payable on December 1, 2008 and each calendar year thereafter to 2027. The bonds are general obligations of the School District and shall be payable from general ad valorem taxes required to be levied, without limitations as to rate and in amounts sufficient to pay for the principal of and interest on the bonds, on all taxable property of the School District, except to the extent other legally available funds are applied for such purpose.

The bonds maturing on or before December 1, 2018 are not subject to redemption prior to their respective maturity dates. The bonds maturing on or after December 1, 2019 are subject to redemption prior to maturity at the option of the School District, in whole or in part, and if in part in such order of maturity as the School District shall determine and by lot within any maturity in such manner as the Paying Agent shall determine, on December 1, 2018 and on any date thereafter, at the redemption price (expressed as a percentage of principal amount) of 100%, plus accrued interest to the redemption date. Annual debt service requirements to maturity for the General Obligation Building and Refunding Bonds, Series 2008, are as follows:

Fiscal Year Ending					
June 30	1	Principal	I	nterest	Total
2018	\$	2,055,000	\$	42,900	\$ 2,097,900
2019		45,000		900	 45,900
Total	\$	2,100,000	\$	43,801	\$ 2,143,801

General Obligation Refunding Bonds Series 2011 – General Obligation Bonds, Series 2011, were dated and issued November 03, 2011, total issue of \$1,515,000. The bonds were issued to refinance a portion of the School District's general obligation debt for the purpose of reducing debt service requirements. The obligation refunded consisted of the School District's General Obligation Bonds, Series 1998, originally issued in the principal aggregate amount of \$9,420,000.

Interest, at a rate of 2.10% is payable each June 1 and December 1. Principal is payable on December 1, 2011, and each calendar year thereafter to 2017. The bonds are general obligations of the School District, and shall be payable from general ad valorem taxes required to be levied, without limitation as to rate and in amounts sufficient to pay the principal of and interest on both the bonds and registered coupons, on all taxable property of the School District, except to the extent other legally available funds are applied for such purposes.

Annual debt service requirements to maturity for the General Obligation Refunding Bonds, Series 2011, are as follows:

Fiscal Year					
Ending					
June 30	P	rincipal	In	terest	 Total
2018	\$	890,000	\$	9,345	\$ 899,345

General Obligation Refunding Bonds Series 2012A – General Obligation Refunding Bonds, Series 2012A, were dated and issued April 24, 2012, total issue of \$31,340,000. The bonds were issued to refund a portion of the School District's outstanding general obligation debt for the purpose of reducing debt service requirements. The obligation refunded consisted of the School District's General Obligation Bonds, Callable Series 2004, originally issued in the principal aggregate amount of \$49,900,000.

Interest at a rate of 2.00% - 5.00% is payable at each June 1 and December 1. Principal payments are payable on December 1, 2012 and each calendar year thereafter to 2024. The bonds are general obligations of the School District and shall be payable from general ad valorem taxes required to be levied, without limitations as to rate and in amounts sufficient to pay for the principal of and interest on the bonds, on all taxable property of the School District, except to the extent other legally available funds are applied for such purpose.

Annual debt service requirements	to maturity for the C	General Obligation Re	efunding Bonds, S	Series 2012A, are as follows:
1	5	8	0,	-)

Defeased Debt – The School District defeased certain bonds by placing the proceeds of refunding bond issues in irrevocable escrow accounts to provide for all future debt service payments on the defeased bonds. As a result, the refunded portions of those bonds are not reported at the government-wide financial reporting level. As of June 30, 2017, \$25,362,807 remains in escrow.

Component Unit Long-Term Debt

Belle Creek Charter School: On June 14, 2007, the Colorado Educational and Cultural Facilities Authority (CECFA) issued \$9,200,000 Charter School Revenue Refunding Bonds, Series 2007A, and \$100,000 Taxable Charter School Revenue Bonds, Series 2007B, to advance refund CECFA's outstanding Series 2002 Bonds. Proceeds from the Series 2002 Bonds were loaned to the Education Center under a lease agreement to construct the Charter school's building. Belle Creek Charter School is obligated under a lease agreement to make monthly lease payments to the Education Center for use of the building. The Education Center is required to make equal loan payments to the Trustee, for payment of the Series 2007 Refunding Bonds. Monthly principal and interest payments are due under the agreements, with interest accruing at rates ranging from 4.00% - 5.42%. The bonds mature in March, 2037.

Future debt service requirements are as follows for Belle Creek Charter School Refunding Bonds, Series 2007:

Premium	-	184,543	5,383	179,160	9,227	169,933
Total	\$ 9,345,000	\$ 9,904,543	\$ 9,350,383	\$ 9,899,160	\$ 309,227	\$9,589,933

In November 2016, the Colorado Educational Cultural Facilities Authority (CECFA) issued \$9,720,000 Charter School Revenue Bonds dated November 1, 2016. On November 1, 2016, the Corporation entered into a mortgage and lease agreement with the Brighton Charter School to use the bond proceeds for: a) current refunding of the Authority's Charter School Revenue Bonds Series 2006 in the original aggregate principal amount of \$10,195,000, where were outstanding in the principal amount of \$9,345,000; b) constructing improvements to existing educational facilities originally financed with proceeds of the Series 2006 Bonds; c) funding a bond reserve fund; and d) paying certain costs of issuance of the Bonds. The Bonds are subject to redemption prior to maturity, at the option of the Authority, as a whole or in part in authorized denominations on November 1, 2021, and on any date thereafter, upon direction by the Corporation and upon payment of par plus accrued interest through the date of redemption. The bonds accrue interest at 4.62%. Interest payments are due semi-annually on May 1 and November 1. Principal payments are due November 1, through 2037. The current refunding was undertaken to reduce total debt service payments over the next 20 years by \$1,649,411 and resulted in an economic gain of \$723,918.

Annual debt service requirements to maturity for the long-term debt transactions are as follows:

Fiscal Year			
Ending			
30-Jun	Principal	Interest	Total
2018	\$ 300,000	\$ 431,613	\$ 731,613
2019	315,000	420,466	735,466
2020	325,000	408,866	733,866
2021	335,000	396,903	731,903
2022	350,000	384,488	734,488
2023-2027	1,935,000	1,720,254	3,655,254
2028-2032	2,385,000	1,253,625	3,638,625
2033-2037	3,775,000	560,875	4,335,875
Total	\$ 9,720,000	\$ 5,577,090	\$ 15,297,090

Bromley East Charter School: In September, 2015, the Colorado Educational and Cultural Facilities Authority (CECFA) issued \$19,155,000 Charter School Refunding and Improvement Revenue Bonds, Series 2015. Bond proceeds were used to refund the Charter School Revenue Refunding Bonds, Series 2005, originally loaned to CEC to refund debt issued to construct the School's education facilities, and to provide additional cash of \$9,350,000 for expansion of the facilities. The School is obligated under a lease agreement to make monthly lease payments to CEC for using the facilities. CEC is required to make equal loan payments to the trustee, for payment of the bonds. Interest accrues at 3.4% per annum, and is paid monthly. Principal payments are due annually beginning September 1, 2016, with a balloon payment of \$14,045,300 due on September 1, 2025.

Proceeds of the Series 2015 Bonds and other resources of CEC, in the amount of \$10,919,148, were deposited with an escrow agent to refund \$10,905,000 of the Series 2005 Bonds on September 24, 2015. As a result, the refunded debt liability has been removed from the financial statements. The refunding resulted in the recognition of an accounting loss of \$1,359,914.

Annual debt service requirements to maturity for the long-term debt transactions are as follows:

Fiscal Year			
Ending			
30-Jun	Principal	Interest	Total
2018	\$ 516,650	\$ 622,804	\$ 1,139,454
2019	534,210	604,790	1,139,000

Other – Payment of principal and interest for general obligation bonds is made from the bond redemption debt service fund. The legal limit and debt margin as of June 30, 2017 are \$216,286,283 and \$70,530,259. Compensated absences, pension and OPEB obligations are generally liquidated in the General Fund.

2-H. Defined Benefit Pension Plan

The School District participates in the School Division Trust Fund (SCHDTF), a cost-sharing multiple-employer defined benefit pension fund administered by the Public Employees' Retirement Association of Colorado ("PERA"). The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the SCHDTF have been determined using the economic resources measurement focus and the accrual basis of accounting. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the Pension Plan

Plan description - Eligible employees of the School District are provided with pensions through the School Division Trust Fund (SCHDTF)—a cost-sharing multiple-employer defined benefit pension plan administered by PERA. Plan benefits are specified in Title 24, Article 51 of the Colorado Revised Statutes (C.R.S.), administrative rules set forth at 8 C.C.R. 1502-1, and applicable provisions of the federal Internal Revenue Code. Colorado State law provisions may be amended from time to time by the Colorado General Assembly. PERA issues a publicly available comprehensive annual financial report that can be obtained at www.copera.org/investments/pera-financial-reports.

Benefits provided - PERA provides retirement, disability, and survivor benefits. Retirement benefits are determined by the amount of service credit earned and/or purchased, highest average salary, the benefit structure(s) under which the member retires, the benefit option selected at retirement, and age at retirement. Retirement eligibility is specified in tables set forth at C.R.S. § 24-51-602, 604, 1713, and 1714.

The lifetime retirement benefit for all eligible retiring employees under the PERA Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- The value of the retiring employee's member contribution account plus a 100 percent match on eligible amounts as of the retirement date. This amount is then annuitized into a monthly benefit based on life expectancy and other actuarial factors.

The lifetime retirement benefit for all eligible retiring employees under the Denver Public Schools (DPS) Benefit Structure is the greater of the:

- Highest average salary multiplied by 2.5 percent and then multiplied by years of service credit
- \$15 times the first 10 years of service credit plus \$20 times service credit over 10 years plus a monthly amount equal to the annuitized member contribution account balance based on life expectancy and other actuarial factors.

In all cases the service retirement benefit is limited to 100 percent of highest average salary and also cannot exceed the maximum benefit allowed by federal Internal Revenue Code.

Members may elect to withdraw their member contribution accounts upon termination of employment with all PERA employers; waiving rights to any lifetime retirement benefits earned. If eligible, the member may receive a match of either 50 percent or 100 percent on eligible amounts depending on when contributions were remitted to PERA, the date employment was terminated, whether 5 years of service credit has been obtained and the benefit structure under which contributions were made.

Benefit recipients who elect to receive a lifetime retirement benefit are generally eligible to receive post-retirement cost-ofliving adjustments (COLAs), referred to as annual increases in the C.R.S. Benefit recipients under the PERA benefit structure who began eligible employment before January 1, 2007 and all benefit recipients of the DPS benefit structure receive an annual increase of 2 percent, unless PERA has a negative investment year, in which case the annual increase for the next three years is the lesser of 2 percent or the average of the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) for the prior calendar year. Benefit recipients under the PERA benefit structure who began eligible employment after January 1, 2007 receive an annual increase of the lesser of 2 percent or the average CPI-W for the prior calendar year, not to exceed 10 percent of PERA's Annual Increase Reserve for the SCHDTF.

Disability benefits are available for eligible employees once they reach five years of earned service credit and are determined to meet the definition of disability. The disability benefit amount is based on the retirement benefit formula shown above considering a minimum 20 years of service credit, if deemed disabled.

Survivor benefits are determined by several factors, which include the amount of earned service credit, highest average salary of the deceased, the benefit structure(s) under which service credit was obtained, and the qualified survivor(s) who will receive the benefits.

Contributions - Eligible employees and the School District are required to contribute to the SCHDTF at a rate set by Colorado statute. The contribution requirements are established under C.R.S. § 24-51-401, *et seq*. Eligible employees are required to contribute 8 percent of their PERA-includable salary. The employer contribution requirements are summarized in the table below:

	For the Year Ended December 31, 2016	For the Year Ended December 31, 2017
Employer Contribution Rate ¹	10.15%	10.15%
Amount of Employer Contribution apportioned to the Health Care Trust Fund as specified in C.R.S. § 24-51- $208(1)(f)^{-1}$	(1.02)%	(1.02)%
Amount Apportioned to the SCHDTF ¹	9.13%	9.13%
Amortization Equalization Disbursement (AED) as specified in C.R.S. § 24-51-411 ¹	4.50%	4.50%
Supplemental Amortization Equalization Disbursement (SAED) as specified in C.R.S. § 24-51-411 ¹	4.50%	5.00%
Total Employer Contribution Rate to the SCHDTF ¹	18.13%	18.63%

¹Rates are expressed as a percentage of salary as defined in C.R.S. § 24-51-101(42).

Employer contributions are recognized by the SCHDTF in the period in which the compensation becomes payable to the member and the School District is statutorily committed to pay the contributions to the SCHDTF. Employer contributions recognized by the SCHDTF from the School District were \$12,401,890 for the year ended June 30, 2017.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the School District reported a liability of \$454,009,780 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2015. Standard update procedures were used to roll forward the total pension liability to December 31, 2015. The School District's proportion of the net pension liability was based on the School District contributions to the SCHDTF for the calendar year 2016 relative to the total contributions of participating employers to the SCHDTF.

At December 31, 2016, the School District's proportion was 1.5248599649 percent, which was an increase of 0.0062090729 percent from its proportion measured as of December 31, 2015.

For the year ended June 30, 2017, the School District recognized pension expense of \$87,924,868. At June 30, 2017, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Difference between expected and actual	Deferred Outflows of <u>Resources</u>	Deferred Inflows of <u>Resources</u>
experience	\$5,668,019	\$3,970
Changes of assumptions or other inputs	147,316,699	2,039,031
Net difference between projected and actual earnings on pension plan investments	15,112,612	-
Changes in proportion and differences between contributions recognized and proportionate share of contributions	1,514,459	-
Contributions subsequent to the measurement date	6,291,461	-
Total	\$175,903,250	\$2,043,001

\$6,291,461 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30	
2018	\$67,469,072
2019	66,881,343
2020	33,066,936
2021	151,431
2022	-
Thereafter	-

Actuarial assumption - The total pension liability in the December 31, 2016 actuarial valuation was determined using the following actuarial assumptions and other inputs:

Actuarial cost method	Entry age
Price inflation	2.80 percent
Real wage growth	1.10 percent
Wage inflation	3.90 percent
Salary increases, including wage inflation	3.90 - 10.10 percent

Long-term investment Rate of Return, net of pension	
plan investment expenses, including price inflation	7.50 percent
Discount rate	7.50 percent
Future post-retirement benefit increases:	
PERA Benefit Structure hired prior to 1/1/07;	
and DPS Benefit Structure (automatic)	2.00 percent
PERA Benefit Structure hired after 12/31/06	
(ad hoc, substantively automatic)	Financed by the
	Annual Increase Reserve (AIR)

Based on the 2016 experience analysis and the October 28, 2016 actuarial assumptions workshop, revised economic and demographic assumptions were adopted by PERA's Board on November 18, 2016 and effective as of December 31, 2016. These revised assumptions shown below were reflected in the roll-forward calculation of the total pension liability from December 31, 2015 to December 31, 2016:

Actuarial cost method	Entry age
Price inflation	2.40 percent
Real wage growth	1.10 percent
Wage inflation	3.50 percent
Salary increases, including wage inflation	3.50 - 9.70 percent
Long-term investment rate of return, net of pension	
plan investment expenses, including price inflation	7.25 percent
Discount rate	5.26 percent
Post-retirement benefit increases:	
PERA benefit structure hired prior to 1/1/07	
and DPS benefit structure (automatic)	2.00 percent
PERA benefit structure hired after 12/31/06	
(ad hoc, substantively automatic)	Financed by the
	Annual Increase Reserve

Mortality rates used in the December 31, 2015 valuation were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on a projection of Scale AA to 2020 with Males set back 1 year, and Females set back 2 years. Active member mortality was based upon the same mortality rates but adjusted to 55 percent of the base rate for males and 40 percent of the base rate for females. For disabled retirees, the RP-2000 Disabled Mortality Table (set back 2 years for males and set back 2 years for females) was assumed.

The actuarial assumptions used in the December 31, 2015 valuation were based on the results of an actuarial experience study for the period January 1, 2008 through December 31, 2011, adopted by PERA's Board on November 13, 2012, and an economic assumption study, adopted by PERA's Board on November 15, 2013 and January 17, 2014.

As a result of the 2016 experience analysis and the October 28, 2016 actuarial assumptions workshop, revised economic and demographic actuarial assumptions including withdrawal rates, retirement rates for early reduced and unreduced retirement, disability rates, administrative expense load, and pre- and post-retirement and disability mortality rates were adopted by PERA's Board on November 18, 2016 to more closely reflect PERA's actual experience. As the revised economic and demographic assumptions are effective as of the measurement date, December 31, 2016, these revised assumptions were reflected in the total pension liability roll-forward procedures.

Healthy mortality assumptions for active members reflect the RP-2014 White Collar Employee Mortality Table, a table specifically developed for actively working people. To allow for an appropriate margin of improved mortality prospectively, the mortality rates incorporate a 70 percent factor applied to male rates and a 55 percent factor applied to female rates.

Healthy, post-retirement mortality assumptions reflect the RP-2014 White Collar Healthy Annuitant Mortality Table, adjusted as follows:

- Males: Mortality improvement projected to 2018 using the MP-2015 projection scale, a 93 percent factor applied to rates for ages less than 80, a 113 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.
- **Females:** Mortality improvement projected to 2020 using the MP-2015 projection scale, a 68 percent factor applied to rates for ages less than 80, a 106 percent factor applied to rates for ages 80 and above, and further adjustments for credibility.

For disabled retirees, the mortality assumption was changed to reflect 90 percent of the RP-2014 Disabled Retiree Mortality Table.

The long-term expected return on plan assets is reviewed as part of regular experience studies prepared every four or five years for PERA. Recently, this assumption has been reviewed more frequently. The most recent analyses were outlined in presentations to PERA's Board on October 28, 2016. As a result of the October 28, 2016 actuarial assumptions workshop and the November 18, 2016 PERA Board meeting, the economic assumptions changed, effective December 31, 2016, as follows:

- Investment rate of return assumption decreased from 7.50 percent per year, compounded annually, net of investment expenses to 7.25 percent per year, compounded annually, net of investment expenses.
- Price inflation assumption decreased from 2.80 percent per year to 2.40 percent per year.
- Real rate of investment return assumption increased from 4.70 percent per year, net of investment expenses, to 4.85 percent per year, net of investment expenses.
- Wage inflation assumption decreased from 3.90 percent per year to 3.50 percent per year.

Several factors were considered in evaluating the long-term rate of return assumption for the SCHDTF, including long-term historical data, estimates inherent in current market data, and a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

As of the November 18, 2016 adoption of the current long-term expected rate of return by the PERA Board, the target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	30 Year Expected Geometric Real Rate of Return
U.S. Equity – Large Cap	21.2%	4.30%
U.S. Equity – Small Cap	7.42%	4.80%
Non U.S. Equity – Developed	18.55%	5.20%
Non U.S. Equity – Emerging	5.83%	5.40%
Core Fixed Income	19.32%	1.20%
High Yield	1.38%	4.30%
Non US Fixed Income – Developed	1.84%	0.60%
Emerging Market Bonds	0.46%	3.90%
Core Real Estate	8.50%	4.90%
Opportunity Fund	6.00%	3.80%
Private Equity	8.50%	6.60%
Cash	1.00%	0.20%
Total	100.00%	

In setting the long-term expected rate of return, projections employed to model future returns provide a range of expected long-term returns that, including expected inflation, ultimately support a long-term expected rate of return assumption of 7.25%.

Discount rate - The discount rate used to measure the total pension liability was 5.26 percent. The projection of cash flows used to determine the discount rate applied the actuarial method and assumptions in above note. In addition, the following methods and assumptions were used in the projection of cash flows.

- Updated economic and demographic actuarial assumptions adopted by PERA's Board on November 18, 2016.
- Total covered payroll for the initial projection year consists of the covered payroll of the active membership present on the valuation date and the covered payroll of future plan members assumed to be hired during the year. In subsequent projection years, total covered payroll was assumed to increase annually at a rate of 3.50%.
- Employee contributions were assumed to be made at the current member contribution rate. Employee contributions for future plan members were used to reduce the estimated amount of total service costs for future plan members.
- Employer contributions were assumed to be made at rates equal to the fixed statutory rates specified in law and effective as of the measurement date, including current and estimated future AED and SAED, until the Actuarial Value Funding Ratio reaches 103%, at which point, the AED and SAED will each drop 0.50% every year until they are zero. Additionally, estimated employer contributions included reductions for the funding of the AIR and retiree health care benefits. For future plan members, employer contributions were further reduced by the estimated amount of total service costs for future plan members not financed by their member contributions.
- Employer contributions and the amount of total service costs for future plan members were based upon a process used by the plan to estimate future actuarially determined contributions assuming an analogous future plan member growth rate.
- The AIR balance was excluded from the initial fiduciary net position, as, per statute, AIR amounts cannot be used to pay benefits until transferred to either the retirement benefits reserve or the survivor benefits reserve, as appropriate. As the ad hoc post-retirement benefit increases financed by the AIR are defined to have a present value at the long-term expected rate of return on plan investments equal to the amount transferred for their future payment, AIR transfers to the fiduciary net position and the subsequent AIR benefit payments have no impact on the Single Equivalent Interest Rate (SEIR) determination process when the timing of AIR cash flows is not a factor (i.e., the plan's fiduciary net position is projected to be depleted). When AIR cash flow timing is a factor in the SEIR determination process (i.e., the plan's fiduciary net position is projected to be depleted). AIR transfers to the fiduciary net position and the subsequent AIR cash flow timing is a factor in the SEIR determination process (i.e., the plan's fiduciary net position is projected to be depleted). AIR transfers to the fiduciary net position and the subsequent AIR benefit payments were estimated and included in the projections.
- Benefit payments and contributions were assumed to be made at the end of the month.

Based on the above assumptions and methods, the projection test indicates the SCHDTF's fiduciary net position was projected to be depleted in 2041 and, as a result, the municipal bond index rate was used in the determination of the discount rate. The long-term expected rate of return of 7.25 percent on pension plan investments was applied to periods through 2041 and the municipal bond index rate, the December average of the Bond Buyer General Obligation 20-year Municipal Bond Index published weekly by the Board of Governors of the Federal Reserve System, was applied to periods on and after 2041 to develop the discount rate. For the measurement date, the municipal bond index rate was 3.86 percent, resulting in a discount rate of 5.26 percent.

As of the prior measurement date, the projection test indicated the SCHDTF's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments of 7.50 percent was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate determination did not use a municipal bond index rate and the discount rate was 7.50 percent, 2.24 percent higher compared to the current measurement date.

Sensitivity of the School District's proportionate share of the net pension liability to changes in the discount rate - The following presents the proportionate share of the net pension liability calculated using the discount rate of 5.26 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.26 percent) or 1-percentage-point higher (6.26 percent) than the current rate:

percentage point to ver (120 percent) of 1 percentage point ingher (0.20 percent) than the current fate.			
	1% Decrease (4.26%)	Current Discount Rate (5.26%)	1% Increase (6.26%)
Proportionate share of the net pension liability	\$570,902,707	\$454,009,780	\$358,804,719
pension naonny			

Pension plan fiduciary net position - Detailed information about the SCHDTF's fiduciary net position is available in PERA's comprehensive annual financial report which can be obtained at <u>www.copera.org/investments/pera-financial-reports</u>.

Component Unit Defined Benefit Pension Plan

Bromley East Charter School

Contributions: Employer contributions recognized by the SCHDTF School were \$812,300 for the year ended June 30, 2017.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the School reported a liability of \$25,362,331 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2015. Standard update procedures were used to roll forward the total pension liability to December 31, 2016. The School's proportion of the net pension liability was based on the School's contributions to the SCHDTF for the calendar year 2016 relative to the total contributions of participating employers to the SCHDTF.

At December 31, 2016, the School's proportion was 0.0851831931 percent, which was an increase of 0.0097507783 percent from its proportion measured as of December 31, 2015.

For the year ended June 30, 2017, the School recognized pension expense of \$5,322,483. At June 30, 2017, the School reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of <u>Resources</u>	Deferred Inflows of <u>Resources</u>
Difference between expected and actual experience	\$ 304,834	\$ 192
Changes of assumptions or other inputs	8,229,547	101,280
Net difference between projected and actual earnings on pension plan investments	751,176	-
Changes in proportion and differences between contributions recognized and proportionate share of contributions	1,205,888	1,960
Contributions subsequent to the measurement date	446,893	-
Total	\$ 10,938,338	\$ 103,432

\$446,893 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2018.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30	
2018	\$ 4,195,040
2019	4,166,963
2020	2,017,551
2021	8,459
Total	\$ 10,388,013

Sensitivity of the School's proportionate share of the net pension liability to changes in the discount rate - The following presents the proportionate share of the net pension liability calculated using the discount rate of 5.26 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4..26 percent) or 1-percentage-point higher (6.26 percent) than the current rate:

	1% Decrease (4.26%)	Current Discount Rate	1% Increase (6.26%)
		(5.26%)	
Proportionate share of the net pension	\$31,892,316	\$25,362,331	\$20,043,894
liability			

Eagle Ridge Academy

Contributions: Employer contributions recognized by the SCHDTF School were \$272,233 for the year ended June 30, 2017.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the School reported a liability of \$9,355,204 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2015. Standard update procedures were used to roll forward the total pension liability to December 31, 2016. The School's proportion of the net pension liability was based on the School's contributions to the SCHDTF for the calendar year 2016 relative to the total contributions of participating employers to the SCHDTF.

At December 31, 2016, the School's proportion was 0.03142 percent, which was an increase of 0.00254 percent from its proportion measured as of December 31, 2015.

For the year ended June 30, 2017, the School recognized pension expense of \$1,703,435. At June 30, 2017, the School reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources.

Difference between expected and actual experience	Deferred Outflows of Resources \$ 116,954	Deferred Inflows of Resources \$ 82
Changes of assumptions or other inputs	3,035,569	42,187
Net difference between projected and actual earnings on pension plan investments	312,818	-
Changes in proportion and differences between contributions recognized and proportionate share of contributions	379,681	-
Contributions subsequent to the measurement date	139,145	-
Total	\$ 3,984,167	\$ 42,269

\$139,145 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30	
2018	\$ 1,555,058
2019	1,517,089
2020	727,485
2021	3,121
Total	\$ 3,802,753

Sensitivity of the School's proportionate share of the net pension liability to changes in the discount rate - The following presents the proportionate share of the net pension liability calculated using the discount rate of 5.26 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.26 percent) or 1-percentage-point higher (6.26 percent) than the current rate:

	1% Decrease (4.26%)	Current Discount	1% Increase (6.26%)
		Rate (5.26%)	
Proportionate share of the net pension liability	\$11,763,868	\$9,355,204	\$7,393,434

Belle Creek Charter School

Contributions: Employer contributions recognized by the SCHDTF School were \$457,943 for the year ended June 30, 2017.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the School reported a liability of \$15,039,110 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2015. Standard update procedures were used to roll forward the total pension liability to December 31, 2016. The School's proportion of the net pension liability was based on the School's contributions to the SCHDTF for the calendar year 2016 relative to the total contributions of participating employers to the SCHDTF.

At December 31, 2016, the School's proportion was 0.0505111076 percent, which was a decrease of 0.0023506859 percent from its proportion measured as of December 31, 2015.

For the year ended June 30, 2017, the School recognized pension expense of \$2,696,796. At June 30, 2017, the School reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of <u>Resources</u>
Difference between expected and actual experience	\$ 190,961	\$ 144
Changes of assumptions or other inputs	4,879,877	70,975
Net difference between projected and actual earnings on pension plan investments	528,271	-
Changes in proportion and differences between contributions recognized and proportionate share of contributions	-	377,884
Contributions subsequent to the measurement date	222,857	-
Total	\$ 5,821,966	\$ 449,003

\$222,857 reported as deferred outflows of resources related to pensions, resulting from contributions subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30	
2018	\$ 2,030,923
2019	2,064,604
2020	1,049,563
2021	5,016
Total	\$ 5,150,106

Sensitivity of the School's proportionate share of the net pension liability to changes in the discount rate - The following presents the proportionate share of the net pension liability calculated using the discount rate of 5.26 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.26 percent) or 1-percentage-point higher (6.26 percent) than the current rate:

	1% Decrease (4.26%)	Current Discount Rate	1% Increase (6.26%)

liability			

2-I. Defined Contribution Pension Plan

Voluntary Investment Program

Plan Description - Employees of the School District that are also members of the SCHDTF may voluntarily contribute to the Voluntary Investment Program, an Internal Revenue Code Section 401(k) defined contribution plan administered by PERA. Title 24, Article 51, Part 14 of the C.R.S, as amended, assigns the authority to establish the Plan provisions to the PERA Board of Trustees. PERA issues a publicly available comprehensive annual financial report for the Plan. That report can be obtained at <u>www.copera.org/investments/pera-financial-reports.</u>

Funding Policy – The Voluntary Investment Program is funded by voluntary member contributions up to the maximum limits set by the Internal Revenue Service, as established under Title 24, Article 51, Section 1402 of the C.R.S., as amended. There is no employer match. Employees are immediately vested in their own contributions and investment earnings. For the year ended June 30, 2017, program members contributed \$453,614.

2-J. Other Post-Employment Benefits

Health Care Trust Fund

Plan Description – The School District contributes to the Health Care Trust Fund ("HCTF"), a cost-sharing multiple-employer healthcare trust administered by PERA. The HCTF benefit provides a health care premium subsidy and health care programs (known as PERACare) to PERA participating benefit recipients and their eligible beneficiaries. Title 24, Article 51, Part 12 of the C.R.S., as amended, establishes the HCTF and sets forth a framework that grants authority to the PERA Board to contract, self-insure and authorize disbursements necessary in order to carry out the purposes of the PERACare program, including the administration of health care subsidies. PERA issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information for the HCTF. That report can be obtained at www.copera.org/investments/pera-financial-reports.

Funding Policy – The School District is required to contribute at a rate of 1.02 percent of PERA-includable salary for all PERA members as set by statute. No member contributions are required. The contribution requirements for the School District are established under Title 24, Article 51, Part 4 of the C.R.S., as amended. The apportionment of the contributions to the HCTF is established under Title 24, Article 51, Section 208(1)(f) of the C.R.S., as amended. For the years ending June 30, 2017, 2016 and 2015, the School District contributions to the HCTF were \$807,031, \$807,298 and \$788,520, respectively, equal to their required contributions for each year.

2-K. Net Position

Net investment in capital assets on the Government-wide Statement of Net Position as of June 30, 2017 is calculated as:

Net investment in capital assets:	(Governmental Activities
Cost of Capital Assets	\$	358,584,765
Less Accumulated Depreciation		(75,267,215)
Book Value		283,317,550
Less Capital Related Debt - Bonds		(268,440,000)
Less Capital Related Debt - Promissory Note		(83,355)
Less Capital Related Debt - Certificates of Participation		(2,105,000)
Less Capital Related Debt - Capital Lease		(73)
Less Bond Premiums		(36,957,079)
Add Bond Deferred Outflows of Resources		5,583,212
Add Unspent Proceeds		177,858,258
	\$	159,173,513

Note 3 - Other Notes

3-A. Risk Management

Self-Insurance Pool - The School District is exposed to various risks of loss related to torts, thefts or damage to, or destruction of assets; errors or omissions; workers' compensation; employee dental claims; and natural disasters. School District 27J has been a member of the Adams County BOCES Self Insurance Pool (the Pool) since its inception in 1979. The BOCES consists of 5 school districts in Adams County including Adams 1 – Mapleton, Adams 12 – Northglenn-Thornton, Adams 14 – Commerce City, Adams 50 – Westminster, and School District 27J. The Pool provides property and liability, workers' compensation, boiler and machinery, errors and omissions, and school board legal liability insurances for its member districts. Annually each district provides funding for the pool based on a pre-established amount that covers the cost of insurance, claims, operation of the Pool. Also, each district receives annual financial information on the equity interest and gains or losses. For the year ended June 30, 2017, the Brighton School District recorded an investment of \$218,284 and an additional paid in capital amount of \$32,980. The District's ending surplus share of the Pool was a net gain of \$316.

Pool members and percentage shares are as follows:

001
0.02
.73
0.00
3.82
.43

	Total	District's Share
Assets	\$ 8,398,865	\$ 1,580,432
Liabilities	6,548,720	1,362,148
Equity	\$ 1,850,145	\$ 218,284
_		
Revenues	\$ 6,149,417	\$ 1,157,148
Expenditures	6,147,736	1,156,832
Net Income	1,681	316
Surplus, Beginning	1,831,864	185,304
Additional Equity	16,600	32,664
Surplus, Ending	\$ 1,850,145	\$ 218,284

Following is a summary of financial information for the Pool as of and for the year ended June 30, 2017:

Percentage shares are as of June 30, 2017. Percentages will vary slightly from year-to-year depending upon premium allocation factors. The Pool's Board of Directors consists of one member appointed by the Board of Education of each participating school district. All members of the Pool's Board of Directors have an equal vote in the administration of the Pool's activities, are responsible for selection of management and have complete responsibility for all fiscal matters in the operation of the Pool. Separate financial statements for the Pool are available from the Adams County BOCES, 1400 W. 122nd Avenue, Suite 110, Westminster, Colorado 80234.

The School District pays annual premiums for property, liability and workers compensation coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds that the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula. The Pool, which is subjected to actuarial review and annual audit, has various levels of self-insured retentions and purchases excess insurance for amounts above the retentions for liability, property and workers' compensation coverage.

The following schedule shows the coverage for fiscal year 2017:

	 ol District ductible	R	Self-Insured etention Decurrence)	Excess Insurance Cccurrence	-
Liability	\$ -	\$	150,000	\$ 5,000,000	(auto)
				10,000,000	(general)
Property	1,000		100,000	100,000,000	
Workers' Compensation	-		550,000	Statutory	
Errors and Omissions	10,000		150,000	10,000,000	
Boiler and Machinery	5,000		N/A	50,000,000	
Crime	25,000		N/A	1,000,000	

The School District is protected under the statutes of the Colorado Governmental Immunity Act to a maximum of \$150,000 per individual and \$600,000 per occurrence for liability exposure.

The School District continues to carry commercial insurance coverage for errors and omissions risks of loss and employee health. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Dental Self-Insurance Plan - The School District maintains a dental self-insurance plan (the "Plan") for employees who elect to purchase dental insurance through the plan. The Plan is entirely funded from employee contributions. Monthly premiums are \$42.90 per month for the employee. Dependent coverage is also available. The Plan is designed to minimize the risk to the School District by designing the plan to be dependent upon employee-paid premiums for all plan expenditures. The Plan limits participant claims to \$1,500 per year and a lifetime \$2,000 per person orthodontic claim. The School District consults with Lockton Companies to annually evaluate the plan. Claims are paid by the third party administrator acting on behalf of the School District. Claims due and payable within one year equal \$28,513 and are reported in the proprietary fund Statement of Net Position under current liabilities in the governmental activities internal service fund.

Date	Fis	ginning of scal Year iability	Current Year Claims and Changes in Estimates	Claim Payments	Fi	End of scal Year .iability
2015	\$	17,621	752,621	762,025	\$	8,217
2016		8,217	811,623	796,906		22,934
2017		22,934	769,363	792,221		28,513

3-B. Tax, Spending and Debt Limitations

In November of 1992, Colorado voters approved a State Constitutional amendment, referred to as the Taxpayer's Bill of Rights (TABOR), containing tax, spending and debt limitations on the state and local governments. TABOR limits increases in revenues and expenditures to the rate of inflation and local growth. TABOR also requires local governments to establish emergency reserves to be used only for declared emergencies. On November 3, 1998, School District 27J voters approved a ballot question "for Authorization of Collection, Retention and Expenditures of Revenue in Excess of the limitations set by Section 20 of Article X of the State Constitution". This ballot issue authorized the School District to retain and expend all excess revenue in fiscal year 1997/98 and in each fiscal year thereafter. This ballot question was approved by a vote of 4,357 in favor of the question and 2,512 opposing the question. As required by the Amendment, the School District has established a reserve for emergencies of \$3,123,750 at June 30, 2017. This reserve is recorded as a restricted fund balance in the general fund.

Belle Creek Charter School reported an emergency reserve of \$146,500 at June 30, 2017 as a restricted fund balance in the general fund. Eagle Ridge Academy reported a reserve of \$123,016 at June 30, 2017 as a restricted fund balance in the general fund. Bromley East Charter School reported an emergency reserve of \$275,000 at June 30, 2017 as a restricted fund balance in the general fund. Landmark Academy Charter School reported an emergency reserve of \$176,089 at June 30, 2017 as a restricted fund balance in the general fund. Foundations Academy Charter School reported an emergency reserve of \$172,924 at June 30, 2017 as a restricted fund balance in the general fund.

3-C. Designated for Cash-In-Lieu of Land Dedication

Pursuant to CRS 29-1-801, the School District has received land dedications or cash-in-lieu of land dedications from residential land developers to ensure that the cost of school site acquisition is borne by new residential construction and residential development. The School District entered into agreements with various cities and developers called the "Fair Contributions for Public School Sites" that restricts the use of the funds.

The following cash-in-lieu activities have been recognized in the School District's general fund balance – restricted for cashin-lieu of land in the governmental funds Balance Sheet:

Beginning balance as of July 1, 2016	\$ 82,061
Cash received through June 30, 2017	-
Cash utilized through June 30, 2017	 -
	\$ 82,061

3-D. Contingent Liabilities

Grants – The School District participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental entities. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the School District may be required to reimburse the grantor government. As of June 30, 2017, significant amounts of grant expenditures have not been audited but the School District believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on the overall financial position of the School District.

Lease Agreements – For 2017 an operating lease agreement was extended through 2017 with Williams Scotsman for the use of the four modular units. Under terms of the agreement, the School District makes monthly rental payments. Rent expense through June 30, 2017 was \$80,398.

JPMorgan Chase Computer/Chromebooks/Carts Operating Lease – For 2017 an operating lease terms was entered into totaling \$414,391, with principal expense due for 36 months with an annual percentage rate of 1.72%. Annual payments began on August 19, 2016 with a principal expense payment of \$140,493 and end on August 19, 2018, at which time title to the computers, chromebooks and carts passes to the School District. Scheduled future payments are shown below:

Fiscal Year Ending					
June 30	P	rincipal	Ir	nterest	Total
2018	\$	135,782	\$	4,711	\$ 140,493
2019		138,117		2,376	 140,493
Total	\$	273,899	\$	7,087	\$ 280,986
	-				

Litigation – The School District is not involved in any significant or potential litigation for the year ended June 30, 2017.

Stewardship, Compliance and Accountability

Construction – The School District had multiple construction contracts during fiscal year 2017. As of June 30, 2017 a total of \$38,109,888 was committed for construction. The breakdown is as follows:

Location	<u>Amount</u>		
Reunion Elementary	\$	16,926,894	
Rodger Quist Middle School		2,689,422	
Brighton Heritage Academy		1,370,649	
Riverdale Ridge High School		1,095,177	
Brighton High School		6,874,555	
Northeast Elementary		1,028,018	
Overland Trail Middle School		1,572,554	
Vikan Middle School		6,552,619	
Total	\$	38,109,888	

Investment earnings of \$661,828 were earned in fiscal year 2017. The total amount expended in fiscal year 2017 for capital projects was \$79,123,760.

3-E. Subsequent Events

On September 14, 2017, the District issued \$88,000,000 of General Obligation Bonds, Series 2017. A premium of \$17,658,825 was recorded. These funds will be used for, but not limited to, building new schools and enlarging, improving and repairing existing schools and District facilities.

On July 18, 2017, the District entered into a \$409,257 three-year lease with J.P. Morgan Chase to purchase school computers, Chromebooks, I-Pads, licenses and charging carts. Interest and principal payments are annual payments at a taxable rate of 2.48%.

Plan fiduciary net position as a percent of the total Pension Liability	62.84%	59.20%	6	43.10%	

* The amounts presented for each fiscal year were determined as of 12/31.

This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, the School District is presenting information for those years for which information is available.

See accompanying notes to the basic financial statements

School District 27J, Colorado Notes to the Required Supplementary Information For The Year Ended June 30, 2017

Stewardship, Compliance and Accountability

Budgetary Information – Budgets are required by state law for all funds. By June 1, the Superintendent submits to the Board of Education a proposed budget for all funds for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them. Public hearings are conducted by the Board of Education to obtain taxpayer comments. The budget must be adopted by formal resolution prior to June 30, although it may be subsequently revised by January 31.

Expenditures may not legally exceed appropriations at the fund level. Authorization to transfer budgeted amounts between departments, within any fund and the reallocation of budget line items within any department or within any fund rests with the Superintendent of Schools. Revisions that alter the total expenditures of any fund must be approved by the Board of Education. Appropriations are based on total resources expected to be available in each budget year, including reserves as established by the Board of Education. Variances between budget and actual are the result from the non-expenditure of reserves, nonoccurrence of anticipated events, scheduling of capital projects and normal operating variances.

Budgets for all fund types are adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgeted amounts reported in the accompanying financial statements are as originally adopted and as amended by the Superintendent of Schools and/or the Board of Education throughout the year.

Supplementary Information Combining and Individual Fund Financial Statements and Schedules

The Combining and Individual Fund Financial Statements represent the second level of financial reporting for the District. These financial statements present more detailed information for the individual funds in a format that segregates information by fund type. For those fund types with a single fund, individual fund financial statements are presented.

Non-Major Governmental Funds

Special Revenue Funds

Special Revenue Funds account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

<u>Growth Impact Fund</u> - This fund accounts for the revenues received from the City and County of Denver, Colorado as the result of an annexation by Denver of land previously within the School District boundaries.

<u>**Pupil Activity Fund</u>** - This fund accounts for financial transactions of all school activity funds in the District. Revenues are those raised by clubs and/or school building support groups. Expenditures are for school activity functions.</u>

<u>Pupil Transportation Fund</u> -This fund accounts for fees collected for the payment of excess transportation costs without voter approval. Transportation categorical program revenues received from the state are also recorded in this fund.

<u>Other Special Programs Fund</u> - This fund accounts for all revenues and costs of providing day care to people who live within the District. This fund also accounts for the Detention Center school. The Brighton School District provides this program for the Adams County Detention Center. All other school districts that make up the catchment area for the center are billed an amount in proportion to their number of students. Also included are the district print shop, and the summer school programs.

<u>Child Care/Extended Day Kindergarten</u> – This fund is considered an "Other Special Revenue" fund. The Child Care and Extended Day Kindergarten programs are tuition based for generating revenue.

Major Governmental

<u>Nutrition Services Fund</u> – This fund accounts for financial transactions related to nutrition services operations.

<u>Capital Projects Fund</u> - This fund accounts for bond proceeds and other revenues used for the construction and acquisition of major capital facilities.

<u>Governmental Designated-Purpose Grants Fund</u> - This fund accounts for grants received for designated programs funded by federal, state or local governments.

<u>**Debt Service Fund</u>** - This fund accounts for the accumulated resources (normally property taxes) used to retire principal and interest on general long-term debt.</u>

Component Units

The component units consist of a foundation and five charter schools: Capital Facility Fee Foundation, Bromley East Charter School, Belle Creek Charter School, Landmark Academy Charter School, Foundations Academy Charter School and Eagle Ridge Charter School.

The Foundation is a 501(c)(3) organization whose purpose is to promote and assist in the development, financing and acquisition of educational facilities and capital improvements in the School District. The Foundation consists of a nine-member board of directors and includes three representatives of contributing builders or developers, three School District representatives, and one city council representative of each city. Voluntary contributions are accepted by the Foundation and kept in foundation-managed accounts. The Board of Education makes requests for the release of Foundation funds for school construction purposes as needed. The Foundation Board determines if the request meets the requirements for disbursement of the funds.

The charter schools have separate governing boards but are dependent upon the District for the majority of their funding.

Note 1 - Intergovernmental Revenue total includes vocational education, special education, transportation, federal and state grants and equalization revenue.

Note 2 - Debt service expenditures are recorded as principal retirement, interest and fiscal charges, advance refunding and bond issuance costs. Note 3 - Percentage of debt service expenditures to noncapital expenditures is calculated using capital outlay amount from the Reconciliation of the Statement of Revenues, Expenditures and Changes. Principal and interest are divided by total expenditures less capital outlay plus reconciliation capital outlay bes principal, interest, issue costs and fees.

Notes: County treasurer's fees of 0.25% have not been deducted from these amounts. Abatements made to taxpayers for overpayment of taxes have not been deducted from these amounts. The percent of total tax collections to levy includes amounts collected as delinquent taxes and therefore may result in total collections of more than 100% of taxes levied. Both levy and collection years are a calendar year beginning January 1. Information is not available from the counties as it relates to the year that delinquent taxes apply. In accordance with modified accrual accounting, delinquent taxes are recorded in the year collected, not the year assessed.

NOTES: Estimated statutory actual valuation is not intended to represent market value. The estimate is based on the breakdown of major classification of property in the district and the percentage set by state law for the computation of assessed value and does not include tax increment financing properties. The assessment rates for commercial property is 29% of actual valuation. Both levy and collection year are calendar year beginning January 1.

The assessment rates for residential property have been:

Years	Percent
1983-1986	21.00
1987	18.00
1988	16.00
1989-1990	15.00
1991-1992	14.34
1993-1994	12.86
1995-1996	10.36
1997-2000	9.74
2001-2002	9.15
2003-2015	7.96
2016	7.20

Overlapping governments may or may not have overlapped the District for the entire ten years shown. Totals are not shown since individual properties are not subject to all levies. Overlapping governments which do not have a property tax are not shown. Numbers shown represent the mill levy, amount assessed per \$1,000. The above figures are as of December 31, 2015, the latest date for which information is available. The year is the levy year. NOTES:

SOURCE: Adams, Broomfield and Weld County Assessor's Offices and individual entities

(1) Overlapping governments without general obligation debt are not shown.

(2) The percentage of each entity's outstanding debt chargeable to the School District is calculated by comparing the assessed valuation of the portion overlapping the School District to the total assessed valuation of the overlapping entity. To the exent the School District's assessed valuation changes disproportionately with the assessed valuation of the overlapping entities, the percentage of debt for which property owners within the School District are responsible will also change.

1 Recommended capacity equals the maximum class size and includes modular classroom space and preschool classes.

2 Includes initial year of construction and years of major additions and renovations.

NOTES: The above figures do not take into consideration half-time students and various methods of utilizing classrooms at the secondary level. This table demonstrates that for the current school year, the School District's schools are very close to capacity.

Acquisition of school sites can be the most difficult part of acquiring additional student space. Based on long-term projections of growth, the School District has aggressively pursued acquiring school sites. The School District has obtained land by dedication from developers or purchase for 20 elementary school sites, 2 middle school sites and 2 high school sites totaling over 365 acres. The School District is in the process of obtaining additional school sites through land dedication.

In addition to the school buildings and their contents, the School District owns or leases the following facilities and properties: the Heritage Community Plaza, thev School District Educational Services Center, a technology building & annex, a facililities building, utility/storage buildings, an indoor swimming pool, and 182 vehicles, of which 126 are buses or multi-passenger vans.

Independent Auditors' Report On Internal Control Over Financial Reporting And On Compliance And Other Matters Based On An Audit Of Financial Statements Performed In Accordance With *Government Auditing Standards*

Board of Education Adams/Weld School District 27J Brighton, Colorado

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the discretely presented component units, each major fund and the aggregate remaining fund information of the Adams/Weld School District 27J (the District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 4, 2017. Our report includes a reference to other auditors who audited the financial statements of the Capital Facility Fee Foundation, Bromley East Charter School, Eagle Ridge Academy Charter School, Belle Creek Charter School, Foundation Academy Charter School and Landmark Academy Charter School, as described in our report on the District's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of Capital Facility Fee Foundation, Bromley East Charter School and Belle Creek Charter School were not audited in accordance with Government Auditing Standards.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs, that we consider to be a material weakness as item 2017-001.

Compliance And Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

District's Response To Findings

The District's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs and corrective action plan. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we express no opinion on it.

Purpose Of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditors' Report On Compliance For Each Major Federal Program And On Internal Control Over Compliance Required By The Uniform Guidance

Board of Education Adams/Weld School District 27J Brighton, Colorado

Report On Compliance For Each Major Federal Program

We have audited the Adams/Weld School District 27J's (the District) compliance with the types of compliance requirements described in the Office of Management and Budget's *OMB Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2017. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statues, regulations and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards* (the Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion On Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report On Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency or a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency or a combination of deficiencies, in internal control over compliance is a deficiency or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged by governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

This report is intended solely for the information and use of those charged with governance, others within the entity and federal awarding agencies. Accordingly, this report is not intended to be, and should not be, used by anyone other than those specific parties.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED) For The Year Ended June 30, 2017

Section II - Financial Statement Findings

Finding 2017-001 - Construction Accounts Payable Review And Reconciliation *Material Weakness*

Criteria Or Specific Requirement: The District is responsible for establishing and implementing a system of internal accounting control that will prevent, detect and correct errors in a timely manner related to financial reporting, including those around the accounts payable process and construction invoices.

Condition: There were four construction payment applications where work was performed during the fiscal year but had no accrual during the year-end close process.

Context: The four construction payment application were for \$4,229,180 of construction payment applications out of a total of \$79,123,760 the District incurred in capital expenditures.

Effect: Without proper controls and review of the year-end accrual process related to accounts payable, errors may go undetected by management and not be corrected in a timely manner.

Cause: The District has developed an internal control framework. While the District has implemented some of the processes, the District has not yet completed all the process related to the internal control framework.

Identification As A Repeat Finding: No

Recommendation: We recommend that the District continue to develop the processes within the internal control framework surrounding the year-end close process.

Views Of Responsible Officials And Planned Corrective Action: The District Finance Department will continue to develop processes within the internal framework surrounding the year-end close process to ensure payment applications for work performed during the fiscal year are accrued at year end. Specific to Construction Accounts Payable review and reconciliation, the District Finance Department will provide on-going training and implementation for the accrual process during year end. The approval, review and reconciliation of this process will also be documented in the internal control framework for the District's year end processes.

ADAMS/WELD SCHOOL DISTRICT 27J

SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED) For The Year Ended June 30, 2017

Section III - Federal Award Findings And Questioned Costs

There were no federal award findings or questioned costs for the year ended June 30, 2017.

CORRECTIVE ACTION PLAN For The Year Ended June 30, 2017

Finding 2017-001 – Construction Accounts Payable Review and Reconciliation

Personnel Responsible for Corrective Action: CFO and Finance Director, Finance Department

Anticipated Completion Date: June 30, 2018

Corrective Action Plan: The District Finance Department will continue to develop processes within the internal framework surrounding the year-end close process to ensure payment applications for work performed during the fiscal year are accrued at year end. Specific to Construction Accounts Payable review and reconciliation, the District Finance Department will provide on-going training and implementation for the accrual process during year end. The approval, review and reconciliation of this process will also be documented in the internal control framework for the District's year end processes.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS For The Year Ended June 30, 2016

Finding 2016-001 – Financial Statement Review and Reconciliation

Summary of Prior Audit Finding: The District did not have a system of internal accounting control that will prevent, detect and correct errors in a timely manner related to financial reporting.

Initial Finding Reporting Year: 2016

Status: Corrective Action Plan Taken

SCHOOL DISTRICT 27J, COLORADO

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS June 30, 2017

NOTE 1: Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the Brighton School District 27J, Colorado and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the Uniform Guidance. Therefore, some amounts presented in this schedule may differ from amounts reported in, or used in the preparation of, the basic financial statements.

NOTE 2: <u>Non-Cash Assistance</u>

Commodities donated to the School District by the U.S. Department of Agriculture (USDA) are valued based on the June 2012 USDA's Donated Commodity Price List and by values provided by the USDA. The commodities are recognized as revenue and expenses when received. Commodity donations of \$439,561 were recorded as a federal source of school lunch revenue in the Food Service Fund. Commodity donations of \$439,561 were recorded as food and milk expenses in the Food Service Fund.

NOTE 3: Indirect Costs

The District has not elected to use the 10% de minimis indirect cost rate as allowed in the Uniform Guidance, section 414.
