Executive Limitation 3.C Treatment of Faculty/Staff/Volunteers

To:	Board of Education	
From:	Dr. Chris Fiedler, Superintendent of Scho	ools
Re:	Expectations of the Board Report – 3.C T	reatment of Faculty/Staff/Volunteers
Volunteer	present my expectations of the board report on ers, Executive Limitation 3.C, in accordance wit licy. I certify the information in this report is to	th the monitoring schedule as set forth in
	Cladh	
Signed:		Date: January 26, 2021
	Superintendent, School District 27J	

27J SCHOOLS GOVERNING POLICY OF THE BOARD OF EDUCATION

Policy 3.C – TREATMENT OF FACULTY/STAFF/ VOLUNTEERS

Date Adopted/Last Revised: Last Revised: June 25, 2013

Management Limitations

With respect to the treatment of faculty, staff and volunteers, the Superintendent will not cause or allow conditions that are unclear, unfair, unsafe, untimely, undignified or unnecessarily intrusive.

I interpret <u>faculty</u> as all persons with an appointment to the faculty with authorization granted by a statutory authority CRS §22-32-109(f) (I). The faculty consists of any person that holds a license or letter of authorization issued by the Colorado Department of Education.

I interpret <u>staff</u> as employees who perform a service under an express or implied agreement and who do not have control, or the right to control, over the manner and means of performing the services.

I interpret <u>volunteers</u> as people who perform acts for the benefit of a public entity at its request, who do not receive remuneration for their time and who are subject to its control. CRS $\S24-10-103(4)(a)$.

I interpret <u>conditions</u> as not creating personnel policies that are discriminatory or and not tolerating work environments that are hostile for our employees.

I interpret unclear as policies not being presented in an easy-to-understand manner.

I interpret <u>unfair</u> as any fraudulent, deceptive, or dishonest organizational practice that is prohibited by statute, regulation, or that would be considered as disparate treatment from previous practices.

I interpret <u>unsafe</u> as physical safety and how our work environments are free from harm, and how staff feels about being exposed to a threatening situation in their work environment.

I interpret <u>untimely</u> as a manner in which information presented conflicts with the need of the end user.

I interpret <u>undignified</u> as not respecting our employees and volunteers and not treating them in a professional manner.

I interpret <u>unnecessarily intrusive</u> as probing into the personal life of an employee or volunteer without just cause. Reasonableness would encompass workplace monitoring, internet privacy, data collection, and other means of gathering information.

Data Reported

Multiple data sources indicate that 27J Schools faculty, staff, and volunteers are generally satisfied with their working conditions in the District.

27J Human Resources and Student Achievement administered surveys to all staff in the fall of 2020. These surveys included a survey to substitutes, and a survey to regular staff.

The current 27J survey to regular staff (included in this report) is based on work by 27J Student Achievement. The survey works on a 4 point scale, an answer choice of 1 equals "Strongly Disagree" to the question, 2 equals "Disagree", 3 equals "Agree" and 4 equals "Strongly Agree". The data provide scale averages across categories that will be used as baselines for future survey data.

Student Achievement used the work of Cornell University researchers Seung Cheon Bang and Jaewoo Kim related to High Performing Organizations (HPO) to create the survey. The survey categories include (1) clear vision/focus; (2) clear, strong, meaningful values; (3) shared sense of community/commitment; (4) engagement/empowerment; (5) transparency, openness, trust, honesty; (6) performance driven. The categories describe elements of an HPO – elements that are of interest to 27J leaders, and we hope, the Board. The categories speak to a work environment framed by our work for our students and provide a lens on how staff members see themselves in the work context. The data have been presented to principals and executive leadership for use.

Multiple data sources indicate that our faculty, staff, substitutes, and volunteers are generally satisfied in the District, and it is therefore reasonable to infer that they do not feel that they have been treated in a manner that is unclear, unfair, untimely, undignified or unnecessarily intrusive. As for safety, the District and the Colorado Department of Education tracks and conducts background checks for all employees who work in the District.

Conclusion: I report compliance.

Pertaining to faculty and staff, the Superintendent will not:

- 1. Operate without ensuring faculty and staff members are provided with written personnel policies, approved by legal counsel, which clarify personnel rules for faculty and staff, provide for effective handling of grievances, and protect against wrongful conditions.
 - a) Faculty and staff may not be uninformed of this policy, and the Superintendent's interpretations of their protections under this policy.

I interpret <u>faculty and staff</u> as those employees who have entered into an express contract governing the employment relationship, and those who are covered under a union collective bargaining agreement.

I interpret <u>provided with written personnel policies</u> to be that the employee has knowledge of and access to Board of Education and Superintendent of Schools polices that affect their employment.

Data Reported

CHRO reports that Superintendent Policy, Section G – Personnel, is available to all staff at their respective work sites as well as on the District web page. Master Agreements for certified and classified employees are posted internally on the District's HR webpage, which are accessible by all employees. Superintendent Policy, Section G - Personnel, as well as all other sections, are reviewed on an ongoing basis through the Executive Leadership.

Policy changes, additions, or deletions go before this group and they, in turn, make recommendations to the Superintendent. This process enables any and all policies that come before the Executive Leadership to be reviewed by staff and reviewed and approved.

The grievance process is outlined in the certified and classified Master Agreements and allows for a clearly defined process to be followed in the event of grievances. The one-year administrator contract indicates that due process is to be followed when disputes arise. All four documents are models of best practice in education and business settings.

Protection against harmful working conditions can be found in Superintendent Policy, Sections E and F, which include Safety and Security and Facility Development. In addition, Superintendent Policy, Section G - Personnel, protects against harmful working conditions in areas such as the hiring and evaluation process.

Human Resources presented an executive summary to all Administrators and Supervisors on Master Agreement contract changes each year once the Master Agreement was ratified. Future changes will be disseminated in a similar manner.

Conclusion: I report compliance.

Pertaining to faculty and staff, the Superintendent will not:

- 1. Retaliate against any faculty or staff member for non-disruptive, internal expression of dissent, or for reporting to management or to the Board of Education (per the grievance process in the personnel manual) acts or omissions by faculty, staff or the Board of Education that the employee believes, in good faith and based on credible information, constitutes a violation of state or federal law or a governing policy of the Board.
- a) Faculty and staff members may not be prevented from grieving to the Board when (I) internal grievance procedures have been exhausted and (ii) the employee alleges that Board policy has been violated.

I interpret <u>retaliate</u> to be an adverse action taken in response to a protected activity of an employee within the realm of his/her professional responsibilities.

I interpret <u>personnel manual</u> as those Board of Education and Superintendent of School policies that dictate specific areas of responsibility on behalf of both the organization as well as the employee.

I interpret <u>acts or omissions by faculty, staff or the Board of Education that the employee</u> <u>believes, in good faith and based on credible information, constitutes a violation of state or federal law or a governing policy of the Board</u> as standards and procedures that are reasonably capable of reducing the prospect of criminal conduct by employees or persons associated with 27J Schools.

Data Reported

Our Master Agreements detail clearly defined grievance procedures. Supervisors are trained on grievance and due process procedures on an annual basis as a part of pre-service trainings. When issues arise, meetings are facilitated by Human Resources staff with our administrative employees to hear and resolve due process issues.

There has been no allegations during this reporting cycle that the grievance process is not being followed. There were no appeals to the Superintendent and/or the Board of Education regarding violations of due process.

As impermissible as it is to restrict a district employee's right to speak on a matter of public concern, it is equally impermissible to retaliate against that employee when he or she does so. No grievances related to retaliation in the workplace have been filed in the past 12 months.

During School Year 2019-2020, there were zero reported incidents to the Board, the Superintendent, BEA, or CCSEA by employees expressing a fear of reprisal for stating their views in a non-disruptive manner. One former employee filed a claim of retaliation with the EEOC.

Personnel Rules

Frequently collective bargaining agreements contain specific timelines and other requirements that are more burdensome than statutory requirements. Below is a list of current policies that are in place. These provide a consistent internal process that, in the best interests of both the employee and the employer, ensure legitimate treatment of employees. These policies are compliant with state and federal statutes.

Master Agreements – BEA and CCSEA

We do not currently have a specific "whistle blower" policy in place that directly relates to not allowing retaliation. However, a number of policies contain language that prohibits retaliation for reporting potentially dangerous or offensive actions.

Conclusion: I report compliance.

The Superintendent shall not:

1. Allow faculty, staff and volunteers to be unprepared to deal with emergency situations.

I interpret unprepared to deal with emergency situations as not possessing knowledge of professional responsibilities and/or knowledge of the information necessary to protect the health and safety of students or other individuals in the event of unpredictable or unavoidable occurrences.

Data Reported

Faculty and Staff

The District complies with the requirements of the School Safety Act, Colorado Revised Statute 22-32-109.1(4) (4) "School response framework - school safety, readiness, and incident management plan." Training is an important element of the regulations. Principals are responsible for ensuring that all staff members in their schools view site-specific safety and security training presentations at the beginning of each school year. Due to the recent COVID-19 pandemic training has looked slightly different based on size of school and cohorts. Trainings have been conducted virtually by Google Meet or Zoom by school safety teams or the District Emergency Response and Crisis Specialist. Presentations include Standard Response Protocol training for Lockdown, Secure (Lockout), Shelter, Evacuate, and Hold and also cover the school's emergency operation plan, Safe2Tell, physical security and systems, and updates on new requirements.

For district staff, the Emergency Response & Crisis Specialist maintains Employee Emergency Guides for these buildings: Educational Services Center, Nutrition, Transportation and the Brighton Learning and Resource Center, as well as a general kitchen employee version for school-based Nutrition employees.

School personnel practice the Standard Response Protocols for different hazards by participating in school emergency drills. Schools are required to conduct monthly fire drills plus a Shelter for Hazmat drill in the fall, a Shelter for Tornado drill in the spring, and Lockout and Lockdown drills each semester. Given the limited access to schools from outside agencies the district strongly encouraged police involvement in Lockdown drills by way of virtual meetings with administration teams and school staff.

The Annual All School Drill held in the Fall was cancelled due to COVID-19. However, local law enforcement and the district administration collaborated in a video production of the Standard Response Protocols as a public address announcement scheduled to be released to the

school community by the end of the calendar year. Along with safety protocol messages, personal emergency messages were sent out across the district coming from local law enforcement, school officials, and district administrators thanks to the ongoing collaboration of the district and public safety agencies.

Monthly district wide radio bridging tests are conducted to ensure the SchoolSafe interoperability equipment is functional at all campuses. This fall the SchoolSAFE software was updated to provide users greater security and access to the server from anywhere. In addition to the software all radios at the high school level were programed to have a telemetry button that allows quick access to bridge to the district emergency radio during an emergency.

School Emergency Response Team (SERT) members and designated District Emergency Response Team (DERT) members are required to complete FEMA's online Introduction to Incident Command Training module. Members of emergency teams will also be required to further enhance their training and knowledge of the FEMA Emergency Management by completing IS-362.a Multi-Hazard Emergency Planning for Schools.

Intervention Services takes the lead on threat assessment training in the Adams County protocol, with ongoing assistance from the Colorado School Safety Resource Center. Ongoing training opportunities are available to school threat assessment team members, other interested staff and our School Resource Officers.

Contracted school nurses under the SPED department are tasked with ensuring the school health paraprofessionals and two office back-ups are current in their First Aid, CPR and AED certifications. The nurses are also responsible for other SPED staff members that are required to be fully certified. Staff can take online training and then be tested in person with the nurses to complete their certifications. Several live sessions are also offered during the school year. In addition to these personnel, we must ensure a minimum of 10 per school are fully certified under grant commitments. Coaches also need to be certified, which is usually done by the high school athletic trainers, while middle schools plan joint training sessions with an outside trainer for their coaches. All custodians are certified every other year during a winter training session. 27J also promotes Hands Only CPR, AED and Control the Bleed training for staff and students.

Strong partnerships that benefit all employees continue with law enforcement, fire districts, EMS, city and county emergency management staff, emergency medical services, Safe2Tell staff and the Colorado School Safety Resource Center.

Volunteers

Volunteers during the school day are required to be processed and screened via Raptor. The district upgraded its Raptor system to Version 6 last fall, and provided schools with updated security computers and Raptor scanners and barcode readers. Volunteers for after school activities and overnight field trips are required to have information submitted to HR for a commercial background check. A narrated 27J volunteer training presentation is made available to schools in English and Spanish for them to show their volunteers.

Future Efforts

Many safety and security improvements are still underway with bond funding, and it has been challenging to ensure school staff are fully trained on new systems as they are commissioned during the school year. Additional technology support was added to the Operations and Construction Departments to assist with this effort.

Conclusion: I report compliance.
