

Special Populations

- Gifted and Talented - GT
4.92% of 27J identified at GT
- Culturally and Linguistically Diverse - CLD
14.1% of 27J identified as CLD
- Special Education - SPED
11.85% of 27J identified as eligible for special education services

Goal: Level the playing field for EVERY student.

Evidence: Formative assessments are used for EVERY student. All students are represented in state assessments. EVERY student is included in every metric on our 27J dashboard.

Learning Experiences: EVERY student has access to grade level content. All additional services are in **addition** to what every general education student is entitled to. CLD offers support of instruction in content areas and language development, coaching, and professional development. GT is chasing rich educational experiences for students with gifts and talents, while meeting their needs socially and academically with a strength-based approach.

Learning Environments: Various environments to meet individual needs including: co-taught classes, pull-out services, center programs, individual instruction and support, and an alternate location if the Special Education team determines necessity. CLD offers support of instruction in content areas and language development, coaching, and professional development.
