Forecast Purpose/Objectives

Ohio Department of Education's purposes/objectives for the five-year forecast are:

1. To engage the local board of education and the community in the long range planning and discussions of financial issues facing the school district.
2. To serve as a basis for determining the school district's ability to sign the certificate required by O.R.C. §5705.412, commonly known as the "412 certificate."
3. To provide a method for the Department of Education and Auditor of State to identify school districts with potential financial problems.

Forecast Methodology - This forecast is prepared based upon historical trends and current factors. This information is then extrapolated into estimates for subsequent years. The forecast variables can change multiple times throughout the fiscal year and while cash flow monitoring helps to identify unexpected variances no process is guaranteed. The intent is to provide the district's financial trend over time and a roadmap for decisions aimed at encouraging financial sustainability and stability.

Forecast Summary

Note: Cash balance includes any existing levy modeled as renewed during the forecast.
Cash balance is not reduced for encumbrances.

In FY 2021 a revenue surplus is expected. This means that expenditures are expected to be less than revenue by -\$4,917,641 in FY 2021. By the last year of the forecast, FY 2025, the district is expected to have a revenue shortfall where expenditures are projected to be greater than revenue by \$83,895,412. The district would need to cut its FY 2025 projected expenses by 12.70% in order to balance its budget without additional revenue.

The district's cash balance is positive at year-end in FY 2021 and is projected to worsen by FY 2025. A worsening cash balance can erode the district's financial stability over time.

1.035 - Unrestricted Grants-in-Aid

Funds received through the State Foundation Program with no restriction.

The FY 2019 per pupil and foundation revenue amount is the base aid amount used in FY 2021. In addition to its FY 2021 base funding amount of \$184,085,868 the district calculated FY 2021 categorical funding such as spec. ed., preschool, casino of \$5,616,062. Projected amounts less than the FY 2019 base indicate state budget cuts and other assumed change. For fiscal year 2022 - 2025, the district is projecting an average annual increase of 0.61% Note: Wellness funding is not included in these calculations.

Note: The District Educated ADM (Enrollment) is reported based on Total Adjusted ADM, less Career Tech, less Scholarship, less Community School, less Open Enrollment out, plus Open Enrollment in. This also does not include Preschool students being educated through other funding sources, such as Cincinnati Preschool Promise funds.

1.040 & 1.045 - Restricted Grants-in-Aid

Funds received through the State Foundation Program or other allocations that are restricted for specific purposes.

Restricted aid is the portion of state per pupil funding that must be classified as restricted use. Historically the district's restricted state aid changed annually on average by \$64,126 and is projected to change annually on average by \$4,200. Restricted funds represent 3.75% of total revenue.

In FY 2021, approximately 9.9% local residential property taxes will be reimbursed by the state in the form of rollback credits and approximately 2.2% will be reimbursed in the form of qualifying homestead exemption credits.

Note: Tangible Personal Property Tax reimbursements are being phased-out by the State.

Other sources includes revenue that is generally classified as non-operating. It is typically in the form of advances-in which are the repayment of temporary loans made from the general fund to other district funds. In FY 2020 the district received \$3,100,000 as advances-in and is projecting advances of \$9,262,000 in FY 2021. The district also receives other financing sources such as refund of prior year expenditures in this category. The district is projecting that all other financing sources will be \$9,494,532 in FY 2021 and average \$6,494,532 annually through FY 2025.

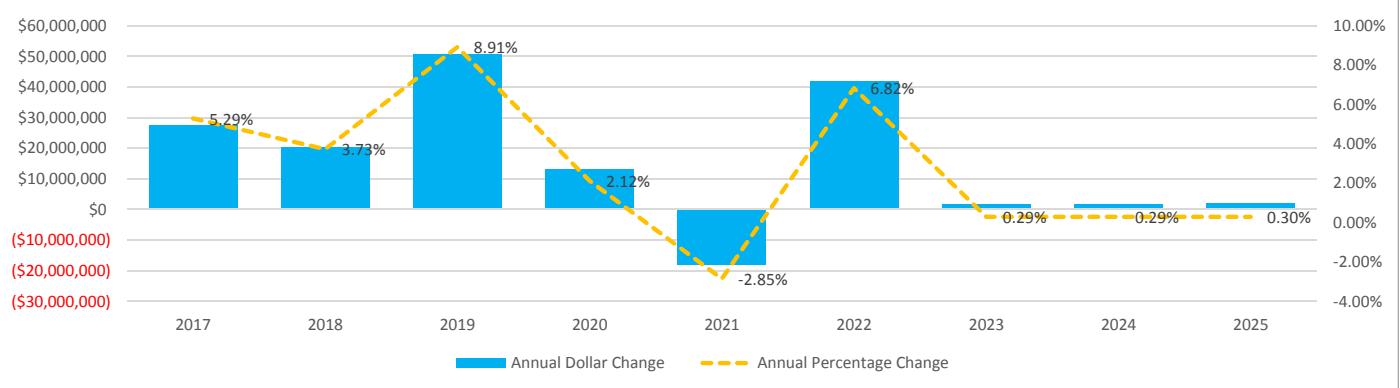

Note: Advances In are the repayment of temporary loans made near fiscal year end while grant funds await reimbursement. These amounts fluctuate from year to year based on the timing of state reimbursements but are offset by previous Advances Out. Other Financing Sources also includes Bureau of Workers Compensation (BWC) rebates which were higher in FY2021 and E-rate Reimbursements. Historical note: Transfers In (and an equal offset within Transfers Out) were recorded to allocate expenditures related to Cincinnati Preschool Promise Tuition Assistance to a unique Special Cost Center (SCC) for tracking within the General Fund. For FY2021 and going forward, an expenditure adjustment will be recorded between SCC's, thus eliminating this transfer component.
