

A Call to Action

Cincinnati Public Schools has produced a tremendous number of graduates who have gone on to exemplify the characteristics of being organized, respectful, and educated. The goal of the African-American Male Initiative and the We Need M.O.R.E. (Men Organized, Respectful and Educated) campaign is to increase that talent pool. This vision is possible if we have support from our community.

Please tell us how you/your organization can support the work of the African-American Male Initiative to address the unique challenges of at-risk males in our schools.

- I will provide programming/support in the following focus area(s):
 - Social Skills Development
 - Academic Achievement
 - College and Career Awareness
