

# HENSON TESTING SCHEDULE AND INFORMATION

Starting next month, Henson will officially be in the testing season. The specific dates for subjects and grade level assessments are listed below.

- **Science MISA (8<sup>th</sup> grade only): March 6-7 in during periods 1-3**
- **ELA MCAP (all grades): May 6-7 Whole School in the Morning**
- **Math MCAP (all grades): May 9-10 Whole School in the Morning**
- **Social Studies MCAP (8<sup>th</sup> grade only): May 22-23 in the Morning**
- **Reading iReady (Grades 6-7): May 22 in the Morning**
- **Math iReady (Grade 6-7): May 23 – May 23 in the Morning**

These assessments are required for each student and the data gained from them is very important for determining course placements, support programs, and enriching opportunities for each student. It is extremely important that students come to school on these dates with their charged computer and charger every day. *There is a very limited amount of loaner computers available for emergency situations.*

Make-up days for students that did not attend their scheduled testing session for any reason will take place the week after the listed dates. *Students will miss part of their normal school day during the make-up sessions, and they are responsible for any assigned work during that absence.*

If you have any questions, please email me. Have a great day!
