Hi Ray:

Here is pricing for all windows measured last week. The number of shades was considerably higher than originally thought, so we needed to submit to our contract division for pricing and were delayed a bit due to that reason. I apologize as we thought we might be able to do before your board meeting on the 13th.

Please review this quote, it is based on the most cost efficient fabric and most shades have the basic cord clutch control. We only changed out to power for the upper windows in Library area, as those most definitely should be power, too high for cord control regulations in the state of CA.. One remote control is included. Please let me know if I may answer any questions for you. Installation is included in this quote, however, if it required a Saturday installation we would add a surcharge of \$500.00 to the quoted price.

Thank you Ray, for your time last Thursday. It was so nice meeting you and we look forward to the opportunity of working with you and San Pasquale Elementary!

Take care,

Marti
