

Art Room Update

JANUARY 2024

WHAT HAVE WE BEEN WORKING ON?

4PK: Improving our coloring skills, practicing circles, and making mice out of shapes!

K: Reading **Not a Stick** and using our imagination; designing our own unique cupcake and creating it out of Model Magic!

1: Practicing our drawing skills, reading **Oddbird** and designing our own birds on paper, then sculpting with Model Magic!

2: Using Model Magic, cardboard, construction paper, beads, shells, feathers, glue and paint to complete house scenes; and practicing our drawing skills.

FINE MOTOR WORK

Did you know that using clothespins, hole punchers, spray bottles, play dough, rubber bands, and sponges can all help students to improve their hand strength?

Building hand strength can help students find more success with writing, coloring, scissor skills, opening snack wrappers, tying shoes, buttoning and zipping.

Click the picture below to get some easy ideas for building hand strength at home!
