1. Students are prohibited from using personal technology to violate a student conduct policy including, but not limited to, policies on cheating and bullying while on school property or at a school-sponsored event;

2. Students are prohibited from using personal technology to photograph or video record any person during the school day. Building principals are authorized to make exceptions to this rule for bona fide classroom activities and in accordance with the “exceptions” section of this policy;

### **Classroom Use**

If allowed by the building principal, classroom teachers may prohibit possession and/or use of personal technology in the classroom.

If allowed by building principal, teachers may alternatively establish rules related to use of personal technology in the classroom. These rules:

1. Shall comply with this and other student conduct policies;
2. Shall take into account the ages of the students;
3. Shall take into account the availability of district-owned technology for student use;
4. Shall take into account the extent to which personal technology use would disproportionately grant students who have access to it an unfair advantage over those who do not;
5. Shall address cheating and disruptive use of personal technology; and
6. Shall be approved by the building principal prior to implementation.

### **Use During the School Day Outside Classroom**

Elementary students are prohibited from using personal technology during lunch and recess unless granted an exception by the building principal or classroom teacher.

Middle school and high school principals shall establish rules regarding student use of personal technology during lunch, break periods, and study hall.

### **Disciplinary Consequences & Confiscation**

Students in violation of any portion of this policy may be subject to disciplinary action in accordance with the district's student conduct policies. In addition, teachers may confiscate personal technology when a student is reasonably suspected of using it to violate this policy or classroom rules. Teachers may keep the personal technology until the end of class or turn it over to the building principal for further action. Teachers shall make this determination based on the severity of the suspected offense. Under no circumstances shall a teacher or ancillary staff member search personal technology.

The building principal shall determine how long to keep confiscated personal technology based on the following criteria:

1. The nature of the offense; if illegal activity is suspected, the administrator shall contact law enforcement, the Superintendent, and retain the device until further directed by law enforcement or the Superintendent;
2. If the confiscated item is a phone, the principal should consider if the student walks or drives to and from school and potential safety considerations associated with not having the phone in the student's possession; and
3. Other considerations of significance based on the nature of the device confiscated and the student's disciplinary history.

### **Searches of Personal Technology**

The building principal or Superintendent is authorized to search a student's personal technology only when they have reasonable suspicion that the device contains evidence of wrongdoing by a student or potential harm to self or others. Only areas of the device reasonably related in scope to the purpose of the search will be subject to a search (e.g., if a student is texting inappropriate photos, only the device's text messages will be searched). The building principal and Superintendent are authorized to contact legal counsel to help determine the appropriate scope of the search.

If the building principal or Superintendent suspects or finds that a student's personal technology contains content that violates NDCC 12.1-27.1-03.3 or other laws, they shall contact law enforcement. Under no circumstances shall school officials download or transfer sexually explicit content from a student's personal technology. Law enforcement, including school resource officers, must have probable cause to search the device, preferably in the form of a search warrant.

### **Exceptions**

The Superintendent and/or designee is authorized to make exceptions to the prohibitions set forth in this policy for health, safety, or emergency reasons, for students in attendance as active members of a volunteer firefighting organization or volunteer emergency medical service organization, and when use of electronic devices is provided for in a student's Individualized Education Program (IEP)/504's.

Students are encouraged to use any available cellular telephone in the event of an emergency that threatens the safety of students, staff, or other individuals.
