# STEM Learning in San Diego

The San Diego County Office of Education, Math Science Partnership Grant, STEM Learning in San Diego, is recruiting science and mathematics classroom teachers in grades 6-11. The purpose of this three-year grant is to help teachers deepen their content knowledge and strengthen instructional strategies in support of the Next Generation Science Standards and the California Mathematics Standards. Teachers will engage in authentic STEM learning experiences that will help them design, deliver and evaluate quality STEM performance tasks for middle and high school students. Professional development will focus on the use of science and mathematical practices to develop interdisciplinary STEM units.

Middle and high school science and math teacher-teams are strongly encouraged to apply for this grant. Priority will be given to school math-science teams.

Participants must agree to participate in the grant program for three years. They must commit to 60 hours of intensive professional development (summer institute) and 24 hours of classroom followup each year. Teachers will be paid workshop rate for the summer institute. Substitute costs for follow up activities during the school year will be paid by the grant. The project will begin in January 2016, with the first summer institute in the summer of 2016.

Teachers will work with scientists, mathematicians, and graduate students from the Scripps Institution of Oceanography as well as other science, mathematics, engineering and technology partners to deepen understanding of the Science and Engineering Practices and Standards for Mathematical Practice. These interactions will provide teachers with new pedagogical skills and STEM content to support STEM learning for grade 6-11 students. Throughout the project, teachers will use and apply technology to their own learning and to the work of their students. In the third year of the grant, participants will engage in leadership activities to support the expansion of STEM programs and activities at their schools.

Course credit will be available through UCSD Extension. Additionally, participation in professional development activities may be applied toward No Child Left Behind High, Objective, Uniform State Standard of Evaluation or HOUSSE certification.

Prior to participating in the program, please consider all aspects of the program, including your ability to commit to:

- 1. 60 hours of summer/intensive professional development in each year: 2016, 2017, and

Ms. Shannon Hargrave Superintendent/Principal San Pasqual Union Elementary School 15305 Rockwood Road Escondido, CA 92027

Dear Shannon,

This letter is to inform you that I am resigning from San Pasqual Union Elementary School due to personal matters. My last day at the school will be Friday September 11, 2015.

I have enjoyed the previous 15 years working or volunteering at the school and I am sure I will miss the friendships and relationships I have had the privilege of developing over that time. However, it is time to move closer to my children and grandchildren in Colorado.

Once I have a permanent forwarding address, I will provide that.

Thank you for the opportunity to serve the children of the San Pasqual Valley.

Sincerely

Jody Braxel

Dear Governing Board of San Pasqual,

As of August 10, 2015, I will be resigning from the school district. I want to take this opportunity to thank the school district and its employees for the past 14 years. I have learned so much and wish the best to everyone.

Sincerely,

M Hells
