

## **Exit Interview Questionnaire**

Employees will be asked to complete a voluntary online exit interview questionnaire following notification of resignation or retirement from Fargo Public Schools. Online exit interview questionnaires will be used to gather information related to the individual's experience during the course of their employment with Fargo Public Schools. Data collected will be used to identify trends, better understand the experiences of those working for the district and determine areas for improvement.

Employees that retire from the district will also be provided an opportunity to engage in an exit interview.
