

Johnson County School System Family Resource Center
Serving families of the Johnson County School District

What is the Family Resource Center?

The Family Resource Center is a center within the Johnson County School System (a support hub) that provides services to strengthen families' abilities to support academic and life success of all students.

Assisting Families in Need:

In order to assist families in need, the FRC has the following items on hand:

- Laundry supplies
- Hygiene products
- Household cleaning supplies
- School supplies

The FRC will make referrals and help with access to other services such as:

- Food
- Clothing
- Mental health issues
- Behavioral issues
- Academic tutoring

The FRC can also assist families with school-age children who live in our district and are experiencing homelessness. We can help families with:

- Completing homeless paperwork that will assist in getting school supplies for your child
- Referrals for food and clothing
- All other services mentioned

Partnerships

The FRC encourages family-school-community partnerships because we know that schools, families, and communities all contribute to overall student success. The best results come when all three work together. The FRC supports the success of every student and helps parents and caregivers in every effort to promote learning and successful child development.
