

CARL SANDBURG MIDDLE SCHOOL

(CURRENTLY CARL SANDBURG JUNIOR HIGH SCHOOL)

> Proposed Improvements

- Improve accessibility
- Install LED lighting
- Update certain flooring, ceilings, cabinets & furniture
- Upgrade HVAC
- Update plumbing
- Add security cameras
- Improve parking lot/traffic flow
- Repair sidewalks & masonry
- Improve track
- Add/improve science labs/STEM
- Add/renovate restrooms
- Update library
- Improve gym lighting/flooring

> Preliminary Concept Plan Carl Sandburg Middle School Renovations

> Proposed District Facility & Site Improvements

Improvements to District 15 school buildings include updated mechanical systems, library upgrades, improvements to existing classrooms, new instructional spaces, and more.

Updated Mechanicals & Infrastructure

Current

Future

Roofing, plumbing, HVAC systems, and related upgrades would be addressed districtwide.

New Flooring, Ceilings & Related Improvements

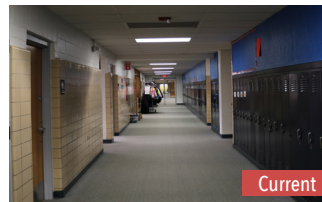

Current

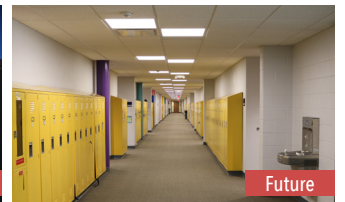

Future

Learning space improvements include new flooring, ceilings, cabinets, furniture, and lockers.

Energy Efficiency Upgrades

Current

Future

New LED lighting and other energy efficiency upgrades.

Site Improvements

Current

Future

Site improvements include parking, masonry, concrete and asphalt repairs, updated playgrounds, and traffic flow upgrades to improve safety.

> Proposed Feeder Pattern

The proposal calls for all students attending Kimball Hill Elementary School and Willow Bend Elementary School to feed into Carl Sandburg Middle School and then on to Rolling Meadows High School instead of splitting up to attend multiple schools.

To learn more about the proposed plan, please scan the QR code or visit the website www.ccsd15.net/Moving15Forward.

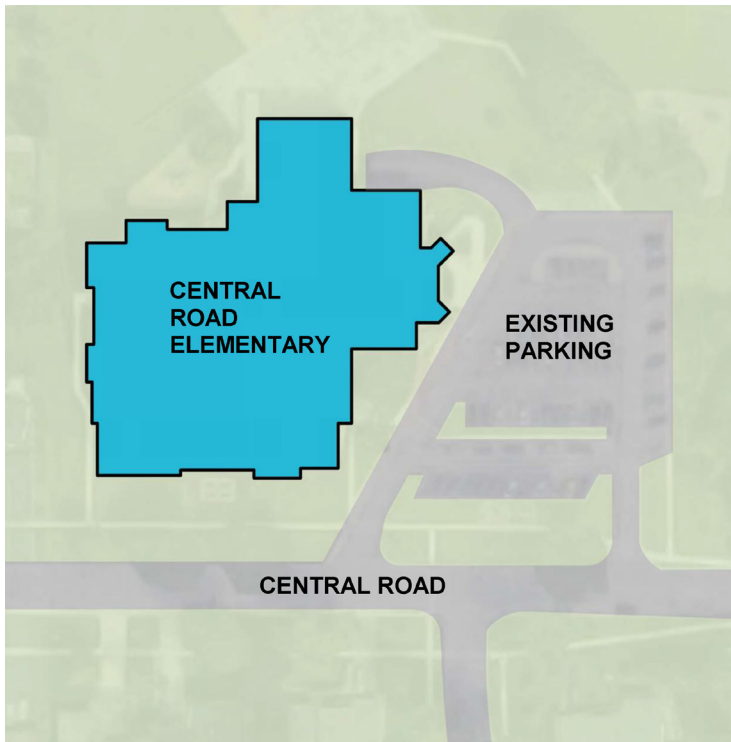

CENTRAL ROAD ELEMENTARY SCHOOL

> Proposed Improvements

- Improve accessibility
- Install LED lighting
- Update certain flooring, ceilings, cabinets & furniture
- Update plumbing
- Add security cameras
- Improve parking lot
- Repair sidewalks & masonry
- Improve playground
- Add/reconfigure space for full-day kindergarten
- Add/renovate restrooms
- Update library
- Improve gym lighting/flooring

> Preliminary Concept Plan Central Road Elementary School Renovations

> Proposed Feeder Pattern

The current proposal calls for all students attending Central Road, Hunting Ridge, Pleasant Hill, and Stuart R. Paddock Elementary Schools to feed into Plum Grove Middle School and then on to Fremd High School instead of splitting up to multiple schools.

> Proposed District Facility & Site Improvements

Improvements to District 15 school buildings include updated mechanical systems, library upgrades, improvements to existing classrooms, new instructional spaces, and more.

Updated Mechanicals & Infrastructure

Current

Future

Roofing, plumbing, HVAC systems, and related upgrades would be addressed districtwide.

New Flooring, Ceilings & Related Improvements

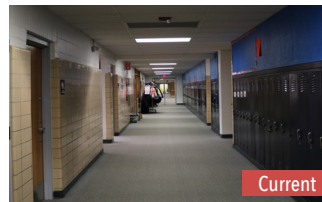

Current

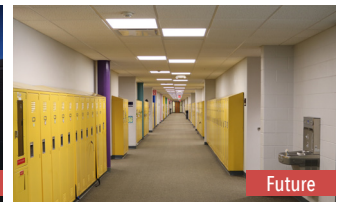

Future

Learning space improvements include new flooring, ceilings, cabinets, furniture, and lockers.

Energy Efficiency Upgrades

Current

Future

New LED lighting and other energy efficiency upgrades.

Site Improvements

Current

Future

Site improvements include parking, masonry, concrete and asphalt repairs, updated playgrounds, and traffic flow upgrades to improve safety.

JOHN G. CONYERS LEARNING ACADEMY

> Proposed Improvements

- Improve accessibility
- Upgrade HVAC
- Update library
- Install LED lighting
- Update plumbing
- Improve gym lighting/flooring
- Update certain flooring, ceilings, cabinets & furniture
- Add security cameras
- Repair sidewalks & masonry

> Preliminary Concept Plan

John G. Conyers Elementary School Renovations

John G. Conyers Learning Academy (CLA) is an Early Childhood Center and Public Therapeutic Day School. Programs provided to qualifying students include early learning services as well as support for students with academic, physical, and emotional learning needs who require more support than what is provided at our other District 15 schools.

> Proposed District Facility & Site Improvements

Improvements to District 15 school buildings include updated mechanical systems, library upgrades, improvements to existing classrooms, new instructional spaces, and more.

Updated Mechanicals & Infrastructure

Current

Future

Roofing, plumbing, HVAC systems, and related upgrades would be addressed districtwide.

New Flooring, Ceilings & Related Improvements

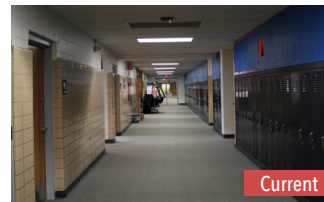

Current

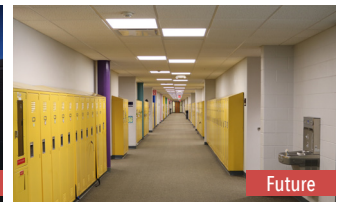

Future

Learning space improvements include new flooring, ceilings, cabinets, furniture, and lockers.

Energy Efficiency Upgrades

Current

Future

New LED lighting and other energy efficiency upgrades.

Site Improvements

Current

Future

Site improvements include parking, masonry, concrete and asphalt repairs, updated playgrounds, and traffic flow upgrades to improve safety.

To learn more about the proposed plan, please scan the QR code or visit the website www.ccsd15.net/Moving15Forward.

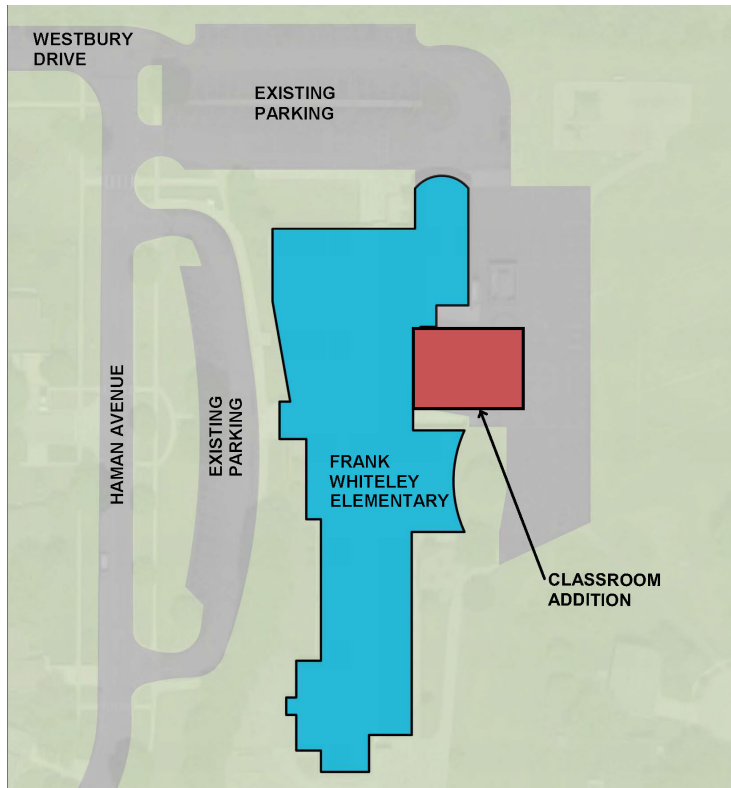

FRANK C. WHITELEY ELEMENTARY SCHOOL

> Proposed Improvements

- Improve accessibility
- Install LED lighting
- Update certain flooring, ceilings, cabinets & furniture
- Upgrade HVAC
- Update plumbing
- Replace aging roofing
- Add security cameras
- Improve parking lot
- Repair sidewalks & masonry
- Improve playground
- Add 6 classrooms
- Add/reconfigure space for full-day kindergarten
- Add/renovate restrooms
- Update library
- Improve gym lighting/flooring

> Preliminary Concept Plan

Frank C. Whiteley Elementary School Renovations & Addition

> Proposed District Facility & Site Improvements

Improvements to District 15 school buildings include updated mechanical systems, library upgrades, improvements to existing classrooms, new instructional spaces, and more.

Updated Mechanicals & Infrastructure

Current

Future

Roofing, plumbing, HVAC systems, and related upgrades would be addressed districtwide.

New Flooring, Ceilings & Related Improvements

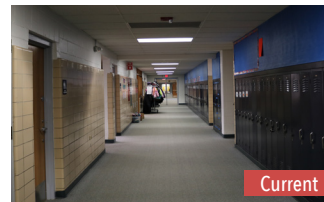

Current

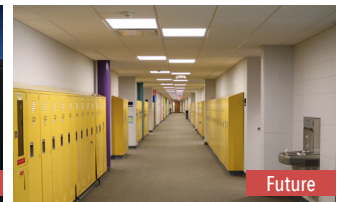

Future

Learning space improvements include new flooring, ceilings, cabinets, furniture, and lockers.

Energy Efficiency Upgrades

Current

Future

New LED lighting and other energy efficiency upgrades.

Site Improvements

Current

Future

Site improvements include parking, masonry, concrete and asphalt repairs, updated playgrounds, and traffic flow upgrades to improve safety.

> Proposed Feeder Pattern

The current proposal calls for all students attending Frank C. Whiteley Elementary School and Marion Jordan Elementary School to feed into Thomas Jefferson Middle School and then on to Fremd High School instead of splitting up to multiple schools.

GRAY M. SANBORN ELEMENTARY SCHOOL

> Proposed Improvements

- Improve accessibility
- Install LED lighting
- Update certain flooring, ceilings, cabinets & furniture
- Update plumbing
- Replace aging roofing
- Add security cameras
- Improve parking lot
- Repair sidewalks & masonry
- Improve playground
- Add 4 classrooms
- Add/reconfigure space for full-day kindergarten
- Improve gym lighting/flooring

> Preliminary Concept Plan

Gray M. Sanborn Elementary School Renovations & Addition

> Proposed District Facility & Site Improvements

Improvements to District 15 school buildings include updated mechanical systems, library upgrades, improvements to existing classrooms, new instructional spaces, and more.

Updated Mechanicals & Infrastructure

Current

Future

Roofing, plumbing, HVAC systems, and related upgrades would be addressed districtwide.

New Flooring, Ceilings & Related Improvements

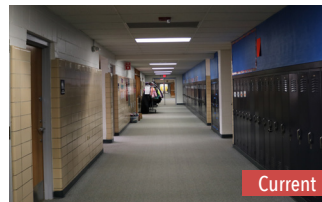

Current

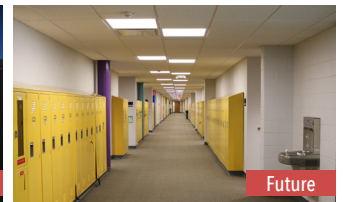

Future

Learning space improvements include new flooring, ceilings, cabinets, furniture, and lockers.

Energy Efficiency Upgrades

Current

Future

New LED lighting and other energy efficiency upgrades.

Site Improvements

Current

Future

Site improvements include parking, masonry, concrete and asphalt repairs, updated playgrounds, and traffic flow upgrades to improve safety.

> Proposed Feeder Pattern

Gray M. Sanborn ES
K-5

Lincoln ES
K-5

Walter R. Sundling MS
6-8

Palatine HS

The current proposal calls for all students attending Gray M. Sanborn Elementary School and Lincoln Elementary School to feed into Walter R. Sundling Middle School and then on to Palatine High School instead of splitting up to multiple schools.

To learn more about the proposed plan, please scan the QR code or visit the website www.ccsd15.net/Moving15Forward.

HUNTING RIDGE ELEMENTARY SCHOOL

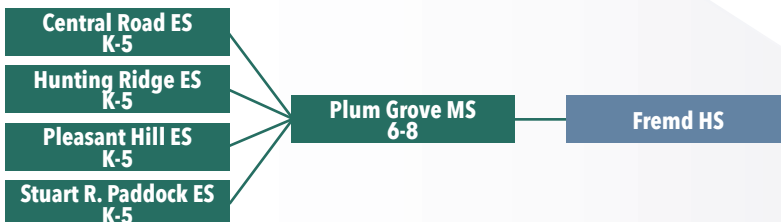

> Proposed Improvements

- Improve accessibility
- Install LED lighting
- Update certain flooring, ceilings, cabinets & furniture
- Upgrade HVAC
- Update plumbing
- Add security cameras
- Improve parking lot
- Repair sidewalks & masonry
- Improve playground
- Reconfigure classrooms
- Add/reconfigure space for full-day kindergarten
- Add/renovate restrooms
- Update library
- Improve gym lighting/flooring

> Preliminary Concept Plan Hunting Ridge Elementary School Renovations

> Proposed Feeder Pattern

The current proposal calls for all students attending Hunting Ridge, Central Road, Pleasant Hill, and Stuart R. Paddock Elementary Schools to feed into Plum Grove Middle School and then on to Fremd High School instead of splitting up to multiple schools.

> Proposed District Facility & Site Improvements

Improvements to District 15 school buildings include updated mechanical systems, library upgrades, improvements to existing classrooms, new instructional spaces, and more.

Updated Mechanicals & Infrastructure

Current

Future

Roofing, plumbing, HVAC systems, and related upgrades would be addressed districtwide.

New Flooring, Ceilings & Related Improvements

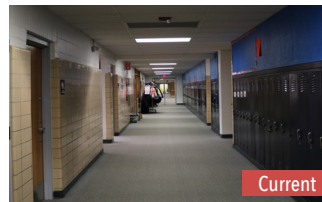

Current

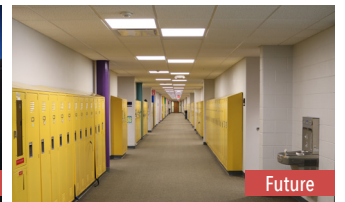

Future

Learning space improvements include new flooring, ceilings, cabinets, furniture, and lockers.

Energy Efficiency Upgrades

Current

Future

New LED lighting and other energy efficiency upgrades.

Site Improvements

Current

Future

Site improvements include parking, masonry, concrete and asphalt repairs, updated playgrounds, and traffic flow upgrades to improve safety.

To learn more about the proposed plan, please scan the QR code or visit the website www.ccsd15.net/Moving15Forward.

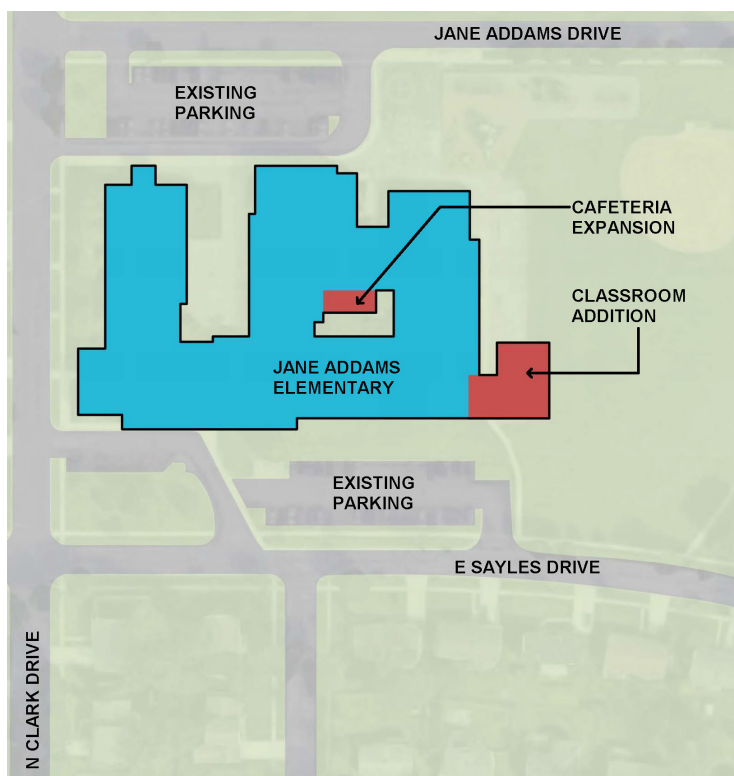

JANE ADDAMS ELEMENTARY SCHOOL

Proposed Improvements

- Improve accessibility
- Install LED lighting
- Update certain flooring, ceilings, cabinets & furniture
- Upgrade HVAC
- Update plumbing
- Add security cameras
- Improve parking lot
- Repair sidewalks & masonry
- Improve traffic flow
- Add 4 classrooms
- Add/Renovate Classrooms
- Add/reconfigure space for full-day kindergarten
- Renovate/expand cafeteria
- Update library
- Improve gym lighting/flooring

Preliminary Concept Plan

Jane Addams Elementary School Renovations & Additions

Proposed Feeder Pattern

The current proposal calls for all students attending Jane Addams, Lake Louise, and Virginia Lake Elementary Schools to feed into Winston Campus and then on to Palatine High School instead of splitting up to multiple schools.

Proposed District Facility & Site Improvements

Improvements to District 15 school buildings include updated mechanical systems, library upgrades, improvements to existing classrooms, new instructional spaces, and more.

Updated Mechanicals & Infrastructure

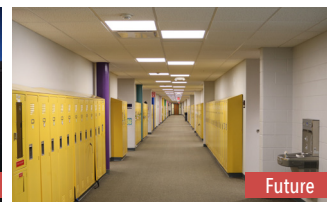

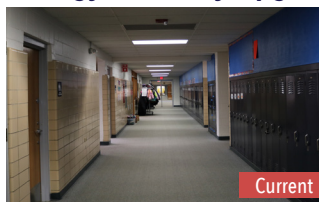

Roofing, plumbing, HVAC systems, and related upgrades would be addressed districtwide.

New Flooring, Ceilings & Related Improvements

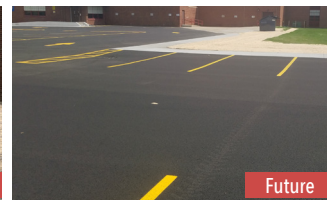

Learning space improvements include new flooring, ceilings, cabinets, furniture, and lockers.

Energy Efficiency Upgrades

New LED lighting and other energy efficiency upgrades.

Site Improvements

Site improvements include parking, masonry, concrete and asphalt repairs, updated playgrounds, and traffic flow upgrades to improve safety.

THOMAS JEFFERSON MIDDLE SCHOOL

(CURRENTLY THOMAS JEFFERSON ELEMENTARY SCHOOL)

> Proposed Improvements

- Improve accessibility
- Install LED lighting
- Update certain flooring, ceilings, cabinets, lockers, & furniture
- Upgrade HVAC
- Update plumbing
- Replace aging roofing
- Add security cameras
- Improve parking lot/ traffic flow
- Repair sidewalks & masonry
- Add track
- Add science labs/STEM
- Reconfigure classrooms
- Add/renovate restrooms
- Add multipurpose/ PE space
- Art/music space improvements
- Renovate/expand cafeteria
- Update library
- Improve gym lighting/flooring

The current proposal calls Thomas Jefferson Elementary School to be converted into a 6-8 middle school. Students who previously attended Thomas Jefferson would either attend Marion Jordan Elementary or Frank C. Whiteley Elementary. Students from these two schools would then come back together to attend Thomas Jefferson Middle School.

> Preliminary Concept Plan

Thomas Jefferson Middle School Renovations & Addition

> Proposed Feeder Pattern

Frank C. Whiteley ES
K-5

Marion Jordan ES
K-5

Thomas Jefferson MS
6-8

Fremd HS

The current proposal calls for all students attending Frank C. Whiteley Elementary School and Marion Jordan Elementary School to feed into Thomas Jefferson Middle School and then on to Fremd High School instead of splitting up to multiple schools.

> Proposed District Facility & Site Improvements

Improvements to District 15 school buildings include updated mechanical systems, library upgrades, improvements to existing classrooms, new instructional spaces, and more.

Updated Mechanicals & Infrastructure

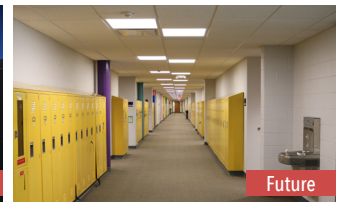

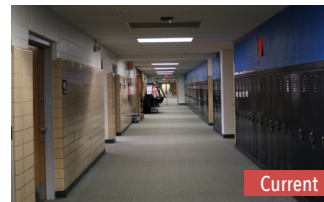

Roofing, plumbing, HVAC systems, and related upgrades would be addressed districtwide.

New Flooring, Ceilings & Related Improvements

Learning space improvements include new flooring, ceilings, cabinets, furniture, and lockers.

Energy Efficiency Upgrades

New LED lighting and other energy efficiency upgrades.

Site Improvements

Site improvements include parking, masonry, concrete and asphalt repairs, updated playgrounds, and traffic flow upgrades to improve safety.

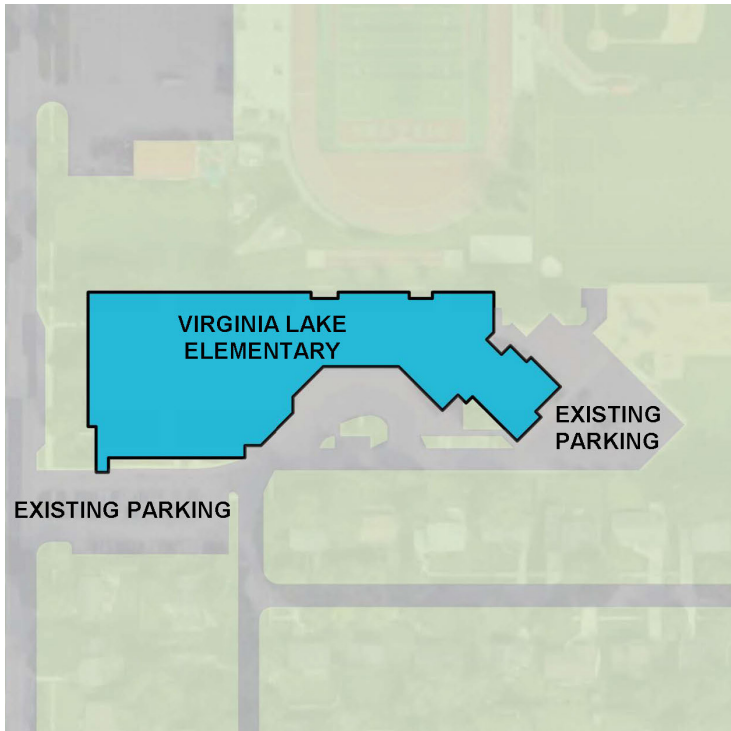

VIRGINIA LAKE ELEMENTARY SCHOOL

➤ Proposed Improvements

- Improve accessibility
- Install LED lighting
- Update certain flooring, ceilings, cabinets & furniture
- Upgrade HVAC
- Update plumbing
- Replace aging roofing
- Add security cameras
- Improve parking lot/traffic flow
- Repair sidewalks & masonry
- Improve playground
- Add/reconfigure space for full-day kindergarten
- Add/renovate restrooms
- Update library
- Improve gym lighting/flooring

➤ Preliminary Concept Plan Virginia Lake Elementary School Renovations

➤ Proposed Feeder Pattern

The current proposal calls for all students attending Virginia Lake, Jane Addams, and Lake Louise Elementary Schools to feed into the Winston Campus and then on to Palatine High School instead of splitting up to multiple schools.

➤ Proposed District Facility & Site Improvements

Improvements to District 15 school buildings include updated mechanical systems, library upgrades, improvements to existing classrooms, new instructional spaces, and more.

Updated Mechanicals & Infrastructure

Current

Future

Roofing, plumbing, HVAC systems, and related upgrades would be addressed districtwide.
