

Adventure Days

FRIDAY, FEB. 16
MONDAY, FEB. 19
TUESDAY, FEB. 20
8:30 AM - 12:30 PM
AND / OR 12:30 - 4:30 PM

Whether they are off from school or homeschooled, children in grades kindergarten through 5th are invited to come experience *Adventure Days*!

On Friday, February 16, come to see what animals are active on our campus in the wintertime! We will hike to the Botany Pond and Marsh to observe insects, newts, and maybe even beavers swimming under the ice.

On Monday, February 19, learn what it takes to survive in the winter! Learn about amazing animal adaptations that make it easy for them to brave the cold. We will take a hike to find tracks and build a survival shelter!

On Tuesday, February 20, learn about nocturnal animals such as owls and bats. Ever wonder what an owl's favorite snack is? We will dissect owl pellets to find out what they are hunting! And we will take a hike to find evidence of these animals.

All three days will be fun-filled and packed with exploring the great outdoors, and age-appropriate stories, games, and crafts.

***Pre-registration is required.**

***Please remember to pack a snack, lunch, and dress for the weather.**
