AIS STAFF ON THE LOOSE

Ms. Kyle, Ms. Briggs and Mr. Alex listen to their guide while on a tour [REDACTED]

With several holidays in the spring semester, many AIS staff members welcome visiting relatives by enjoying a cruise "up" the Nile from Luxor to Aswan.

Ms. Lenstra dazzles the Nile River cruise audience as she displays her "Egyptian" talent of belly dancing.

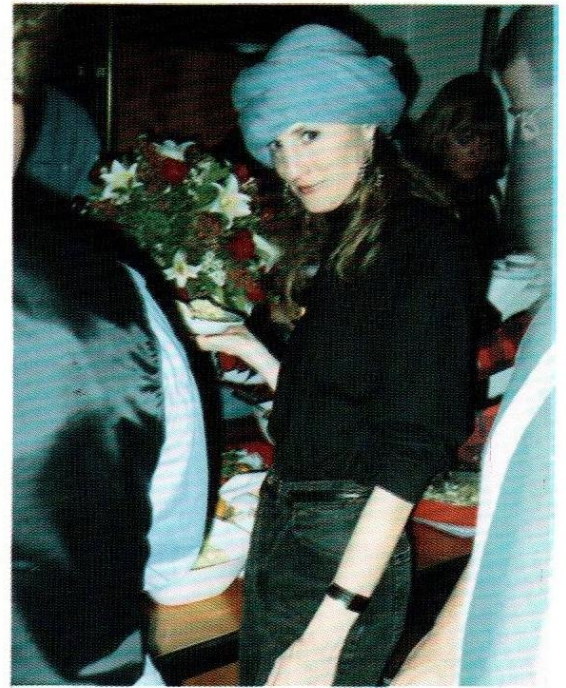

Upon completing their first 5K run, Ms. Jane Mc Gee and Ms. Sandy Hill stand triumphant, glad it's finally over!

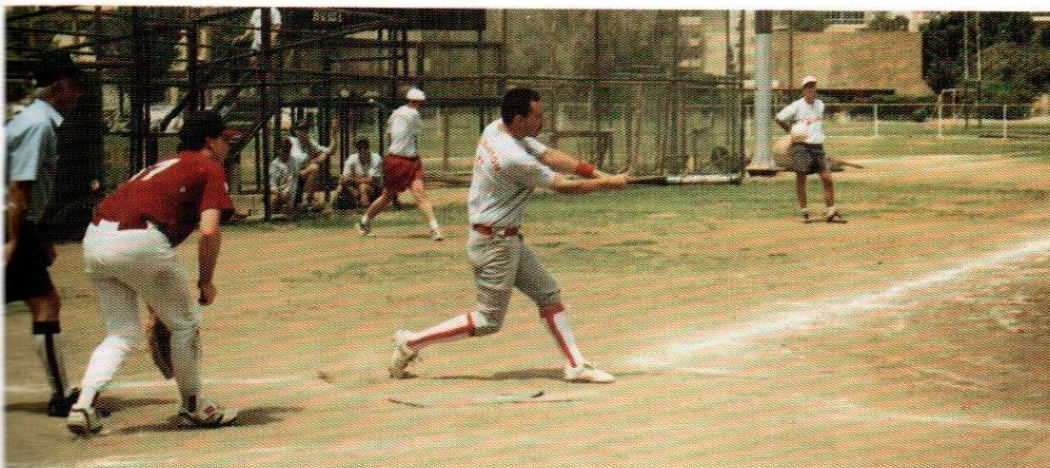

Mr. Hill adjusts his bow tie to impress his newly wedded wife, Mrs. Sandy Hill, as they are escorted down the street by an Egyptian band.

Mrs. Natasha Hungate must know something we don't, and she's keeping it hidden under her blue turban!:

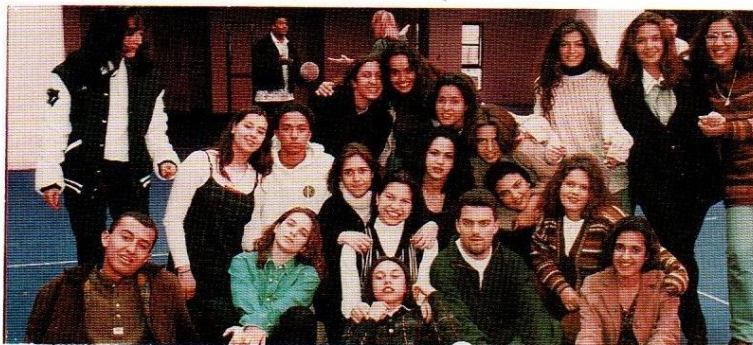

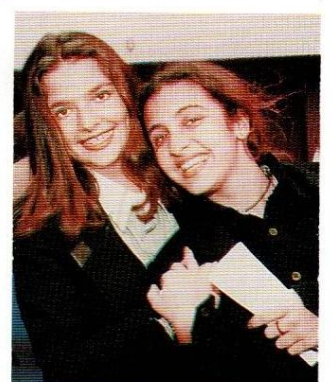

Ms. Laurie and Ms. McCartney smile as Mr. Atwood brags about his hair.

Mr. Fawcett releases his anxiety by getting a base hit during one of the men's softball games.

A New Beginning

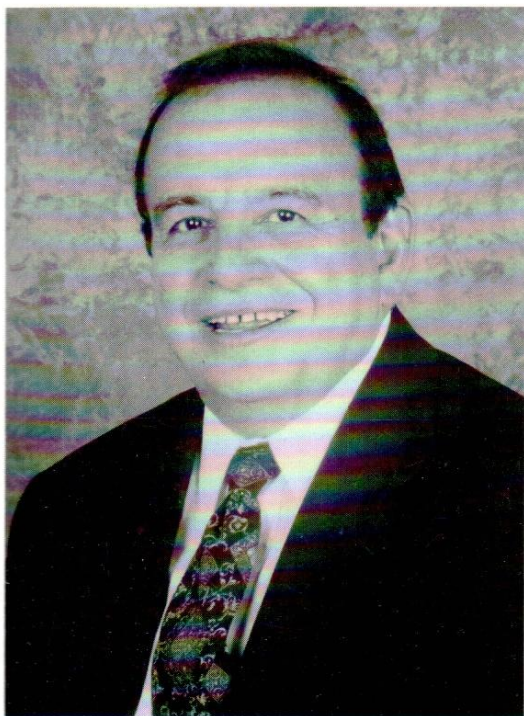

Mr. Walid Abushakra
Superintendent

Mrs. Nada Abushakra
Assistant to Superintendent

We are proud of our school, newly built this year on a new campus. A great deal of creative effort went into the planning for the school. We wanted the physical environment to be safe, stimulating, and inviting for all students. We wanted generosity of space that would enable our faculty to create an ambience for learning. Quickly, the new, bare classrooms changed and we noticed a sense of excitement as perspective teachers utilized the space to reinforce achievement. We are trying to build a model American school that offers a quality education to an international student body. Each year our school will improve. We will not be satisfied unless it does. I am now a superintendent of four schools: AIS in Egypt, in Cyprus with a boarding department, in Abu Dhabi and in Tabuk in Saudi Arabia. Other locations are on the planning board. I am pleased to be associated with each of these schools. I am particularly pleased with our school in Egypt. This is a strategic location. For centuries Egypt has been a center of learning. Today it is the center of the Arab, Islamic, and African world. Here we enjoy a rich culture and warm and friendly people who are intrinsically interested in the education of their children. I dedicate all my ability and time for the continuous progress of our school. AIS in Egypt will become the model we dream of. In my old age, I hope to see graduates of AIS sending their children here, knowing that our school will be positive influences on their lives.

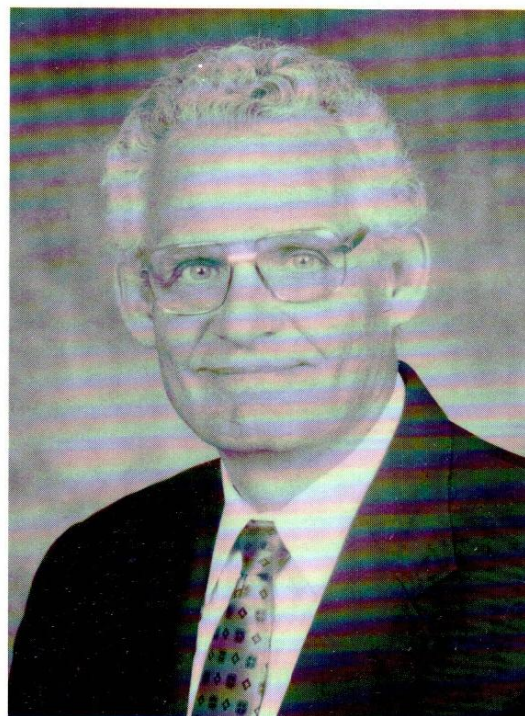

Guy Lott, Jr.

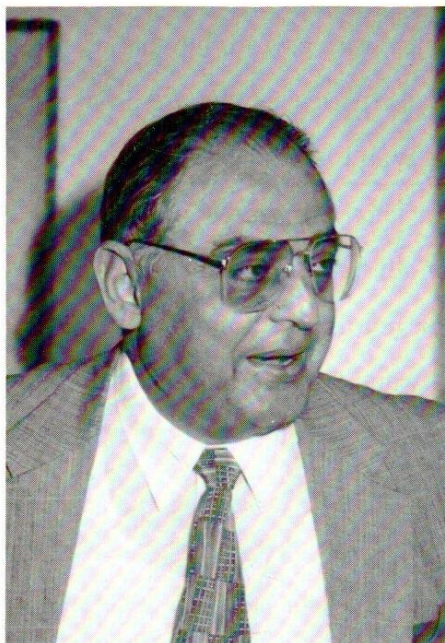

A New Beginning. So many things were new for me this academic year. For the first time, I experienced the rare privilege of working closely with Mr. Walid Abushakra who is a true gentleman and a visionary leader. This year, also, I experienced the joys (and sometimes the pain) of being among the first tenants in a beautiful new school. For the first time, I met the dedicated and creative AIS faculty and I realized, over and over again, that we at AIS are indeed fortunate to have such professional teachers for our school. Although I have worked in overseas schools for many years, this was the first time I worked in a school in which most of the students were from the Middle East. AIS students introduced me to the friendliness and kindness of peoples in this part of the world. You have all made the 1995-96 year a happy and memorable one and I am grateful for the opportunity to have been here for you.

Once again, it is my privilege to congratulate the yearbook staff for all their efforts. Represented in this book are the photographic memories of the past school year as shown by the students. It is with great pride each year, that I look through the A.I.S. yearbook and begin to remember all of the wonderful accomplishments of our students.

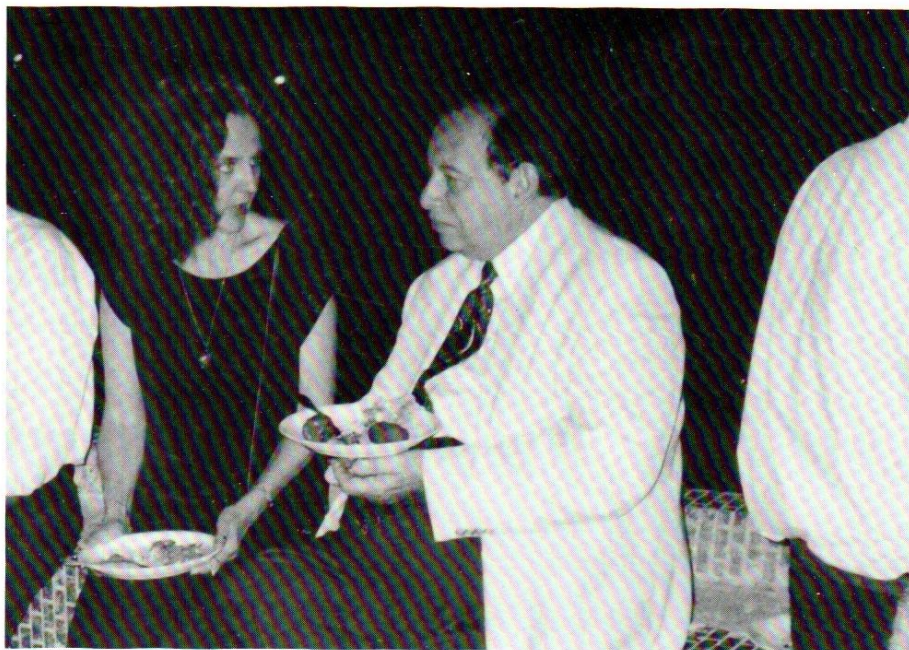

This year was especially important as A.I.S. moved into a new purpose built school facility. You will see many pictures throughout this book of the new school. It was a wonderful experience for everyone to move to the new school. The excitement continues in anticipation of the completion of our auditorium, gym, swimming pool and field sports area.

AIS Superintendent Walid Abushakra periodically meets with fellow administrators to discuss upcoming plans.

Guy Lott and Jerry Craig check things out in the newly opened Canteen.

Little Dreamers' Leaders

Dr. JoAnne Horton

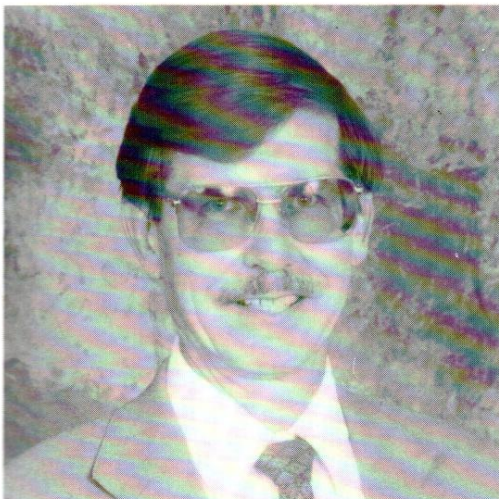

The administration and teachers guide the students through their younger years

I am sad to leave the students and parents of the AIS Elementary School; they are the best to be found anywhere. The students are happy and respectable, and the parents are supportive of all that we try to accomplish. I know that this will continue, and the school will remain a place where students love to read and learn in a caring, exciting atmosphere. We can all be proud that the program is based on the latest instructional methodology and materials, resulting in students who can apply what they have learned to real life situations. I wish continued success to our students. I challenge them all to do their best always and to grow up with a commitment to make a difference wherever they go.

To my elementary students, I would like to remind them that learning is a lifelong journey with no final destination. I will always be interested in their progress, and I wish for them a successful and happy life.

I would like to thank the yearbook staff for continuing the tradition of documenting AIS memories. God speed to all our seniors.

With Kindest Regards,
Dr. JoAnne Horton

The first year in kindergarten is an exciting introduction to school life. For many children it is their first time to belong to a school, to meet with a group of friends each day, and also to speak English. It is a year where many social skills are developed such as learning to share, creating a sense of community, and becoming an attentive listener. Teachers Miss Anne Marie Greeny and Miss Ann Holmberg encourage the children to show consideration for their classmates while nurturing an independent and a positive self-image. The academic aspect of the curriculum covers pre-reading and writing skills. By the time the children are ready for KG 2, they will be able to identify colors, shapes, numerals, letters, and will be able to write their names.

KG I begins a new day with a big smile while holding books and cartoon films.

Miss Laurie's and Miss Kimberly's KG II classes have been working very hard this year. They made lots of new friends and enjoyed learning together at the new school. Learning to read is very exciting. The library has become one of their favorite places to visit. The youngsters have enjoyed working with numbers, exploring science, and learning about American and Egyptian communities. Their biggest discovery this year is that they are problem-solvers, not problem-makers.

MORE RESPONSIBILITY

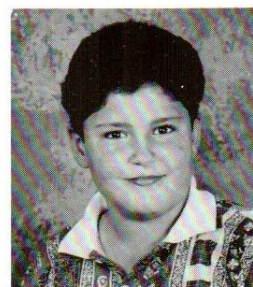

The third grade class has been working very hard this year. They published "The Snoopy News" weekly which informs parents what they are doing in class. They also made their own books and published them. They experienced farm life when they went to see greenhouses and what grows in them. They have also learned about animals and endangered species. The grade three class also began to take more responsibility for their actions and studies. They learned what it means to be kind to each other and accept one another for who they are. They are a very enthusiastic and cooperative group who always seek to help each other. They are no longer immature children who complain about studying, but instead they look forward to each new challenge. As one teacher remarked, "they're like popcorn - full of energy."

The fourth grade class has been busy this year. They are independent researchers who spent countless hours pouring over the encyclopedias. They made their own personal dictionaries, and they built it by adding 50 words or more each week. They also prepared independent reading projects where they designed posters, constructed and performed puppet shows, and gave speeches to younger AIS students about health and safety topics such as smoking and stranger safety. They are a very enthusiastic class who are known for always asking, "Do I get my homework sticker?" They have also learned something very important: "We know what good friends are..." commented one class.

EXCITING

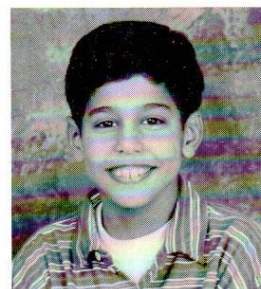

The Fifth Grade students and teachers worked hard to make this year exciting, interesting, different and successful.

For the first time, the students experienced changing classes, and also had the responsibility of keeping their own locker which meant learning to use a combination lock. It took them a couple of months to fully adapt, but they finally made it. This year brought new topics into their educational life. They were introduced to new subjects like U.S. Geography and basic map skills.

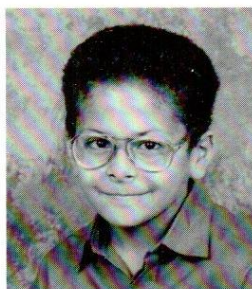

Even though they greatly enjoyed their educational progress, they still couldn't stop the rage of their giant nightmare- SPELLING TESTS.

REMO VE TON

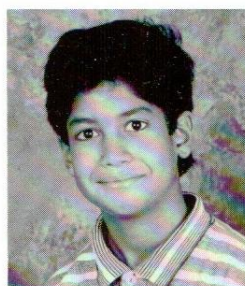

The last year of elementary school found most sixth graders looking forward with excitement to officially entering the secondary level in seventh grade. Though it means greater challenges academically, the students know that they will continue to have a combination of hard work and fun at school. One particularly enjoyable aspect for them is the interesting science labs, especially the "slime lab" where students create a gooey substance called slime. Music class also became a favorite of many sixth graders which is evident by their participation in several successful concerts throughout the year.

Having Fun Outside School

Students enjoy time on special days away from AIS' walls

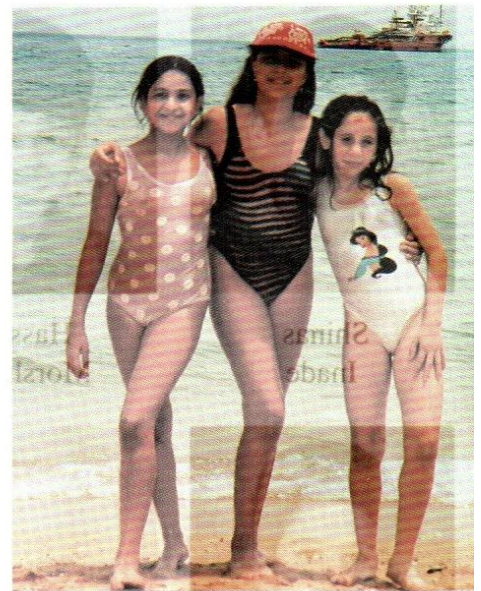

Cairo Zoo, Opera House, Ein Sokhna, Nile Cruise... All of these were field trips elementary students took. Each year, the elementary students go to fieldtrips inside and outside of Egypt. Teachers and students enjoy their time outside school as they see new things and experience real life outside of school.

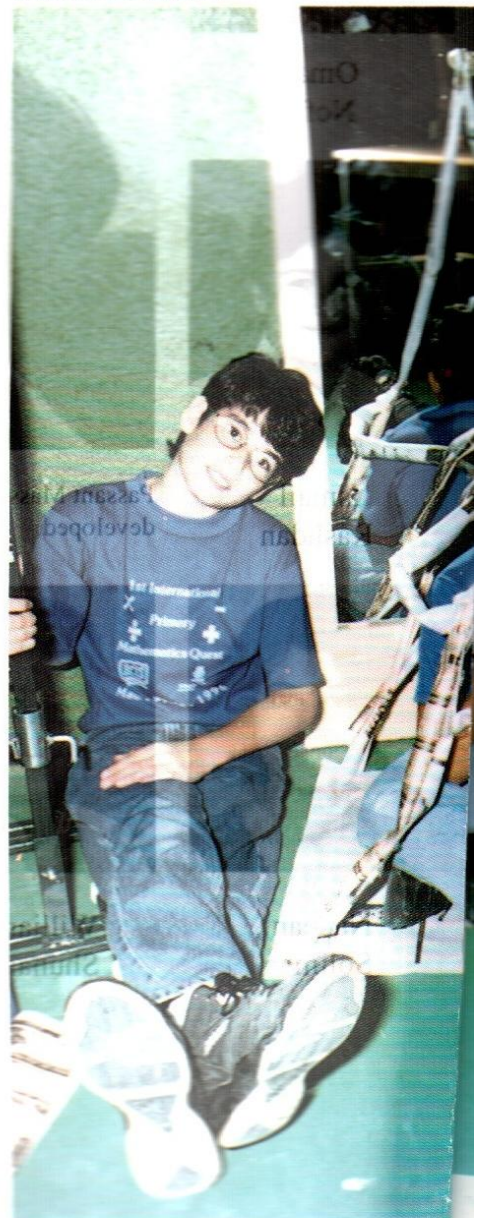

Enjoying a day at the Cairo Zoo, these fifth graders get a close-up view of an ostrich family.

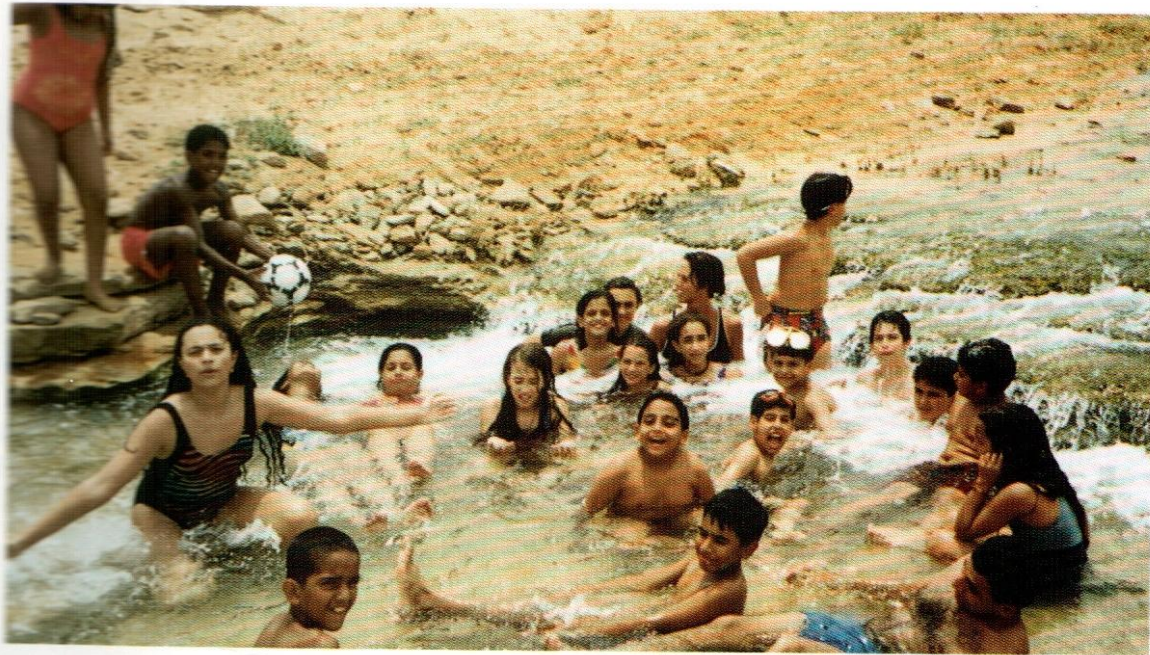

You're never too young to be a star! These fifth graders attended a performance of "The Fox and the Goat" at the Opera House.

Mona Mohamed, Nada El Tambouly, and Layal Al Rustom, show off their tans on the beach at Ein Sokhna.

Cooling off in the waterfalls was top priority on the hot day at Ein Sokhna.

Though marshmallows were nowhere to be found, roasting hotdogs was fun during the campout at school.

Tamer El Barkouky, Essam Razek, Shady Hassan and Abouda Marzouk show off their mathematical genius during their trip to Madrid for the First Primary International Math Quest.

ELVES, GOBLINS, GHOSTS, WITCHES

HALLOWEEN COSTUMES

Unlike high school students who have dances to celebrate holidays and special events, elementary students are allowed class time for such special occasions. Every year around October 31 AIS is invaded by elves, goblins, ghosts and witches. Both students and teachers alike don lavish costumes and enjoy an afternoon of goodies in the form of sweets and snacks that are shared by everyone. It's a day of horror and entertainment for the elementary students.

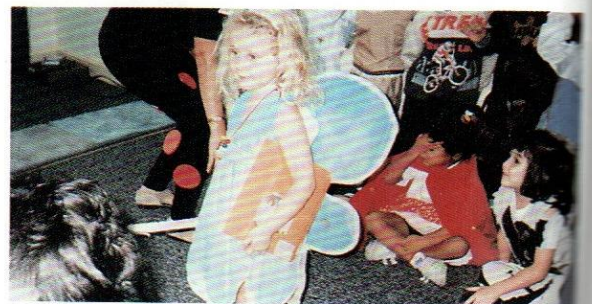

Aya Fasih, KG 1, dressed as an angel displaying a different attitude towards Halloween since most of her classmates wore something scary.

During Halloween, the kindergarten classes get together to enjoy eating sweets and snacks in their colorful costumes.

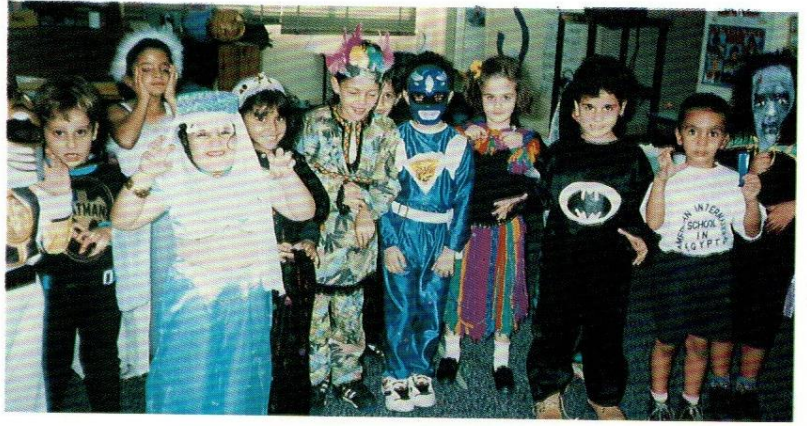

"Superman" Ahmed Abbouda, "Batman" Ahmed Helal and "Elf" Karim Khalil join "Batman II" Louis Kirotis for a Halloween photo.

The KG1 students wait patiently for Nadine Salam to fly away as the fairy did in the story!

Every one of the KG 1 students contributed to the Halloween spirit by coming to school dressed in their favorite costumes.

The KG2 class gives their best effort to be as scary as they imitate a monster roar.

Teachers as well as students joined in the costume fun on dress up day. Miss Ann-Marie Greeney poses with her KG 1 students as they make their way towards the refreshments.

KG 2 students Amir Afifi, Mariam Ghattas, Abdul Rahman Baraka and Marwan Rashdan come dressed as witches and wizards.

With painted faces sixth graders, Yousra Fahmy, Nadine El Afifi and Marwa Abdel Tawab, encourage the devilish spirit of Halloween while offering "peace" as well.

The KG2 class prepares themselves with their costumes and are waiting eagerly to show off their costumes during their parade around school.

Christmas Celebration:

Santa comes to AIS

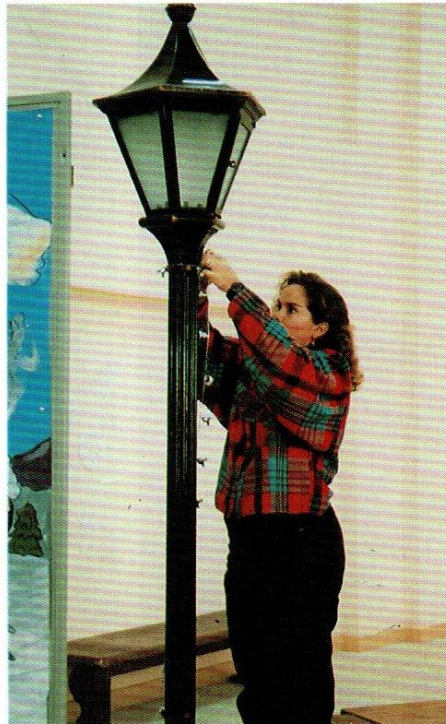

Despite the various backgrounds and beliefs represented at AIS, the special season of "good will toward men" was recognized not only with special attire, but music and plays and lots of goodies to eat. The Christmas celebration consisted of elementary students dressed up in costumes spreading Christmas spirit everywhere. Choirs sang carols and Santa himself visited many classes. Secondary students joined in the Christmas cheer by celebrating with a school dance held on the 19th of December.

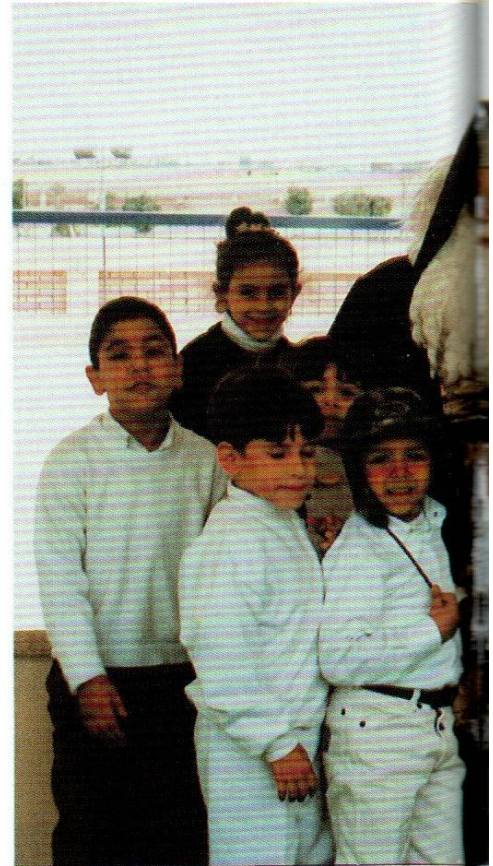

The KG 2 students play some games in Ms. Kimberly's class at the AIS Christmas show that was held on December 14.

A Vital Part of Our School

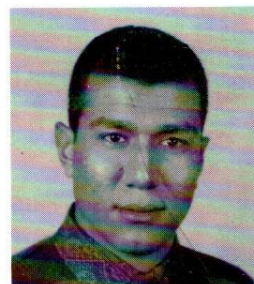

Administrators and staff help the school runs smoothly

"My working career is quite a long one. I must say that working at a school like A.I.S has been most interesting. To be with students of different ages is exciting, almost like being entertained! To see them change, grow, and achieve- this you can't find in any other job. There is always something new to look forward to."

The Seventh Grade class of 1995 exhibits boundless energy in their quest for knowledge. These first years "in the middle" can often be the hardest of adolescence. Though they are no longer children, these students are not quite teenagers either. This creates an often fragile time for these youngsters. However, when their energy is combined with responsibility and creativity in the classroom, the results are rewarding not only academically, but personally, as they continue to develop social skills.

PURE ENERGY

CLASS OF 2000

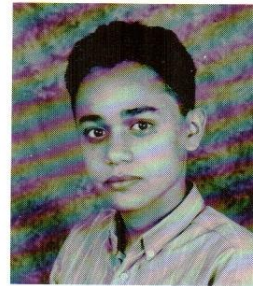

Pure Energy is the phrase used to describe these students who are certainly an active group. Most every one of the 50 eighth graders participate in some high school activity. As Social Studies teacher Mr. Jay Atwood commented: "They are pure energy. They have been working very hard in all their classes and show improvement daily." "We are the young Panthers with pride," Hyun Sik Park stated when asked how would describe his class.

Class of 1999

A "fresh" beginning for the young high schoolers

Ninth graders in general are known for their enthusiasm and zest, and this year's group is no exception. With the help of their student council, the freshmen have been motivated to sponsor such events as a class party, bake sale, class trips, dances, etc. . We hope their enthusiasm will continue into the future years as they become the leaders of of of AIS.

Class Of 1998

continuing to look for their place in the world

Fair is the word that comes to my mind when I think of these "wise fools"! I don't think they ever realized that I chose to teach them! I had several dealings with them during their freshman year as a sub for Chanen, and I was quite impressed by their enthusiasm and creativity! This was expressed in their World History class "Medieval Feast" assignment. The extremes to which they go to ensure the equal treatment of all never ceases to amaze me as well as

their willingness to help each other "achieve" their goals!! On test days it was amazing how much better the grades got as the day wore on!! I will always cherish the "discussions" about male/ females roles in literature and the frustrations of "who is right" and "what is wrong"! Of course, I reveled in victory.

Juniors IB "psycho" students prepare for their first semester exam in Mr. Harter's class.

One Year to Go

Uninhibited- that describes the spirit of the junior class. Free to do as we wish, whenever we want to (within reason, of course). Bake sales, dances, and felucca rides- our class has got it going on. With our new campus, A.I.S has never been better. Each person represents the spontaneous spirit of the junior class. Our craziness can never be surpassed. As we look on to the promise of a senior year, and glance behind at the past, one can never forget their junior class.

Seventy seniors are graduating on the 8th of June 1996. This senior class wanted UNITY, and they absolutely achieved it!! Major events that took place throughout the year included a roof dance at Gazzars, a day in Sindebad amusement park, and various other dances and skip days.

In addition, the Seniors are busy with filling out applications for colleges, and doing their SAT and Toefl tests to prepare for their future plans. 100% of the graduates are going to colleges throughout the world, and each one will be well-equipped as they study at home or abroad.

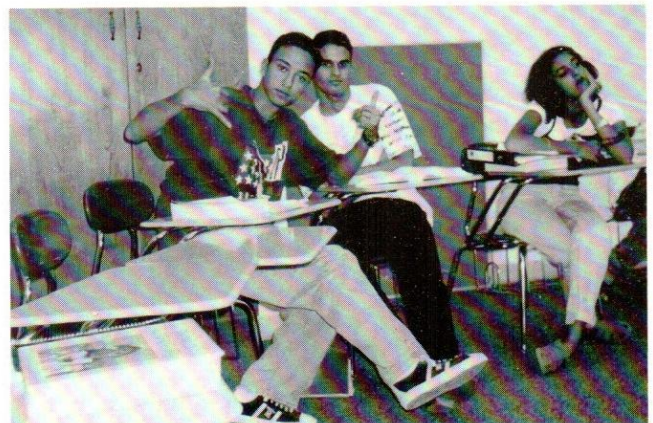

As a teacher, it is always refreshing to have a class who knows the Student Handbook so well!! I mean, until they pointed it out to me, I NEVER knew we HAD to scale grades! It's in the handbook (according to Sarah and Nadia). Unfortunately, I never was able to find it! But I admire the great lengths the Seniors go to to achieve equalization! It makes my job easier to only have to grade one paper per class...because, somehow, the homework all ends up the same (mistakes and all!). Thank you, Seniors!

By Keith Gann

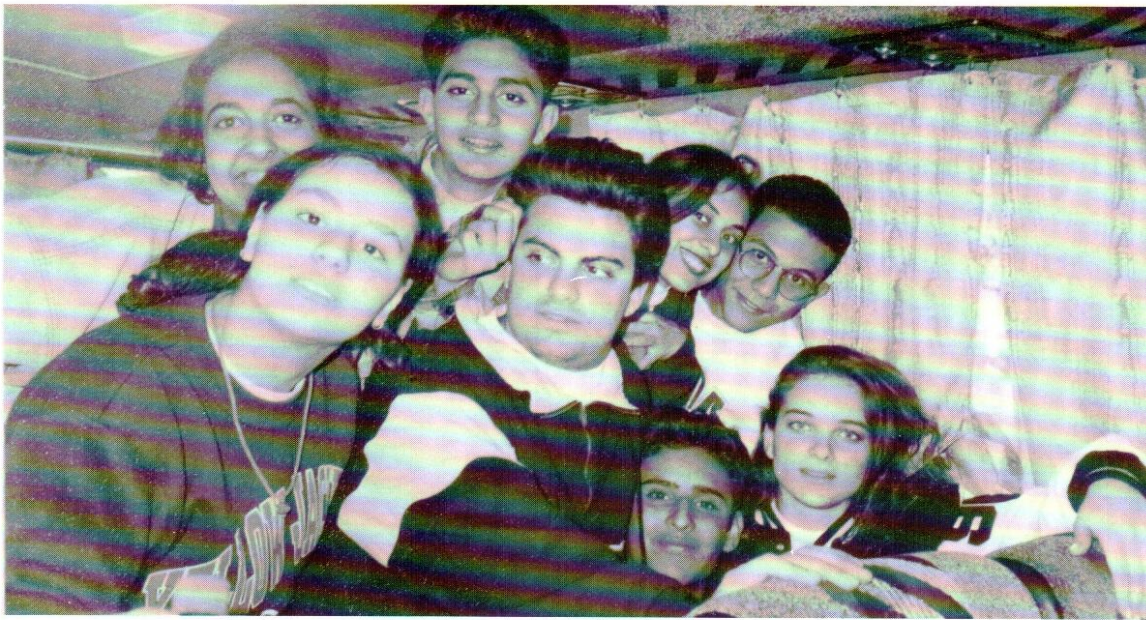

Mohamed Nadim, Adham Mobarak, and Adel Sika, wearing their Barcelona Kings soccer uniforms, stand as the victors after defeating every team in the Senior soccer tournament.

My dear fellow plankton, let me endow you with my diadem of wisdom: If you spend a fraction, no matter how minute, of your vicarious life developing your vestigial gray matter, scholarship would be common place. With the exception of my warm & heartfelt gratitude to Dr. Jack Kervorkian, and those who have endured the misfortune of my acquaintance, my lips are sealed.

Sherif El Hefnawi

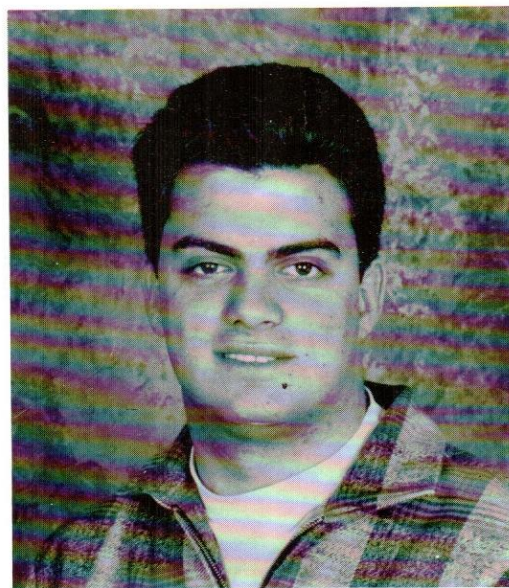

I can't believe that it's coming to an end. It will be a start after an end. Before it ends, I have to thank everybody that helped me through these years. My parents are the first that I have to thank. I also can't forget the fax people (Moch, Shaer, Bebz)-who helped me much in doing my school work. At last school is over! Caring with it the small community experiences. Now I am ready to face the real world with a strong aim to carry on. I thank God for passing the school years peacefully. I owe my parents a lot of thanks and love for their support and care throughout all these years. I will always be proud that I have parents that offered me care, always. I promise them that I will work harder in college to gain a good career in the future. To my friends "I will never forget you all". Bye!

AN UNFORGETTABLE NIGHT

The Junior/Senior Prom was held at the Marriott Hotel for the first time in AIS history. As usual, the party didn't really get rockin' until 10:00, but after that, it was hot. Another first for an AIS Prom was the video presentation which featured pictures of the seniors together over the years. It was the highlight of the Prom followed closely by our very chic and sophisticated AIS dressers. In the end, it was a night which will never be forgotten.

holding his Diploma

For 12 years the 69 individuals in the Senior class of 1996 have been waiting for a very special moment. This moment is the evening of June 8th, 1996 where these dedicated students graduate from AIS, and enter the real world. The graduates leave AIS with hopes and dreams of making a positive influence in their world. They undoubtedly will become doctors, lawyers, engineers, artists, or politicians. But whatever they become, the years of preparation in high school will always serve as their foundation.

CLASS OF '96

FRINGE BENEFITS

EXtracurricular involvement is an important part of school life. AIS proudly boasts of approximately fifteen clubs involving over 300 students. Both elementary and high school clubs work hard to create meaningful club activities. By providing students with a creative outlet, the clubs and organizations of AIS allow students to explore new avenues and go beyond what's expected to reach new heights of the learning process. From Scouts to Art club to MUN, club involvement combines time and energy with creativity and fun to provide a well-balanced educational experience.

SHOW ON THE ROAD

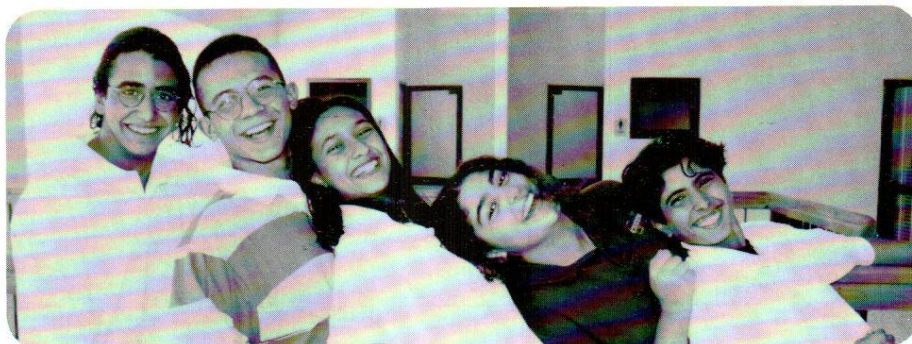

Mr. Gann, Student Council advisor, remarked that this year the Student Council made great strides in an effort to create spirit at AIS by involving students in more activities. The Student Council also worked to give the students a stronger voice in the school and attempted to create better democratic decision-making principles and procedures. More than ever before, the Student Council has played a significant role in improving student life.

CLASS COMMITTEES

The class committees of 95-96 are the most unique committees in school because each committee represents his own class. In addition, the committees sponsored great events such as private dances for the freshmen, lip sing and a breakfast for the sophmores, a felucca ride, Christmas stocking, and a spring dance for the junior, and kareyoke night, Sindibad, iftar at Studio Misr, Christmas and Valentine dances, fashion show and Prom for the seniors.

FINAL FRUSTRATION

IB, the academic program which promotes curiosity, critical analysis, and creative synthesis continues to grow at AIS. This year, thirty seniors will complete the rigors of the two year courses with eleven of them as full IB diploma students. The growth in the program has also required more follow up on student progress. To accomplish this, AIS instituted an academic coaching program this year to provide students with more avenues for academic support. In addition to meeting the academic challenges of their course work, these students have served the community by organizing clothing drives, tutoring younger students and developing environmental projects.

The Mental Picture

The National Honor Society is based on Scholarship, Service, Leadership, and Character. Even though this year the club had less than fifteen members, they all worked hard together to achieve the highest standards of the high purposes of the National Honors Society. The club organized and joined in many school activities like selling Valentine roses and helping out in the school carnival; the club also sponsored social activities such as an iftar for the poor at a mosque in Nasr City. NHS advisor is Miss Hall and the officers this year were as follows: Mohamed Sallam, *President*; Hani Shehata *Vice President*; Khalid Dinawi, *Secretary*; Rima Abushakra *Treasure*.

The Message Is Clear : Have No Fear

The Model United Nations program at AIS has grown from a group of 10 students in 1991 to over 40 in 1996. This program consists of a class option which students take for one year and a club which is run after school one day a week. The class teaches students about international relations and current world issues, in addition to teaching them the skills of diplomacy, debate, problem solving and interpersonal relations. The students participate in three MUN conferences throughout the year. The Hague International Model United Nations conference in Holland is the big event of the program. This is only topped by the AISMUN each April which has become affiliated with the THIMUN program just this year. This is an international conference in which approximately 75-100 students participate. Lastly, MUN is fun, exciting, rewarding and inspiring; an experience you will never forget.

Mrs. Donna and visiting MUN advisor work hard during the conference to follow the guidelines set by the United Nations.

Debating crucial world issues wasn't the only fun MUN members had in the Hague. Video games were part of the agenda as well, as Tarek Osman supervises Adel Sika and Karim Sabet.

After school, MUN students practice debates for the upcoming AIS conference on April 18th.

The MUN Students show themselves well prepared to represent AIS in the Hague Conference with advisor Miss Donna and her husband Mr. Erick.

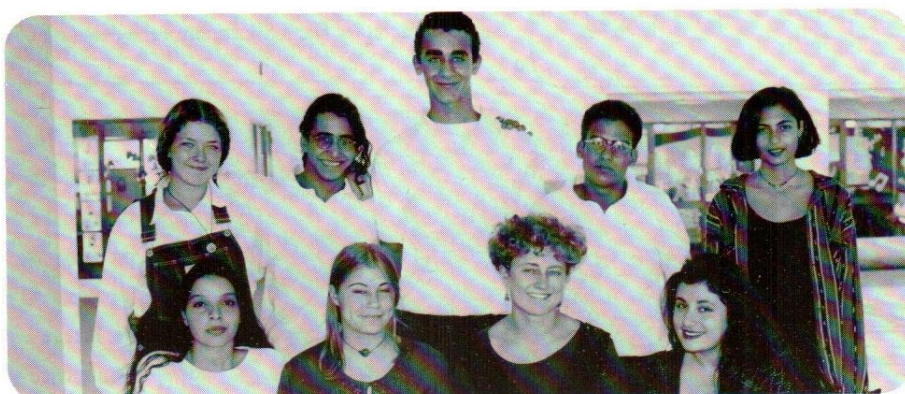

The AIS-sponsored MUN conference drew delegates from the international schools of Schutz in Alexandria, the Deutsche Evangelische Oberschule school in Cairo as well as AUC.

Zeinab El Kharyboutly and Salma Khalil are distracted from the conference for a moment as Nadia Abou Taleb read the resolution.

MAKING THE MOVE

Ms Kerr, advisor of the Literary Club, approaches writing from an unusual perspective. One of her students commented, "Every Sunday, a big bone is thrown somewhere in one of Cairo's restaurants, and all the Wiesel Dogs rush behind it, and where should it be next week...?" Work? Who said anything about work? This club proposes a different way of presenting student writings to others who, in turn, share their comments on it. Besides having a great meal and sharing a bundle of jokes, the club learns from each other's perspectives on writing. Each individual learns how to improve his own style and language through engaging in positive, interactive discussion.

In the Drama Club students explore the entertaining and intellectual aspects of theater. Through improvisational acting activities, students attempt to quicken their creative thinking and reasoning skills and unleash their uncanny but delightful senses of humor. "We aspire to present an entertaining and enlightening show of improvisational acting and pantomime in the spring," says Ms. Lenstra, Drama Club advisor".

The AIS Chorus program, under the direction of Mr. William Hungate and his assistant Ms. Alana Mohammed, enjoyed increased participation and several successful concerts during the 95-96 school year.

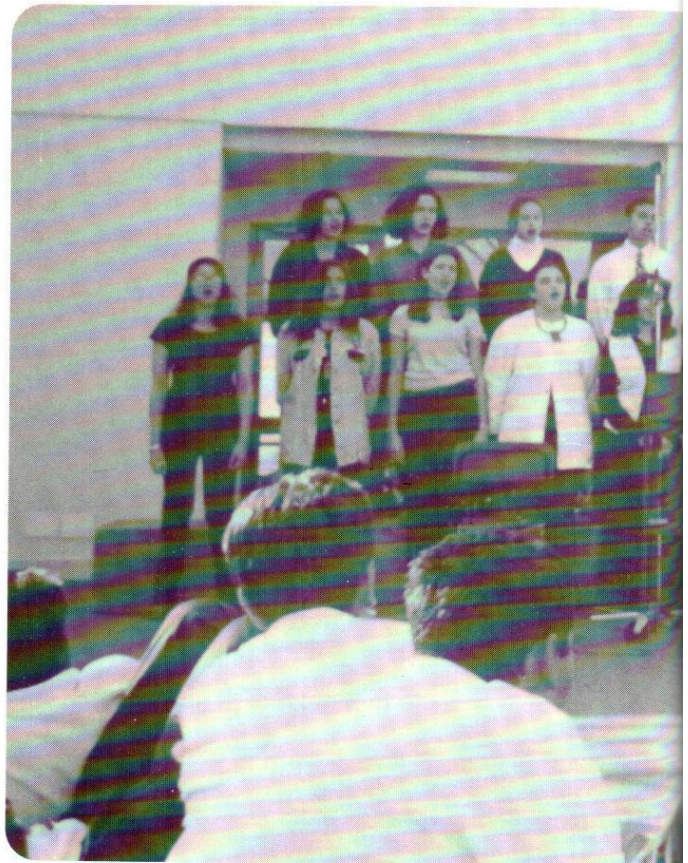

Managing four different singing groups including elementary, seventh grade, eighth grade, and high school choirs, Mr. Hungate and Ms. Alana produced and directed various concerts including the 7th and 8th grade "Disney Dazzel" performance. This collection of works included songs from *Aladdin*, *Beauty and the Beast*

and *The Little Mermaid*.

Meanwhile, high school students sang selections like "From a Distance", "O Music", "Ash Grove" and a collection of hits from *The Lion King*. Later, three of the choirs had the chance to perform at the American University of Cairo where they sang several Christmas selections. Some of them were "Joyful Jubilate", "Minka" and "Let It Snow." Finally, the high school choir performed a jazz concert on the school campus on May 8th, which included "I Swear", "Dukes Place" and "Lullaby of Birdland."

Layouts, headlines, captions and cropping... Ten seniors found out that the task of producing a yearbook never ends. The yearbook staff tends to be the unsung heroes of high school activities because of the monumental effort required to produce a quality book. "The yearbook staff has worked hard since the first day of the school year and has done an outstanding job trying to make a superb book. It was a pleasure working with this fine group of people," commented Sloven Susnik. Noha El Sherbini stated that "it was fun and quite an experience to actually make the yearbook ourselves."

Mai Sadek, Eman Badawi and Ms. Simpson work on one of the hardest tasks in producing the yearbook which is writing good captions.

Salma El Badrawy designs her layout using the Page Maker software for desk-top publishing.

Hassan Khalifa and Sloven Susnik decide which photos best completes their sports layout.

HEY PEOPLE, LET'S SHAKE IT

When Everyone Got Real Crazy

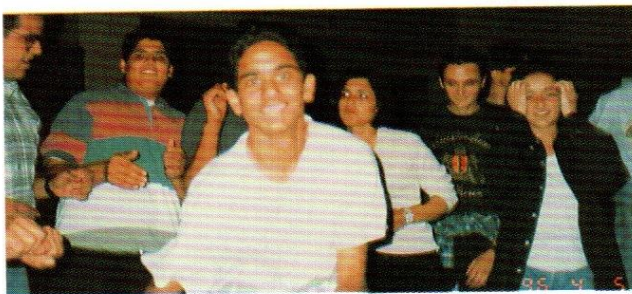

This year the school dances have been very different from the past years. For one thing, AIS had a place in which the dances were held, which was the main reason why there were more dances held than each year. All of them turned out to be successful due to the contributions of many of the students. In addition, the D.J.'s were all from school and they put a lot of effort to add fun and enjoyment.

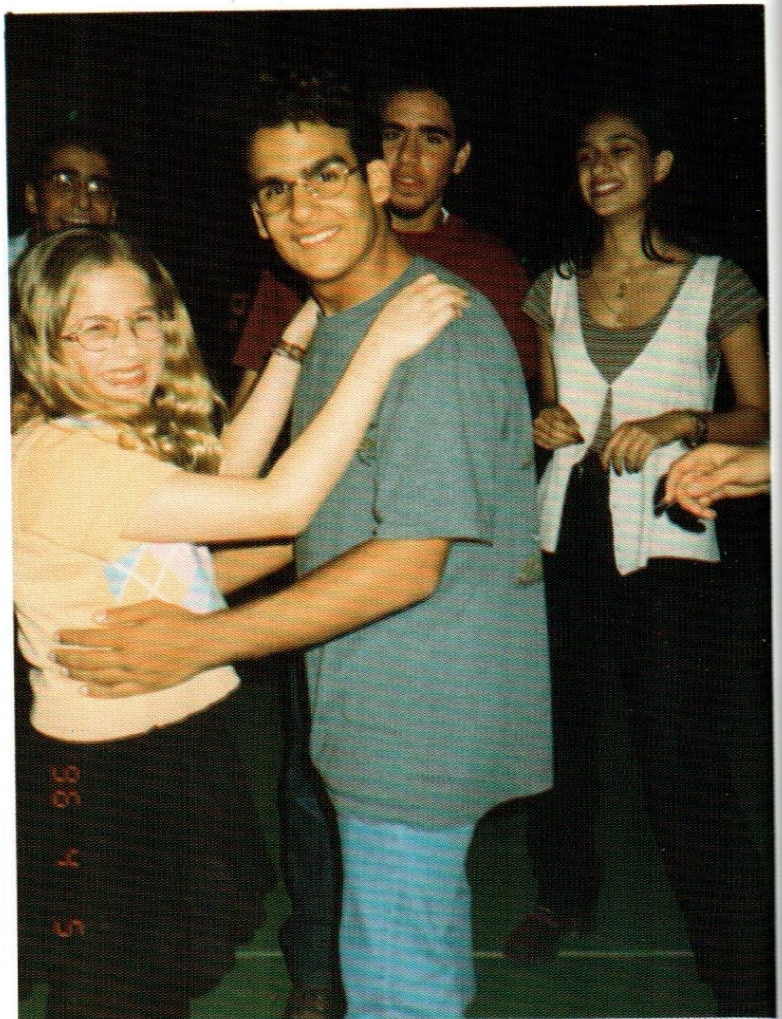

Students of all grade levels joined in the dances sponsored by the Junior Committee.

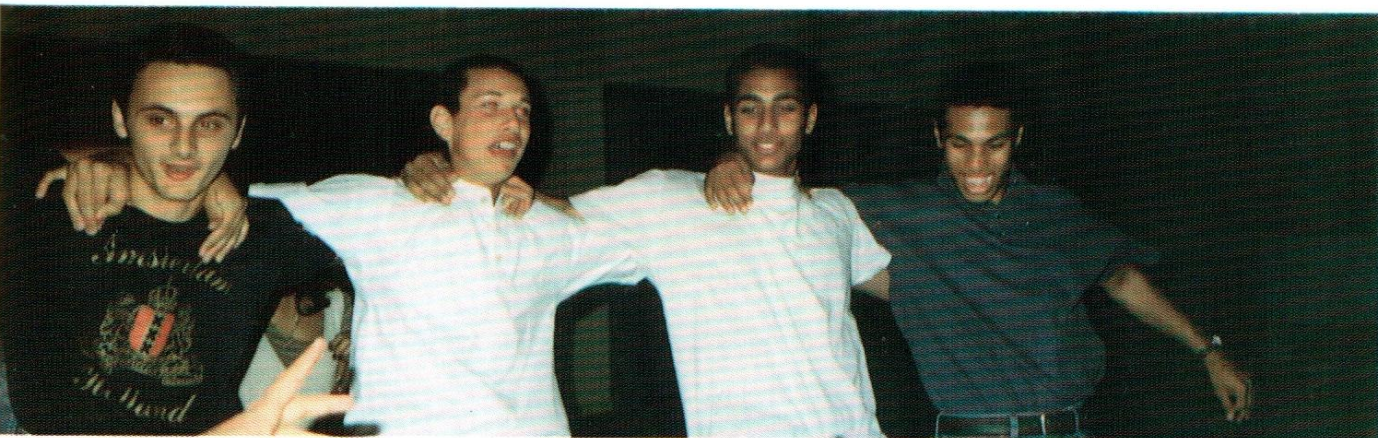

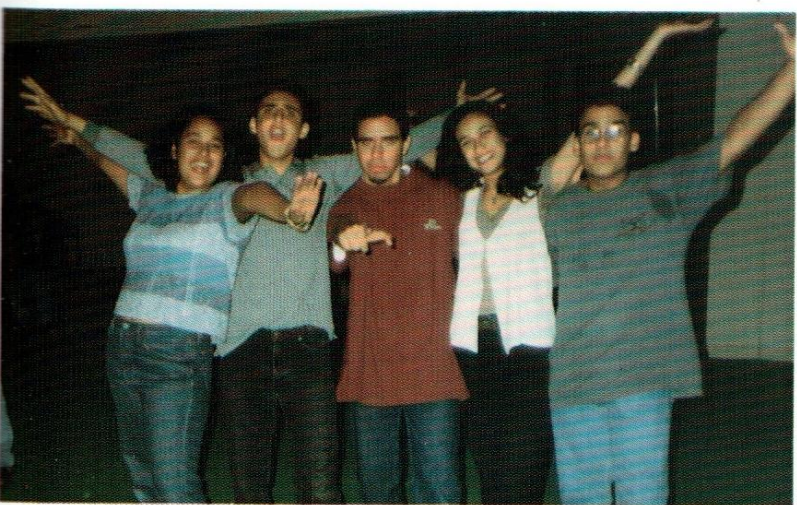

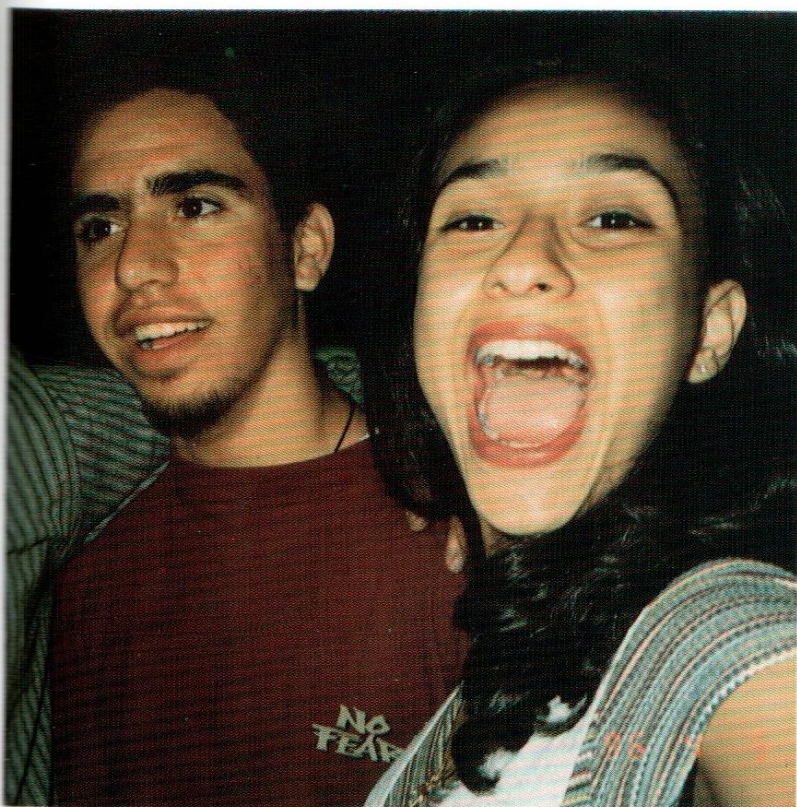

D.J. Ahmed Khalifa keeps busy mixing songs while everyone has fun out on the dance floor.

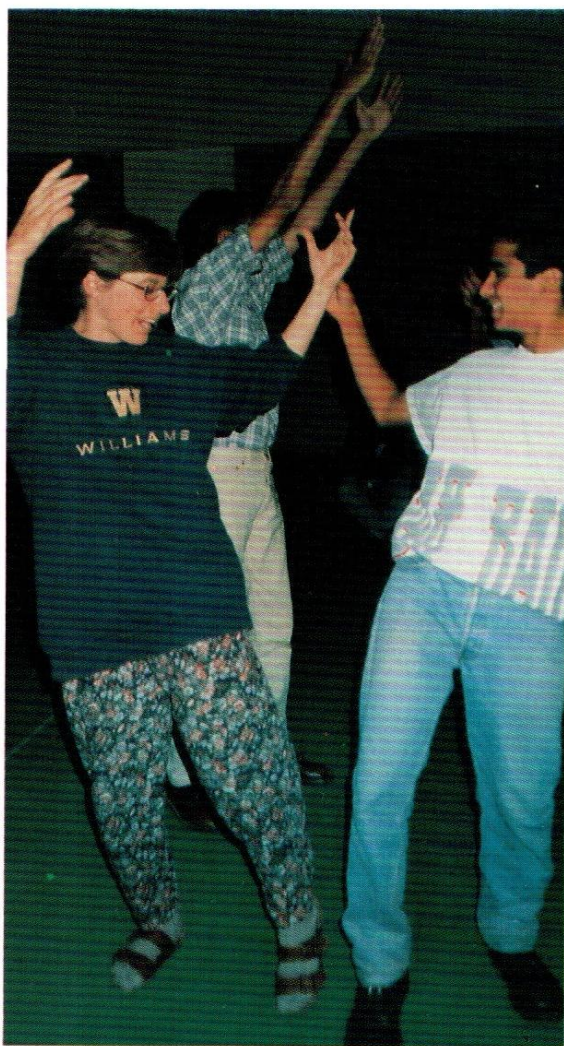

Kamal, Noha Hefny, Jasmin Maslic, Nadia Badreldin, Iset and Khalid Abdel Razek dance away with the music.

The threesome Adel Sika, Karim Habib and Dana Sika were the life of the party, laughing, joking, dancing, having fun and enjoying themselves.

Teachers enjoyed the dances as well as teachers, as Ms. McGee shows by dancing with junior Khaled Abdel Razek.

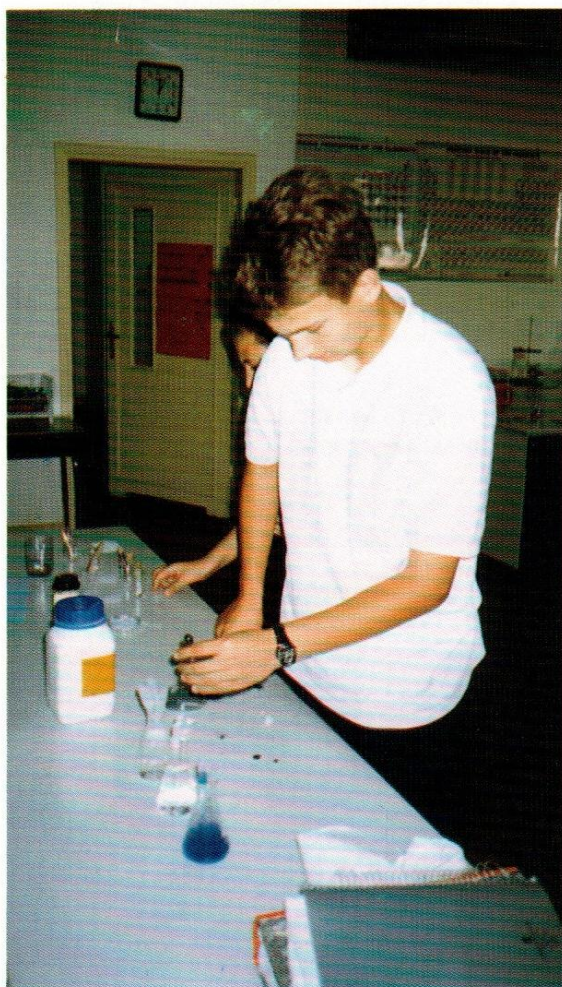

"Hey, we are all not just here to dance, but to share with the Junior Committee this experience and show our spirit," shouts these juniors.

Jasmin Maslic, Yehia El Shafei, Cherif Cherif and Amr Cherif follow the beat steadily as they dance with smiling faces.

Science

Science students in grades 7 through 12 participated in an Olympic contest of their own this year: Science Olyplices. Students competed in 11 categories to test their knowledge, skill and ingenuity. There were competitions for egg drops, paper airplane throwing, a calculator race, and best raft race to name a few. The students had a fun time and an educational experience all at once. Congratulations to all participants for their energy and effort.

Mr. Irish checks if the egg is real by throwing it into sink at the egg drop competition.

Even the 12 grade English teacher, Mr. Chanen, was involved in Hydrogen and Oxygen rocket competition.

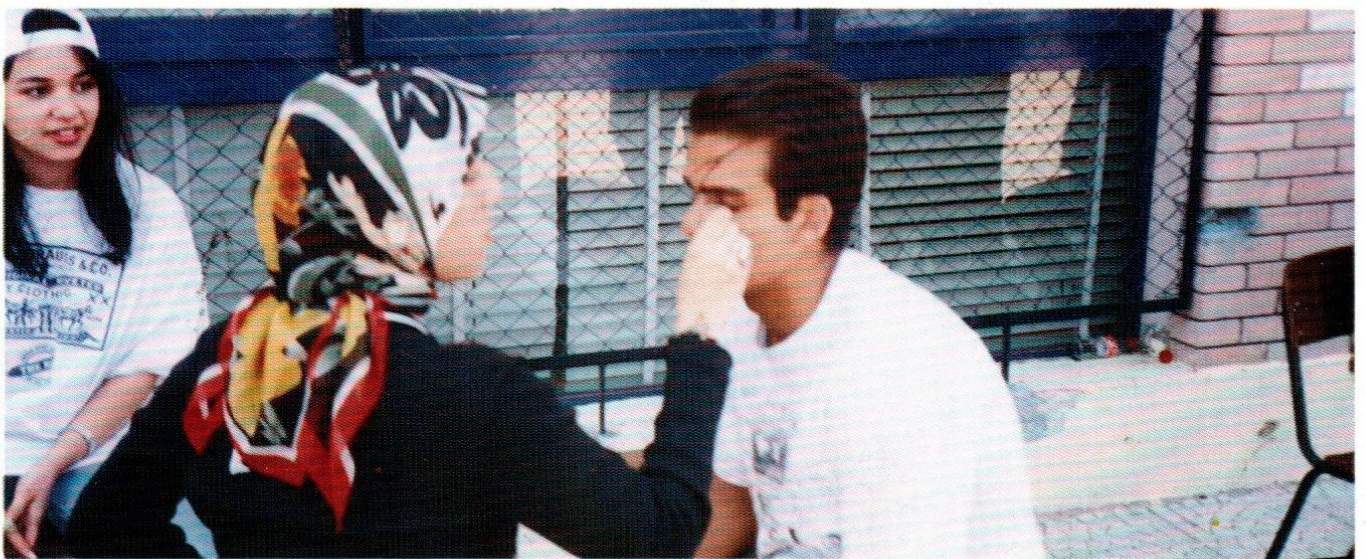

THE 1996 BAZZAR

CARNIVAL

On May 17th, 1996, the Student Council sponsored the first student organized carnival. This was one of the biggest events involving all committees at school. Each one set up at least one booth where they spent a great deal of time putting together each event. About 400 people attended the carnival, which proved to be a tremendous success.

"We hope that by having this event, we've started a tradition that will take place every year. The main purpose of the carnival was to have the student population, from middle school to high school, organize an event as one entire student body, and to give the officers of next year a base to build on, making it better every year."

SPIRIT WEEK

This year a lot of new things have occurred at AIS. One of the things the Student Council introduced was Spirit Week whose purpose was to create great school spirit. Students showed their Panther's Pride by dressing on the various days, for example, the first day of Spirit Week was Nerd Day where students came dressed up as a stereotype of a nerd; second day was Hat and Tie Day, where students came dressed in their favorite tie, hat and shades; third day was Jersey Day, students came dressed in the jerseys of their favorite sport team; fourth day was Twin Day where every two friends came dressed exactly the same; fifth day teachers had to come dressed in school uniform. Not only did students have fun by joining in but many teachers also contributed helping lift the school's spirit.

Even though Senior Yasmine Terek was dressed completely as a nerd, her smile gave her away immediately.

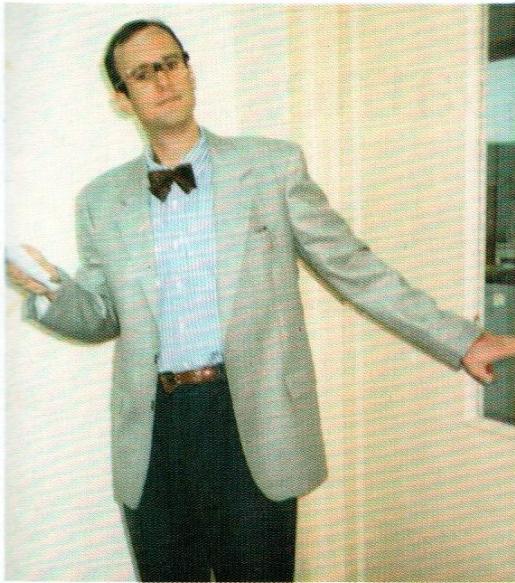

Seniors, Isabella Salib, Yasmine Tarek, Tarek Osman and Junior Gamal Abdel Nasser, together, create the Cool Kids On The Block of AIS, coming dressed with hats, ties and sunglasses.

The two Senior IB Twins, Nermine Kamel and Heba Abdel Hady, also found the time to join in the Spirit Week.

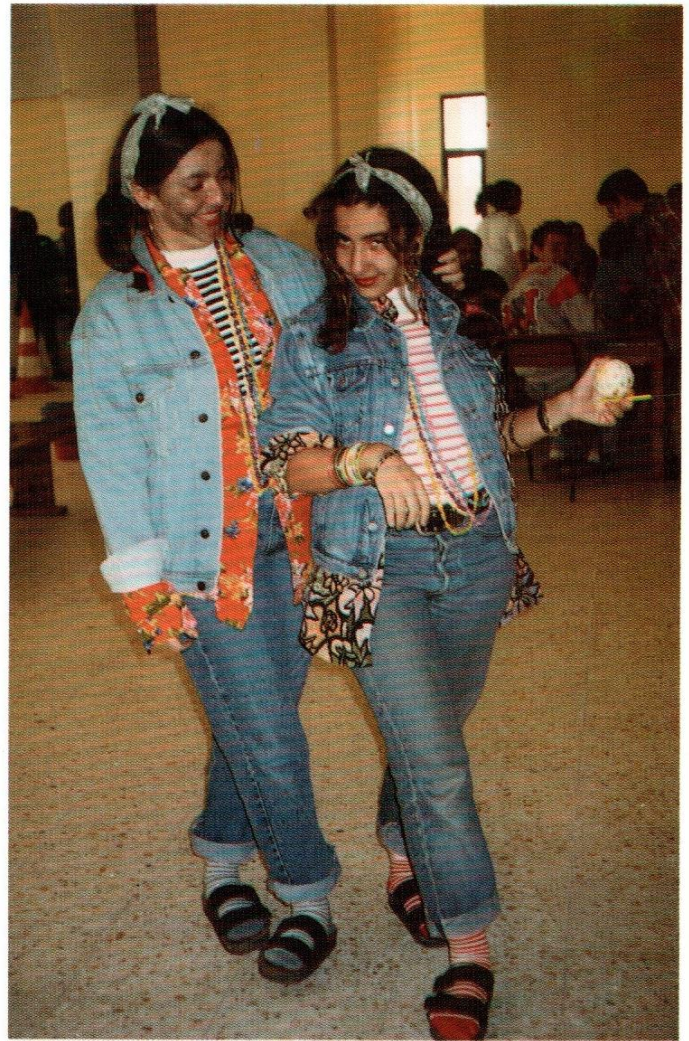

Even the younger students enjoyed the Spirit Week and definitely added to the school's spirit.

"Mr. Chanen, today is Nerd Day, so why aren't you wearing your costume?"

Seniors Radwa Saleh, Marwa Elwarfally, Noha El-Sherbini, Samara Hodroj and Marwa Ibrahim show off their hats, ties and sunglasses during "Hat and Tie" day.

The Hippy Twins , Dalia Mahdy and Yasmine Tarek.

Ms. McGee enjoyed Spirit Week; even teachers had fun joining in during that week.

Mr. Alex and Mr. Wayne say, "Yes, Yes... Yes we do, we've got SPIRIT, How about you?"

The two friends Noha El - Sherbini and Marwa Elwarfally come dressed identically for Twin Day.

Sports Day

It's Fun & Games

Great fun and games! On the morning of April 3rd Grades K-3 experienced 13 different outdoor activities, and Grades 4-6 did the same in the afternoon. Each of the ten teams wore their own team color t-shirt and their leaders guided them from Mr. Steve's P. E. classes directly to each event. The results were sent to the official score keepers.

Teams circled from the 50 Yard, Dash and Tag Relay to the standing Long Jump and Bottle Fill Relay in the sand play area. Next came the Sack Race and Three Legged Race with lots of hopping and bouncing around. The Fitness Relay had students demonstrating their ability to do sit-ups, jumping jacks, kangaroo hops and jumping rope. Exciting teamwork was shown at the Frisbee Throw and Hula Hoop Relay. After the Basketball Dribble Relay, the last event had everyone join in the refreshing fun of a Water Ballon Toss. The sun quickly dried those getting wet while scores were totalled and awards were presented.

In the morning, the White Team led by Nancy Capp was 1st, Kimberly Leopold's Pink Team 2nd and Laurie Carpenter's Black Team and Anita Harris' Blue Team tied for 3rd. In the afternoon, the White Team led by Jeff Duckett took 1st place, Judy Cromer's Yellow Team was 2nd, and Ann Davis' Red Team 3rd.

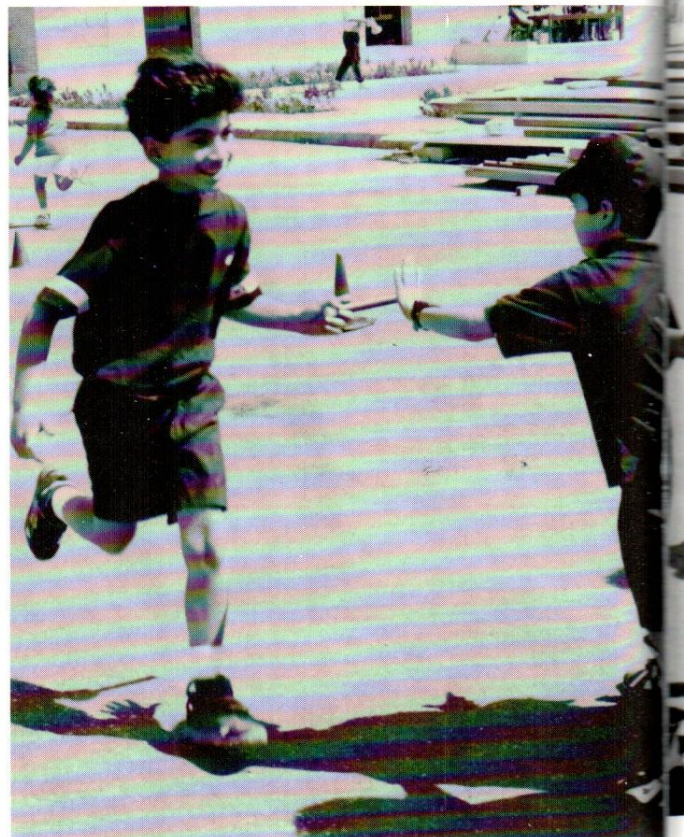

All of the students and teachers received certificates of participation including the judges and scorekeepers. All the teams exhibited good sportsmanship and enthusiasm with each team making up its own cheer.

"Sports Day was a great success because all the students knew that having fun was more important than worrying about who was winning."

The World of Sports

The 1995 - 96 AIS Cheerleaders

This year the athletic program followed the guidelines of sports offered in the newly formed I.S.AC. group: International School's Activities Conference. This included 16 sports teams such as JV and Varsity boys and girls soccer, volleyball, basketball, tennis, and cheerleaders. Unfortunately, AIS did not have the proper facilities to host events on campus; however, we participated in events in and outside Egypt with fantastic results.

BOYS J.V. & VARSITY VOLLEYBALL

The boys J.V. and Varsity teams posted a record turnout in comparison to participation last year. Despite having limited access to facilities and court time, the boys put up a brave performance in matches against B.I.S.C. and El Allison. Great team spirit was displayed by all!

Nisrin, Silvia, and Rima warm up before the game with Shutz.

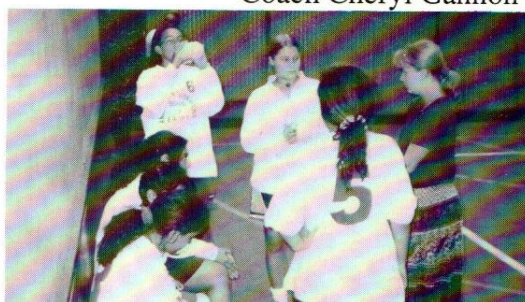

The girls volleyball team competed against B.I.S.C. and Shutz in Alexandria and although they didn't travel out of the country this year, their heart and spirit kept them "spiking". They improved substantially this year and gave the competition a run for their money. At all times they were joy to be around and to coach and they will be missed next year.

Junior Varsity Boys Basketball

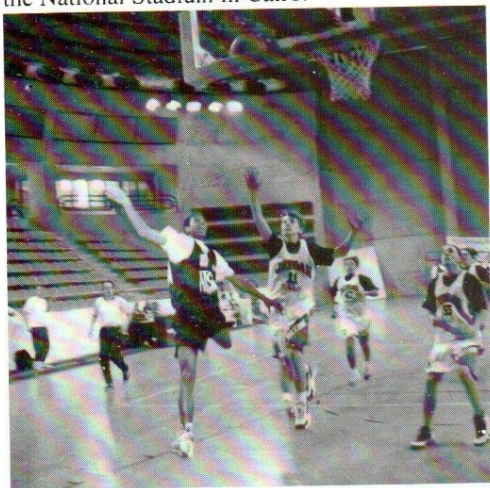

Kamal Abou Shadi, takes a jump shot between the AIS Doha team in the ISAC tournament at the National Stadium in Cairo.

This past year the J.V. boys basketball team was challenged more than ever before. The team competed in many more games than previous years and learned the meaning of hard work and dedication. Honestly, many of them did not feel ready or even fit to play so much, but thanks to the guidance and encouragement of Coach Brian Hill, they endured to the end and ended the season proudly. The boys would like to again congratulate Coach Hill and his new wife Mrs. Sandy Hill on their marriage and wish them all the best.

Junior Varsity Girls Basketball

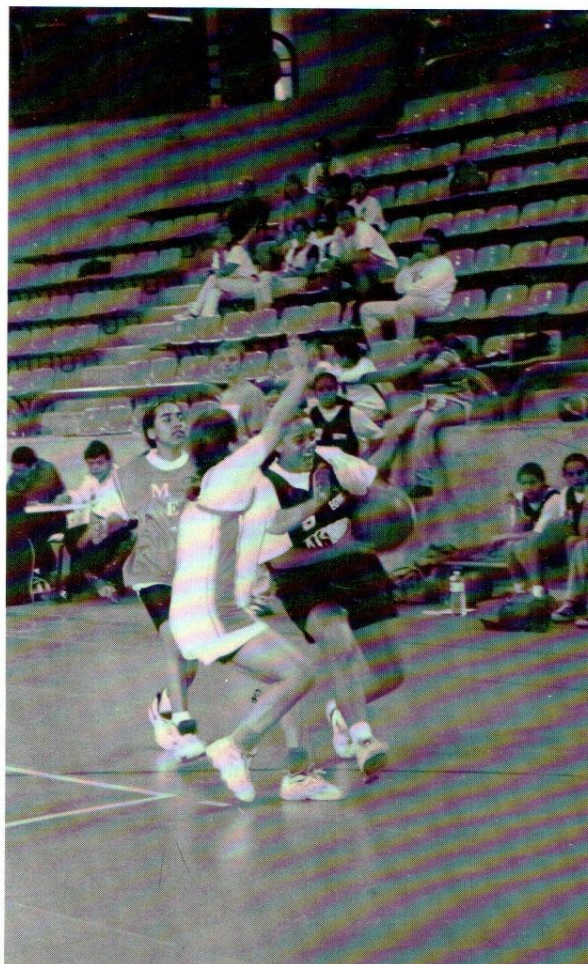

The tradition of a powerful girls basketball program was backed up as the J.V. team completed an exciting and successful year. Despite two close losses to CAC, the girls finished the year with a 12-3 record. The highlight of the year had to be an undefeated 7-0 mark in the final tournament held at the Egyptian National Stadium. The tournament featured a win versus MES, averaging a regular season loss. The exciting final saw a rowdy hometown crowd root the girls to a victory over Shutz.

Coupled with the varsity victory in Cyprus, the girls have laid a foundation as a team to be reckoned with for years to come.

The boys varsity basketball team had a very exiting season. Seniors Hassan Khalifa, Karim Sabet and Omar El Gamal led the team to a 6th place finish in the Saturday Adult League. Ten teams participated in the league this year.

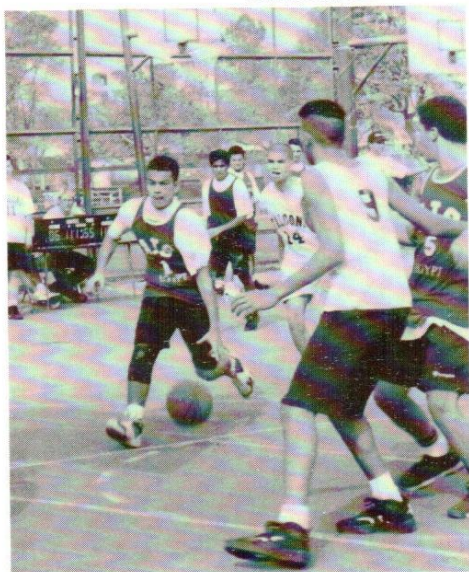

The ISAC tournament in Cyprus went especially well. The 4 wins included a victory over Malekonkia, a team that had not been beaten in 3 years! Bassel Rustom had the most points for the year, and Karim Sabet was the top rebounder. We look forward to this year's juniors making big contributions to the team next year. Let's continue our winning tradition.

GO, FIGHT, WIN

Sarah Ebeid faster than the whole Shutz team, and going for an easy lay up.

Go - Fight - Win - the motto of the Varsity Girls Basketball team came true in their stellar season this year with a record of 11-0-1. This team started off strong and never looked back. Prior to their international tournament, practice games against BISC, SHUTZ, & CAC strengthened their skills and then off to Cyprus were the varsity girls. Undefeated in their round robin play, they paved the path to the championship game and became the first ever AIS girls team to clinch 1st place at an international tournament. This is, no doubt, the start of a dynasty for girls basketball at AIS!

2nd row: Magdalena Lind, Cherine Hussein, Eman Abou Ghali, Sylvia Schoonderbeek, Mona Dwidar, Catherine Angus. 1st row: Heba Ismail, Sarah Ebeid, Mona Soliman, Nadia Badr El Din.

SOFTBALL

Though its not one of the more popular sports, softball in Egypt is becoming more common. Coach Rich Green knew his team would be challenged, "we had a great season with more than 30 students participating. Our games with CAC went well. Everyone is developing good skills. Our pitching is really improved with Akira and Roudan. The infield was anchored by Park and Kim. Hitting improved over the season and we will be quite a force next year. Hopefully, more schools in Egypt will challenge us. Until then, we will lead others in softball supremacy."

The JV and Varsity Boys Tennis teams went to Doha Qatar to play on the same courts as the likes of Andree Agassi and Pete Sampras. Tamer Salem cruised to the 1st seed victory. Mohamed Mohsen won the 2nd seed victory. Mohamed Allam and Karim Mostafa took their time and secured the Varsity boys doubles victory. Khaled Hegazy and Khaled Abled Nasser took 2nd place in the JV doubles, and Sherif Mostafa took 4 matches in the JV boys singles. SAIS Jeddah, AIS Doha, ABA Oman, UAS Kuwait, and AIS Kuwait will have to wait until next year to get their revenge. For now the 1st place trophy stays at AIS Egypt.

Congratulations to the JV girls and boys soccer teams on being sportsmanship champions all season. Without even a blade of grass, they managed to improve their skills at AIS. Challenging CAC to 2 outdoor matches, the girls quickly accommodated to the size of a real field, a real goal, and real grass heading into their international tournament in Syria. They were ambassadors of Egypt both on and off the field and captured the sportsmanship award for the tournament.

C H E E R L E A D I N G

It has been my pleasure to coach cheerleading for the past two years at AIS. Cheerleading is a sport that requires strength, flexibility, coordination, and above all, hard work and dedication. Of the seven cheerleaders, five were new to cheerleading and three were seniors. We will miss our seniors, Zeinab, Hoda, and especially Nadia, our captain. Nadia is a dependable, enthusiastic, talented cheerleader who took her responsibilities as captain very seriously. Zeinab couldn't cheer during Ramadan, but made up for it in Cyprus by losing her voice and spraining her ankle. Hoda wins the best posture award hands down. If only Nanice could remember her shoes and shorts! We're glad that Dalia took time out from synchronized swimming to be a cheerleader. Menna's smile and willingness to try anything made my job easy, and fearless Yara climbed to the top of every pyramid without missing a beat. Way to go Cheerleaders!

The 1996 AIS Papyrus VI was designed by ten senior yearbook staff members under the supervision of advisor Ms. Marsha Simpson. The staff used Pagemaker 4.2 on Macintosh computers to layout and design each page. The American University in Cairo Printshop published the yearbook. Pictures used are from staff members, various students, teachers, and anyone else who was willing to give up a photo for our use. Many thanks goes out to all who contributed, not only pictures, but time and energy in helping us create this school memory. To Nadia, Hassan, Sloven, Marwa, Mai, Eman, Salma, Noha, Abir, and Dalia: You are the best! I've enjoyed working with you, and knowing you; you are wonderful people! I wish you all the best as you graduate! Love, Ms. Simpson
