RBMS has an experienced administrative and teaching staff. The administrative team coaches and guides staff to make the best instructional

plans for individual student growth and achievement. Components such as student schedules, discipline, curriculum, and interventions are strategically planned to meet the needs of all students. If some instructional programs, schedules, or interventions are not working, the team at RBMS monitors and adjusts to meet the needs of the staff, the students, and the community. A Chrome Book is issued to each student and five computer labs are available for student use. Students have access to several computer programs such as: Success Maker, Flocabulary, Summit K12, Action Scholastic.

RBMS has safe practices and processes that contribute to student success. We execute the following safety and security measures within our school community and building:

*Breakfast on wheels in which students arrive on school transportation (buses) in a 5-10 minute arrival process, enter the building while being monitored to enter their grade level hallways and to their breakfast line. Students are expected to grab a light, free breakfast, and report immediately to their designated first period class. All teachers arrive to school with the expectation teachers are expected to be present and visible at their doors to receive students. The minutes prior to the instructional day are carried out in the classrooms while students are able to eat breakfast quickly, and dispose of food just before preparing for their instructional day. Campus leaders as well as teachers that are not scheduled for a first period class are expected to monitor hallways and ensure overall safety of the building during breakfast on wheels.
