## ADDENDUM 1

---

Client / Address	Troy School District	Project / Location	Cellular WAN
Date Issued	February 19, 2024	Project Number	2324-17

**A1-1 NOTICE: The bid documents are amended herein which adds to and/or supersedes conflicting or additional information in the Request for Proposal.**

1. Work covered by this Addendum shall be subject to the Introduction, Terms and Conditions and Technical Specifications.
2. Acknowledge this Addendum on the Cost Analysis Worksheet and include the cost of the work herein specified in the Bid.
3. **Notice:** The required electronic copies of the proposal must be in every way a duplicate of the hard copy. Provide the electronic copy in separate PDFs by tabular section as required by the hard copy. Failure to provide a duplicate of all information in both formats will be grounds for non-compliance and disqualification.

**A1-2 Questions and Answers**

Q: Is it your intent to have PRIMARY Internet Access over cellular with NO terrestrial service?

A: There is an existing connection to the building using private fiber, the requested cellular connection is a supplemental connection

Q: Is the Cellular connection intended to be for failover only for terrestrial services?

A: The intent is to have both connections operating simultaneously

Q: If the answer to above is yes, would you consider the Cradlepoint 1850 5G adapter which will provide failover and is less expensive than the E3000?

A: The E3000 is the basis of design, and any other voluntary alternates will be reviewed for consideration

Q: For equipment pricing are you seeking a 5-year amortization schedule or would you consider a 3 year schedule or would you consider an outright purchase (MSRP + eligible discount)?

A: The base bid requires pricing for a 3yr and 5yr agreement inclusive or all hardware/software licensing. On this project the preference for equipment would be an outright purchase. Voluntary alternates (including contract options) will be reviewed for feasibility.

**End of Addendum 1**
