Support services, which include safety and maintenance programs, transportation, food services, insurance management and office services, are essential to the successful functioning of the school district. Education is the district's central function, and all support services shall be provided, guided, and evaluated by this function.

In order to provide services that are truly supportive of the educational program, the Board of Education establishes these goals:

1. providing a physical environment for teaching and learning that is safe and pleasant for students, staff, and the public;
2. providing safe transportation and nutritious meals for students who use these services; and
3. providing timely, accurate, and efficient support services that meet district needs and promote district goals.
