

River Grove Reimagined

Construction Update

July 11, 2022

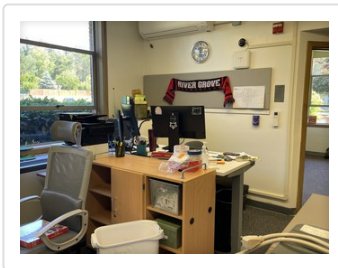

River Grove moving to Uplands during Construction

Movers have finished transporting the contents of River Grove to Uplands Elementary School on Wembley Avenue where students will be relocated during construction of the new River Grove building.

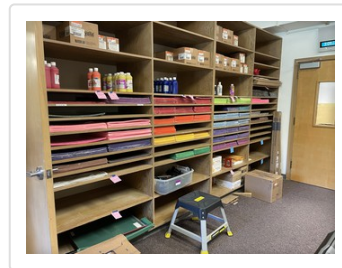

Principal Dan Draper, and school secretary, Ana Ryan are unpacking their new offices and preparing for the beginning of school in August.

Raised garden beds and picnic tables from River Grove have been moved to Uplands and are waiting for students' return in August.

School office is quickly taking shape.

Teachers' workroom is looking great!

River Grove Art Tiles

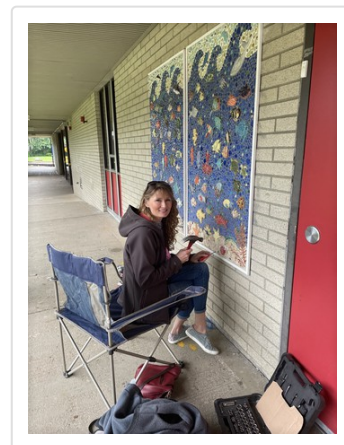

The art tiles at River Grove have been photographed and will be available online to purchase from August 1 - 31.

You will have the option to download photos of the mosaics and order photo prints made, or, order a keepsake tile of your child's personal tile and/or the mosaic as a whole printed on thin, metal tiles (dye sublimation prints).

More information to come...

River Grove mom, Amy McCarty, removes three mosaics to be included in new building

The last three mosaics in the covered walkway at River Grove were installed in a way that allowed them to be removed at a later date. These mosaics have been taken down and will be stored until they can be installed in the new River Grove building.

Memorial Pavers

The memorial pavers that were part of the walkway near the entrance to the school, will be reinstalled with the new building.

Construction Fences Have Been Installed

Construction fences are now up at River Grove. Please do not enter fenced off areas!

For Construction Updates at River Grove Elementary

If you want to receive regular updates for this project, and you are not already on the email distribution list for the River Grove Newsletter from Principal Dan Draper, please email me and I will add your information to the River Grove Reimagined distribution list.
