Budget Guidelines Overview

The following is the 2023-2024 Budget Guidelines Book for the Lake Travis ISD. As always, the annual budget focuses on Board priorities centered on student opportunities and that all other functions within the district exist in support of the District's vision, mission and beliefs.

Budgeting is a valuable tool in both the planning and evaluation processes. Budgeting provides a vehicle for translating educational goals and programs into a financial resource plan. Thus, instruction planning to attain student educational goals should determine budgetary allocations. In addition, such budgeting practice may enhance the evaluation of budgetary and educational performance since resource allocations are closely associated with instructional plans.

There are four basic sections in this book: the development process, preparation overview, reference information, and account codes. The development process includes overview, board directives, and a budget calendar. The preparation overview section includes budget steps, projected enrollment by campus, per pupil allotments (PPA) by campus, general expenditure codes, and special programs. The reference section contains frequently asked questions. The fourth and final section includes a listing of primary account codes with descriptions.

Section 1: Budget Development

Budget Guidelines

TEA/Legal Requirements

1. The annual budget that requires board approval consists of the General Fund, Food Service Fund and the Debt Service Fund.
2. The board is required to approve these budgets to the functional level to comply with the State's legal level of budgetary control.
3. The budget shall be prepared by end of August of each year with an effective date of September 1.
4. A public meeting of the board for taxpayer participation must be held prior to the adoption of the budget.
5. The budget must be prepared in accordance with GAAP (generally accepted accounting principles) and State guidelines.
6. A copy of the approved budget must be posted on the District's website.
7. Funds may not be expended in any other manner than as provided for in the adopted budget. However, the board has the authority to amend the budget during the course of the budget year. Amendments must occur prior to August 31 each year. Amendments shall occur before exceeding a functional expenditure category.

District Policy CE (Local)

The District shall operate on a fiscal year beginning September 1 and ending August 31.

Budget planning shall be an integral part of overall program planning so that the budget effectively reflects the District's programs and activities and provides the resources to implement them. In the budget planning process, general educational goals, specific program goals, and alternatives for achieving program goals shall be considered, as well as input from the District- and campus-level planning and decision-making committees. Budget planning and evaluation are continuous processes and shall be a part of each month's activities.

District Preparation Guidelines

1. The annual budget should provide a vehicle for translating educational goals and programs into financial resource plans. Instructional planning should determine budgetary allocations.
2. The annual budget is intrinsically a document reflecting the District's administration accountability for its fiduciary responsibility to its patrons.
3. The budget is an important tool for the control and evaluation of the District's sources and uses of its resources.
4. The budget control processes should not be unduly restrictive. However, the budget process should ensure that the District's State and legal requirements are met and that the budget supports the educational plan.
5. Instructional resource allocation should be distributed based on student needs (i.e. campus allocations, student-related programs).

6. The budget allocation process should involve consideration of all potential current and ongoing cost implications.
7. A budget is considered balanced when current resources match current spending plans. However, short-term budget imbalances may occur but cannot be sustained indefinitely. Technically, a balanced budget may be met through the use of fund balance reserves to pay for current services. However, on-going and recurring costs will deplete these reserves if continued over multiple budget periods.
8. To ensure administrative accountability, the budget is distributed over multiple organizations with each having a budget manager¹ (campuses and departments). As a general rule, budget managers having the authority to initiate the use of district resources should predetermine that resources are available before committing funds.
9. Appropriate budget planning and communication between budget managers and the District central administration ensures that spending decisions from budget line items have corresponding approved resources.
10. Budget decisions for the use of funds within the control or decision-making role of the budget manager should not be made without knowledge of the fund source.
11. The District should utilize budget control processes for each budget manager and receive board approval for spending needs that exceed any function.

¹ Budget Manager is defined as a principal or districtwide department head that has been given budget authority and assigned a budget allocation.

Section 2: Budget Preparation

Budget Preparation Overview

Steps to Budget Preparation

1. The District uses MS Access and Excel Workbook for budget development.
2. The budget file will be created by the Director of Finance and/or accountant and will have historical budget and expenditure information for review by the Budget Managers as they submit their respective budget entries.
3. A complete copy of the current Budget Guidelines will be posted in the Business Services website under the Budget section. Any updates will be provided electronically.
4. All Budget Managers should collaborate with campus improvement teams and staff in the areas of counseling, health services and physical education to allocate campus and departmental budgets.
5. Budget Managers are to review their proposed budget with the appropriate supervisor and submit the final budget workbook to the Director of Finance and Accountant in the business office.
6. It is important that your budget is submitted by the deadline of 4:00 p.m. on March 10, 2023.
 - Any questions or issues you have with your budget can be directed to Brad Goerke (Ext. 6444) or Philippa Ford (Ext. 6013).

2023-2024 Campus Budget Allocation

Many factors determine the campus budgets. The base of those budgets is calculated by the following method. Additional factors considered are funding for programs such as CTE, State Comp Ed, Bilingual and Special Ed, etc.

Campus	Projected Enrollment	Campus per pupil multiplier	Enrollment in each Special Program	Special Programs multiplier	CTE per pupil multiplier	Total Budget
Elementary	XXX	\$97	XXX	\$25	\$0	\$XXX
Middle School	XXX	\$104	XXX	\$25	\$30	\$XXX
High School	XXXX	\$167	XXXX	\$25	\$60	\$XXX

What does the campuses allocation cover?

The basic allotment should cover most campus needs. An example of campus expenditures that may be covered by the allotment is shown below. Note: This list is not intended to be exhaustive

- Contracted services
- Copier maintenance/copies
- Copy Center printing
- Counselor supplies
- Dues, fees and awards
- Employee travel
- Field trip costs

Department Budgets

1. Department budgets are based upon justifiable needs to support the operation of the District.
2. Specific budget non-payroll requests will require proper justification.
3. Department Budget Managers should provide a description for each line item request.
4. Additional supporting documentation should accompany budget requests when necessary.
5. Major purchase requests should be submitted to the business office for review to determine proper funding source.

Section 3: Reference Information

Frequently Asked Questions

1. For items not explained previously, how do you determine who budgets for the item or service?

As a general rule, the budget manager who has been given the authority by the District to initiate a purchase for goods or services should be the one to budget for the item. While budget managers are not expected to budget for goods or services beyond their control, every effort should be made to ensure that potential budget events are communicated to the proper supervisor and/or the Assistant Superintendent of Business Services during the budget planning process.

2. What is the difference between using campus allocations and budgeting for major capital needs?

The campus allocation is a formula-determined finite amount. Depending on the circumstances and budget initiatives, campus allocation may or may not be enough to cover all anticipated budget expenditures for the upcoming budget year. For instance, one campus may have a special need to budget for one year only to replace its 25-year-old cafeteria tables. That campus would not be expected to cover that cost from its annual campus allocation. A special request would be in order.

Special requests are any requests that exceed the amount of the campus allocation. Typically they are needed to cover new program initiatives, furniture and equipment replacement, or any other costs that support the campus budget.

3. What is the definition of Capital Outlay Expenditure?

School districts account for both current and fixed assets.

They may include land, buildings, machinery, furniture, and other equipment that are intended to be held or used over a longer period of time. "Fixed" denotes probability of intent to continue use of an asset.

School districts are required to classify expenditures for all equipment, furniture, technology and capital outlay items having a (per unit) cost of \$5,000 or more and a useful life of more than one year. Object code 6639 is used to classify these assets.

6639 Capital Outlay - Unit Price \$5,000 and Over

This code is used to classify expenditures for all equipment, furniture, technology and capital outlay items having a (per unit) cost of \$5,000 or more and a useful life of more than one year not classified elsewhere. Included in this code are items such as telephone systems, PA systems and telecommunication systems, computer servers and high capacity copy machines.

6649 Capital Outlay - Unit Price under \$5,000

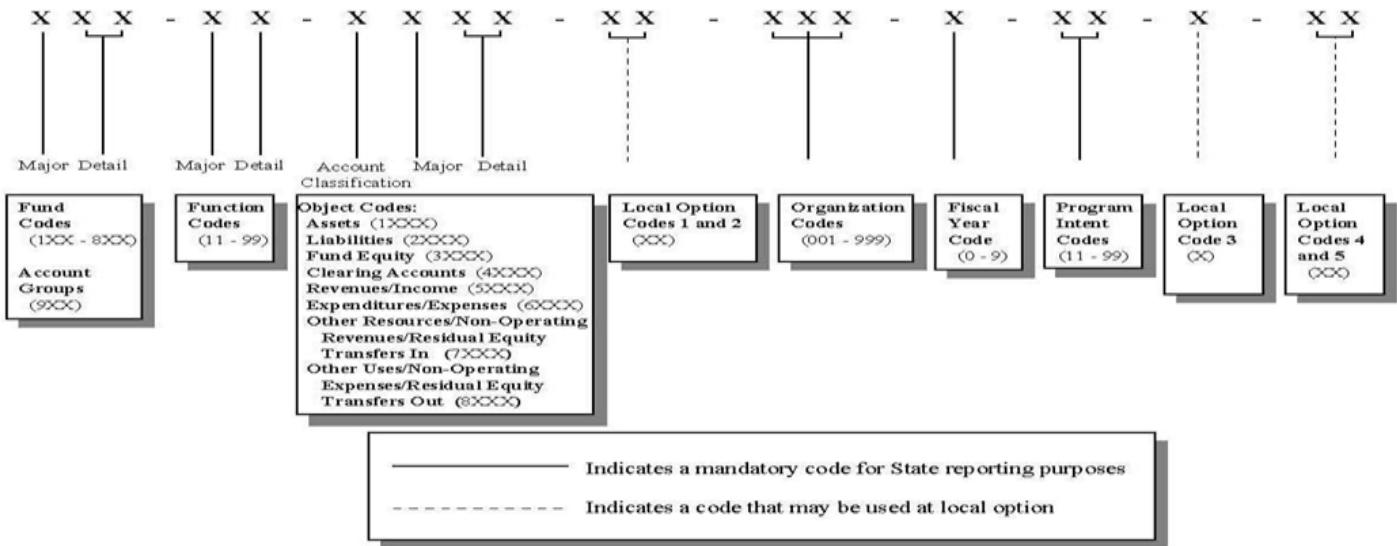

This code is used at the discretion of the school district to account for furniture and equipment having a unit price of \$5,000 or less.

The following table will assist you in determining the proper object code to use when coding budget requests for musical instruments, audiovisual equipment, furniture, computers and related hardware or any other item typically considered capital outlay:

<u>Unit Price Range</u>	<u>Object Code</u>
Less than \$5,000	6649
\$5,000 and greater	6639

6100 PAYROLL COSTS

This major classification includes the gross salaries or wages and benefit costs for employee services. An employee is paid a salary or wage. The school district acts in a supervisory capacity over an employee and furnishes or approves the working area and usually the equipment and materials needed to perform a task or service. Although an employee may work with more than one supervisor before, during, or after the normal employment hours, if the services or tasks performed are at the general direction of the school district, the amount paid to that employee is considered a payroll cost

6112 Salaries or Wages for Substitute Teachers

This code is used to classify the gross salary and wage expenditures or expenses for substitute teachers and is primarily used with function code 11, Instruction. Substitutes for other professionals should be coded to the same function code as the payroll record of the professional being replaced.

6117 Extra Duty Pay – Professional Personnel (LOCALLY DEFINED)

This code is used to classify extra duty pay to professionals for other work performed.

6119 Salaries or Wages - Teachers and Other Professional Personnel

State Compensatory Education (SCE) expenditures are attributable to program intent code 24, Accelerated Instruction, only when:

- the expenditures are supplemental to the basic, or regular, education program;
- students served meet statutory at-risk criteria as defined in TEC, §29.081; and
- services are specifically designed to enable at-risk students to be performing at grade level at the end of the next regular school term.

To determine your campus's poverty percentage, use the same auditable poverty data as that used for Title I, Part A in the NCLB Consolidated Application for Federal Funding. All SCE services must be described in the campus or district improvement plan.

SCE funds must be part of the campus budget, and all SCE expenditures must track back to the SCE fund code. School-wide campuses must continue to receive state and local funds for conducting the regular, or
