Revere Local School District Technology Plan 2021-2026

**Teaching &
Learning**

Infrastructure

**Professional
Learning**

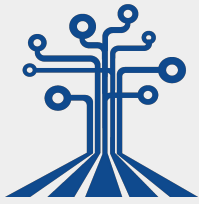

**Budget &
Resources**

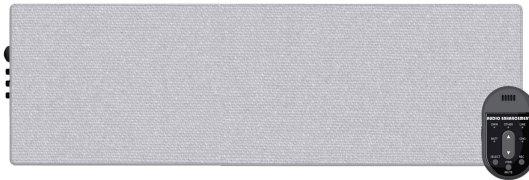

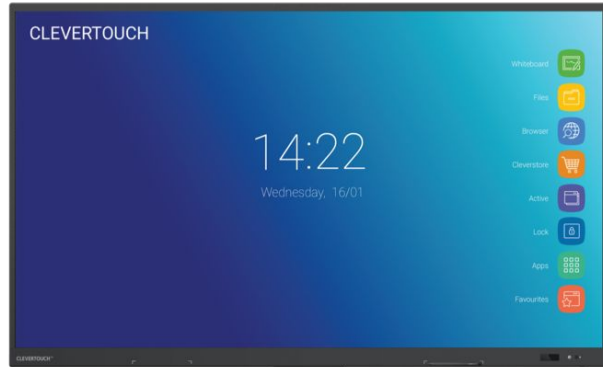

GOAL: Continue to provide a suitable computing device for each student.

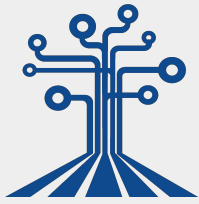

- Re-evaluation of iPad program in 2022.
- Active replacement of student devices in grades 3-11.
- Switch to a model of continuous upgrades.
- Shift focus away from tech at Kindergarten.

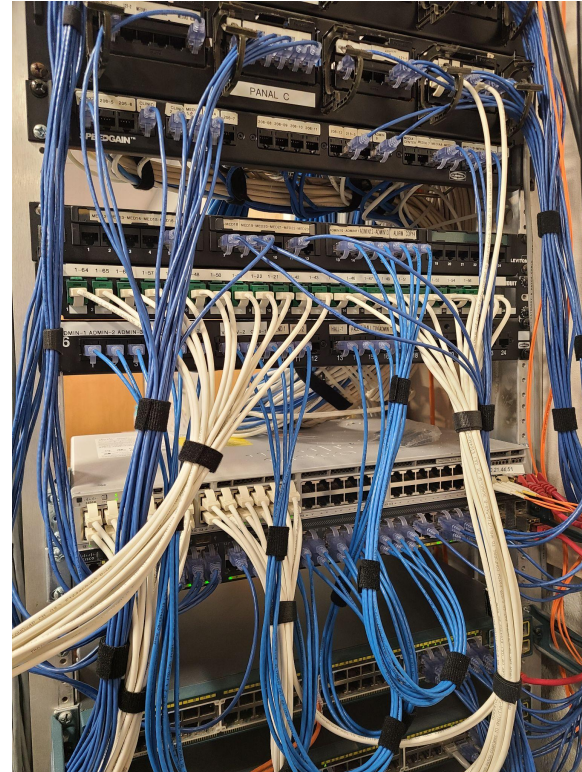

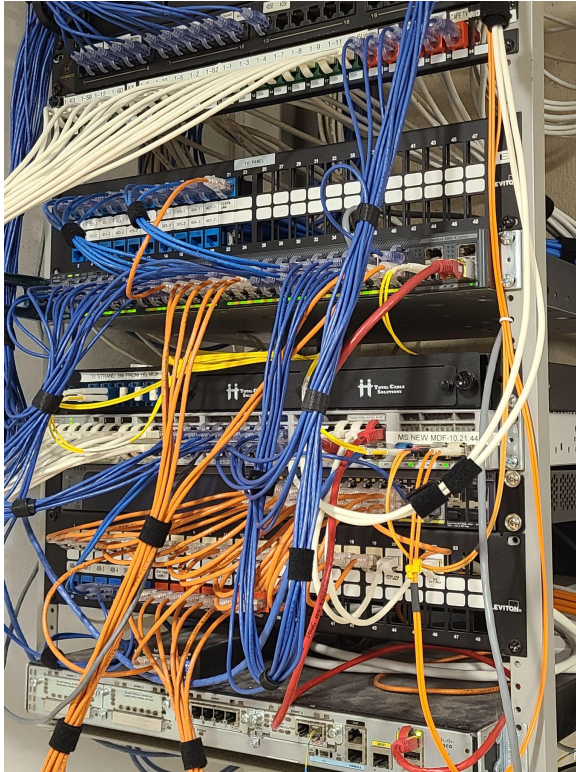

GOAL: Update classroom technology at Revere Middle School and Richfield Elementary School.

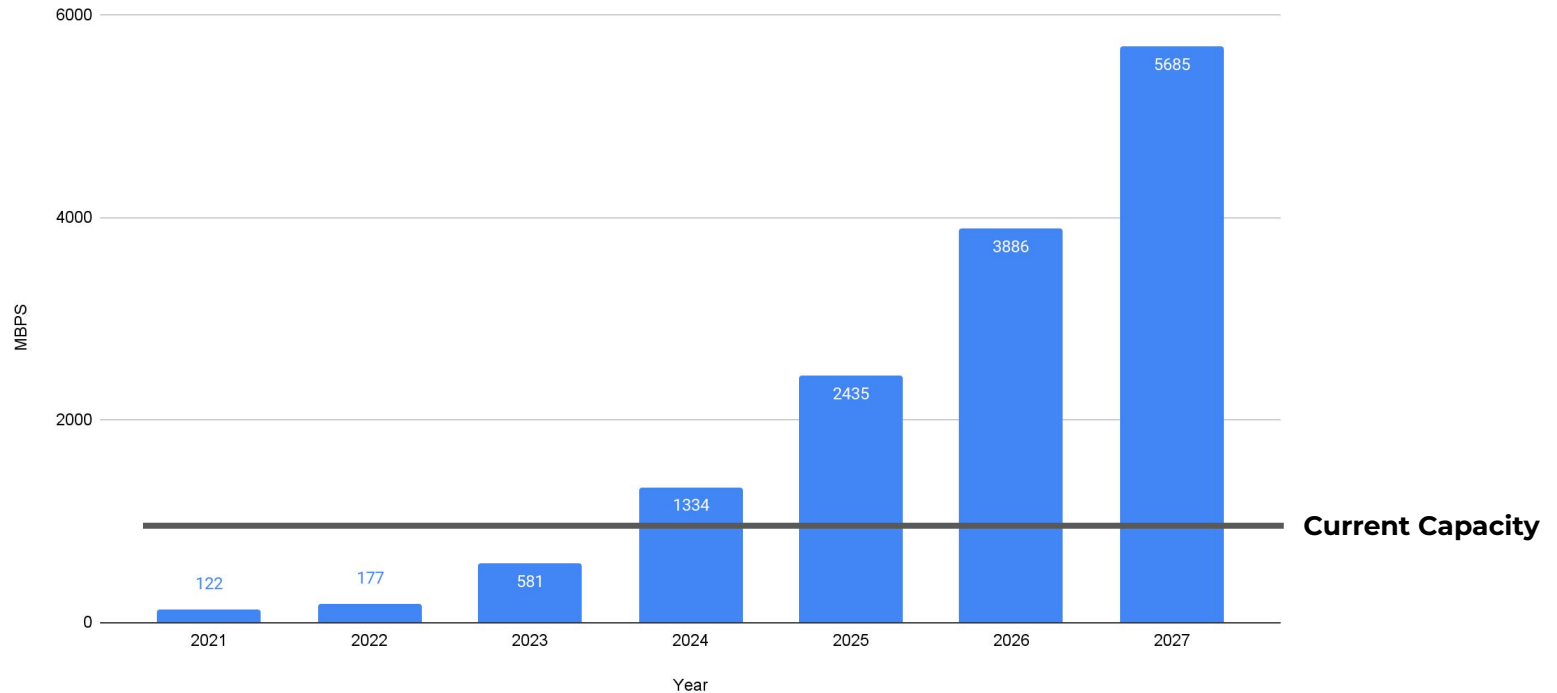

GOAL: Improve network infrastructure at Revere Middle School and Richfield Elementary School.

GOAL: Monitor Internet Bandwidth.

Bandwidth Use (99th Percentile)

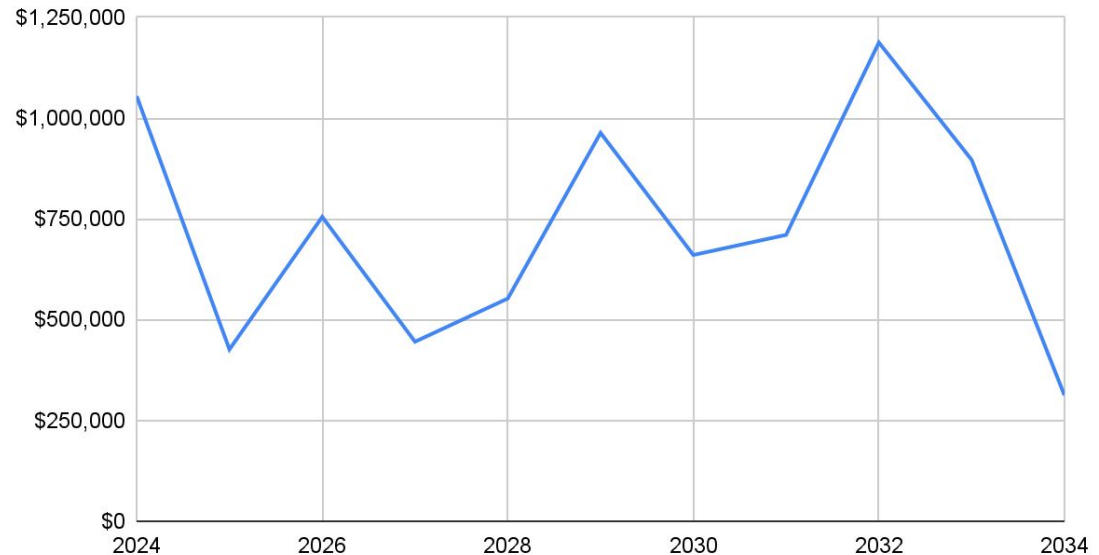

GOAL: Maintain a technology replacement plan that forecasts major technology needs over a five-year period.

2021 Technology & Learning Survey

Technology

The technology department is responsible for supporting all aspects of educational and operational technology in the school district. This includes networks, connectivity, all computing devices, educational technology, software, and training.

Revere is an Apple school district. Every student is assigned an iPad for instructional use, and teachers use iPads and Macbooks in their teaching. The district relies heavily on the Apple and Google platforms.

To get help with a technology problem, please contact the department via email at helpdesk@revereschools.org.
