

We need your voice to shape our Portrait of a Learner!

To better serve our students, GWRSD is seeking your help! We are surveying GWRSD staff, students, families, and community members in the GWRSD region.

- **What qualities would you want each individual learner to gain during their academic career at Governor Wentworth?**
- **What skills do our children need to become productive members of our community?**

Your voice is essential in the process of developing our vision for a **Portrait of a Learner**, which will act as a “north star.” With this in mind, we seek and welcome your feedback to contribute to this vision. Thank you in advance for your participation!
