

# AP Statistics

- Many non-math heavy college majors now require a Stats course as a required math credit.
- Example Majors could be Nursing, Criminal Justice, Business, Social Science, Psychology, and of course Statistics.
- This course is not only about finding the number, but being to understand and explain the context and implications of the number.

# AP Statistics

- In 2020, 76% of Southside students who took AP Statistics passed the test with a 3.26 average.
- AR: 41% passed with avg score of 2.34
- Global: 60% passing with avg score of 2.93
- Course Categories:
  - Descriptive Statistics
  - Experimental Design
  - Probability
  - Inferential Statistics

# AP Statistics

- You must have completed a minimum of Algebra II with a grade of an A or B to take AP Statistics
- If you have any questions, please see Mr. Adams in room 2217.
