

AP European History

Mrs. Norris

2021-2022 School

AP European History is a rigorous, but FUN academic course designed to prepare students for the AP Euro Exam in May. The content is similar to a college Western Civilizations course, although because we have an entire school year, we get to go more in depth in our study of Europe starting with the Renaissance and ending in early 2000s. Students will receive credit for a college Introduction history course when they receive an acceptable score on the AP Exam.

In the last 3 years, nearly 90% of Southside AP Euro students passed the exam!!
