

Introduction to Sociology

Mrs. Lux

2021-2022 School
Year

Introduction to Sociology is the first exposure that many students have to the field of Sociology. The class is designed to introduce students to the broad range of topics that Sociology encompasses and give them a foundation in its basic concepts.

If you're interested in Sociology, consider pairing it with a semester of Psychology. Two things that go great together!

Some of the topics we will study include:

- **Culture**
- **Socialization**
- **Deviance and Social Control**
- **Racial, Ethnic, Gender, and Age Differentiation**
- **Social Institutions (Family, Religion , Education, Politics, Economy)**
