

PRE-AP
BIOLOGY
INTEGRATED
SOUTHSIDE
HIGH SCHOOL

COURSE DESCRIPTION

Biology is the natural science that studies life and living organisms, including their physical structure, chemical processes, molecular interactions, physiological mechanisms, development and evolution. Biology is required for graduation from high school in the state of Arkansas. Pre-AP Biology helps to prepare students for the rigor of the AP science courses offered at SHS and for college. Pre-AP Biology will count as a credit unit towards the honors diploma.
