Travels 12 miles from Roxborough
to Roman

“After transferring to Roman last year, I immediately felt welcomed both in the classroom and on the court. The coaching staff and my teammates were very helpful as I learned to navigate my way from Delaware each day. My coaches are second to none. They are phenomenal role models and are helping me to become the best student-athlete. They demand my best effort each day.”

Strength in Athletics

Growing strong in mind and body enables a young man to become self-reliant, self-possessed, and ready to take on the world. Roman’s athletic program consists of 17 Varsity sports, offered at three levels – including many freshman teams. As the City is our Classroom, the City is also our playground, as our athletic teams use facilities located throughout the Philadelphia region.

With over 55 percent of the student body engaged in team sports, Roman’s athletic program is specifically designed to help student-athletes develop their skills physically, mentally, and socially while fostering a sense of personal accomplishment and autonomy.
