

ARTIFICIAL INTELLIGENCE:  
**CATHEDRAL EDUCATORS  
LEAD THE WAY!**

## STRATEGIC PRIORITY

---

As we fulfill our Vision to be the Catholic school of the future, we will leverage the benefits of artificial intelligence for Cathedral educators. AI provides time saving efficiencies to allow for a greater focus on our interpersonal relationships and allowing us greater time to see Jesus in everyone around us. We are committed to innovation and we need your help!

---

*"We will need a powerful tool chest to help us stay one step ahead of AI."*

*– Brian Gross,  
Cathedral Educator & Educational  
Technology Coach*

*"Students and teachers have to learn to navigate the AI world and find a place for themselves in it."*

*– Karen Hovanec,  
Cathedral Educator & Educational  
Technology Coach*
