INDEPENDENT AUDITORS' REPORT

The Board of Education
Dunkirk City School District, New York:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Dunkirk City School District, New York (the "District"), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2020, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and other Required Supplementary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Supplementary Information, as listed in the table of contents, and the Schedule of Expenditures of Federal Awards, as required by the audit requirements of Title 2 U.S. Code of Federal Regulations ("CFR") Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"), are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Supplementary Information, as listed in the table of contents, and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Supplementary Information, as listed in the table of contents, and the Schedule of Expenditures of Federal Awards are fairly stated in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 13, 2020 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Drescher & Malecki LLP

October 13, 2020

As management of the Dunkirk City School District (the "District"), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2020. This document should be read in conjunction with the additional information that we have furnished in the District's financial statements, which follow this narrative.

Financial Highlights

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at June 30, 2020 by $55,573,552 (*net position*). This consists of $26,335,453 net investment in capital assets, $16,744,624 restricted for specific purposes and unrestricted net position of $12,493,475.

- The District's net position decreased by $605,196 during the year ended June 30, 2020.

- At the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of $25,856,959, an increase of $945,158 in comparison with the prior year's fund balance of $24,911,801.

- At the end of the current fiscal year, *unassigned fund balance* for the General Fund was $1,487,180, or approximately 3.4 percent of total General Fund expenditures and transfers out. This total amount is *available for spending* at the District's discretion and constitutes approximately 5.9 percent of the General Fund's total fund balance of $25,147,951 at June 30, 2020.

- The District's total bonded indebtedness decreased by $3,110,000 as a result of scheduled principal payments.

Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements—The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as *net position.* Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are

reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the District include general support, instruction, pupil transportation, community services, school food service, and interest on long-term debt. The District does not engage in any business-type activities.

The government-wide financial statements can be found on pages 12 and 13 of this report.

Fund financial statements—A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds—*Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds' balance sheet and the governmental funds' statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities.*

The District maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Special Aid Fund, School Lunch Fund, and Capital Projects Fund, all of which are considered to be major funds.

The basic governmental fund financial statements can be found on pages 14-17 of this report.

Fiduciary funds—Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the District's own programs. The District is responsible for ensuring that the assets reported in these funds are used for their intended purpose. The District maintains one fiduciary fund, the Agency Fund.

The fiduciary fund financial statement can be found on page 18 of this report.

Notes to the financial statements—The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 19-44 of this report.

Other information—In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning the District's net pension liability/(asset), the changes in the District's total other postemployment benefits ("OPEB") obligation, and the District's budgetary comparison for the General Fund. Required supplementary information and related notes to the required supplementary information can be found on pages 45-52 of this report.

Other supplementary information is presented immediately following the Required Supplementary Information in the Supplementary Information section of this report on pages 53-55.

The Federal Awards Information section presents the District's Schedule of Expenditures of Federal Awards. This section can be found on pages 56-64 of this report.

Government-wide Financial Analysis

As noted earlier, net position over time may serve as useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by $55,573,552 at June 30, 2020, as compared to $56,178,748 at the close of the fiscal year ended June 30, 2019.

Table 1, shown below, presents a condensed statement of net position of the District at June 30, 2020 and June 30, 2019.

Table 1—Condensed Statement of Net Position

	June 30,	
	2020	2019
Current assets	$ 29,072,318	$ 28,427,911
Noncurrent assets	59,184,330	60,376,796
Total assets	88,256,648	88,804,707
Deferred outflows of resources	12,987,533	12,573,069
Current liabilities	2,562,775	2,956,904
Noncurrent liabilities	38,166,663	38,742,585
Total liabilities	40,729,438	41,699,489
Deferred inflows of resources	4,941,191	3,499,539
Net position:		
Net investment in capital assets	26,335,453	25,022,482
Restricted	16,744,624	18,727,908
Unrestricted	12,493,475	12,428,358
Total net position	$ 55,573,552	$ 56,178,748

The largest portion of the District's net position, $26,335,453, reflects its investment in capital assets (e.g. land, buildings, improvements and equipment), less any related outstanding debt used to acquire those assets. The District uses these capital assets to provide a variety of services to students. Accordingly, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the District's net position, $16,744,624, represents resources that are subject to external restrictions imposed by laws and regulations of other governments, through constitutional provisions or enabling legislation.

The remaining portion of the District's net position represents resources that are unrestricted and may be used to meet the District's ongoing obligations to citizens and creditors. Unrestricted net position of $12,493,475 represents resources that may be used to meet the District's ongoing operations.

Table 2, as presented below, shows the changes in net position for the years ended June 30, 2020 and June 30, 2019.

Table 2—Condensed Statement of Changes in Net Position

	Year Ended June 30,	
	2020	2019
Program revenues:		
Charges for services	$ 142,966	$ 237,179
Operating grants and contributions	10,846,225	11,203,465
General revenues	40,979,290	39,484,909
Total revenues	51,968,481	50,925,553
Program expenses	52,573,677	49,490,174
Change in net position	(605,196)	1,435,379
Net position—beginning	56,178,748	54,743,369
Net position—ending	$ 55,573,552	$ 56,178,748

Overall revenues increased by 2.0 percent due primarily to increased unrestricted state aid. Total expenses increased 6.2 percent from the year ended June 30, 2019, as a result of cost allocated from the performance of the state-managed pension plan.

A summary of sources of revenues for the years ended June 30, 2020 and June 30, 2019 is presented below in Table 3:

Table 3—Summary of Sources of Revenues

	Year Ended June 30,		Increase/(Decrease)	
	2020	2019	Dollars	Percent (%)
Charges for services	$ 142,966	$ 237,179	$ (94,213)	(39.7)
Operating grants and contributions	10,846,225	11,203,465	(357,240)	(3.2)
Real property taxes	7,984,995	7,862,538	122,457	1.6
Real property tax items	2,289,065	2,409,199	(120,134)	(5.0)
Use of money and property	271,388	223,658	47,730	21.3
Sale of property and compensation for loss	21,404	99,109	(77,705)	(78.4)
Miscellaneous	242,597	284,291	(41,694)	(14.7)
State sources—unrestricted	30,169,841	28,606,114	1,563,727	5.5
Total revenues	$ 51,968,481	$ 50,925,553	$ 1,042,928	2.0

The most significant source of revenue for the year ended June 30, 2020 were State sources—unrestricted of $30,169,841, or 58.1 percent of total revenues, and operating grants and contributions of $10,846,225, or 20.9 percent of total revenues. Similarly, for the year ended June 30, 2019 the largest sources of revenue were State sources of $28,606,114, or 56.2 percent of total revenues, and operating grants and contributions of $11,203,465, or 22.0 percent of total revenues.

A summary of program expenses for the years ended June 30, 2020 and June 30, 2019 is presented below in Table 4:

Table 4—Summary of Program Expenses

	Year Ended June 30,		Increase/(Decrease)	
	2020	2019	Dollars	Percent (%)
General support	$ 6,486,834	$ 6,179,248	$ 307,586	5.0
Instruction	42,860,348	39,296,537	3,563,811	9.1
Pupil transportation	1,137,097	1,505,728	(368,631)	(24.5)
Community services	49,457	62,157	(12,700)	(20.4)
School food service	1,115,702	1,283,762	(168,060)	(13.1)
Interest and other fiscal charges	924,239	1,162,742	(238,503)	(20.5)
Total program expenses	$ 52,573,677	$ 49,490,174	$ 3,083,503	6.2

The District's significant expense items for the year ended June 30, 2020 were instruction of $42,860,348, or 81.5 percent of total expenses and general support of $6,486,834, or 12.3 percent of total expenses. Similarly, for the year ended June 30, 2019 significant expense items were instruction of $39,296,537, or 79.4 percent of total expenses and general support of $6,179,248, or 12.5 percent of total expenses.

Financial Analysis of Governmental Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds—The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for discretionary use as they represent the portion of fund balance which has not yet been limited to use for a particular purpose by an external party, the District itself, or a group or individual that has been delegated authority to assign resources for particular purposes by the Board of Education.

As of June 30, 2020, the District's governmental funds reported combined ending fund balances of $25,856,959, an increase of $945,158 from the prior year. Approximately 5.8 percent of this amount, $1,487,180, constitutes *unassigned fund balance*, which is available for spending at the District's discretion. The remainder of fund balance is *nonspendable*, *restricted*, or *assigned* to indicate that it is 1) not in spendable form, $23,811, 2) restricted for particular purposes, $16,768,270, or 3) assigned for particular purposes, $7,577,698.

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the General Fund was $1,487,180, while total General Fund fund balance increased to $25,147,951. As a measure of the General Fund's liquidity, it may be useful to compare both

unassigned fund balance and total fund balance to total General Fund expenditures. Unassigned fund balance represents 3.4 percent of total General Fund expenditures and transfers out, while total fund balance represents 57.9 percent of that same amount.

The total fund balance of the District's General Fund increased by $1,045,991 during the current fiscal year. During the annual budget process, the District anticipated utilizing $4,217,521 of fund balance, which included funds appropriated from fund balance reserves ($260,000), funds appropriated from unassigned fund balance ($3,884,284) and the re-appropriation of prior year's encumbrances ($73,237). Largely as a result of spending less than anticipated, the District's fund balance ended $5,263,512 higher than anticipated.

Similar to the prior year, at June 30, 2020, the District's Special Aid Fund reported no fund balance. Special Aid Fund expenditures for the year ended June 30, 2020 amounted to $6,346,182, as compared to prior year expenditures of $5,702,175. The increase in expenditures is primarily due to increases in funding for various programs. These expenditures were supported by State and Federal aid and a transfer of $38,499 from the General Fund.

At June 30, 2020, the District's School Lunch Fund reported a fund balance of $571,949, a decrease of $26,192 from the prior year. Nonspendable fund balance of $23,811 is reported to reflect the amounts of inventory not in spendable form, and the remaining $548,138 is reported as fund balance assigned for specific school food service use.

At June 30, 2020, the District's Capital Projects Fund fund balance decreased to $137,059 as a result of building project spending. This total fund balance amount is classified as restricted fund balance for future capital projects.

General Fund Budgetary Highlights

The District's General Fund budget generally contains budget amendments during the year. The budget is allowed to be amended upward (increased) for prior year's encumbrances since the funds were allocated under the previous year's budget, and the District has appropriately assigned an equal amount of fund balance at year-end for the purpose. A summary of revisions from the adopted budget to final budget is presented below in Table 5:

Table 5—General Fund Budget

Adopted budget, 2019-2020	$ 47,847,549
Add: Prior year's encumbrances	73,237
Original budget, 2019-2020	47,920,786
Budget revisions	-
Final budget, 2019-2020	$ 47,920,786

More detailed information about the District's General Fund is presented in the Schedule of Revenues, Expenditures, and Changes in Fund Balance—Budget (Non-GAAP Basis) and Actual—General Fund within the Required Supplementary Information section of this report.

Capital Asset and Debt Administration

Capital Assets—The District's investment in capital assets for its governmental activities as of June 30, 2020, amounted to $56,315,613 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings, site improvements, and furniture and equipment. All depreciable capital assets were depreciated from the year of acquisition to the end of the current year as outlined in the District's capital asset policy.

Capital assets, net of depreciation for the governmental activities at June 30, 2020 and June 30, 2018 are presented below in Table 6:

Table 6—Summary of Capital Assets (Net of Accumulated Depreciation)

	June 30,	
	2020	2019
Land	$ 81,502	$ 81,502
Buildings	55,209,267	57,317,019
Site improvements	365,211	401,149
Furniture and equipment	659,633	581,928
Total	$ 56,315,613	$ 58,381,598

Additional information on the District's capital assets can be found in Note 4 to the financial statements.

Long-term liabilities—At June 30, 2020, the District had total long-term liabilities of $38,166,663, as compared to $38,742,585 in the prior year. Of the long-term liabilities outstanding at June 30, 2020, $28,430,000 represents serial bonds issued by the District.

A summary of the District's long-term liabilities at June 30, 2020 and June 30, 2019 is presented below in Table 7:

Table 7—Summary of Long-Term Liabilities

	June 30,	
	2020	2019
Serial bonds	$ 28,430,000	$ 31,540,000
Premium on serial bonds	1,900,507	2,210,182
Bonds payable, net	30,330,507	33,750,182
Compensated absences	533,909	498,919
Retirement incentive payable	868,500	495,000
Other postemployment obligation	3,041,542	3,122,974
Net pension liability	3,392,205	875,510
Total	$ 38,166,663	$ 38,742,585

Additional information on the District's long-term liabilities can be found in Note 9 to the financial statements.

Economic Factors and Next Year's Budgets and Rates

During the current fiscal year, the District appropriated $6,615,221 of the General Fund's unassigned fund balance for spending in the District's 2020-2021 fiscal year budget. The 2020-2021 adopted budget appropriations total of $49,758,733 is an approximate increase of 4.0 percent as compared to adopted budget appropriations of $47,847,549 in 2019-2020. The District's total tax levy in 2020-2021 is $10,276,120, which is the same amount levied during the 2019-2020 year.

On January 31, 2020, the United States Secretary of Health and Human Services declared a public health emergency related to the global spread of coronavirus COVID-19, and a pandemic was declared by the World Health Organization in February 2020. The extent of the impact of COVID-19 on the District's operational and financial performance will depend on further developments, including the duration and spread of the outbreak, impact on students, employees and vendors all of which cannot be predicted.

Impacted by the pandemic is the unemployment rate, which is not seasonally adjusted, for Chautauqua County at June 30, 2020 was 11.4 percent. This compares to New York State's unemployment rate of 15.7 percent. These factors, as well as others, are considered in preparing the District's budget.

Requests for Information

This financial report is designed to provide our taxpayers, customers and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. Questions concerning any of the information in this report, or requests for additional financial information should be addressed to Cynthia Mackowiak, Business Manager, 620 Marauder Drive, Dunkirk, NY 14048.

DUNKIRK CITY SCHOOL DISTRICT, NEW YORK
Reconciliation of the Balance Sheet—Governmental Funds to the Government-wide Statement of Net Position
June 30, 2020

Amounts reported for governmental activities in the statement of net position (page 12) are different because:

Total fund balances—governmental funds (page 14)		$ 25,856,959
Net pension assets are not current financial resources and, therefore, are not reported in the fund statements.		2,868,717
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. The cost of the assets is $88,070,142 and the accumulated depreciation is $31,754,529.		56,315,613
Deferred charges associated with the refunding of bonds are not reported in the governmental funds. The charge is reported as a deferred outflow of resources on the statement of net position and is recognized as a component of interest expense over the life of the related debt.		326,701
Deferred outflows and inflows of resources related to pensions are applicable to future periods and, therefore, are not reported in the fund statements:		
Deferred outflows related to employer contributions	$ 1,988,306	
Deferred outflows related to experience, changes of assumptions, investment earnings, and changes in proportion	9,693,006	
Deferred inflows of resources related to pension plans	(4,247,257)	7,434,055
Deferred outflows and inflows of resources related to OPEB are applicable to future periods and, therefore, are not reported in the fund statements.		
Deferred outflows related to employer contributions	$ 47,145	
Deferred outflows related to experience and changes of assumptions	932,375	
Deferred inflows related to experience and changes of assumptions	(693,934)	285,586
Amounts relating to taxes receivable have not met the revenue recognition criteria for fund financial purposes and, therefore, have been deferred. However, these revenues are recorded in the government-wide financial statements which report on the full accrual basis of accounting. This is the amount of revenues deferred in the funds, but recognized in the government-wide presentation.		702,207
Net accrued interest expense for serial bonds is not recognized in the fund statements.		(49,623)
Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the fund statements. The effects of these items are:		
Serial bonds	$ (28,430,000)	
Premium on serial bonds	(1,900,507)	
Compensated absences	(533,909)	
Retirement incentive payable	(868,500)	
Other postemployment benefits obligation	(3,041,542)	
Net pension liability	(3,392,205)	(38,166,663)
Net position of governmental activities		$ 55,573,552

The notes to the financial statements are an integral part of this statement.

DUNKIRK CITY SCHOOL DISTRICT, NEW YORK
Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances—Governmental Funds to the Government-wide Statement of Activities
Year Ended June 30, 2020

Amounts reported for governmental activities in the statement of activities (page 13) are different because:

Net change in fund balances—total governmental funds (page 16)		$ 945,158
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense exceeded capital outlays in the current period.		
Capital asset additions	$ 253,722	
Depreciation expense	(2,319,707)	(2,065,985)
Net differences between pension contributions recognized on the fund financial statements and the government-wide financial statements are as follows:		
District pension contributions	$ 2,164,287	
Cost of benefits earned net of employee contributions	(4,605,347)	(2,441,060)
Deferred outflows and inflows of resources relating to OPEB result from actuarial changes in the census, changes in medical premiums that are different than expected healthcare cost trend rates, and changes in assumptions and other inputs. These amounts are shown net of current year amortization.		(188,466)
For refunding bonds, the difference between the reacquisition price and the net carrying amount of the old debt should be reported as a deferred charge on the government-wide statements and recognized as a component of interest expense over the remaining life of the old debt or the life of the new debt, which ever is shorter.		(40,838)
Governmental funds recognize revenues only if they are both measurable and available after the end of the fiscal year; however, the government-wide statements recognize revenue on an accrual basis. This is the effect of the change in deferred revenue during the		82,872
In the statement of activities, interest expense is recognized as it accrues, regardless of when it is paid.		10,506
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. Additionally, in the statement of activities, certain operating expenses are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). The net effect of these differences in the treatment of long-term debt and the related items is as follows:		
Repayment of serial bonds	$ 3,110,000	
Amortization of premiums on serial bonds	309,675	
Change in compensated absences	(34,990)	
Change in retirement incentives payable	(373,500)	
Change in other postemployment benefits obligation	81,432	3,092,617
Change in net position of governmental activities		$ (605,196)

The notes to the financial statements are an integral part of this statement.

June 30, 2020

	Agency Fund
ASSETS	
Restricted cash and cash equivalents	$ 198,095
Total assets	$ 198,095
LIABILITIES	
Agency liabilities	$ 81,616
Due to other funds	1,584
Extraclassroom activity funds	114,895
Total liabilities	$ 198,095

The notes to the financial statements are an integral part of this statement.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of Dunkirk City School District, New York (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (the "GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

Description of Government-wide Financial Statements

The government-wide financial statements (i.e., statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. All fiduciary activities are reported only in the fund financial statements. *Governmental activities*, which are normally supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities,* which rely to a significant extent on fees and charges to external customers for support. Likewise, the primary government is reported separately from the legally separate component units for which the primary government is financially accountable. The District reports no business-type activities or component units.

Reporting Entity

The District is governed by the Education Law and other laws of the State of New York. The governing body is the Board of Education. The scope of activities included within the accompanying financial statements are those transactions which comprise District operations, and are governed by, or significantly influenced by, the Board of Education.

Essentially, the primary function of the District is to provide education for pupils. Support services such as transportation of pupils, food services, administration, finance, and plant maintenance are also included.

The financial reporting entity includes all funds, functions and organizations over which the District officials exercise oversight responsibility. Oversight responsibility is determined on the basis of financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations and accountability for fiscal matters.

Extraclassroom Activity Funds—The Extraclassroom Activity Funds of the District represent funds of the students of the District. The Board of Education exercises general oversight of these funds. The Extraclassroom Activity Funds are independent of the District with respect to its financial transactions and the designation of student management. Separate audited financial statements (cash basis) of the Extraclassroom Activity Funds can be found at the District's business office. The District accounts for assets held as an agent for various student organizations in an agency fund.

Joint Venture—The District is one of 27 participating school districts in the Erie No. 2 — Chautauqua—Cattaraugus Board of Cooperative Education Services ("BOCES"). Formed under Section 1950 of Education Law, a BOCES is a voluntary cooperative association of school districts in a geographic area that shares planning, services, and programs, and also provides educational and support activities. There is no authority or process by which the District can terminate its status as a

component of BOCES. All BOCES property is held by the BOCES Board as a corporation under section 190(6) of Education Law.

The component school district boards elect the members of the BOCES governing body. There are no equity interests and no single participant controls the financial or operating policies. In addition, BOCES Boards are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under Section 119-n(a) of General Municipal Law.

The BOCES budget is comprised of separate spending plans for administrative, program, and capital costs. Each component school district shares in administrative and capital costs determined by its enrollment. Participating districts are charged a service fee for programs in which students participate, and for other shared contracted administrative services. Participating districts may also issue debt on behalf of BOCES. As of June 30, 2020, there was no debt issued by the District on behalf of BOCES.

During the fiscal year ended June 30, 2020, the District was billed $6,064,956 for BOCES administrative and program costs and recognized $153,958 in revenue as a refund from prior years' expenditures paid to BOCES. Audited financial statements are available from the BOCES administrative offices.

Basis of Presentation – Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds. Separate financial statements are provided for governmental funds and fiduciary funds even though the latter are excluded from the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments and charges between the District's various functions. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the District's funds. Separate statements for each fund category—governmental and fiduciary—are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All of the District's funds are considered major funds.

The District reports the following major governmental funds:

- *General Fund*—The General Fund constitutes the primary operating fund of the District and includes all operations not required to be recorded in other funds. The principal source of revenue for the General Fund is real property taxes and state sources.

- *Special Aid Fund*—The Special Aid Fund is used to account for special operating projects or programs supported in whole, or in part, with federal and state grants.

- *School Lunch Fund*—The School Lunch Fund is used to account for transactions of the District's food service operations.

- *Capital Projects Fund*—The Capital Projects Fund is used to account for financial resources to be used for the acquisition, construction or renovation of major capital facilities or equipment.

Additionally, the District reports the following fund type:

Fiduciary Funds—These funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations and/or other governmental units. Trust funds account for resources received and disbursements made in accordance with trust agreements or applicable legislative enactments for each particular fund. The fiduciary fund of the District includes an *Agency Fund*.

- *Agency Fund*—The Agency Fund is used to account for assets held by the District as an agent for individuals, private organizations, various student groups and clubs, and/or other governmental units. Included within the Agency Fund is the extraclassroom activity fund for the District, which represents funds of the students of the District. The Board of Education exercises general oversight of these funds.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year-end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in the fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In the fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in the fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources.* The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are generally considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period except for real property taxes which are considered

available if they are received within a year of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, long-term retirement incentives, claims and judgments and pension costs, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, charges for services provided, and state and federal aid associated with the current fiscal period are all considered susceptible to accrual and have been recognized as revenues of the current fiscal period except for property taxes received after one year of the end of the current fiscal year which are recognized as deferred inflows of resources. Entitlements are recorded as revenues when all eligibility requirements are met and the amount is received during the period or within the period of availability (within 60 days of year-end). Expenditure driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements are met and amount is received during the period of availability (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the District.

The Agency Fund has no measurement focus, but utilizes the *accrual basis of accounting* for reporting assets and liabilities.

Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

Cash, Cash Equivalents and Investments—The District's cash and cash equivalents consist of cash on hand, demand deposits, time deposits and short-term, highly liquid investments with original maturities of three months or less from the date of acquisition. New York State law governs the District's investment policies. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements and obligations of New York State or its localities. The District had no investments at June 30, 2020; however, it is the District's policy to report investments at fair value when applicable.

Restricted Cash and Cash Equivalents—Restricted cash and cash equivalents represent unspent debt proceeds, amounts to support restricted fund balances, unearned revenues, and amounts held on behalf of others.

Receivables—Receivables are shown net of an allowance for uncollectible accounts, when applicable. No allowance or uncollectible accounts has been provided since it is believed that such allowance would not be material.

Inventories—Inventories of food and/or supplies in the School Lunch Fund are recorded at cost on a first-in, first-out basis or, in the case of surplus food, at stated value which approximates market. Purchases of inventory items in other funds are recorded as expenditures at the time of purchase, and year-end balances are not maintained.

Capital Assets—Capital assets, which include land, construction in progress, buildings, site improvements and furniture and equipment are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial individual cost of more than an established threshold for the type of asset and an estimated useful life in excess of one year.

Such assets are recorded at historical cost or estimated historical cost. The reported value excludes normal maintenance and repairs, which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its estimated useful life. Donated capital assets are recorded at acquisition value. Major outlays for capital assets and improvements are capitalized as projects are completed.

Land and construction in progress are not depreciated. The other property, plant, equipment, and infrastructure of the primary government are depreciated using the straight line method over the useful lives presented below:

	Capitalization Threshold	Estimated Useful Life (Years)
Buildings	$ 5,000	20-40
Site improvements	5,000	15-20
Furniture and equipment	5,000	5-20

The *capital outlays* character classification is employed only for expenditures reported in the Capital Projects Fund. Routine capital expenditures in the General Fund and other governmental funds are included in the appropriate functional category (for example, the purchase of a new school bus included as part of *expenditures—pupil transportation*). The amount reported as *capital outlays* in the Capital Projects Fund will also include non-capitalized, project-related costs (for example, furnishings).

Deferred Outflows/Inflows of Resources—In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. At June 30, 2020, the District has three items that qualify for reporting in this category. The first item is related to pensions reported in the government-wide financial statements. This represents the effect of the net change in the District's proportion of the collective net pension asset or liability, and the difference during the measurement period between the District's contributions and its proportionate share of the total contribution to the pension systems not included in the pension expense, and any contributions to the pension system made subsequent to the measurement date. The second item is related to OPEB reported in the government-wide financial statements and represents the effects of the change in the District's proportion of the collective net OPEB liability and difference during the measurement period between certain of the employer's contributions and its proportionate share of the total of certain contributions from employers included in the collective net OPEB liability. The final item is a deferred charge on refunding which the District reports within the government-wide financial statements. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. At June 30, 2020, the District has three items that qualify for reporting in this category. The first item represents the effect of the net change in the District's proportion of the collective net pension asset or liability and the difference during the measurement periods between the District's contributions and its proportionate share of total contributions to the pension systems not included in pension expense and is reported on the

government-wide statements. The second item, which is also reported on the government-wide statements, represents the effects of the change in the District's proportion of the collective net OPEB liability. The final item, reported on the balance sheet of governmental funds, represents taxes receivable that the District does not expect to receive within the governmental accrual period, which in accordance with the modified accrual basis of accounting are considered deferred inflows of resources.

Net Position Flow Assumptions—Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted-net position and unrestricted-net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted-net position to have been depleted before unrestricted-net position is applied.

Fund Balance Flow Assumptions—Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund Balance Policies—Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board of Education is the highest level of decision-making authority for the District that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes, but do not meet the criteria to be classified as committed. The Board of Education has by resolution authorized the Superintendent to assign fund balance. The Board may also assign fund balance, as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Revenues and Expenses/Expenditures

Program Revenues—Amounts reported as program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

Property Taxes—Real property taxes are levied annually as of July 1st by the Board of Education and attached as an enforceable lien. The city and county in which the District is located enforce uncollected real property taxes. An amount representing all uncollected real property taxes must be transmitted by the City of Dunkirk, New York to the District within two years from the return of unpaid taxes to the city. Real property taxes receivable expected to be collected within one year of year-end are recognized as revenue. Otherwise, deferred inflows of resources offset real property taxes receivable.

Unearned Revenue—Certain revenues have not met the revenue recognition criteria for government-wide or fund financial purposes. At June 30, 2020, the District reported $145,969 and $122,241 of unearned revenue in the General Fund and Special Aid Fund, respectively. The District billed and received a portion of payments for retiree insurance premiums in advance but has not performed the services and therefore recognizes a liability in the General Fund. Additionally, the Special Aid Fund recognizes a liability for grant awards received in advance.

Compensated Absences—The District labor agreements provide for sick leave, vacations, and other miscellaneous paid absences. Upon retirement, certain eligible employees qualify for paid health insurance premiums based upon accumulated sick leave. CSEA employees who have a minimum of 50 days of unused sick days at the time of retirement can use a maximum of 125 days to purchase medical insurance at a dollar for dollar contribution, which is recorded as compensated absences liability. Teachers and Administrators sick time may be converted to a District contribution and is included within the other post-employment benefit obligation liability.

Pension Plans—The District is mandated by New York State law to participate in the New York State Teachers' Retirement System ("TRS") and the New York State Local Employees' Retirement System ("ERS"). For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the defined benefit pension plans, and changes thereof, have been determined on the same basis as they are reported by the respective defined benefit pension plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value. More information regarding pensions is included in Note 6.

Other Postemployment Benefits—In addition to providing pension benefits, the District provides health insurance coverage for certain retired employees as discussed in Note 7.

Other

Estimates—The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of revenues, expenditures, assets, liabilities, deferred outflows/inflows of resources, and disclosure of contingent assets and liabilities at the date of the financial statements during the reported period. Actual results could differ from those estimates.

Adoption of New Accounting Pronouncements—During the year ended June 30, 2020, the District early implemented GASB Statement No. 90, *Majority Equity Interests—an amendment of GASB Statements No. 14 and No. 61*. Additionally, the District implemented GASB Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance.* GASB Statement No. 90 improves the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. GASB Statement No. 95 provides temporary relief to governments and other

stakeholders in light of the COVID-19 pandemic by postponing effective dates of certain provisions in Statements No. 83, 84, 87, 88, 89, 90, 91, 92 and 93. The implementation of GASB Statements No. 90 and 95 did not have a material impact on the District's financial position or results from operations.

Future Impacts of Accounting Pronouncements—The District has not completed the process of evaluating the impact that will result from adopting GASB Statements No. 84, *Fiduciary Activities*; No. 93, *Replacement of Interbank Offered Rates*; and No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32*, effective for the year ending June 30, 2021, No. 87, *Leases*; No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*; and No. 92, *Omnibus 2020*, effective for the year ending June 30, 2022, No. 91, *Conduit Debt Obligations*; No. 94, *Public- Private and Public-Public Partnerships and Availability Payment Arrangements*; and No. 96, *Subscription-Based Information Technology Arrangements*, effective for the year ending June 30, 2023. The District is, therefore, unable to disclose the impact that adopting GASB Statements No. 84, 87, 89, 91, 92, 93, 94, 96, and 97 will have on its financial position and results of operations when such statements are adopted.

2. CASH, CASH EQUIVALENTS, AND INVESTMENTS

The District's investment policies are governed by State statutes. District monies must be deposited in FDIC-insured commercial banks or trust companies located within New York State. The District's Business Manager is authorized to use demand accounts and certificates of deposit. Permissible investments include obligations of the U.S. Treasury and U.S. Agencies, repurchase agreements, and obligations of New York State or its localities.

Collateral is required for demand deposit accounts, time deposit accounts and certificates of deposit at 100 percent of all deposits not covered by Federal deposit insurance. The District has entered into custodial agreements with the various banks which hold their deposits. These agreements authorize the obligation that may be pledged as collateral. Obligations that may be pledged as collateral are outlined in Chapter 623 of the laws of the State of New York. Cash and cash equivalents at June 30, 2020 are shown below:

	Governmental Funds	Fiduciary Fund	Total
Petty cash (uncollateralized)	$ 457	$ -	$ 457
Deposits	17,982,742	198,095	18,180,837
Total	$ 17,983,199	$ 198,095	$ 18,181,294

Deposits—All deposits are carried at fair value, and are classified by custodial credit risk at June 30, 2020 as shown below:

	Bank Balance	Carrying Amount
FDIC insured	$ 250,000	$ 250,000
Uninsured:		
Collateral held by pledging bank's agent in the District's name	18,975,938	17,930,837
Total	$ 19,225,938	$ 18,180,837

Custodial Credit Risk—Deposits—Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. As noted above, by State statute all deposits in excess of FDIC insurance coverage must be collateralized. At June 30, 2020, the District's deposits were either FDIC insured or collateralized with securities held by the pledging bank's agent in the District's name.

Restricted Cash and Cash Equivalents—The District reports unspent proceeds of debt and amounts to support unearned revenues, restricted fund balances, and amounts held on behalf of others as restricted cash and cash equivalents. At June 30, 2020, the District reported $16,920,020 of restricted cash within its governmental funds and $198,095 of restricted cash within its fiduciary fund.

Investments—The District had no investments at June 30, 2020.

Interest Rate Risk—In accordance with its investment policy, the District manages exposures by limiting investments to low risk type investments governed by New York State statutes.

3. RECEIVABLES

Major revenues accrued by the District at June 30, 2020 consisted of the following:

Receivables—Represents interest receivable from a checking account, amounts due for student tuition, and retiree's portion of health insurance premiums. The District reported $54,567 in the General Fund.

Taxes Receivable—Represents taxes due in the amount of $1,626,674. These amounts are recognized as revenue when the amounts are both measurable and available. At June 30, 2020, the District reported a deferred inflow of resources on the governmental fund financial statements in the amount of $702,207, which represents taxes receivable that the District does not expect to receive within 60 days of year-end, in accordance with the modified accrual basis of accounting.

Intergovernmental Receivables—Represents amounts due from other units of government, such as Federal, New York State and other local governments. Intergovernmental receivables at June 30, 2020 are:

General Fund:		
BOCES	$ 911,695	
Federal aid	304,268	
State aid—transition	1,899,970	
State aid—other	2,107,971	$ 5,223,904
Special Aid Fund:		
State aid	2,801,382	
Federal aid	1,218,123	4,019,505
School Lunch Fund:		
State aid	5,952	
Federal aid	133,122	139,074
Total governmental funds		$ 9,382,483

4. CAPITAL ASSETS

Capital asset activity for governmental activities for the year ended June 30, 2020 was as follows:

	Balance 7/1/2019	Increases	Decreases	Balance 6/30/2020
Capital assets, not being depreciated:				
Land	$ 81,502	$ -	$ -	$ 81,502
Construction in progress	-	81,000	81,000	-
Total capital assets, not being depreciated	81,502	81,000	81,000	81,502
Capital assets, being depreciated:				
Buildings	82,011,378	81,000	-	82,092,378
Site improvements	2,342,183	-	-	2,342,183
Furniture and equipment	3,381,357	172,722	-	3,554,079
Total capital assets, being depreciated	87,734,918	253,722	-	87,988,640
Less accumulated depreciation for:				
Buildings	24,694,359	2,188,752	-	26,883,111
Site improvements	1,941,034	35,938	-	1,976,972
Furniture and equipment	2,799,429	95,017	-	2,894,446
Total accumulated depreciation	29,434,822	2,319,707	-	31,754,529
Total capital assets being depreciated, net	58,300,096	(2,065,985)	-	56,234,111
Governmental activities capital assets, net	$ 58,381,598	$ (1,984,985)	$ 81,000	$ 56,315,613

Depreciation expense was charged to the functions and programs of governmental activities as follows:

General support	$ 361,024
Instruction	1,941,240
School food service	17,443
Total	$ 2,319,707

5. ACCRUED LIABILITIES

Accrued liabilities reported by governmental funds at June 30, 2020, were as follows:

	General Fund	Special Aid Fund	School Lunch Fund	Total Governmental Funds
Salaries and employee benefits	$ 24,843	$ 6,904	$ 13	$ 31,760

6. PENSION PLANS

The District participates in the New York State Teachers' Retirement System ("TRS") and the New York State and Local Employees' Retirement System ("ERS") (the "Systems"). These cost-sharing multiple-employer public employee retirement systems compute contribution requirements based on the New York State Retirement and Social Security Law ("NYSRSSL").

Plan Descriptions and Benefits Provided

Teachers' Retirement System—TRS provides retirement benefits as well as, death and disability benefits to plan members and beneficiaries as authorized by the Education Law and the Retirement and Social Security Law of the State of New York. TRS is governed by a 10 member Board of Trustees. TRS benefits are established under New York State Law. Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors and administrators employed in New York Public Schools and BOCES who elected to participate in TRS. Once a public employer elects to participate in TRS, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. Additional information regarding TRS, may be obtained by writing to the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany, NY 12211-2395 or by referring to the NYSTRS Comprehensive Annual Financial report which can be found on the System's website at www.nystrs.org.

Employees' Retirement System—ERS provides retirement benefits as well as death and disability benefits. The net position of ERS is held in the New York State Common Retirement Fund (the "Fund"), which was established to hold all net assets and record changes in plan net position allocated to ERS. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of ERS. ERS benefits are established under the provisions of the NYSRSSL. Once a public employer elects to participate in ERS, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The District also participates in the Public Employees' Group Life Insurance Plan ("GLIP"), which provides death benefits in the form of life insurance. ERS is included in the State's financial report as a pension trust fund. That report, including information with regard to benefits provided, may be found at www.osc.state.ny.us/ retire/publications/index.php or obtained by writing to the New York State and Local Retirement System, 110 State Street, Albany, NY 12244.

The Systems are noncontributory except for employees who joined after July 27, 1976, who contribute three percent (3%) of their salary for the first ten years of membership, and employees who joined on or after January 1, 2010, who generally contribute three percent (3.0%) to three and one half percent (3.5%) of their salary for their entire length of service. In addition, employee contribution rates under ERS Tier VI vary based on a sliding salary scale. For TRS, contribution rates are established annually by the New York State Teachers' Retirement Board pursuant to Article 11 of the Education law. For ERS, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions based on salaries paid during the Systems' fiscal year ending March 31.

Pension Liabilities/(Assets), Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions—The net pension liability/(asset) was measured as of June 30, 2019 for TRS and March 31, 2020 for ERS. The total pension liability/(asset) used to calculate the net pension liability/(asset) was determined by actuarial valuations as of June 30, 2018 and April 1,

2019, respectively, with update procedures used to roll forward the total pension liability/(asset) to the measurement dates. The District's proportion of the net pension liability/(asset) was based on a projection of the District's long-term share of contributions to the Systems relative to the projected contributions of all participating members, actuarially determined. This information was provided by the TRS and ERS Systems in reports provided to the District.

	TRS	ERS
Measurement date	June 30, 2019	March 31, 2020
Net pension (asset)/liability	$ (2,868,717)	$ 3,392,205
District's portion of the Plan's total net pension (asset)/liability	0.110420%	0.012810%

For the year ended June 30, 2020, the District recognized a pension expenses of $3,515,583 and $1,213,281 for TRS and ERS, respectively. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
	TRS	ERS	TRS	ERS
Differences between expected and actual experiences	$ 1,944,057	$ 199,645	$ 213,323	$ -
Changes in assumptions	5,419,391	68,303	1,321,401	58,978
Net difference between projected and actual earnings on pension plan investments	-	1,739,009	2,300,563	-
Changes in proportion and differences between the District's contributions and proportionate share of contributions	186,894	135,707	349,398	3,594
District contributions subsequent to the measurement date	1,846,300	142,006	-	-
Total	$ 9,396,642	$ 2,284,670	$ 4,184,685	$ 62,572

District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	TRS	ERS
2021	$ 1,265,769	$ 374,696
2022	50,272	527,360
2023	1,261,064	657,198
2024	840,878	520,838
2025	48,563	-
Thereafter	(100,889)	-

Actuarial Assumptions—The total pension liability/(asset) as of the measurement dates was determined by using actuarial valuations as noted in the table below, with update procedures used to roll forward the total pension liability/(asset) to the respective measurement dates. The actuarial valuations used the actuarial assumptions presented on the following page.

	TRS	ERS
Measurement date	June 30, 2019	March 31, 2020
Actuarial valuation date	June 30, 2018	April 1, 2019
Interest rate	7.10%	6.80%
Salary scale	1.90%-4.72%	4.20%
Decrement tables	July 1, 2009-June 30, 2014	April 1, 2010-March 31, 2015
Inflation rate	2.20%	2.50%

For TRS, annuitant mortality rates are based on plan member experience, with adjustments for mortality improvements based on Society of Actuaries Scale MP-2014, applied on a generational basis. Active member mortality rates are based on plan member experience. For ERS, annuitant mortality rates are based on April 1, 2010 – March 31, 2015 System's experience with adjustments for mortality improvements based on Society of Actuaries' Scale MP-2014.

For TRS, the actuarial assumptions used in the June 30, 2018 valuation are based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014. For ERS, the actuarial assumptions used in the April 1, 2019 valuation are based on the results of an actuarial experience study for the period April 1, 2010 – March 31, 2015.

The long term rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighing the expected future real rates of return by each the target asset allocation percentage and by adding expected inflation. Best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation are summarized below:

	TRS	ERS	TRS	ERS
	Target Allocation		Long-Term Expected Real Rate of Return	
Measurement date			June 30, 2019	March 31, 2020
Asset class:				
Domestic equities	33.0 %	36.0 %	6.3 %	4.1 %
International equities	16.0	14.0	7.8	6.2
Global equities	4.0	0.0	7.2	0.0
Private equity	8.0	10.0	9.9	6.8
Real estate	11.0	10.0	4.6	5.0
Absolute return strategies	0.0	2.0	0.0	3.3
Domestic fixed inome securities	16.0	0.0	1.3	0.0
Global fixed income securities	2.0	0.0	0.9	0.0
High-yield fixed income securities	1.0	0.0	3.5	0.0
Opportunistic portfolio	0.0	3.0	0.0	4.7
Real assets	0.0	3.0	0.0	6.0
Bonds and mortgages	7.0	17.0	2.9	0.8
Short-term	1.0	1.0	0.3	0.0
Private debt	1.0	0.0	6.5	0.0
Inflation-indexed bonds	0.0	4.0	0.0	0.5
Total	100.0 %	100.0 %		

Discount Rate—The discount rate used to calculate the total pension liability/(asset) was 7.10% for TRS and 6.8% for ERS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the Systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability/(asset).

Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption—The chart below presents the District's proportionate share of the net pension liability/(asset) calculated using the discount rate of 7.10% for TRS and 6.80% for ERS, as well as what the District's proportionate share of the net pension liability/(asset) would be if it were calculated using a discount rate that is one percentage-point lower (6.10% for TRS and 5.80% for ERS) or one percentage-point higher (8.10% for TRS and 7.80% for ERS) than the current assumption.

TRS	1% Decrease (6.10%)	Current Assumption (7.10%)	1% Increase (8.10%)
Employer's proportionate share of the net pension liability/(asset)	$ 12,949,091	$ (2,868,717)	$ (16,138,074)

ERS	1% Decrease (5.80%)	Current Assumption (6.80%)	1% Increase (7.80%)
Employer's proportionate share of the net pension liability	$ 6,225,655	$ 3,392,205	$ 782,587

Pension Plan Fiduciary Net Position—The components of the current-year net pension liability/(asset) of the employers as of the respective valuation dates, were as follows:

	(Dollars in Thousands)	
	TRS	ERS
Valuation date	June 30, 2018	April 1, 2019
Employers' total pension liability	$ 119,879,474	$ 194,596,261
Plan fiduciary net position	122,477,481	168,115,682
Employers' net pension liability/(asset)	$ (2,598,007)	$ 26,480,579
System fiduciary net position as a percentage of total pension liability/(asset)	102.2%	86.4%

Payables to the Pension Plan—For TRS, employer and employee contributions for the fiscal year ended June 30, 2020 are paid to the System in September, October and November 2019 through a state aid intercept. Accrued retirement contributions as of June 30, 2020 represent employee and employer contributions for the fiscal year ended June 30, 2020 based on paid TRS wages multiplied by the employer's contribution rate, by tier and employee contributions for the fiscal year as reported to the TRS System. Accrued retirement contributions as of June 30, 2020 amounted to $1,846,300.

For ERS, employer contributions are paid annually based on the System's fiscal year which ends on March 31st. Accrued retirement contributions as of June 30, 2020 represent the projected employer contribution for the period of April 1, 2020 through June 30, 2020 based on paid ERS wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of June 30, 2020 amounted to $142,006.

7. OTHER POSTEMPLOYMENT BENEFITS ("OPEB") OBLIGATION

Plan Description and Benefits Provided—The District may pay for a portion of eligible retirees' health insurance dependent upon such factors as age, years of service, accumulated sick leave and associated group or union. While benefits change over time as union contracts are renegotiated, current benefits are as follows:

(1) *Dunkirk Teachers' Association*—To be eligible, an employee must be eligible to retire with full benefits from NYSTRS. Unused sick leave days at the time of retirement can be used to purchase single or family medical coverage. For employees who retire with greater than 125 but less than 195 days, the District will pay 90% of medical coverage (the same percentage as active employees) for 2 years. For employees who retire with greater than 195 days, the District will pay 90% of medical coverage for 3 years. Once sick leave conversion days are exhausted, retirees and their spouses may remain in the plan, but will pay 100% of the premiums.

(2) *Dunkirk Administrators' Association*—To be eligible, an employee must be eligible to retire with full benefits from NYSTRS. For employees hired before July 1, 2008, unused sick leave days at the time of retirement can be used to purchase single or family medical coverage. For employees who retire with greater than 125 but less than 195 days, the District will pay 96% of medical coverage (the same percentage as active employees) for 2 years. For employees who retire with greater than 195 days, the District will pay 96% of medical coverage for 3 years. Once sick leave conversion days are exhausted, retirees and their spouses may remain in the plan, but will pay 100% of the premiums. For employees hired on or after July 1, 2008, unused sick leave days at the time of retirement can be used to purchase single or family medical coverage. For employees who retire with greater than 125 but less than 195 days, the District will pay 90% of medical coverage (the same percentage as active employees) for 2 years. For employees who retire with greater than 195 days, the District will pay 90% of medical coverage for 3 years. Once sick leave conversion days are exhausted, retirees and their spouses may remain in the plan, but will pay 100% of the premiums.

(3) *Dunkirk CSEA*—An employee must be eligible to retire under NYSERS and have at least 10 years of service with the District. For grandfathered retiree, the District pays 100% of medical premiums for single coverage. For employees hired before July 1, 1976 and retire after October 15, 1976, the District pays 50% of medical premiums for single coverage. For employees hired on or after July 1, 1976, retirees and their spouses are eligible to continue coverage under the plan, but are responsible for the full cost of coverage. Unused sick leave days (must have at least 50 days but no more than 125 days) at the time of retirement can be used to purchase medical insurance. This benefit is not accounted for under GASB 75.

The estimated cost of such benefits totaled $189,100 for the year ended June 30, 2020.

Employees Covered by Benefit Terms—At June 30, 2020, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	138
Active employees	279
Total	417

Under GASB Statement No. 75, the total OPEB liability represents the sum of expected future benefit payments, which may be attributed to past service (or "earned"), discounted to the end of the fiscal year using the current discount rate. The total OPEB liability is analogous to the Unfunded Actuarial Accrued Liability ("AAL") under GASB Statement No. 45.

Total OPEB Liability

The District's total OPEB liability of $3,041,542 was measured as of June 30, 2020, and was determined by an actuarial valuation as of March 30, 2020.

Actuarial Methods and Assumptions—Calculations are based on the types of benefits provided under the terms of the substantive plan (the plan as understood by the employer and the plan members) at the time of the valuation and on the pattern of cost sharing between the employee and plan members. Calculations reflect a long-term perspective, so methods and assumptions used include techniques that are designed to reduce short-term volatility.

In the June 30, 2020 actuarial valuation, the entry age normal method, over a level percent of pay was used. The single discount rate changed from 3.44% to 2.48% effective June 30, 2020. The salary scale changed from 3.36% to 3.22% effective June 30, 2020. The 2019 New York State Teachers' Retirement System rates were used for mortality rates and retirement rates. In order to estimate the change in the cost of healthcare, the actuaries initial healthcare cost trend rate used is 5.20%, while the ultimate healthcare cost trend rate is 4.18%.

Mortality rates were updated to Pub-2010 Public Retirement Plans Mortality Tables, headcount-weighted, distinct for teachers, general, and safety, without separate contingent survivor mortality, fully generational using scale MP-2019.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2019 through June 30, 2020.

Changes in the Total OPEB Liability—The following table presents the changes to the total OPEB liability during the fiscal year, by source:

	Total OPEB Liability
Balance at June 30, 2019	$ 3,122,974
Changes for the year:	
Service cost	203,639
Interest	107,930
Changes of assumptions or other inputs	369,624
Differences between expected and actual experience	(573,525)
Benefit payments	(189,100)
Net changes	(81,432)
Balance at June 30, 2020	$ 3,041,542

Sensitivity of the Total OPEB Liability to the Change in the Discount Rate and Healthcare Cost Trend Rate—The discount rate assumption can have an impact on the net OPEB liability. The table below presents the effect a 1% change in the discount rate assumption would have on the net OPEB liability.

	1% Decrease (1.48%)	Current Discount Rate (2.48%)	1% Increase (3.48%)
Net OPEB liability	$ 3,200,355	$ 3,041,542	$ 2,856,049

Additionally, healthcare costs can be subject to considerable volatility over time. The table below presents the effect on the net OPEB liability a 1% change in the initial (5.20%)/ultimate (4.18%) healthcare cost trend rates.

	1% Decrease (4.20%/3.18%)	Healthcare Cost Trend Rates (5.20%/4.18%)	1% Increase (6.20%/5.18%)
Net OPEB liability	$ 2,679,620	$ 3,041,542	$ 3,458,010

Funding Policy—Authorization for the District to pay a portion of retiree health insurance premiums was enacted through various union contracts as specified above, which were ratified by the District's Board of Education. The District recognizes the cost of providing these benefits by expensing the annual insurance premiums when invoiced by the health insurance provider. District governmental activities contributed $189,100 for the fiscal year ended June 30, 2020. The District's contributions to the OPEB plan are based on negotiated contracts with three bargaining units, as discussed in Note 13. Any amendments to the employer's contributions are subject to the various contracts.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB—The District reports deferred outflows of resources and deferred inflows of resources due to difference during the measurement period between certain of the employer's contributions and its proportionate share of the total of certain contributions from employers included in the collective net OPEB liability are required to be determined. The following table presents the District's deferred outflows of resources and deferred inflows of resources at June 30, 2020:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between actual and expected experience	$ 616,795	$ 482,715
Changes of assumptions or other inputs	315,580	211,219
Contributions subsequent to the measurement date	47,145	-
Total	$ 979,520	$ 693,934

District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30,	
2021	$ 31,710
2022	31,710
2023	32,935
2024	(9,253)
2025	31,528
Thereafter	119,811

8. RISK MANAGEMENT

The District is exposed to various risks of loss related to damage and destruction of assets, vehicle liability, injuries to employees, health insurance, and unemployment insurance. These risks are covered by commercial insurance purchased from independent third parties. The District purchases insurance for: property, business income, equipment, public liability, employee benefit – wrongful act, crime vehicle and an umbrella liability. Property insurance has a $5,000 deductible. The public liability insurance is limited ranging from $10,000 to $2,000,000 with a $2,000,000 aggregate per location. The umbrella liability provides coverage of $10,000,000.

There have not been any significant changes in any type of insurance coverage from the prior year, nor have there been any material settlements which have exceeded insurance coverage in the past three fiscal years.

The District participates in Chautauqua County School Districts Medical Health Plan, a non-risk-retained public entity risk pool for its employee health and accident insurance coverage. The pool is operated for the benefit of 27 individual governmental units located within the pool's geographic area, and is considered a self-sustaining risk pool that will provide coverage for its members up to $200,000 per insured event. The pool maintains independent coverage for insured events in excess of the $200,000 limit, and the District has essentially transferred all related risk to the pool.

The District participates in Erie No. 2 Area Schools Self-Funded Workers' Compensation Plan (the "Plan"), a risk-sharing pool, to insure Workers' Compensation claims. This is a public entity risk pool created under Article 5 of the Workers' Compensation Law, to finance liability and risks related to Workers' Compensation claims. The Erie No. 2 Area Schools Self-Funded Workers' Compensation Plan is considered a self-sustaining risk pool that will provide coverage for its members up to $650,000 per event. The Plan maintains independent coverage for events in excess of $650,000. The District has essentially transferred all related risk to the Plan.

9. LONG-TERM LIABILITIES

In the government-wide financial statements, long-term debt and other long-term obligations are reported as noncurrent liabilities in the statement of net position.

In the fund financial statements, governmental funds recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Further, the unmatured principal of general long-term debt does not require current appropriation and expenditure of governmental fund financial resources.

The District's outstanding long-term liabilities include serial bonds, premium on serial bonds, compensated absences, retirement incentive payable, other postemployment benefits ("OPEB") obligation, and net pension liability. The serial bonds of the District are secured by its general credit and revenue raising powers, as per State statute.

A summary of changes in the District's long term debt at June 30, 2020 follows:

	Balance 7/1/2019	Additions	Reductions	Balance 6/30/2020	Due Within One Year
Serial bonds	$ 31,540,000	$ -	$ 3,110,000	$ 28,430,000	$ 3,225,000
Premium on serial bonds	2,210,182	-	309,675	1,900,507	309,675
Bonds payable, net	33,750,182	-	3,419,675	30,330,507	3,534,675
Compensated absences	498,919	247,351	212,361	533,909	91,927
Retirement incentive payable	495,000	532,500	159,000	868,500	377,000
OPEB obligation	3,122,974	681,193	762,625	3,041,542	-
Net pension liability*	875,510	2,516,695	-	3,392,205	-
Total	$ 38,742,585	$ 3,977,739	$ 4,553,661	$ 38,166,663	$ 4,003,602

(*Additions to the net pension liability are shown net of reductions.)

Serial Bonds—The District issues general obligation bonds to provide funds for construction renovations and improvements of major capital facilities. Serial bonds have been issued for governmental activities. General obligation bonds are direct obligations and pledge the full faith and credit of the government. These bonds generally are issued as serial bonds with equal amounts of principal maturing each year with original maturities that range from 9 to 15 years.

The activity on the District's outstanding bond issues, for the year ended June 30, 2020, follows:

Description	Original Issue	Interest Rate	Year of Issue/ Maturity	Balance 7/1/2019	Additions	Payments	Balance 6/30/2020
2012 Serial Bonds	$ 5,000,000	1.4-4.1%	2012/2027	$ 2,985,000	$ -	$ 325,000	$ 2,660,000
2013 Serial Bonds	7,704,905	2.1-3.0%	2013/2027	4,460,000	-	570,000	3,890,000
2016 Serial Bonds	6,390,327	2.1-5.0%	2016/2030	5,125,000	-	440,000	4,685,000
2017 Refunding Bonds	10,025,000	2.0-5.0%	2017/2026	9,495,000	-	1,270,000	8,225,000
2018 Serial Bonds	9,810,000	3.3-5.0%	2018/2033	9,475,000	-	505,000	8,970,000
Total				$ 31,540,000	$ -	$ 3,110,000	$ 28,430,000

Premium on Serial Bonds—Premium on bond issuances are being amortized on a straight-line basis over the life of their related bonds. The unamortized premium as of June 30, 2020 was $1,900,507.

Compensated Absences—As explained in Note 1, the District provides for either cash or post-employment health benefits after retirement. The payment in cash or health care benefits depends on individual options selected upon retirement in accordance with the union contract. The liability for compensated absences at June 30, 2020 amounts to $533,909 of which $91,927 has been included within the current portion of long-term debt.

Retirement Incentive Payable—During the years ended June 30, 2016, June 30, 2019, and June 30, 2020, the District offered an early retirement incentive to employees of the Dunkirk Teachers Association and the Civil Service Employees Association. The value recorded in the government-wide financial statements at June 30, 2020 for governmental activities is $868,500, of which $377,000 is considered payable within one year and has been included within the current portion of long-term debt.

OPEB Obligation—As explained in Note 7, the District provides health insurance coverage for certain retirees. The District's annual other postemployment benefits ("OPEB") cost is calculated based in the annual required contributions of the employer, an amount actuarially determined in accordance with the parameters of GASB. The estimated long-term OPEB liability is $3,041,542 at June 30, 2020.

Net Pension Liability—The District reported a liability, totaling $3,392,205, for its proportionate share of the net pension liability for the Employees' Retirement System. Refer to Note 6 for additional information related to the District's net pension liability.

The following is a maturity schedule of the District's indebtedness:

Year Ending June 30,	Serial Bonds	Premium on Serial Bonds	Compensated Absences	Retirement Incentive Payable	OPEB Obligation	Net Pension Liability	Total
2020	$ 3,225,000	$ 309,675	$ 91,927	$ 377,000	$ -	$ -	$ 4,003,602
2021	3,340,000	309,675	-	348,500	-	-	3,998,175
2022	3,440,000	309,675	-	143,000	-	-	3,892,675
2023	3,570,000	256,102	-	-	-	-	3,826,102
2024	2,405,000	256,102	-	-	-	-	2,661,102
2025-2029	10,270,000	459,278	-	-	-	-	10,729,278
2030-2033	2,180,000	-	-	-	-	-	2,180,000
Thereafter	-	-	441,982	-	3,041,542	3,392,205	6,875,729
Total	$ 28,430,000	$ 1,900,507	$ 533,909	$ 868,500	$ 3,041,542	$ 3,392,205	$ 38,166,663

Interest requirements on serial bonds are as follows:

Year Ending June 30,	Interest
2021	$ 1,092,013
2022	975,413
2023	854,438
2024	727,682
2025	481,426
2026-2030	1,414,587
2031-2033	121,530
Total	$ 5,667,089

10. NET POSITION AND FUND BALANCE

The government-wide financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted and unrestricted.

- ***Net Investment in Capital Assets***—This category groups all capital assets into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construct or improvement of these assets reduce the balance in this category.

- ***Restricted Net Position***—This category represents external restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.

- ***Unrestricted Net Position***—This category represents net position of the District not restricted for any project or other purpose.

In the fund financial statements, nonspendable amounts represent net current financial resources that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. Nonspendable fund balance maintained by the District at June 30, 2020 includes:

- ***Inventory***—Representing the portion of fund balance, $23,811 composed of inventory. This balance is nonspendable as the inventory does not represent an available resource.

In the fund financial statements, restricted fund balances are amounts constrained to specific purposes (such as grants, bondholders, and higher levels of government) through constitutional provisions or by enabling legislation. Restricted fund balances maintained by the District at June 30, 2020 are as follows:

	General Fund	Capital Projects Fund	Total
Capital projects	$ 1,268,961	$ 137,059	$ 1,406,020
Tax certiorari	1,250,596	-	1,250,596
Unemployment	5,113,240	-	5,113,240
Employee benefits	328,410	-	328,410
Retirement contribution	8,344,368	-	8,344,368
Repairs	301,990	-	301,990
Debt service	23,646	-	23,646
Total	$ 16,631,211	$ 137,059	$ 16,768,270

- ***Restricted for Capital Projects***—According to Education Law Section 3651, this restriction must be used to pay the cost of any object or purpose for which bonds may be issued. The creation of a capital reserve fund requires authorization by a majority of the voters establishing the purpose of the reserve, the ultimate amount, its probably term and the source of the funds. Expenditures may be made from the restriction only for a specific purpose further authorized by voters. The form for the required legal notice for the vote on establishing and funding the reserve and the form of the proposition to be placed on the ballot are set forth in Section 3651 of the Education Law. Within the Capital Projects Fund, these amounts are restricted due to the nature of the fund.

- ***Restricted for Tax Certiorari***—According to Education Law Section 3651.1-a, this restriction must be used to establish a reserve fund for tax certiorari and to expend from the fund without voter approval. The monies held in the restriction shall not exceed the amount that might reasonably be deemed necessary to meet anticipated judgements and claims arising out of tax certiorari proceedings. Any resources deposited to the reserve which are not expended for tax certiorari purposes in the year must be returned to the General Fund on or before the first day of the fourth fiscal year after deposit of these monies.

- ***Restricted for Unemployment***—According to General Municipal Law Section 6-m, this restriction must be used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The restriction may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. If the District elects to convert to tax (contribution) basis, excess resources in the fund over the sum sufficient to pay pending claims may be transferred to any other reserve fund.

- ***Restricted for Employee Benefits***—According to General Municipal Law Section 6-p, this restriction must be used for the payment of accrued employee benefit due to an employee upon termination of the employee's service. This reserve may be established by a majority vote of the Board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated.

- ***Restricted for Retirement Contribution***—According to General Municipal Law Section 6-r, this restriction must be used for the payment of any portion of the amount payable to the New York State and Local Employees' Retirement System and the New York State Teachers' Retirement System, pursuant to Sections 17 or 317 of the Retirement and Social Security Law. This reserve may be established by a majority vote of the Board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated.

- ***Restricted for Repairs***—According to General Municipal Law Section 6-d, this restriction must be used to pay the cost of repairs to capital improvements or equipment, which repairs are of a type not recurring annually. The Board of Education, without voter approval, may establish a repair reserve fund by a majority vote of its members. Voter approval is required to fund this reserve (Opinion of the New York State Comptroller 81-401). Expenditures from this restriction may be made only after a public hearing has been held, except in emergency situations. If no hearing is held, the amount expended must be repaid to the reserve fund over the next two subsequent fiscal years.

- ***Restricted for Debt Service***—Represents amounts within the General Fund resulting from unspent debt proceeds that are required to be used for capital project expenses or the debt service thereof.

In the fund financial statements, commitments are amounts that are subject to a purpose constraint imposed by a formal action of the District's highest level of decision-making authority. As of June 30, 2020, the District had no committed fund balance.

In the fund financial statements, assignments are not legally required segregations but are segregated for a specific purpose by the District at June 30, 2020 and include:

	General Fund	School Lunch Fund	Total
Subsequent year's expenditures	$ 6,615,221	$ -	$ 6,615,221
Encumbrances	414,339	-	414,339
Specific use:			
School lunch	-	548,138	548,138
Total	$ 7,029,560	$ 548,138	$ 7,577,698

- ***Assigned to Subsequent Year's Expenditures***—Representing available fund balance being appropriated to meet expenditures requirements in the 2020-2021 fiscal year.

- ***Assigned to Encumbrances***—Representing amounts related to unperformed (executory) contracts for goods and services.

- ***Assigned to Specific Use***—Representing fund balance within the special revenue funds that is assigned for a specific purpose. The assignments purpose relates to each funds operations and represents remaining amounts within funds that are not restricted or committed.

If the District must use funds for emergency expenditures the Board of Education shall authorize the Business Manager to expend funds first from funds classified under GASB as nonspendable (if funds become available) then restricted funds. The use of committed and assigned funds as classified by GASB will occur after the exhaustion of available restricted funds. Finally, if no other fund balances are available, the District will use unassigned fund balance.

11. INTERFUND BALANCES AND ACTIVITY

Interfund receivables and payables are short-term in nature and exist because of temporary advances or payments made on behalf of other funds. The composition of interfund balances as of June 30, 2020 is as follows:

	Interfund	
	Receivables	Payables
Governmental Funds:		
General Fund	$ 3,929,263	$ -
Special Aid Fund	-	4,011,829
Capital Projects Fund	84,150	-
Total governmental funds	4,013,413	4,011,829
Fiduciary Funds:		
Agency Fund	-	1,584
Total fiduciary funds	-	1,584
Total	$ 4,013,413	$ 4,013,413

The outstanding balances between these funds result from payments made on behalf of other funds or temporary advances. All of these balances are expected to be collected/paid within the subsequent year.

The District made the following transfers during the year ended June 30, 2020:

	Transfers in:	
Fund	Special Aid Fund	Total
Transfers out:		
General Fund	$ 38,499	$ 38,499
Total	$ 38,499	$ 38,499

Transfers are used primarily to finance capital projects within the Capital Projects Fund and pay for the District's portion of certain state and federal grants in the Special Aid Fund.

12. AGENCY FUND

An agency fund exists for temporary deposit funds. The following is a summary of changes in assets and liabilities for the fiscal year ended June 30, 2020:

	Balance 7/1/2019	Increases	Decreases	Balance 6/30/2020
ASSETS:				
Restricted cash and cash equivalents	$ 108,161	$ 25,022,079	$ 24,932,145	$ 198,095
Receivables	103,038	-	103,038	-
Total assets	$ 211,199	$ 25,022,079	$ 25,035,183	$ 198,095
LIABILITIES:				
Agency liabilities	$ 101,608	$ 25,011,991	$ 25,031,983	$ 81,616
Due to other funds	11,574	50,000	59,990	1,584
Extraclassroom activity funds	98,017	116,725	99,847	114,895
Total liabilities	$ 211,199	$ 25,178,716	$ 25,191,820	$ 198,095

13. LABOR RELATIONS

District employees are represented by three bargaining units, with the balance governed by Board of Education rules and regulations. Negotiated contracts are in place through June 30, 2021 for the Dunkirk Teachers' Association, June 30, 2022 for the Civil Service Employees Association and June 30, 2023 for the Dunkirk Administrators' Association.

14. COMMITMENTS

***Encumbrances*—**Encumbrances are commitments related to unperformed (executory) contracts for goods or services (i.e., purchase orders, contracts, and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year end, valid outstanding encumbrances (those for which performance under the executory contract is expended in the next year) are re-appropriated and become part of the subsequent year's budget pursuant to state regulations. The District considers encumbrances significant if they are in excess of $200,000. As of June 30, 2020, there were no significant encumbrances.

15. CONTINGENCIES

Litigation—Various legal actions are pending against the District. The outcome of these matters is not presently determinable but, in the opinion of management, the ultimate liability will not have a material adverse effect on the financial condition or results of operation of the District.

***Grants*—**In the normal course of business, the District receives grant funds from various Federal and State agencies. These grant programs are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any disallowed expenditures resulting from such audits could become a liability of the governmental funds. While the amount of expenditures, if any, which may be disallowed cannot be determined at this time, management expects any amounts to be immaterial.

Other—The District is involved in litigation in the ordinary course of its operations. The District believes that its ultimate liability, if any, in connection with these matters will not have a material effect on the District's financial condition or results of operation.

16. TAX ABATEMENTS

The District is subject to tax abatements granted by the Chautauqua County Industrial Development Agency ("CCIDA"). These programs have the stated purpose of increasing business activity and employment in the region. Economic development agreements are entered into by the CCIDA and include the abatement of state, county, local and school district taxes, in addition to other assistance. In the case of the District, the abatements have resulted in reductions of property taxes, which the District administers as a temporary reduction in the assessed value of the property involved. The abatement agreements stipulate a percentage reduction of property taxes, which can be as much as 100 percent. Under the agreements entered into by CCIDA, the District collected $252,540 during the 2019-2020 fiscal year in payments in lieu of taxes ("PILOT"), these collections were made in lieu of $5,019,664 in property taxes.

During the year ended June 30, 2020, the District's largest PILOT payment, received from a local electric power generating facility, remained unchanged at $205,597. However, the original agreement PILOT amount was $4,382,097. To compensate for the decrease in revenue, New York State legislation established the Electric Generation Cessation Mitigation Fund, administered by Empire State Development ("ESD"). The State's enacted 2019-2020 budget appropriated $24 million in State aid to assist municipalities who will see a reduction in their collection of real property taxes or PILOT payments of at least 20% of the taxes owed by the electric generating facility, payable over a period of up to five years with aid declining to 0% over the five years. The District received $1,899,970 from such fund in the 2019-2020 fiscal year and is anticipating it will receive $1,522,216 of such aid in its 2020-2021 fiscal year.

17. SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 13, 2020, which is the date the financial statements are available for issuance, and determined that there are no subsequent events that require disclosure under generally accepted accounting principles.

The notes to the Required Supplementary Information are an integral part of this schedule.

** THIS PAGE INTENTIONALLY LEFT BLANK **

1. OPEB LIABILITY

Changes of Assumptions—Changes of assumptions reflect the effects of changes in the discount rate and salary scale. The discount rate is based on the Fidelity Municipal Go AA 20-Year Bond rate as of the measurement date, which decreased from 3.44% to 2.48% at June 30, 2020. The salary scale reflects the rate at which payroll amounts are expected to change over time and decreased from 3.36% to 3.22% at June 30, 2020. The ultimate healthcare cost trend rate was updated from 4.32% to 4.18% at June 30, 2020.

2. BUDGETARY INFORMATION

Budgetary Basis of Accounting—An annual budget is adopted on a basis consistent with generally accepted accounting principles in the United States of America for the General Fund. The Capital Projects Fund is appropriated on a project-length basis. No formal annual budget is adopted for the Special Aid and School Lunch Funds. Appropriation limits, where applicable, for the Special Aid Fund are maintained based on individual grants accepted by the Board of Education. The periods of such grants may vary from the District's fiscal year. A budget is maintained for the School Lunch Fund as a management tool for internal control purposes.

The appropriated budget is prepared by fund, function, and department. The District's department heads may make transfers of appropriations within a department. Transfers of appropriations exceeding $20,000 between departments require the approval of the Board. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the departmental level.

Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances are commitments related to unperformed (executory) contracts for goods or services (i.e., purchase orders, contracts, and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year end, valid outstanding encumbrances (those for which performance under the executory contract is expended in the next year) are re-appropriated and become part of the subsequent year's budget pursuant to state regulations.

SUPPLEMENTARY INFORMATION

DUNKIRK CITY SCHOOL DISTRICT, NEW YORK
Schedule of Change from Adopted Budget to Final Budget and the Real Property Tax Limit—General Fund
Year Ended June 30, 2020

Change from Adopted Budget to Final Budget

Adopted budget, 2019-2020	$ 47,847,549
Add: Prior year's encumbrances	73,237
Original budget, 2019-2020	47,920,786

The notes to the schedule of federal awards are an integral part of this schedule.

** THIS PAGE INTENTIONALLY LEFT BLANK **

1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of the Dunkirk City School District, New York (the "District") under programs of the federal government for the year ended June 30, 2020. The information in this Schedule is presented in accordance with the Title 2 U.S. Code of Federal Regulations ("CFR") Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). Because the Schedule presents only a select portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District. The following notes were identified on the Schedule:

a) Includes all federal award programs of the Dunkirk City School District, New York.

b) Source: Catalog of Federal Domestic Assistance.

c) Pass-through identifying numbers are presented where available.

d) Prepared under accounting principles generally accepted in the United States of America and includes all federal award programs.

e) Total federal expenditures for the District's 2019-2020 fiscal year are reconciled to Federal sources as reported in the basic financial statements as follows:

Balance per schedule of expenditures of federal awards	$ 4,086,708
Medicaid reimbursement	271,601
Federal interest subsidy received	56,933
Total Federal sources per financial statements	$ 4,415,242

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis or accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The District has not elected to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

3. NON-MONETARY FEDERAL PROGRAM

The District is the recipient of a federal award program that does not result in cash receipts or disbursements termed a "non-monetary program." During the year ended June 30, 2020, the District used $108,195 worth of commodities.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

The Board of Education
Dunkirk City School District, New York:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Dunkirk City School District, New York (the "District") as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 13, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE

The Board of Education
Dunkirk City School District, New York:

Report on Compliance for Each Major Federal Program

We have audited the Dunkirk City School District, New York's (the "District") compliance with the types of compliance requirements described in the U.S. *Office of Management and Budget ("OMB") Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2020. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

The District's management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations ("CFR") Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
