Capacity Building/Recommendations

Capacity Building

This section provides new inputs by administration placed into practice or protocol since this data was collected.

Information collected in the creation of this reports suggests that existing protocols governing the handling of complaints and confidential data are efficacious. As a result, these will continue to be stringently observed.

Bismarck Public Schools takes stakeholder feedback into account when determining future stakeholder engagement modalities. The information gained from the stakeholder survey will be invaluable when charting a future course for stakeholder treatment. While the results were favorable, ways in which positive responses may be increased will be considered and implemented.
