

## The Buzz Editor

Clicking on the 'Add to' Option allows you to add various activities to your course.

Once you have clicked to add to your course, clicking on the Library option will allow you to search the Digital Library for curriculum to add to your course.

## The Library (Digital Library)

In the Library, you can search for activities and curriculum.

A	B	C	D	E
The search bar allows you to search for particular activities by name.	Selecting a collection will bring up all of the associated activities.	The title feature is not enabled in our library.	The objective feature allows for search by objective/standard.	Using this criteria allows you to search for specific activities such as assessments, discussions, assignments, etc.

After running your search select the desired activity, and then you are able to copy the activity to your course.
