Interactive Flat Panels – Phase 2	<p>At Ms. Stabler’s request, Rob Dickson, Chief Information Officer, briefed the Board on this item. The district experienced an unplanned and rapid move to online learning in the last two years during the pandemic. In a future of uncertainty, a new hybrid model of classroom education is emerging. With this evolution being top of mind, administration proposes interactive flat panels shifting the district to a flexible learning environment both physically and in experience.</p> <p>The interactive flat panel allows students to share their digital work in a way that promotes collaboration and peer teaching. Additionally, an interactive flat panel allows the teacher to project class materials, thus reducing the risk of transmission by not physically sharing materials. Teachers do not have to switch between devices while teaching, saving time for the instructor. Screen share and whiteboard can be sent to student devices for accessibility purposes.</p> <p>Teachers will have the capability to teach from and display a lesson on a video conferencing platform allowing students to actively participate without being physically in the classroom. The interactive panels have built-in cloud-based assessment tools allowing teachers to facilitate learning for students to complete work within the classroom and remotely.</p> <p>This request is for Phase Two of the interactive flat panel implementation for 750 classroom installations.</p> <p>Ms. Stabler (Mrs. Bond) moved the Board approve an agreement not to exceed \$2,950,000 to include equipment and installation of interactive flat panels. Per BOE Policy 3304, it is reported payment will be made via State of Kansas Contract #42603 to Kansas City Audio-Visual.</p> <p>The motion passed 7-0, with Mrs. Bond voting remotely.</p>
