 - Smoothie Day partnership between Wellness Committee, School Gardens & Nutrition Services
 - *Email from Krystle Gibbs on 5/1: “Thanks for reaching out! Our raspberries at the garden typically fruit in the mid-late summer and early fall. We’re planning on in the next week or two doing some of the raspberry care, though -- specifically spreading coffee grounds around the raspberry bushes. It could be a fun Kindergarten activity if you’d be interested in having them help with that, and is an important step so we get good raspberries when the time comes for fruit! Let me know, I’m happy to work with you on that.”*
