

# HORIZON CLIENT AT HOME INSTRUCTIONS

To use the Horizon Client on a personal home computer for High School Remote Access, please follow the below instructions:

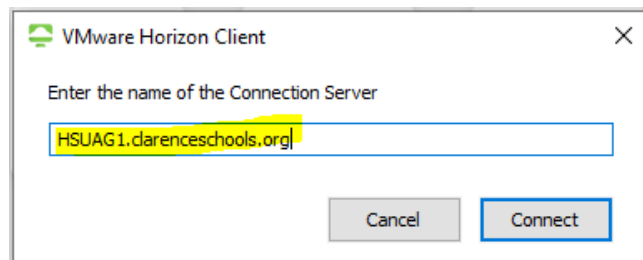

- 1) Please download the Horizon client from the official VMWare Website - [Link](#)
- 2) Click on “Go To Downloads” under the Windows OS or the Mac OS depending on your home computer

- 3) Install the software with default settings. Restart your computer once the install is complete
- 4) Launch the Horizon Client and select “Add Server”

- 5) Enter the Server “**HSUAG1.clarenceschools.org**” and click Connect.

- 6) Accept the EULA and sign in with your Clarence Schools Credentials (same as computer login in the classroom)
- 7) Double click the High School button and you will be connected to the Virtual Desktop and access Microsoft Office
