

Course Name: Italian – Grade 6

Prerequisite: None

Course Code #: M5632

Level: n/a

Year: 3X

Credits: n/a

Course Description: In sixth grade, students study Italian three days in each six-day cycle. Through this course, students continue their study of Italian, building upon language and skills introduced in the 5th grade exploratory Italian program via thematic units of study that focus on common informal settings and aspects of daily life. Emphasis is placed on using the language communicatively, and instruction is primarily in the target language. Student-centered activities actively engage the learners in demonstrating language proficiency.

Course Proficiencies: Students who successfully complete this course will have developed the ability to communicate at the novice-high proficiency level in three modes of communication:

- Interpretive - the ability to understand spoken and written communication within appropriate cultural contexts;
- Interpersonal - the ability to engage in direct oral and/or written communication with others; and
- Presentational - the ability to present, orally and/or in writing, information, concepts and ideas to an audience of listeners or readers with whom there is no immediate interaction.

In addition, students will have developed Intercultural Communication skills at the Novice proficiency level. The American Council on the Teaching of Foreign Languages has defined these novice skills in terms of “Can-Do” statements. In this course students will target the following “Can-Do” statements for Intercultural Communication:

- *In my own and other cultures, I can identify products and practices to help me understand perspectives.*
- *I can interact at a survival level in some familiar everyday contexts.*

Lastly, students will acquire language skills in the five areas outlined in the National Standards for Learning Languages: Communication, Cultures, Connections, Comparisons, and Communities, also known as The Five C’s of world language education.

Alignment to New Jersey Student Learning Standards:

The New Jersey Student Learning Standards include Preschool Teaching and Learning Standards, as well as nine K-12 standards for the following content areas. These areas include: 21st Century Life and Careers, Comprehensive Health and Physical Education, English Language Arts, Mathematics, Science, Social Studies, Technology, Visual and Performing Arts and World Languages. The standard for language learning in New Jersey reinforces the reading, writing, speaking and listening skills that are targeted across the standards for each content area.

The 2014 New Jersey Student Learning Standard for World Languages is as follows:

7.1 All students will be able to use a world language in addition to English to engage in meaningful conversation, to understand and interpret spoken and written language, and to

present information, concepts, and ideas, while also gaining an understanding of the perspectives of other cultures. Through language study, they will make connections with other content areas, compare the language and culture studied with their own, and participate in home and global communities.

This standard is further divided into proficiency levels and three strands, one for each mode of communication. The proficiency levels are in line with the national performance descriptors as released by the American Council on the Teaching of Foreign languages. These guidelines indicate six different levels of proficiency that can be expected at the K-12 level of language learning. Throughout the course, students will be working to demonstrate proficiency at the Novice Mid and Novice High levels in all three modes of communication including: interpretive communication, interpersonal communication and presentational communication.
