

Student & Visitor Accident Reports

The supervising teacher, paraprofessional or coach/advisor shall complete this form when a student is injured. In the case of injury to a visitor or student, when there is no clear supervisory party, the staff member who witnesses or is first informed of the incident shall complete this form.

Report all accidents which appear significant or which appear to require evaluation by a health care provider. In addition, report any injury to the face, neck, head or back. Other student injury or illness is documented on the Individual Student Health Log located in the Health Office.
