

# **Gower District #62**

## **Superintendent's Report**

### **Appendix A**

**Date:** June 19, 2018

**Title:** End-of-Year Student Performance Data (10 minutes)

**Contacts:** Victor Simon – [vsimon@gower62.com](mailto:vsimon@gower62.com)

---

#### **Background:**

Students in grades K-8 are tested in Reading and Math at the Beginning of the Year (BOY), Middle of the Year (MOY) and End of the Year (EOY) on the Measurement of Academic Progress (MAP) test created by the Northwest Evaluation Association (NWEA). The MAP test is “adaptive” in nature and becomes more difficult as students continue to answer questions correctly. This type of assessment design has strong value for our teachers as the results can be used to better design “Just Right Learning” for each of their students. Gower School District has used MAP for over 10 years and is currently using the latest version of MAP that is aligned to the Common Core State Standards. As the Illinois State Board of Education continues to implement the PARCC (Partnership for Assessment for Readiness of College and Careers) and the associated school performance designations and accountability measures being defined in accordance with the [Illinois State Board of Education Every Student Succeeds Act \(ESSA\) Plan](#), Gower School District will continue to use NWEA/MAP and monitor our overall assessment strategy to ensure that student performance and growth continues to be measured appropriately. The following website offers more information about NWEA and MAP for those interested in learning more about this assessment series <http://www.nwea.org/>

This fall, students obtained a BOY (beginning of year) score in Reading and Math. This score, referred to as a RIT score, is also aligned to a National Percentile Ranking as millions of students also take this exam across the country and establish a “benchmark” or typical score range by grade level. Depending on a student’s BOY score and grade level, each student is also given an EOY (end of year) “target score”. This target score represents the typical growth that can be expected given the BOY score recorded. Typical growth scores are usually set to maintain a student’s National Percentile Ranking. In other words, the MAP test gets a bit more difficult at MOY (middle of year) and EOY as students are expected to learn new grade-level material throughout a given academic year.

Student BOY performance was reported in Appendix A (Annual Fall Data Presentation) of the Superintendent’s Report presented to the Board of Education on Oct. 17, 2017, and student MOY performance was reported as part Appendix A (Mid-Year Student Performance Data Report) of the Superintendent’s Report presented to the Board of Education on Feb. 20, 2018. Superintendent Reports and appendices can be found on the district website under the Board of Education tab using this [link](#)

### Current State:

Each of our ten district goals were achieved in the 2017-2018 school year. It is important to recognize our commitment to pursuing what we consider to be ambitious goals, as they translate directly into the highest levels of student performance.

#### Just Right Learning

- At least 65% of students tested in BOY to meet or exceed their EOY target in Reading. **Goal Achieved. 68% met or exceeded** (68% in 2016-17; 67% in 2015-16)
- At least 65% of students tested in BOY to meet or exceed their EOY target in Math. **Goal Achieved. 71% met or exceeded** (70% in 2016-17; 66% in 2015-16)

#### High School/College Ready\*

- At least 80% of students tested at EOY will be at or above the 50<sup>th</sup> percentile in Reading. **Goal Achieved. 84% at or above** (82% in 2016-17; 83% in 2015-16)
- At least 80% of students tested at EOY will be at or above the 50<sup>th</sup> percentile in Math. **Goal Achieved. 81% at or above** (81% in 2016-17; 80% in 2015-16)

#### Catch-Up Targets

- A majority of students at or below the 50<sup>th</sup> percentile at BOY will exceed their expected end-of-year growth target in Reading. **Goal Achieved. 73% exceeded** (76% in 2016-17; 69% in 2015-16)
- A majority of students at or below the 50<sup>th</sup> percentile at BOY will exceed their expected end-of-year growth target in Math. **Goal Achieved. 62% exceeded** (61% in 2016-17; 51% in 2015-16)

#### Balanced and Targeted Growth

- A decrease in the number of students at or below the 35<sup>th</sup> percentile at BOY in Reading. **Goal Achieved. 35% decrease** (38% in 2016-17; 11% in 2015-16)
- A decrease in the number of students at or below the 35<sup>th</sup> percentile at BOY in Math. **Goal Achieved. 17% decrease** (25% in 2016-17; 7% in 2015-16)

#### Balanced and Targeted Growth

- An increase in the number of students at or above the 90<sup>th</sup> percentile at BOY in Reading. **Goal Achieved. 11% increase** (11% in 2016-17; 10% in 2015-16)
- An increase in the number of students at or above the 90<sup>th</sup> percentile at BOY in Math. **Goal Achieved. 26% increase** (27% in 2016-17; 23% in 2015-16)

\* **High School/College Ready** - The concept of 'High School Readiness' was discussed across the Hinsdale High School District 86 and Associated 'Feeder' Elementary School Districts throughout the 2017-18 school year. More information regarding this topic can be found in [Range of Readiness Model](#), [Superintendent Report Appendix A](#) as presented April 17, 2018. Information can also be found on the Hinsdale High School District 86 website by using this [link](#).

**Future State:**

Principals and teachers will continue to use the “data slices” approach to analyze student performance data at the classroom and individual student level. This analysis is expected to be collaborative in nature and promote discussions between teachers and between teachers and administrators about “what’s working” and “what might not be working” across both of our Gower School campuses. In addition, school and district administrators will further analyze the 2017-18 student performance data and make recommendations regarding resource alignment, student/teacher support, professional development, evaluation and performance plans, annual goals, and any requirements associated with the [Illinois State Board of Education Every Student Succeeds Act \(ESSA\) Plan](#).

Goal-setting for grade level teams as well as individual teachers will continue by utilizing this student performance data with other data points. Such an approach will help illustrate current student performance and growth, and allow our teachers to make informed decisions about various strategies, interventions, programs, and lesson techniques to ensure that our focus on providing “just right learning” for all of our students remains to be sharp and deliberate as we start the 2018-19 school year.

The (10) district goals detailed in this report are expected to remain in place for the 2018-2019 school year as they represent a balanced approach to increasing student learning across the standardized performance spectrum. Additionally, we expect to review student performance data from this year’s PARCC and summarize findings in the fall of 2017.

**It is important to be mindful that although NWEA/MAP data is extremely helpful to teachers, administrators, students, and parents, it represents a single point on a more comprehensive spectrum of student performance.**

The following images were selected from end-of-year reports generated for both Gower West and Gower Middle School. They are designed to illustrate the level of “growth” that our student performance data indicates after End of Year (EOY) MAP testing and are used as part of our regular Plan-Do-Check-Act cycle of continuous improvement.

# Gower District 62 End of Year NWEA/MAP Data Presentation

June 19, 2018

## Measure of Academic Progress (MAP)

NWEA - Northwest Evaluation Association

➤ Click [here](#) for parent resources

MAP: Adaptive achievement test (~1hr./session)

- K-8 Students take the MAP test in the Fall, Winter, Spring in both Reading and Math
- Aligned to Common Core State Standards

## District Uses of MAP data

- Measures what a student knows and can do
- Supports teacher planning for differentiated instruction
- Predicts performance on other standardized tests such as ACT (High School & College Readiness)
- Measures the effectiveness of curriculum and instruction
- Measures student growth from fall to spring
- Individual student and grade level goal setting for Achievement and Growth

## Achievement Data

What students know and can do

*National Percentile Rankings offer a more global comparison of student performance and provide some insight to High School and College Readiness...*

## MAP Reading Mean Score/Percentile Comparison Gower West 2014-2018 - Achievement

# 2017-2018 NWEA-MAP CCR Growth

## Math: Gower West Overall

# 2017-2018 NWEA-MAP CCR Growth

## District Goals - *Just Right Learning*

At least 65% of students tested in BOY to meet or exceed their EOY target in

- Reading. Goal Achieved. 68% met or exceeded
- Math. Goal Achieved. 71% met or exceeded.

## **District Goals - *H.S./College Ready***

At least 80% of students tested at EOY will be at or above the 50<sup>th</sup> percentile in

- Reading. Goal Achieved. 84% at or above
- Math. Goal Achieved. 81% at or above.

## **District Goals - *Catch-Up Targets***

A majority of students at or below the 50<sup>th</sup> percentile at BOY will exceed their expected end-of-year growth target in

- Reading. Goal Achieved. 73% exceeded
- Math. Goal Achieved. 62% exceeded

## **District Goals - *Balanced & Targeted Growth***

A decrease in the number of students at or below the 35<sup>th</sup> percentile at BOY by end-of-year in

- Reading. Goal Achieved. 35% decrease.
- Math. Goal Achieved. 17% decrease.

## **District Goals - *Balanced & Targeted Growth***

An increase in the number of students at or above the 90<sup>th</sup> percentile at BOY by end-of-year in

- Reading. Goal Achieved. 11% increase.
- Math. Goal Achieved. 26% increase.

## Key Take-aways

- Annual “**Growth**” across grades K-8 resulted in an average national percentile ranking in the **74th Percentile** in Reading & **75th Percentile** in Math indicating increased academic opportunity!
- EOY “**Achievement**” across grades K-8 resulted in an average national percentile ranking at the **94th Percentile** in both Reading and Math!

## Reflection for Principals and Teaching Staff

- *Are you satisfied with the performance from your grade level? Classroom? Specific groups of students? Individual students?*
- *Do you feel you have the necessary tools to analyze your specific classroom performance data and to respond accordingly for continuous improvement?*
- *What are you going to do next?*
