

## INDUSTRIALIZATION ASSIGNMENT

Assigned – 10/16/18

Due – 10/30/18

Construct a poster to be turned in on any of the topics we have covered on industrialization in the United States in the time period 1865 – 1900.

The poster should have a TITLE (like a thesis statement in a paper, tells the observer what the poster is about). The poster should be organized. You will show your understanding of the topic in the way you present a clear idea to the person viewing the poster (me). Posters are usually a mix of writing, graphs, pictures, etc. – whatever is needed to get across the major point of the poster. Please Note – effective posters usually get across their ideas through visuals, not through a lot of writing.

Posters should be 24" x 18", not an 8.5" x 11" sheet of paper.

### Some ideas for posters from this time period:

Alvin Toffler and/or <u>The Third Wave</u>	Thomas Malthus &/or Essay on Pop.
Charles Darwin &/or On the Origin of Species	Bell Curve
Effect of the Civil War on Industrialization	Value Added
<u>The Jungle</u> by Upton Sinclair	Andrew Carnegie
J.P. Morgan	John D. Rockefeller
 Captains of Industry or Robber Barons
