Protect Personal Information While Traveling

Tips to keep your data out of the hands of cyber criminals

As you prepare to travel this summer, prepare to also keep your personal information secure. As people continue to store more of their personal information online, identity theft has become a crime on the rise. And that risk becomes even greater when traveling.

Where was the last public place you visited that had Wi-Fi? Today, nearly every coffee shop, restaurant, airport, and hotel offer a way to access the Internet from your cellphone or other mobile device. Therefore, the information you have on your phone could be available to cyber criminals in the area – unless you've taken steps to protect your data. Click on the buttons above to learn some simple tips on keeping your information secure..., *so you can relax and enjoy your vacation.*
