I. INTRODUCTION

The City of Poquoson, with a population of approximately 12,522 is located adjacent to Langley Air Force Base and NASA and with easy access to all major Tidewater cities. It has become one of the most desirable residential localities in the Tidewater area. Many of the newer residents of the city specifically selected Poquoson as their home because of the reputation for excellence enjoyed by its school system. Poquoson combines the benefits of small town friendliness and pride with the cultural, professional and educational advantages of a major metropolitan area.

HISTORY OF POQUOSON

Poquoson, an Indian word for either flat land or “great marsh,” is believed to be one of the oldest English-speaking communities in America that still bears its original name. The city, with 60 miles of shorelines, encompasses 16 square miles of land of which 4,398 acres are salt marsh wetlands. Plum Tree Island National Wildlife Refuge, together with privately owned salt marsh lands, makes up the largest saline marsh in the lower Chesapeake Bay.

Settlement of the Poquoson area was opened in 1628 by order of the Council of State at Jamestown. Many of the early settlers were plantation owners who, with their tenants and apprentices, originally lived south of Back River. The Great Marsh and Messick Point were important shipping points as early as 1635 for tobacco and other plantation products.

After the Revolutionary War, larger colonial plantations were divided and sold as smaller farms because they were no longer able to survive financially.

Poquoson remained a “backwater” farming and fishing community. While there was extensive Civil War action on the Peninsula, there was no known war activity in Poquoson.

Poquoson’s rural lifestyle started to change during World War I with the construction of Langley Field. Rapid changes and population growth occurred in the years following World War II. Farming and fishing quickly gave way to suburbanization.

Poquoson, which had been a part of York County for many years, became a town in 1952 and an independent city in 1975 upon referendum of the citizens. Certain municipal offices and functions continue to be shared with York County.

Poquoson is organized under the Council-Manager form of government. The Poquoson City Council is composed of seven members who are elected by the voters and serve four-year terms. The City is divided into three precincts. Each precinct is entitled to two representatives. One representative is elected at-large and he/she is the City Mayor. Persons elected to City Council take office on the first working day of January following the election.

HISTORY OF THE SCHOOLS

Early in the history of Poquoson the community paid to support a day school for its children, and though now it has been replaced with public schools, the people continue to take great pride in having schools specifically to serve their area. The building known as “The Hall” was where school was also taught for short sessions in the cold weather months. In the school there was only one teacher and one room. The first high school in the area was built for \$6,000 in 1910-1911. It was a two story, wooden building with a cupola. It was located where the present middle school now stands on Poquoson Avenue. It housed the entire student body for all grades. The original school bell, which was used from 1911 through 1932, is currently on display in the School Board office in City Hall. A diploma for the first graduating class in 1915 and a class ring for that period are also on display.

Where once there was a one room, one teacher school, by 1932 we established a modern school system serving the people, the only high school in York County. When classes began in September of 1932, students were bussed from all of York County, except the Bruton District. There was a graded school for the smaller children and a new fireproof brick building for the high school pupils, which served all of York County. The first freshman class entered the new brick edifice which had been erected close by the original building and which now forms the core of the Poquoson Middle School which was recently modernized and was completed in September 2022 ahead of the projected completion date of January 2023. The old building was used for elementary school students.

In 1952 a referendum was held to move the high school to a centrally located position for the county. Poquoson citizens disagreed. Since the law requires an area to be a township with its own operational system to retain its school, Poquoson voted to become a town. That expansion has resulted in the development of an attractive residential town which began shortly after the General Assembly of Virginia approved an act providing for incorporation of the Town of Poquoson in York County, and the creation of a special school district.

The period of 1952 – 1954 is reported as years of planning. Also, during this period a new \$300,000 elementary school was constructed. Because of school population growth, two rooms were added to the school in 1955 at a cost of \$20,000. It was shortly discovered that this would not be sufficient to take care of the increased student enrollment and, in 1956, six more rooms were added at a cost of \$73,000.

In 1955, when the elementary school was opened, the original wooden building was torn down. In 1959 the elementary school plans called for construction of three additional classrooms. The building site was purchased for \$17,000. The first major expenditure at the high school (now the Poquoson Middle School) was the installation of a new boiler in 1957 and the purchase of a tract of land in the rear of the school in 1958.

The seventh birthday of the town, founded upon the principal of “better schools,” approached as the community became involved in a debate and associated referendum on further school construction, to include a new gymnasium and kitchen and conversion of the present gym into classrooms at what is now Poquoson Middle School. The voters approved the referendum by three to one. Additional sections were added to the original site in 1962 and 1970, and a new cafeteria, connecting the gymnasium to the main school building was built in 1994. Built in 1932, Poquoson Middle School has undergone 11 construction projects, including an addition in 1994. Poquoson City Public Schools engaged an architectural and design firm to modernize the building and this major renovation was completed in September of 2022.

In 1976 a new high school was built on Odd Road. This building was enlarged in 1979. In 1997 a complete renovation was done to the original building and a new science wing and cafeteria/kitchen were added to the back of the building.

The Poquoson Primary School was built in 1990 to house grades pre-school through second. This building is located next to our high school.

In 2003, Hurricane Isabel caused significant flooding at the Poquoson Elementary School. The Poquoson City Council authorized the School Board to begin proceedings to build a new elementary school that would raise the building out of harm's way. The new elementary school opened at the beginning of the 2008-2009 school year as planned. The approximate cost to construct the new elementary school was \$18,000,000.

As stated in *Section 79 of the Internal Revenue Code*, the cost of group-term life insurance, to the extent that the *insurance exceeds \$50,000*, must be reported as income. The School Board office will be computing this amount determined by the uniform premium table method. Please note that *the rates are set by the General Assembly and do change from year to year.*

A variety of coverage options are available. Coverage is guaranteed if you enroll in the Optional Group Life Insurance Program within 31 days from your employment date. Monthly disability benefits are payable for both confining and non-confining total disabilities. Benefits are payable during summer months and vacation periods only if the disability would have prevented you from performing most of your regular assigned duties had you been required to be on duty at that time. The amount of compensation paid through SunLife Financial will be computed based on the employee's annual salary. No benefits will be payable if you are disabled by a pre-existing condition commencing in the first 12 months that you are insured.

Leaves of absence may be considered for professional personnel under contract with the School Board under certain circumstances; however, in all cases such leave shall be without pay. In the granting of such leave, the School Board can only assure that every reasonable effort will be made to return a professional to his original position, or as nearly as possible to a position that is mutually satisfactory. The School Board makes no guarantee that any individual will be returned to a specific position. A teacher on leave of absence is not automatically offered reappointment and must assume the responsibility for notifying the division superintendent in writing not later

than April 15 of the year preceding the school year in which the teacher will become available for reappointment.

A teacher may be granted a leave of absence for short duration to complete work on a baccalaureate degree or master's degree provided such a degree is essential to the position, which the teacher holds. The Division Superintendent shall determine the length of leave allowed.

3.14 Family Medical Leave Act (FMLA) (policy 5-7.7)

A Family and Medical Leave Act equivalent leave of absence, without pay, may be granted to employees of the Division who have a life-threatening illness or injury and who are not eligible for Family Medical Leave. Employees with a debilitating or life-threatening injury or illness who are entitled to leave under this policy may take up to 12 weeks unpaid leave during their first year of employment with the Division. During this period of leave, group health and dental benefits which were in place prior to the leave will continue and the employee will be responsible for paying his or her portion of group health insurance and dental insurance premiums.

An employee who is unable to work because of personal illness or injury and who has exhausted all available sick leave and/or Family Medical Leave and/or FMLA equivalent leave, as described above, may be granted long-term medical leave. Any long-term leave granted pursuant to this section shall be for a period not to exceed one calendar year.

The Division Superintendent may require medical certification to document the debilitating or life-threatening injury or illness affecting the employee. Such certification shall include a summary of the health condition, the date the health condition began or became known to the employee, the probable duration of the health condition and any other appropriate medical information the employee and his or her medical provider believe is necessary for the school division to consider.

During the employee's absence for long-term medical leave as authorized by this section, the employee shall not accrue unified leave or annual leave benefits. However, for the first 12 weeks of the long-term medical leave, the School Board shall continue to pay the employer's contribution of the group health insurance coverage maintained by the employee at the time the leave period began. The employee shall be responsible for ensuring that the employee's portion of the group health insurance coverage is paid. For the

remaining duration of long-term medical leave, the employee shall be responsible for ensuring that the employer and employee portions of the group health insurance coverage are paid.

Employees who elect to continue on the School Board's health plan will be responsible for payments as authorized by applicable federal law.

An employee reemployed after military leave will be treated as not having incurred a break in service. The period of military leave will be considered services to the school division for purposes of vesting and benefit accrual. The school division is responsible for its pension plan-funding obligation. The school division is not required to make its contribution until the employee is reemployed. The employer and employee contribution shall be calculated on the rate of pay the employee would have received but for the absence to serve military duty.

3.16 Jury Duty (policy 5-7.6)

Leave of absence designated as civil leave with full pay shall be granted employees to serve on a jury, to attend court as a plaintiff or defendant (except as a criminal defendant), or as a witness under subpoena.

Employees shall provide documentation of the required jury duty or court appearance to their supervisor prior to the date(s) of the jury duty or court appearance. The employee may not accept compensation from both jury duty and their regular day job. The School Board encourages attendance and participation by school personnel at professional meetings, conferences, and other functions that contribute to professional growth and improvement. Requests for reimbursement from School Board funds for costs associated with attending such professional growth opportunities will be honored only for travel approved in advance by the building principal and the Division Superintendent and for which a statement of travel, with supporting documents, is submitted at the conclusion of the trip.

The School Board may authorize the proper supervisory employees to make an advance for travel expenses upon presentation of an estimate of expenses to be incurred. Advances will be applied against final itemized statement of actual expenses, and any funds advanced in excess of actual expenses shall be immediately refunded. Upon failure to submit an itemized statement with required documentation, the entire amount of the advance shall be returned.

4.3 Student Tuition

Full time employees of the School Board who do not live in Poquoson but would like their children to attend Poquoson City Public Schools may do so at no cost beginning with the 2007-2008 school year.

4.4 Licensed Personnel: Dress Code (policy 5-4.6)

The attire of Poquoson City School Board licensed employees during the hours when school is in session should conform to the following principles:

1. Dress should reflect the professional position of the employee
2. Attire should be that which is commonly accepted in the community
3. Dress should be exemplary of the students with whom the professional employee works
4. Clothing should be appropriate to the assignment of the employee

If an individual teacher believes that informal clothing such as sportswear would be appropriate to his teaching assignment or would enable him to carry out assigned duties more effectively, he may request an exception from the Principal or Division Superintendent. An attempt should be made on all

levels to ensure that the above principles are applied equitably and consistently throughout the school division.

4.5 School Year/School Day (Students) (policy 6-1.5)

In accordance with applicable law, Poquoson City Public Schools will be operated with students in attendance at least 180 teaching days or 990 hours (540 hours for kindergarten) per school year.
