From Superintendent Mike Molnar

Comet Nation,

COMETSLIVE! is made up of 30 dedicated and talented students who work together to showcase the great things that are happening in our district. They produce high-quality live-streamed events that rival the quality of college broadcast networks. They have completed 135 events already this school year with nearly 10,000 watch hours. Comet Nation is well represented, with viewers coming from throughout the US as well as viewers from 18 countries! **COMETSLIVE!** surpassed the 3000 subscriber mark earlier this year and has one of the most active school YouTube Channels in Ohio. We will be accepting applications and conducting interviews in April for students who are interested in joining our 2024/25 team.

BLACK HISTORY MONTH HIGHLIGHT AT MARION L. STEELE

MS. BOGGS CLASS CREATES MOSAIC PORTRAITS IN THEIR ALL THINGS GOOGLE CLASS

In celebration of Black History Month, students in All Things Google embarked on a captivating project inspired by ESPN's "The Undeclared" and Drawing inspiration from portraits by Rob Ball in the book The Fierce 44/Black Americans Who Shook Up The World. Students used Google Drawing to create digital mosaic artworks honoring high-achieving African Americans.

Each mosaic serves as a vibrant tribute, weaving together countless small shapes to form a stunning portrait, capturing the essence and contributions of these remarkable individuals. Through this project, students not only celebrated the rich tapestry of Black history but also honed their digital art skills and gained a deeper appreciation for the legacies of those who have made significant impacts in various fields. Take a look below at some of their fantastic work!
