Uniqueness of LITTLE Bobs

Brainobrain's Little Bobs is a first of its kind program. The curriculum & the philosophy of Little Bobs contribute towards an empowering experience for your little one providing a significant foundation to your child's early developmental phase. To name a few:

1. Based on the Multiple Intelligence:

The little Bobs program is a holistic activity which exercises the multiple intelligences of your children - Logical, Linguistic, intrapersonal, Interpersonal, Rhythmic, Kinesthetic, Spatial & naturalistic intelligence.

2. Based on VAK methodology:

We nourish the different learning styles that are unique to your child empowering the learner in him.

3. Whole Body Learning:

Little Bobs is an activity program that is based on the principle that, "Learning is not only with your head! ". It encourages the children to use all their resources in learning.

4. It is not the knowledge: it is the 'Learner' that's focused! The Little Bobs program provides ample experiences to prepare your child to be a learner, than a mere student - a real awakening that blossoms is an outcome of the programme! We do not give 'fish'; instead we teach them 'how to fish'.

5. Play Way Method!:

Finally, Little Bobs is a play way method in the fullest sense! Children play & learn by themselves! Little Bobs is for the children, by the children and of the children!
