

The Accounting Career Awareness Program serves Washington state high school students of color who are underrepresented in the accounting field.

July 21-26, 2024 - apply now at www.seattleacap.org

ACAP's free Residency Week summer program offers academic, personal, and professional advancement opportunities for participants through classroom-based and experiential learning, networking, and mentorship. For over 40 years, ACAP has proudly served over 1500 students and fostered diversity in the accounting profession in Washington state.

Learn more about ACAP and apply here to be a participant, counselor, or professional mentor for our annual summer Residency Week program. 

ACAP residency week exceeded my expectations with amazing guest speakers and field trips! I had never considered accounting or business as careers. After ACAP, my perspective on accounting and business drastically changed. I highly recommend this program to students interested in business, and students who aren't interested in business!

I had so much fun at ACAP. I was able to learn a lot which will help me with my future. This program has also helped me realize how accounting isn't all math or numbers. It really opened my eyes to how accounting can be an important life skill.

I can truly say it was a life-changing experience that I'll never forget. The knowledge, resources, and network I gained from my week spent in the ACAP program is truly invaluable to me. Without this experience, I would have never learned what I wanted for myself and my future and I would not have felt supported to make these huge and scary steps towards the future I want.

ACAP was the highlight of my summer and I love the friends that I made here. The networking opportunities are great and so are the mentorship opportunities.

ACAP is an amazing program, I learned so much about myself during the program and I was able to learn more about business and accounting. I was also able to make really good connections to expand my network

ACAP was a way to open my mind and expand my horizons. I would've never considered accounting as a career. I loved how this program taught me the role that accounting has in society. It was a great way to connect with people and learn more about myself.

ACAP has been amazing! It taught me that accounting is the language of business. I met so many lifelong friends. It provided me with many opportunities that may have not been possible as a low-income student!
