Email [sata@sa-academy.org](mailto:sata@sa-academy.org) or Call (210) 736-5876

## Welcome!

Summer At The Academy was launched more than 30 years ago and has grown into one of the most successful summer programs in the area. Each year, more than 600 boys and girls from South Texas and beyond attend a diverse array of over 250 classes taught by the area's top teachers, coaches, and artisans. Summer At The Academy, an 8-week enrichment program for boys and girls ages four and older, provides excellent opportunities to create, learn, explore, and have fun. Located at 117 E. French Place in the Monte Vista Historic District, our tree-shaded, 7-acre campus provides an excellent environment for classroom study and outdoor sports and activities. There are outstanding facilities for sports, art, science, math, music, and performance classes.

We anticipate the return of our former students and look forward to welcoming newcomers to our campus. Please call us at (210) 736-5876 if you have any questions.

## Kids' Place

**Kids' Place is for boys and girls ages 4-12 who are enrolled in both morning and afternoon enrichment classes.** Kids' Place provides creative and fun activities in a supervised and safe setting.

### Full-day Kids' Place includes:

- Mornings from 7:30-9:00 AM
- Hot Lunch from 11:30 AM-12:30 PM
- Afternoons from 3:00-6:00 PM

## Table of Contents

Kids' Place	1
General Information	2-3
Summer Courses - Week by Week	4-7
Week 1: June 3-7	8-12
Week 2: June 10-14	12-18
Week 3: June 17-21 (4-Day Week)	19-24
Week 4: June 24-28	24-30
Week 5: July 1-3 (3-Day Week)	31-34
Week 6: July 8-12	34-40
Week 7: July 15-19	40-46
Week 8: July 22-26	47-52

# General Information

## ENRICHMENT COURSES

Week-long enrichment courses are offered in the mornings from 9:00–11:30 AM and in the afternoons from 12:30–3:00 PM. Enrollment in each class is limited and will vary according to age group or topic. Enrichment course fees vary per class and are listed with the individual course descriptions. Classrooms will be open 15 minutes prior to and following classes. Students who arrive early or who are not picked up on time will be placed in our Wildcat Alley facility, and parents will be charged \$15 for each quarter hour or part thereof.

## HOT LUNCH/BROWN BAG

To participate in either lunch program, students must be enrolled in both AM and PM classes. Parents having lunch with their children must do so off-campus. **Hot Lunch is a nutritious meal served in our dining hall, and includes food and drink provided by Summer At The Academy.** The Hot Lunch menu will be posted on our website. Regrettably, we cannot accommodate special dietary requirements. **Brown Bag participants bring their own lunch and drink.** They eat in a separate air-conditioned area. Regrettably, we cannot guarantee an allergy-free environment. Our counselors escort students between classrooms and both lunch locations, and also supervise both lunch programs.

**Hot Lunch Fee:** \$75 per 5-day week; \$60 per 4-day week; \$45 per 3-day week

**Brown Bag Fee:** \$40 per 5-day week; \$32 per 4-day week; \$24 per 3-day week

## KIDS' PLACE (Before and After Class Care)

**Kids' Place is for boys and girls ages 4-12 who are enrolled in both AM and PM enrichment classes.** Kids' Place includes mornings (before class) from 7:30-9:00 AM, Hot Lunch from 11:30 AM -12:30 PM, and afternoons (after class) from 3:00-6:00 PM. Creative and fun activities are provided in a safe, well-supervised setting; staff members escort students between classes and Hot Lunch. Children are grouped according to age; these age groups may vary, depending upon weekly enrollment. *Please note: after 6:00 PM, there will be a late fee assessed of \$15/quarter hour or part thereof.*

**Kids Place Fee (includes Hot Lunch):** \$130 per 5-day week; \$104 per 4-day week; \$78 per 3-day week

## SUMMER 2024 REGISTRATION

**Registration begins Monday, February 26, 2024.** Early registration is advised, as all classes, lunches and Kids Place have a limited enrollment and many sections fill early. Payment in full is required at the time of registration.

## ONLINE REGISTRATION

Access our website at [sa-academy.org/summer](http://sa-academy.org/summer). Click **REGISTER ONLINE**. Payment by eCheck or credit card (Mastercard, Visa, and Discover only) is required. For assistance with registration or payment, please call 210-736-5876.

## REGISTRATION FEE

**The registration fee is \$30 per student, per year.** This fee is not refundable.

## REGISTRATION OPTIONS

**AM Class Only:** 9:00-11:30 AM

**PM Class Only:** 12:30-3:00 PM

**Hot Lunch:** 11:30 AM – 12:30 PM. Food and drink provided; menu posted on SAA summer webpage. **MUST SIGN UP FOR AM AND PM CLASSES and WILL ATTEND FROM 9:00 AM TO 3:00 PM.**

**Brown Bag Lunch:** 11:30 AM – 12:30 PM. Bring your own lunch and drink. **MUST SIGN UP FOR AM AND PM CLASSES and WILL ATTEND FROM 9:00 AM TO 3:00 PM.**

**Kids Place:** 7:30 AM – 6:00 PM. Includes Hot Lunch. **MUST SIGN-UP FOR AM AND PM CLASSES. MAY ARRIVE AS EARLY AS 7:30 AM AND MUST BE PICKED UP BY 6:00 PM.** Please note: after 6:00 PM, there will be a late fee of \$15/quarter hour or part thereof.

## WEEKLY CLASS REGISTRATION DEADLINES AND LATE REGISTRATION INFO

**Weekly registration** (subject to availability) **will close at 1:00 PM on Thursdays before the start of the following week; no changes or tuition transfers can be made after this time. Exception: Registration for Week 6 will close at 1:00 PM on Tuesday, July 2. To request an ADDITION after the weekly deadline, please contact the Summer Office at 210-736-5876. There will be a Late Registration Fee of \$15 per class.**

## CANCELLATIONS/SCHEDULE CHANGES

**A \$50 cancellation fee will be charged for each week that confirmed classes are canceled.** Registrations may be canceled and the tuition refunded (minus the cancellation fees) four weeks prior to the beginning of the class. No refunds will be given with less than four weeks' notice. Credit balances must be used before the end of the current summer program.

If a class is canceled by The Academy due to conditions beyond our control (e.g., weather, fire, health protocols, etc.), no refunds will be given, and the tuition is not transferable to another class. For information when such situations occur, please check our website ([sa-academy.org](http://sa-academy.org)) and/or our phone greeting/message (210-733-7331), as well as SAA's social media.

If a class is canceled due to insufficient enrollment, the tuition may be applied toward another class or refunded in full. Parents will be notified of such cancellations the week prior to the class.

Each time a confirmed class is changed, a \$15 fee will be charged.

**There are no refunds or rescheduling due to absences, illness, etc.**

## DROP-OFF/PICK-UP

**Drop-off and pick-up will be through the driveway between the Stribling and Franklin Houses on French Place.** Students will be escorted to and from their classes by summer staff. If picking up Kids Place students, please avoid pick-up between 3:00-3:30 PM, as this is the time when parents are picking up students who have finished their afternoon classes, and the traffic is very heavy.

## SUMMER ATTIRE

Please dress comfortably – t-shirts, shorts or jeans, and tennis shoes (no “wheelies”). Remember, “fun” can sometimes be messy, and our summers are warm!

## SECURITY/SAFETY FIRST

Our campus is staffed with trained and certified personnel who monitor access to the campus. We have an RN/LVN (from 7:30 AM-6:00 PM), who administers prescribed medication and responds to medical emergencies. A physician is on call at all times for medical service and to advise our personnel on all first aid and nursing services provided by Summer At The Academy.

## DISCIPLINE POLICY

Parents of students displaying unacceptable behavior will be notified immediately. This notification may be followed by removal from the program with no refund(s).

## POLICY REGARDING ELECTRONIC DEVICES AND OTHER NON-ALLOWED ITEMS

Items such as cell phones, laptops, gaming units, DVD players, and “wheelie” tennis shoes are not allowed on campus during Summer At The Academy. Please label all personal items including lunch containers, water bottles, jackets, caps, etc., and do not bring any valuable/sentimental items to camp. SAA is not responsible for lost items.

## DISCLAIMER

This catalog has been carefully prepared to ensure that all information is accurate and as complete as possible. However, San Antonio Academy reserves the right to make changes from the information provided.

# Summer Courses - June Week by Week

## WEEK 1: JUNE 3-7

### Morning Classes

- Hot Wheels® Racers (4-7)
- Making Chinese Food is a Piece of Cake! (4-7)
- Sing With Your Bestie! Be a Rockstar! (4-7)
- Introduction to Lacrosse (5-7)
- Bugs, Spiders & Snakes... Oh NO! (5-8)
- LEGO® - Creative Challenges & Independent Projects (5-8)
- Wildcat Soccer (5+)
- The Dance Party (6-11)
- Complete Chess (6-12)
- Multiplication Masters (Week 1 of 2) (7-10)
- Flag Football (7+)
- S.T.E.A.M. Robotics – Computer Controlled Robots (7+)
- Rock & Roll Boot Camp (8+)
- Culinary Skills - Advanced (FULL DAY CLASS) (9+)
- Dungeons & Dragons - Tabletop RPG (9+)
- Ninja Skills (9+)

### Afternoon Classes

- Blow Your Top (4-7)
- Pet Vet (4-8)
- Wildcat Sports Camp (5+)
- Complete Chess (6-12)
- LEGO® - Build a City (7+)
- S.T.E.A.M. Robotics – Computer Controlled Robots (7+)
- Wildcat Water Games (7+)
- Making Chinese Food is a Piece of Cake! (8+)
- Rock & Roll Boot Camp (8+)
- Sing With Your Bestie! Taylor Swift Edition (8+)
- Among Us – Game Theory (9+)
- Culinary Skills - Advanced (Continued) - FULL DAY CLASS (9+)
- Extreme Dissection (9+)
- DIY Fashion! (10+)

## WEEK 2: JUNE 10-14

### Morning Classes

- Artistic Adventures (4-6)
- Snakes & Spiders (4-7)
- Geology Rocks! (4-8)
- LEGO® - Creative Challenges & Independent Projects (5-8)
- Barbie & Friends: Let's Have Some Fun! (5-8)
- Act Up With Drama Kids This Summer - "Make Them Laugh" (5-12)
- Wildcat Soccer (5+)
- Junior Avengers Club (6-10)
- The Dance Party (6-11)
- Complete Chess (6-12)
- From the Zoo to YOU! (7-9)
- Multiplication Masters (Week 2 of 2) (7-10)
- Ball Up (7+)
- Explode Into Science (7+)
- Movement Speed Training & Games (7+)
- Photography (7+)
- S.T.E.A.M. Robotics – Computer Controlled Robots (7+)
- Lacrosse Basics and Games (8-10)
- Minecraft Survivor (8+)
- Rock & Roll Boot Camp (8+)
- Culinary Skills - Advanced (FULL DAY CLASS) (9+)
- Table Top Gaming - HEROSCAPE (9+)
- 3-D Printing (11+)

### Afternoon Classes

- Math Toy Store (4-7)
- Extreme Dinosaurs (4-8)
- Barbie & Friends: Let's Have Some Fun! (5-8)
- Extreme Dissection (5-8)
- Act Up With Drama Kids This Summer - "Make Them Laugh" (5-12)
- Minecraft Creative (5+)
- Complete Chess (6-12)
- Passion for Fashion (7-9)
- Wildcat Cheer (7-10)
- Bill Nye, Science Guy - Experiments! (7-11)
- LEGO® - Build a City (7+)
- Photography (7+)
- S.T.E.A.M. Robotics – Computer Controlled Robots (7+)
- Wildcat Dodgeball (7+)
- Zen Me Yoga (7+)
- Embroidery & Beading! - Beginner (8+)
- Out on the Town (8+)
- Rock & Roll Boot Camp (8+)
- Culinary Skills - Advanced (Continued) - FULL DAY CLASS (9+)
- Create a "Rube Goldberg" (10+)
- 3-D Printing (11+)

## WEEK 3: JUNE 17, 18, 20, 21 (4-DAY WEEK)

### Morning Classes

- Blow Your Top (4-7)
- Sharks and Under the Sea (4-8)
- LEGO® - Creative Challenges & Independent Projects (5-8)
- Junior Avengers Club (6-10)
- Complete Chess (6-12)
- Multiplication Masters (Week 1 of 2) (7-10)
- Ball Up (7+)
- Flag Football (7+)
- S.T.E.A.M. Robotics – Computer Controlled Robots (7+)
- Ukuleles Are Poppin! (7+)
- Absurdly Artistic (FULL DAY CLASS) (8-11)
- Minecraft Survivor (8+)
- Rock & Roll Boot Camp (8+)
- Among Us – Game Theory (9+)
- Culinary Skills - Advanced (FULL DAY CLASS) (9+)
- Wildcat War Games (9+)
- 3-D Printing (11+)

### Afternoon Classes

- Hot Wheels® Racers (4-7)
- Wildcat Multi-Sports Camp (5-10)
- Minecraft Creative (5+)
- Star Wars & Jedi Academy (6-10)
- The Dance Party (6-11)
- Complete Chess (6-12)
- Wildcat Cheer (7-10)
- LEGO® - Build a City (7+)
- S.T.E.A.M. Robotics – Computer Controlled Robots (7+)
- Ukuleles Are Poppin! (7+)
- Wildcat Water Games (7+)
- Zen Me Yoga (7+)
- Absurdly Artistic (Continued) - FULL DAY CLASS (8-11)
- Out on the Town (8+)
- Rock & Roll Boot Camp (8+)
- Culinary Skills - Advanced (Continued) - FULL DAY CLASS (9+)
- Poker & Math (9+)
- DIY Fashion! (10+)
- 3-D Printing (11+)

## WEEK 4: JUNE 24-28

### Morning Classes

- Artistic Adventures (4-6)
- Skidamarink Kinder Fun (4-6)
- Super-Tastic Cartoons Camp (4-6)
- Hot Wheels® Racers (4-7)
- LEGO® - Creative Challenges & Independent Projects (5-8)
- Ninja Skills (5-8)
- Jr. Doctor (5-9)
- Act Up With Drama Kids This Summer - "Make Them Laugh" (5-12)
- Wildcat Soccer (5+)
- Christmas in June (6-8)
- Junior Avengers Club (6-10)
- Complete Chess (6-12)
- Multiplication Masters (Week 2 of 2) (7-10)
- Bill Nye, Science Guy - Experiments! (7-11)
- S.T.E.A.M. Robotics – Computer Controlled Robots (7+)
- Ukuleles Are Poppin! (7+)
- Zen Me Yoga (7+)
- Minecraft Survivor (8+)
- Out on the Town (FULL DAY CLASS) (8+)
- Rock & Roll Boot Camp (8+)
- Culinary Skills - Advanced (FULL DAY CLASS) (9+)
- Learn & Launch – Advanced Rocketry (10+)
- Lacrosse Skills and Games (11+)
- Wildcat Leadership & Service (FULL DAY CLASS) (11+)

### Afternoon Classes

- Math Toy Store (4-7)
- Pet Vet (4-8)
- Explode Into Science (5-8)
- Act Up With Drama Kids This Summer - "Make Them Laugh" (5-12)
- Wildcat Sports Camp (5+)
- Junior Avengers Club (6-10)
- The Dance Party (6-11)
- Complete Chess (6-12)
- Learn & Launch – Jr Rocketry (7-9)
- Ball Up (7+)
- LEGO® - Build a City (7+)
- Super-Tastic Cartoons Camp (7+)
- S.T.E.A.M. Robotics – Computer Controlled Robots (7+)
- Ukuleles Are Poppin! (7+)
- Embroidery & Beading! - Beginner (8+)
- Minecraft Survivor (8+)
- Out on the Town (Continued) - FULL DAY CLASS (8+)
- Rock & Roll Boot Camp (8+)
- Among Us – Game Theory (9+)
- Christmas in June (9+)
- Culinary Skills - Advanced (Continued) - FULL DAY CLASS (9+)
- Journey to Your Best Self (10+)
- Wildcat Leadership & Service (Continued) - FULL DAY CLASS (11+)

# Summer Courses - July Week by Week

## WEEK 5: JULY 1-3 (3-DAY WEEK)

### Morning Classes

- Our Planet, Our World STEAM Art (4-6)
- Extreme Dinosaurs (4-8)
- LEGO® - Creative Challenges & Independent Projects (5-8)
- Wildcat War Games (5-8)
- Wildcat Sports Camp (5+)
- Culinary Arts and Crafts - Beginners (6-9)
- The Dance Party (6-11)
- STEAM Robotics - Motorized Machines & Mechanisms (7+)
- Minecraft Survivor (8+)
- 3-D Printing (11+)

### Afternoon Classes

- Pet Vet (4-8)
- Harry Potter Magic Camp (5-8)
- Minecraft Creative (5+)
- Wildcat Cheer (7-10)
- LEGO® - Vehicle Design & Racing (7+)
- Our Planet, Our World STEAM Art (7+)
- STEAM Robotics - Motorized Machines & Mechanisms (7+)
- Wildcat Dodgeball (7+)
- Wildcat Water Games (7+)
- DIY Fashion! (10+)
- 3-D Printing (11+)

## WEEK 6: JULY 8-12

### Morning Classes

- Treasure Hunt Art Camp (4-6)
- Hot Wheels® Racers (4-7)
- Math on the Move (4-7)
- Geology Rocks! (4-8)
- LEGO® - Creative Challenges & Independent Projects (5-8)
- Christmas in July (6-8)
- Disney STEAM Magic (6-8)
- Culinary Arts and Crafts - Beginners (6-9)
- The Dance Party (6-11)
- Complete Chess (6-12)
- Passion for Fashion (7-9)
- Bill Nye, Science Guy - Experiments! (7-11)
- LEGO® - Vehicle Design & Racing (7+)
- Movement Speed Training & Games (7+)
- Ukuleles Are Poppin! (7+)
- Zen Me Yoga (7+)
- Drawing 101 (8+)
- Minecraft Survivor (8+)
- Rock & Roll Boot Camp (8+)
- Marshmallow Blasters (9-12)
- 3-D Printing (11+)

### Afternoon Classes

- Pirate Cove: Pirates, Parrots and Learning, Oh My!!! (4-6)
- Blow Your Top (4-7)
- Reading Safari (4-7)
- Murder Mystery (5-8)
- Ninja Skills (5-8)
- Minecraft Creative (5+)
- Complete Chess (6-12)
- Ball Up (7+)
- Ice Cream Shoppe (7+)
- LEGO® - Build a City (7+)
- STEAM Robotics - Motorized Machines & Mechanisms (7+)
- Treasure Hunt Art Camp (7+)
- Ukuleles Are Poppin! (7+)
- Variety Sports Camp (7+)
- Embroidery & Beading! - Beginner (8+)
- Out on the Town (8+)
- Rock & Roll Boot Camp (8+)
- Christmas in July (9+)
- Dungeons & Dragons - Tabletop RPG (9+)
- Journey to Your Best Self (10+)
- 3-D Printing (11+)

## WEEK 7: JULY 15-19

### Morning Classes

- Art Gone Wild: "African Safari" (4-6)
- Artistic Adventures (4-6)
- Face Painting (4-7)
- Making Chinese Food is a Piece of Cake! (4-7)
- Math Toy Store (4-7)
- Reading Safari (4-7)
- LEGO® - Creative Challenges & Independent Projects (5-8)
- Act Up With Drama Kids This Summer - "Make Them Laugh" (5-12)
- Wildcat Sports Camp (5+)
- Culinary Arts and Crafts - Beginners (6-9)
- Complete Chess (6-12)
- Back in the Day (7+)
- Mad About Movies Art Camp (7+)
- Meteorite Mysteries (7+)
- STEAM Robotics - Motorized Machines & Mechanisms (7+)
- Ukuleles Are Poppin! (7+)
- Minecraft Survivor (8+)
- Out on the Town (FULL DAY CLASS) (8+)
- Rock & Roll Boot Camp (8+)
- Murder Mystery (9+)
- Poker & Math (9+)
- Wildcat War Games (9+)

### Afternoon Classes

- Mad About Movies Art Camp (4-6)
- Math on the Move (4-7)
- Snakes & Spiders (4-7)
- Paint Me a Story - Art and Literature (5-8)
- Jr. Doctor (5-9)
- Act Up With Drama Kids This Summer - "Make Them Laugh" (5-12)
- Star Wars & Jedi Academy (6-10)
- The Dance Party (6-11)
- Complete Chess (6-12)
- NASA Knows Newton (7-9)
- Passion for Fashion (7-9)
- LEGO® - Build a City (7+)
- STEAM Robotics - Motorized Machines & Mechanisms (7+)
- Ukuleles Are Poppin! (7+)
- Wildcat Dodgeball (7+)
- Face Painting (8+)
- Making Chinese Food is a Piece of Cake! (8+)
- Minecraft Survivor (8+)
- Out on the Town (Continued) - FULL DAY CLASS (8+)
- Pie Kitchen (8+)
- Rock & Roll Boot Camp (8+)
- Among Us – Game Theory (9+)

## WEEK 8: JULY 22-26

### Morning Classes

- Blow Your Top (4-7)
- Face Painting (4-7)
- Making Chinese Food is a Piece of Cake! (4-7)
- Math on the Move (4-7)
- Sing With Your Bestie! Be a Rockstar! (4-7)
- Jr. Engineering (5-8)
- LEGO® - Creative Challenges & Independent Projects (5-8)
- Marshmallow Blasters (5-8)
- "Mum" Is the Word (5-8)
- Act Up With Drama Kids This Summer - "Make Them Laugh" (5-12)
- Wildcat Sports Camp (5+)
- Culinary Arts and Crafts - Beginners (6-9)
- The Dance Party (6-11)
- Complete Chess (6-12)
- Ball Up (7+)
- Movement Speed Training & Games (7+)
- Pajama Party (7+)
- STEAM Robotics - Motorized Machines & Mechanisms (7+)
- Minecraft Survivor (8+)
- Rock & Roll Boot Camp (8+)
- Among Us – Game Theory (9+)
- 3-D Printing (11+)

### Afternoon Classes

- Hot Wheels® Racers (4-7)
- Reading Safari (4-7)
- Bugs, Spiders & Snakes... Oh NO! (5-8)
- Wildcat War Games (5-8)
- Act Up With Drama Kids This Summer - "Make Them Laugh" (5-12)
- Complete Chess (6-12)
- Let's RAP, ACT, and Learn About BIRDS! (7-10)
- LEGO® - Build a City (7+)
- STEAM Robotics - Motorized Machines & Mechanisms (7+)
- Wildcat Dodgeball (7+)
- Zen Me Yoga (7+)

- Sing With Your Bestie! Taylor Swift Edition (8+)
- What Can You Do With a T-shirt? (8+)
- Artificial Intelligence: Adventures for Young Minds (10+)
- 3-D Printing (11+)

# Week 1: June 3-7

## 102 Hot Wheels® Racers (AGES 4-7)

ROOM! ROOM! Start your engines! This exciting, fast-paced class teaches the scientific principles of momentum, force, inertia, speed, and acceleration. Receive a driver's license, trophies, and a racing bag, and collect a new Hot Wheels® daily! Get ready for the big race on Friday! Everyone is a winner in Hot Wheels® Racers.

Maximum enrollment: 20

Instructor: Clint Proctor

Tuition: \$200

## 104 Making Chinese Food is a Piece of Cake! (AGES 4-7)

Everyone on the planet loves Chinese food. It's delicious and fun to make. Since your instructor is a native of China and loves to prepare authentic Chinese dishes, she will ensure you gain plenty of hands-on experience making dumplings, spring rolls (a Chinese New Year must-have), healthy fried rice with eggs and vegetables, and green onion pancakes. On the last day, we will draw these four dishes on a white T-shirt and write the Chinese characters for these dishes we made together and the detailed recipes on paper to bring home!

Maximum enrollment: 15

Instructor: Xueling Xu

Tuition: \$200

## 106 Sing With Your Bestie! Be a Rockstar! (AGES 4-7)

Learning a new language and culture is made much easier by listening to songs, singing the songs, and using TPR. We will learn numbers, weather expressions, the Spanish version of popular nursery rhymes, authentic Spanish nursery rhymes, days of the week, months of the year, and basic Spanish expressions. We will sing the Spanish birthday song learned in class at our birthday party when we conclude our fun-filled week! They will leave with the book they will create in class with the lyrics for the songs and everything else we have completed!

Maximum enrollment: 15

Instructor: Gloria Lowe

Tuition: \$200

## 108 Introduction to Lacrosse (AGES 5-7)

Dive into the world of lacrosse with our Introduction to Lacrosse camp! Tailored for some of our youngest campers, this program introduces the very basics of America's oldest sport. Kids will embark on a journey of learning the fundamentals, playing fun games, and discovering the thrill of lacrosse. Our expert instructors will provide a supportive environment for participants to grasp the essential skills, fostering a love for this dynamic and fast-paced sport. Join us for a camp where young athletes can enjoy the camaraderie of the lacrosse field, build foundational skills, and experience the joy of playing America's oldest sport in a fun and engaging setting. Get ready to run, pass, and score in this exciting introduction to the world of lacrosse!

Maximum enrollment: 12

Instructor: Jack Matthews

Tuition: \$200

## 110 Bugs, Spiders & Snakes... Oh NO! (AGES 5-8)

Who loves bugs & insects? This class is an adventure as you focus on creepy, crawly, slippery creatures. Dissect a real grasshopper and discover what the inside really looks like! Examine a natural snakeskin. Make a bug mask and study the life cycle of a butterfly. Create your bugs using marshmallows,

pretzels, and raisins; you can eat them later. Use nets & magnifying glasses to capture and study the most notable bugs from the outside world! Come play with real worms as we explore their external anatomy and release them to their natural habitat. This is such a fun and exciting class; your child will talk about it for weeks to come. Space is limited to 20, so sign up early so your kids don't bug you.

Maximum enrollment: 20

Instructor: Sylvia Sarate

Tuition: \$200

## 112 LEGO® - Creative Challenges & Independent Projects (AGES 5-8)

Create unique two- and three-dimensional structures and objects using LEGO® bricks—problem-solving, individually and in a team setting. Examples of challenges include (1) using only one size or one color of bricks, (2) building a specific object, shape, or animal, and (3) building with a predetermined number of bricks. Math concepts, estimation, prediction, critical thinking, and reasoning are some of the many skills enhanced as students construct their LEGO bricks "builds." These artistic builds are full of individual creativity. Verbal and communication skills are enhanced as the students describe their creations to others. In addition to imagination, math, and engineering skills are used as they progress from their initial concept to their finished projects. This class may be taken multiple times, as the challenges and projects are endless.

Maximum enrollment: 30

Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard

Tuition: \$200

## 114 Wildcat Soccer (AGES 5+)

Score goals and have a ball in Wildcat Soccer, where the world's most popular sport takes center stage at Summer At The Academy! Led by Keystone soccer coach Kyle Unruh, this week-long program promises a fun-filled adventure of skill development, techniques, lead-up games, and scrimmages suitable for all skill levels. Participants will not only sharpen their soccer prowess but also delve into the rich history of the sport, culminating in an exciting tournament at the end of the week. Activities will be designed for both large and small groups, ensuring a dynamic and inclusive experience. As a token of achievement, participants will receive a well-deserved medal at the end of the week. Rain or shine, the class is prepared with alternative activities to keep the soccer spirit alive. Join us for a week of soccer excitement, sportsmanship, and the joy of kicking it with friends in Wildcat Soccer!

Maximum enrollment: 30

Instructor: Kyle Unruh

Tuition: \$200

## 116 The Dance Party (AGES 6-11)

Get ready to groove and move in The Dance Party! Calling all dancers to join the fun as we learn exciting dance routines, make new friends, and share our dance skills. Whether you're a beginner, intermediate, or advanced dancer, all are welcome in this vibrant dance community. Ages 6-11 years old will come together for a dance extravaganza where creativity knows no bounds, and every step is a celebration. Join us for a dance-filled adventure where rhythm, friendship, and self-expression take center stage. Let's dance to new skills, new friends, and unforgettable moments on the dance floor!

Maximum enrollment: 20

Instructor: Karen Johnson

Tuition: \$200

# Week 1: June 3-7

## MORNING CLASSES

- 102 Hot Wheels® Racers (4-7)
- 104 Making Chinese Food is A Piece of Cake! (4-7)
- 106 Sing With Your Bestie! Be a Rockstar! (4-7)
- 108 Introduction to Lacrosse (5-7)
- 110 Bugs, Spiders & Snakes... Oh NO! (5-8)
- 112 LEGO® - Creative Challenges & Independent Projects (5-8)

### 118 Complete Chess (AGES 6-12)

Experience the world of chess with the Complete Chess summer program at San Antonio Academy! Why chess? Chess is not just a game. It's an unparalleled educational tool that enhances critical thinking, problem-solving, and strategic planning skills. Your child will gain invaluable life skills and have a fantastic time with their newfound hobby. Why choose Complete Chess? At Complete Chess, we strive to better the communities we serve by providing a complete chess education in a positive and nourishing environment. By making chess accessible, we hope to empower children and adults alike with the tools to increase their academic performance, decision-making, and leadership. We believe the seeds we plant today will create a better world tomorrow. Complete body, Complete mind, Complete Chess.

Maximum enrollment: 16  
Instructor: Jesse Lozano  
Tuition: \$200

### 120A Multiplication Masters (Week 1 of 2) (AGES 7-10)

*Prerequisite: Participants MUST have completed SECOND GRADE. For rising 3rd-graders (or other students who have had little to no exposure to multiplication*

This course is designed for students who have had little or no exposure to multiplication or for students who would benefit from additional time practicing and mastering these all-important foundational skills and concepts. During this two-week course, students will learn songs, finger-calculation tricks, and standard and non-traditional algorithms for mastering their facts. Students will go back to school in the fall with greater confidence in their ability to multiply and an increased enthusiasm for learning mathematics.

*\*\*When enrolling online, please enter BOTH 120A (Week 1, June 3-7) and 224B (Week 2, June 10-14).*

Maximum enrollment: 20  
Instructor: Karl Graf  
Tuition: \$400

### 122 Flag Football (AGES 7+)

Certified Strength and Conditioning Specialist (C.S.C.S.) Kevin Wiley leads a fun-filled week of flag football. Activities and games will focus on instruction in the fundamentals, teamwork, and quick decision-making skills. Participants are grouped according to age and will enjoy games like The Gauntlet, Captain's Coming, The Floor is Lava, Volcanoes with Ice Cream, and more! In case of inclement weather, the class will meet with alternative activities planned.

Maximum enrollment: 20  
Instructor: Kevin Wiley  
Tuition: \$200

### 124 S.T.E.A.M. Robotics – Computer Controlled Robots (AGES 7+)

Join us as we explore a series of cross-curricular, theme-based activities that develop skills in S.T.E.A.M. (science, technology, engineering, art, and mathematics) and language and communication skills. This workshop features robots built with specific LEGO® bricks and elements and focuses on building robots (such as an airplane, boat, alligator, monkey, etc.) with different challenges and moving parts. Throughout the week, students will create several robots that incorporate a variety of parts, such as a motor, tilt sensor, or motion sensor. Students will use a specially designed LEGO USB Hub programmed through computer software to control their robot's movements. Students who wish to advance beyond the basic builds are encouraged to enroll in multiple sessions.

Maximum enrollment: 20  
Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$220

### 126 Rock & Roll Boot Camp (AGES 8+)

Elevate your musical journey with the exclusive opportunity provided by Dr. Owen Duggan, the Academy's Director of Music. Young musicians are invited to delve into the world of guitar, drums, keyboard, and vocals under his expert guidance. Enjoy ample personal attention as you explore the foundations of music theory and master the art of playing a simple rock/blues song. This is your chance to refine your skills, unlock your musical potential, and embark on a rewarding musical adventure with a seasoned professional. Enroll now for a unique and personalized experience that will set you on the path to musical excellence!

Maximum enrollment: 12  
Instructor: Owen Duggan  
Tuition: \$200

### 128A Culinary Skills - Advanced (FULL DAY CLASS) (AGES 9+)

Are you ready for an exciting summer adventure? Join Chef Danny at the Advanced Culinary Arts and Crafts for a unique culinary experience. Learn how to make pizza and sushi while exploring flavors from different parts of the world. Get hands-on experience, enjoy yourself, and create tasty dishes. Don't miss out on the fun! Reserve your spot today for a summer filled with delicious creations and kitchen excitement.

\*\*When enrolling online in this full-day class, enter both Class 128A (the morning session) and 174B (the afternoon session), and also one of our lunch options. If you need assistance, call 210-736-5876.

Maximum enrollment: 16  
Instructor: Daniel Arkhipov  
Tuition: \$440

### 130 Dungeons & Dragons - Tabletop RPG (AGES 9+)

Embark on an epic adventure with our Dungeons and Dragons class—an introduction to the oldest tabletop RPG, D&D! Whether you're a seasoned adventurer or a newcomer, this class is designed for both beginners and experts alike. Participants will immerse themselves in a fantastical realm, creating characters, becoming familiar with the rules, and exploring a world that has inspired numerous books, games, and movies. Choose from a variety of roles and classes, with opportunities for experienced students to step into the coveted role of Dungeon Master for a day. All materials, including characters, maps, and dice, will be provided. All you need is the will to succeed and your most creative self to thrive and survive in the captivating world of Dungeons & Dragons! Join us for a week of storytelling, strategy, and adventure where every choice shapes your destiny in a world filled with magic and mystery. May your rolls be high, and your quests legendary!

Maximum enrollment: 20  
Instructor: Jerry Campa  
Tuition: \$200

### 132 Ninja Skills (AGES 9+)

Do you want to learn to be a Ninja? Do you love swords, throwing stars, nunchucks, and knives? We will have daily sword battles. Learn to be one of the characters from Naruto, Ninja Turtles, or Kungfu Panda. Practice the skills needed to be a stealth fighter dominating the ninja world. This class is designed to keep high-energy kids engaged while learning dynamic movement concepts and building character values. Come run, jump, kick, and tumble into this fantastic experience.

Maximum enrollment: 20  
Instructor: John MacLaren  
Tuition: \$200

### 152 Blow Your Top (AGES 4-7)

Boom! Ever wonder how to make chemical reactions at home? Well, here is your chance! This action-packed class teaches what it takes to cause explosions using solids, liquids, and gases. Get messy and excited with seven experiments that can be done at home with household materials. Get your own experiment kit! Learn how pressure and temperature can create large explosions. Wrap up on Friday with a Science Extravaganza!

Maximum enrollment: 20  
Instructor: Clint Proctor  
Tuition: \$200

### 154 Pet Vet (AGES 4-8)

Do you LOVE animals? Then you will LOVE this camp! Learn how to feed, take care of, and love your Pets! You will role-play as a Veterinarian, technician, office staff & pet owner. What are the responsibilities of a pet owner? Learn how to treat superficial injuries. Discover what medications, vaccinations, and shots are needed to keep your pet and others healthy. This class is a unique opportunity to teach you how to care for and love your pet. On Friday, you may bring your pet to class in a proper kennel with the help of your parents or guardian (please check with the instructor).

Maximum enrollment: 20  
Instructor: Sylvia Sarate  
Tuition: \$200

### 156 Wildcat Sports Camp (AGES 5+)

Gear up for a week of sports excitement with Keystone Coach Kyle Unruh at Wildcat Sports Camp! This dynamic program offers a blend of traditional and non-traditional sports, ensuring a fun and engaging experience for participants. Throughout the week, campers will enjoy a variety of activities, from the fast-paced action of rugby to creative kickball variations, as well as soccer and hockey. Under Coach Kyle's guidance, participants will not only build their skills in each sport but also experience the thrill of friendly competition and teamwork. Join us for a week of sportsmanship, camaraderie, and the joy of exploring a diverse range of athletic endeavors in Wildcat Sports Camp!

Maximum enrollment: 30  
Instructor: Kyle Unruh  
Tuition: \$200

### 158 Complete Chess (AGES 6-12)

Experience the world of chess with the Complete Chess summer program at San Antonio Academy! Why chess? Chess is not just a game. It's an unparalleled educational tool that enhances critical thinking, problem-solving, and strategic planning skills. Your child will gain invaluable life skills and have a fantastic time with their newfound hobby. Why choose Complete Chess? We strive to better the communities we serve by providing a complete chess education in a positive and nourishing environment. By making chess accessible, we hope to empower children and adults alike with the tools to increase their academic performance, decision-making, and leadership. We believe the seeds we plant today will create a better world tomorrow. Complete body, Complete mind, Complete Chess.

Maximum enrollment: 16  
Instructor: Jesse Lozano  
Tuition: \$200

### 160 LEGO® - Build a City (AGES 7+)

Explore the exciting world of LEGO® bricks and unleash your creativity as you construct a vibrant miniature city! Build awe-inspiring structures like airports, fire and police stations,

skyscrapers, sports stadiums, office buildings, homes, bridges, towers, train stations, city hall, schools, hospitals, roads, parks, playgrounds, farms, and ranches, all using the iconic LEGO® bricks and elements. Embark on a journey that blends fun and learning, where mathematics and engineering principles come to life in the design of your unique creations. Dive into measurement, estimation, architectural forms, and geometric concepts while building your cityscape. Discover the art of "interlocking" and roof-building techniques to craft solid structures that stand tall and proud. Design and customize vehicles like cars, trucks, planes, boats, and buses, adding a dynamic touch to your LEGO® cityscape. Each week brings a fresh opportunity to create something entirely unique, as diverse as the participants' imaginations. Sign up for multiple sessions and let your imagination soar to new heights!

Maximum enrollment: 30

Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$200

### **162 S.T.E.A.M. Robotics – Computer Controlled Robots (AGES 7+)**

Join us as we explore a series of cross-curricular, theme-based activities that develop skills in S.T.E.A.M. (science, technology, engineering, art, and mathematics) and language and communication skills. This workshop features robots built with specific LEGO® bricks and elements and focuses on building robots (such as an airplane, boat, alligator, monkey, etc.) with different challenges and moving parts. Throughout the week, students will create several robots that incorporate a variety of parts, such as a motor, tilt sensor, or motion sensor. Students will use a specially designed LEGO USB Hub programmed through computer software to control their robot's movements. Students who wish to advance beyond the basic builds are encouraged to enroll in multiple sessions.

Maximum enrollment: 20

Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$220

### **164 Wildcat Water Games (AGES 7+)**

Beat the summer heat with Wildcat Water Games! As the temperatures rise, and outdoor play becomes a must, our program provides the perfect solution for kids to stay cool and have a blast. Designed to offer a refreshing outdoor experience, Wildcat Water Games features a range of interactive games and competitions that promise hours of friendly fun. Please note that water will be involved, so make sure your child is prepared with a change of clothes to fully enjoy the wet and wild adventure. Join us for a splashing good time where laughter, camaraderie, and staying cool under the sun take center stage in Wildcat Water Games!

Maximum enrollment: 25

Instructor: Cameron Bly  
Tuition: \$200

### **166 Making Chinese Food is a Piece of Cake! (AGES 8+)**

Everyone on the planet loves Chinese food. It's delicious and fun to make. Since your instructor is a native of China and loves to prepare authentic Chinese dishes, she will ensure you gain plenty of hands-on experience making dumplings, spring rolls (a Chinese New Year must-have), healthy fried rice with eggs and vegetables, and green onion pancakes. On the last day, we will draw these four dishes on a white T-shirt and write the Chinese characters for these dishes we made together and the detailed recipes on paper to bring home!

Maximum enrollment: 15

Instructor: Xueling Xu  
Tuition: \$200

### **168 Rock & Roll Boot Camp (AGES 8+)**

Elevate your musical journey with the exclusive opportunity provided by Dr. Owen Duggan, the Academy's Director of Music. Young musicians are invited to delve into the world of guitar, drums, keyboard, and vocals under his expert guidance. Enjoy ample personal attention as you explore the foundations of music theory and master the art of playing a simple rock/blues song. This is your chance to refine your skills, unlock your musical potential, and embark on a rewarding musical adventure with a seasoned professional. Enroll now for a unique and personalized experience that will set you on the path to musical excellence!

Maximum enrollment: 12

Instructor: Owen Duggan  
Tuition: \$200

### **170 Sing With Your Bestie! Taylor Swift Edition (AGES 8+)**

Learn literary skills by singing along to Taylor Swift's songs! We will learn academic skills such as foreshadowing, metaphors, similes, and more! We will use the songs to help visualize these skills. We will end the week by making custom friendship bracelets.

Maximum enrollment: 20

Instructor: Gloria Lowe  
Tuition: \$200

### **172 Among Us – Game Theory (AGES 9+)**

Step into the intriguing world of Among Us - Game Theory class! With over 50,000,000 monthly players, this wildly popular game comes to life in the classroom. Explore Among Us in various forms, from the online game to board games and live-action adaptations. Students will delve into the art of deception, honing their skills to stay hidden, recognize suspicious behavior, and become adept detectives. This engaging class provides a controlled environment for beginners and veterans to experience the game, allowing them to test their wits in a fun and strategic setting. Do you have what it takes to be the imposter without being labeled "SUS"? Join us for an exciting journey into the thrilling realm of Among Us, where every move could be a clue, and trust is a precious commodity!

Maximum enrollment: 15

Instructor: Jerry Campa  
Tuition: \$200

### **174B Culinary Skills - Advanced (Continued) - FULL DAY CLASS (AGES 9+)**

Are you ready for an exciting summer adventure? Join Chef Danny at the Advanced Culinary Arts and Crafts for a unique culinary experience. Learn how to make pizza and sushi while exploring flavors from different parts of the world. Get hands-on experience, enjoy yourself, and create tasty dishes. Don't miss out on the fun! Reserve your spot today for a summer filled with delicious creations and kitchen excitement.

\*\*When enrolling online in this full-day class, enter both Class 128A (the morning session) and 174B (the afternoon session), and also one of our lunch options. If you need assistance, call 210-736-5876.

Instructor: Daniel Arkhipov

### 176 Extreme Dissection (AGES 9+)

This class features eye-popping, up-close dissections of actual specimens - worms, frogs, and more! Is it your dream to become a scientist, doctor, or brain surgeon? Do you want to see how organisms work and function? Compare and contrast skeletal, cardiovascular, nervous, and digestive systems while learning safe and proper dissection techniques. Students will observe and touch real specimens: heart, brain, kidney, eye, and more! Expand and grow your curiosity in this unique class; it is one that you'll never forget. Space is limited, so sign up early!

Maximum enrollment: 20  
Instructor: John MacLaren  
Tuition: \$200

### 178 DIY Fashion! (AGES 10+)

Unleash your creativity and style in DIY Fashion! In this dynamic class, participants will embark on a fashion journey, crafting five wearable masterpieces in just five days. Express yourself through cool accessories, upcycle old clothing items, and personalize your very own T-shirt! This class encourages self-expression and teaches basic sustainability principles by transforming something old into something new. Students will proudly showcase their newfound skills by wearing their unique creations. Join us for a week of fashion-forward fun where every stitch tells a story, and individuality takes center stage. Get ready to elevate your style, embrace sustainability, and let your imagination run wild in the world of DIY Fashion!

Maximum enrollment: 15  
Instructor: Jordan Adame  
Tuition: \$200

## Week 2: June 10-14

### 202 Artistic Adventures (AGES 4-6)

Calling all little artists! In this camp, nature will inspire students to create masterpieces and make new discoveries. Students will get to step out into nature for an exciting hands-on experience to source materials for their art projects, such as leaf collages, flower pinch pots, sun catchers, and much more. In this camp, exploration is guaranteed, creativity will shine, and learning will be endless!

Maximum enrollment: 15  
Instructor: Abbey Weaver  
Tuition: \$200

### 204 Snakes & Spiders (AGES 4-7)

Embark on an extraordinary adventure as a nature detective! Explore the fascinating world of spiders, reptiles, and amphibians up close. Dive into the excitement with playdough and art, discovering the amazing lives of these cool critters. Build fantastic habitats to take home, and get ready to create your very own animal skeleton replica - it's going to be a blast! This class is loaded with everything you've ever wanted to know about creepy crawlers and slithery pals. And here's the best part - become a fearless explorer and wrap a REAL snake around you! Don't miss out on the coolest adventure in learning about animals - join us for an unforgettable experience!

Maximum enrollment: 20  
Instructor: Clint Proctor  
Tuition: \$200

### 206 Geology Rocks! (AGES 4-8)

Do you love fossils, gemstones, and volcanoes? In this hands-on experience, participants will dig for fossils and create dinosaur tracks to take home. What are the types of rocks, and how do they cycle? Use pans to sift through the "river bed" like the gold miners did long ago. Organize and observe a variety of specimens, and use a magnifying glass, microscope, or stereoscope to see how they look up close. Catch the gold fever and learn why this camp ROCKS!

Maximum enrollment: 20  
Instructor: Sylvia Sarate  
Tuition: \$200

### 208 LEGO® - Creative Challenges & Independent Projects (AGES 5-8)

Create unique two- and three-dimensional structures and objects using LEGO® bricks—problem-solving, individually and in a team setting. Examples of challenges include (1) using only one size or one color of bricks, (2) building a specific object, shape, or animal, and (3) building with a predetermined number of bricks. Math concepts, estimation, prediction, critical thinking, and reasoning are some of the many skills enhanced as students construct their LEGO bricks "builds." These artistic builds are full of individual creativity. Verbal and communication skills are enhanced as the students describe their creations to others. In addition to imagination, math, and engineering skills are used as they progress from their initial concept to their finished projects. This class may be taken multiple times, as the challenges and projects are endless.

Maximum enrollment: 30  
Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$200

## Week 2: June 10-14

### MORNING CLASSES

- 202 Artistic Adventures (4-6)
- 204 Snakes & Spiders (4-7)
- 206 Geology Rocks! (4-8)
- 208 LEGO® - Creative Challenges & Independent Projects (5-8)
- 210 Barbie & Friends: Let's Have Some Fun! (5-8)
- 212 Act Up With Drama Kids This Summer - "Make Them Laugh" (5-12)
- 214 Wildcat Soccer (5+)
- 216 Junior Avengers Club (6-10)
- 218 The Dance Party (6-11)
- 220 Complete Chess (6-12)
- 222 From the Zoo to YOU! (7-9)
- 224B Multiplication Masters (Week 2 of 2) (7-10)
- 226 Ball Up (7+)
- 228 Explode Into Science (7+)
- 230 Movement Speed Training & Games (7+)
- 232 Photography (7+)
- 234 S.T.E.A.M. Robotics – Computer Controlled Robots (7+)
- 236 Lacrosse Basics and Games (8-10)
- 238 Minecraft Survivor (8+)
- 240 Rock & Roll Boot Camp (8+)
- 242A Culinary Skills - Advanced (FULL DAY CLASS) (9+)
- 244 Table Top Gaming - HEROSCAPE (9+)
- 246 3-D Printing (11+)

### AFTERNOON CLASSES

- 252 Math Toy Store (4-7)
- 254 Extreme Dinosaurs (4-8)
- 256 Barbie & Friends: Let's Have Some Fun! (5-8)

- 292 3-D Printing (11+)

### 210 Barbie & Friends: Let's Have Some Fun! (AGES 5-8)

Embark on a dazzling adventure with our Barbie Dolls and Friends Extravaganza – a magical realm where every moment sparkles with enchantment! Join us for an immersive experience where students have whisked away into a whirlwind of delightful activities. From crafting glamorous accessories to hosting exciting tea parties, engaging in doll playtime, and unleashing creativity through fabulous fashion and dress-up, this camp is a celebration of joy, friendship, and the enchanting world of Barbie. Imagine your child immersed in a glamorous playground where imagination knows no bounds, and each day is a journey into a world of whimsy and wonder. Don't miss out on the chance for your little one to be part of this extraordinary adventure, where Barbie dolls and friends come to life, and the magic of playtime takes center stage!

Maximum enrollment: 20

Instructor: Vickie Glosson

Tuition: \$200

### 212 Act Up With Drama Kids This Summer - "Make Them Laugh" (AGES 5-12)

Prepare for a week-long escapade into the whimsical world of laughter and entertainment at our extraordinary camp! Inspired by the timeless words of Milton Berle, who declared that "laughter is an instant vacation," this experience goes beyond the ordinary. Campers will engage in zany drama activities and master the art of comedy and clowning, creating their own moments of hilarity. Picture the thrill of witnessing these emerging comedians showcase their talents in a dazzling Big Show finale, promising an unforgettable fusion of joy, surprises, and loud laughter. Don't miss the chance to join us for a week of pure delight, forging friendships, and creating memories in a laughter-filled haven – reserve your spot now for an enchanting journey into the magic of instant vacations through the art of humor!

Maximum enrollment: 30

Instructor: Sandra Detamore

Tuition: \$200

### 214 Wildcat Soccer (AGES 5+)

Score goals and have a ball in Wildcat Soccer, where the world's most popular sport takes center stage at Summer At The Academy! Led by Keystone soccer coach Kyle Unruh, this week-long program promises a fun-filled adventure of skill development, techniques, lead-up games, and scrimmages suitable for all skill levels. Participants will not only sharpen their soccer prowess but also delve into the rich history of the sport, culminating in an exciting tournament at the end of the week. Activities will be designed for both large and small groups, ensuring a dynamic and inclusive experience. As a token of achievement, participants will receive a well-deserved medal at the end of the week. Rain or shine, the class is prepared with alternative activities to keep the soccer spirit alive. Join us for a week of soccer excitement, sportsmanship, and the joy of kicking it with friends in Wildcat Soccer!

Maximum enrollment: 30

Instructor: Kyle Unruh

Tuition: \$200

### 216 Junior Avengers Club (AGES 6-10)

Calling all young adventurers and aspiring superheroes! Welcome to the Junior Avengers Club, where extraordinary journeys and epic discoveries await your little ones. Dive into the thrilling world of Marvel superheroes as your child becomes a part of our exclusive academy. From the iconic Spider-Man to the mighty Thor, each day promises a new and exciting adventure that will captivate your child's imagination. Junior Avengers Club introduces thrilling challenges that encourage problem-solving, critical thinking, and creativity. Whether solving a mission puzzle or devising a strategy to defeat imaginary villains, your child will develop valuable skills in a supercharged environment.

Maximum enrollment: 15

Instructor: Hannah Rodriguez

Tuition: \$200

### **218 The Dance Party (AGES 6-11)**

Get ready to groove and move in The Dance Party! Calling all dancers to join the fun as we learn exciting dance routines, make new friends, and share our dance skills. Whether you're a beginner, intermediate, or advanced dancer, all are welcome in this vibrant dance community. Ages 6-11 years old will come together for a dance extravaganza where creativity knows no bounds, and every step is a celebration. Join us for a dance-filled adventure where rhythm, friendship, and self-expression take center stage. Let's dance to new skills, new friends, and unforgettable moments on the dance floor!

Maximum enrollment: 20  
Instructor: Karen Johnson  
Tuition: \$200

### **220 Complete Chess (AGES 6-12)**

Experience the world of chess with the Complete Chess summer program at San Antonio Academy! Why chess? Chess is not just a game. It's an unparalleled educational tool that enhances critical thinking, problem-solving, and strategic planning skills. Your child will gain invaluable life skills and have a fantastic time with their newfound hobby. Why choose Complete Chess? At Complete Chess, we strive to better the communities we serve by providing a complete chess education in a positive and nourishing environment. By making chess accessible, we hope to empower children and adults alike with the tools to increase their academic performance, decision-making, and leadership. We believe the seeds we plant today will create a better world tomorrow. Complete body, Complete mind, Complete Chess.

Maximum enrollment: 16  
Instructor: Jesse Lozano  
Tuition: \$200

### **222 From the Zoo to YOU! (AGES 7-9)**

Who DOESN'T love the zoo? Who doesn't love going "behind the scenes" with zoo personnel? "Experiences of a Zoo Keeper" video presentations, an "up close and personal" animal visit in our classroom, a zoo song the students will learn ... PLUS a "specially-prepared-for-us" onsite class at the San Antonio Zoo on Friday - with MORE animals! Top that off with a carousel ride, and it becomes a little piece of HEAVEN for animal lovers!

Maximum enrollment: 20  
Instructor: JoAnne Burch  
Tuition: \$200

### **224B Multiplication Masters (Week 2 of 2) (AGES 7-10)**

*Prerequisite: Participants MUST have completed SECOND GRADE. For rising 3rd-graders (or other students who have had little to no exposure to multiplication)*

This course is designed for students who have had little or no exposure to multiplication or for students who would benefit from additional time practicing and mastering these all-important foundational skills and concepts. During this two-week course, students will learn songs, finger-calculation tricks, and standard and non-traditional algorithms for mastering their facts. Students will go back to school in the fall with greater confidence in their ability to multiply and an increased enthusiasm for learning mathematics.

**\*\*When enrolling online, please enter BOTH 120A (Week 1, June 3-7) and 224B (Week 2, June 10-14).**

Instructor: Karl Graf

### **226 Ball Up (AGES 7+)**

Dribble, shoot, score! Step onto the court and dive into the world of basketball with our dynamic summer camp class! Designed to enhance fundamental skills and teamwork, young athletes will focus on mastering ball handling, layups, and reading court plays. Led by experienced coaches, participants will engage in friendly scrimmages, applying their newfound skills and fostering a love for the game. From precision passes to the exhilaration of teamwork, this class caters to all skill levels, providing personalized guidance and a supportive environment. Join us for a slam-dunk summer filled with dribbles, layups, and the joy of discovering the thrill of basketball on the court!

Maximum enrollment: 20  
Instructor: Breyana Gadson  
Tuition: \$200

### **228 Explode Into Science (AGES 7+)**

Come one, come all! This week's class is sure to amaze and build up your curiosity. Best Science Camp of the Summer! You will develop deep thinking skills, solve practical problems, hypothesize, and make informed decisions. This interactive class will surely make you explode with excitement as you learn to make chemicals and gasses change shape, state, and flash. Come prepared, for this is no ordinary class. If you like Steve Spangler, and Bill Nye, or you love to blow things up, then you will surely love this class. Together, we will create the largest, messiest, and biggest explosions known to mankind! You will go home telling everyone what you learned and did that day. This is a must-take class. Come in 45 minutes early on Friday with your entire family to see the show that everyone is talking about.

Maximum enrollment: 20  
Instructor: John MacLaren  
Tuition: \$200

### **230 Movement Speed Training & Games (AGES 7+)**

Boost your athletic performance with our Movement Speed Training & Games class! Tailored for aspiring athletes, this program introduces specific movement footwork skills essential for success on the playing field in a variety of sports. Students will delve into understanding and demonstrating efficient movement patterns, with ample opportunities to showcase their skills through game-like speed and quickness scenarios throughout the week. Whether you're sprinting, changing directions, or enhancing agility, this class provides valuable insights and practical training to elevate your overall performance. Join us for a dynamic week where every move brings you closer to improved speed, agility, and success in your favorite sports!

Maximum enrollment: 30  
Instructor: Kevin Wiley  
Tuition: \$200

### **232 Photography (AGES 7+)**

Capture the beauty of the world through the lens in our Photography class! Tailored for beginners, this course delves into the fundamental principles of photography, guiding students through the essential functions of their cameras and imparting the skills to capture stunning photos adequately. Whether you have a digital camera with an S.D. card or an instant camera with instant film, this class provides a hands-on learning experience. From understanding composition to mastering lighting, participants will develop the foundation to express their creativity through captivating images. Join us for a journey where every click tells a story, and students unlock the

art and science behind creating visually impactful photographs. Don't miss the chance to explore the world of photography and bring your unique perspective to life through the magic of the camera lens!

Maximum enrollment: 20  
Instructor: Izmail Glosson  
Tuition: \$200

### **234 S.T.E.A.M. Robotics – Computer Controlled Robots (AGES 7+)**

Join us as we explore a series of cross-curricular, theme-based activities that develop skills in S.T.E.A.M. (science, technology, engineering, art, and mathematics) and language and communication skills. This workshop features robots built with specific LEGO® bricks and elements and focuses on building robots (such as an airplane, boat, alligator, monkey, etc.) with different challenges and moving parts. Throughout the week, students will create several robots that incorporate a variety of parts, such as a motor, tilt sensor, or motion sensor. Students will use a specially designed LEGO USB Hub programmed through computer software to control their robot's movements. Students who wish to advance beyond the basic builds are encouraged to enroll in multiple sessions.

Maximum enrollment: 20  
Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$220

### **236 Lacrosse Basics and Games (AGES 8-10)**

Elevate your lacrosse skills with our Lacrosse Basics and Games camp! Geared towards all lacrosse enthusiasts, this program is designed to teach and strengthen the fundamentals of the sport. It's the perfect opportunity for players to enhance their strengths and address their weaknesses under the guidance of expert instructors. Each day promises a mix of learning new skills and engaging in friendly, competitive games, offering a fun and dynamic way for participants to grow both individually and as a team. With exciting games and the chance to win fun prizes, this camp is a fantastic blend of skill-building and enjoyment, providing an immersive experience for lacrosse players to elevate their game to new heights. Join us for a week filled with camaraderie, improvement, and the joy of playing lacrosse at its best!

Maximum enrollment: 30  
Instructor: Jack Matthews  
Tuition: \$200

### **238 Minecraft Survivor (AGES 8+)**

Embark on a thrilling virtual survival challenge with our Minecraft Survivor camp! Campers will be grouped into teams and tasked with specific challenges, requiring them to collaborate to ensure the survival of their group. From building and tearing down structures to running and even flying within Minecraft, participants will engage in a series of exciting mini-games that test their teamwork and strategic skills. All the action takes place on a dedicated secure server, prioritizing both cooperative play and safety. Get ready for an immersive experience where creativity meets strategy, and only the most resourceful teams will emerge victorious in the Minecraft Survivor challenge!

Maximum enrollment: 20  
Instructor: Frank & Amy Ogo  
Tuition: \$200

### **240 Rock & Roll Boot Camp (AGES 8+)**

Elevate your musical journey with the exclusive opportunity provided by Dr. Owen Duggan, the Academy's Director of Music. Young musicians are invited to delve into the world of guitar, drums, keyboard, and vocals under his expert guidance. Enjoy ample personal attention as you explore the foundations of music theory and master the art of playing a simple rock/blues song. This is your chance to refine your skills, unlock your musical potential, and embark on a rewarding musical adventure with a seasoned professional. Enroll now for a unique and personalized experience that will set you on the path to musical excellence!

Maximum enrollment: 12  
Instructor: Owen Duggan  
Tuition: \$200

### **242A Culinary Skills - Advanced (FULL DAY CLASS) (AGES 9+)**

Are you ready for an exciting summer adventure? Join Chef Danny at the Advanced Culinary Arts and Crafts for a unique culinary experience. Learn how to make pizza and sushi while exploring flavors from different parts of the world. Get hands-on experience, enjoy yourself, and create tasty dishes. Don't miss out on the fun! Reserve your spot today for a summer filled with delicious creations and kitchen excitement.

\*\*When enrolling online in this full-day class, enter both Class 242A (the morning session) and 288B (the afternoon session), and also one of our lunch options. If you need assistance, call 210-736-5876.

Maximum enrollment: 16  
Instructor: Daniel Arkhipov  
Tuition: \$440

### **244 Table Top Gaming - HEROSCAPE (AGES 9+)**

Embark on an epic tabletop gaming experience with our unique Hexagonal Board Games! Dive into a fantasy realm as you choose characters from a captivating lineup including Dragons, Knights, Soldiers, and Giants. The battlefield unfolds with hexagonal boards featuring bridges, lakes, rivers, cliffs, and countless adventures awaiting players. Unleash your creativity as you not only pick characters but also craft your own custom maps. Get ready for strategic gameplay with an exploration of math and probability tied to dice rolls. Assemble your army of heroes, dive into the field of Valhalla, and prepare for an exciting journey filled with battles, challenges, and endless fun!

Maximum enrollment: 20  
Instructor: Jerry Campa  
Tuition: \$200

### **246 3-D Printing (AGES 11+)**

Embark on a journey of discovery and creativity with our "3-D Printing Adventures: Design, Create, Innovate!" program. My main goal is to offer an engaging introduction to 3-D printing, where students bring their imaginative ideas to life. Our curriculum includes exciting projects, from designing custom keychains to constructing real-world models, encouraging the application of critical thinking and problem-solving skills. Participants will witness their designs materialize layer by layer, gaining a deeper understanding of the mechanics and science behind 3-D printing technology. This program blends creativity, technology, fun, and challenge and provides a supportive environment to innovate and explore. Sign up for a summer filled with technological exploration and hands-on learning!

Maximum enrollment: 15  
Instructor: Josh Rochon  
Tuition: \$200

### **252 Math Toy Store (AGES 4-7)**

Cha-Ching! Show me the money! This class is designed to expose young children to good financial principles through coins and currency and how to make good choices. Each student will receive a cash drawer of money with coins and bills. Hands-on games, unlimited manipulatives, and a real-life store in class will jump-start their math and negotiation skills. Students will buy multiple toys a day to take home! Let's get to learning about money!

Maximum enrollment: 20

Instructor: Clint Proctor

Tuition: \$200

### **254 Extreme Dinosaurs (AGES 4-8)**

Do you want to see a 6-foot T-Rex that moves and roars? Do you get excited about Dinosaurs? This camp will take you back to the old times. Dinosaurs will come alive during this camp! Let's learn about these fantastic cold-blooded reptiles from the past. What did dinosaurs eat? How did they move? Where did they live? Whatever happened to them? Your child will learn about these larger-than-life, amazing animals! Come hunt for dinosaur eggs and break them open to find a real-life replica dinosaur inside. Create your own fossil to take home. Are you scared, or are you curious? I would recommend some of both! Imagination, excitement, curiosity, and discovery are all part of this amazing class!

Maximum enrollment: 20

Instructor: Sylvia Sarate

Tuition: \$200

### **256 Barbie & Friends: Let's Have Some Fun! (AGES 5-8)**

Embark on a dazzling adventure with our Barbie Dolls and Friends Extravaganza – a magical realm where every moment sparkles with enchantment! Join us for an immersive experience where students have whisked away into a whirlwind of delightful activities. From crafting glamorous accessories to hosting exciting tea parties, engaging in doll playtime, and unleashing creativity through fabulous fashion and dress-up, this camp is a celebration of joy, friendship, and the enchanting world of Barbie. Imagine your child immersed in a glamorous playground where imagination knows no bounds, and each day is a journey into a world of whimsy and wonder. Don't miss out on the chance for your little one to be part of this extraordinary adventure, where Barbie dolls and friends come to life, and the magic of playtime takes center stage!

Maximum enrollment: 20

Instructor: Vickie Glosson

Tuition: \$200

### **258 Extreme Dissection (AGES 5-8)**

This class features eye-popping, up-close dissections of actual specimens - worms, frogs, and more! Is it your dream to become a scientist, doctor, or brain surgeon? Do you want to see how organisms work and function? Compare and contrast skeletal, cardiovascular, nervous, and digestive systems while learning safe and proper dissection techniques. Students will observe and touch real specimens: heart, brain, kidney, eye, and more! Expand and grow your curiosity in this unique class; it is one that you'll never forget. Space is limited, so sign up early!

Maximum enrollment: 20

Instructor: John MacLaren

Tuition: \$200

### **260 Act Up With Drama Kids This Summer - "Make Them Laugh" (AGES 5-12)**

Prepare for a week-long escapade into the world of laughter and entertainment! Inspired by the timeless words of Milton Berle, who declared that "laughter is an instant vacation," this experience goes beyond the ordinary. Campers engage in zany drama activities and master the art of comedy and clowning, creating their own moments of hilarity. Picture the thrill of witnessing these emerging comedians showcase their talents in a dazzling Big Show finale, promising an unforgettable fusion of joy, surprises, and laughter. Don't miss the chance to join us for a week of delight, forging friendships, and creating memories in a laughter-filled haven – reserve your spot now for a journey into the magic of instant vacations through the art of humor!

Maximum enrollment: 30

Instructor: Sandra Detamore

Tuition: \$200

### **262 Minecraft Creative (AGES 5+)**

Embark on a virtual adventure like never before with our "Minecraft Creative Camp"! Immerse yourself in the dynamic and safe learning environment as campers delve into the imaginative realms of Minecraft. Together, they'll create, explore, and play on a dedicated and secure server exclusively for Summer At The Academy students. Instructors will guide participants, helping them master the essentials of multiplayer dynamics and providing essential lessons on online safety. Campers will be organized into teams with specific tasks and challenges, fostering teamwork and camaraderie. Join us to build and explore together in this virtual wonderland, where creativity knows no bounds and the pixels come to life in the hands of our young architects and adventurers!

Maximum enrollment: 20

Instructor: Frank & Amy Ogo

Tuition: \$200

### **264 Complete Chess (AGES 6-12)**

Experience the world of chess with the Complete Chess program at San Antonio Academy! Why chess? Chess is not just a game. It's an unparalleled educational tool that enhances critical thinking, problem-solving, and strategic planning skills. Your child will gain invaluable life skills and have a fantastic time with their newfound hobby. Why choose Complete Chess? At Complete Chess, we strive to better the communities we serve by providing a complete chess education in a positive and nourishing environment. By making chess accessible, we hope to empower children and adults alike with the tools to increase their academic performance, decision-making, and leadership. We believe the seeds we plant today will create a better world tomorrow. Complete body, Complete mind, Complete Chess.

Maximum enrollment: 16

Instructor: Jesse Lozano

Tuition: \$200

### **266 Passion for Fashion (AGES 7-9)**

If you have a passion for fashion, this is the camp for you! Students will get to express their unique style and create one-of-a-kind designs, all while learning about the importance of sustainable fashion. Learn about the effects of fast fashion on the planet and how we can make a difference. Students will up-cycle and repurpose to create projects such as scrunchies, tie-dye t-shirts, throw pillows, tote bags, and more!

Maximum enrollment: 15

Instructor: Abbey Weaver

Tuition: \$200

### 268 Wildcat Cheer (AGES 7-10)

Does your child have a lot of spirit and energy? If so, this is the class for them. Campers learn various cheer techniques, including jumps, basic tumbling, stunts, motions, cheers/ chants, and a dance. By the end of the week, they will learn a complete cheer/dance routine to perform on Friday. Students also receive a cheer shirt and bow for the performance. Come cheer with us!

Maximum enrollment: 20  
Instructor: Amanda Niño  
Tuition: \$200

### 270 Bill Nye, Science Guy - Experiments! (AGES 7-11)

Come to Bill Nye's 2024 science lab with new and returning experiments, demonstrations, and popular online videos contributing to your knowledge. During the week, we will perform "experiments" and discover how unique and fun science can be! New activities will challenge you daily to uncover the "why and how"! In this class, you will be encouraged to be "curious" and "ask" lots of questions...which will lead to understanding common scientific principles. New & returning students are welcome.

Maximum enrollment: 20  
Instructor: Jerry Campa  
Tuition: \$200

### 272 LEGO® - Build a City (AGES 7+)

Explore the exciting world of LEGO® bricks and unleash your creativity as you construct a vibrant miniature city! Build awe-inspiring structures like airports, fire and police stations, skyscrapers, sports stadiums, office buildings, homes, bridges, towers, train stations, city hall, schools, hospitals, roads, parks, playgrounds, farms, and ranches, all using the iconic LEGO® bricks and elements. Embark on a journey that blends fun and learning, where mathematics and engineering principles come to life in the design of your unique creations. Dive into measurement, estimation, architectural forms, and geometric concepts while building your cityscape. Discover the art of "interlocking" and roof-building techniques to craft solid structures that stand tall and proud. Design and customize vehicles like cars, trucks, planes, boats, and buses, adding a dynamic touch to your LEGO® cityscape. Each week brings a fresh opportunity to create something entirely unique, as diverse as the participants' imaginations. Sign up for multiple sessions and let your imagination soar to new heights!

Maximum enrollment: 30  
Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$200

### 274 Photography (AGES 7+)

Capture the beauty of the world through the lens! Tailored for beginners, this course delves into the fundamental principles of photography, guiding students through the essential functions of their cameras and imparting the skills to capture stunning photos adequately. Whether you have a digital camera with an S.D. card or an instant camera with instant film, this class provides a hands-on learning experience. From understanding composition to mastering lighting, participants will develop the foundation to express their creativity through captivating images. Join us for a journey where every click tells a story, and students unlock the art and science behind creating visually impactful photographs. Don't miss the chance to explore the world of photography and bring your unique perspective to life through the magic of the camera lens!

Maximum enrollment: 20  
Instructor: Izmail Glosso  
Tuition: \$200

### 276 S.T.E.A.M. Robotics - Computer Controlled Robots (AGES 7+)

Join us as we explore a series of cross-curricular, theme-based activities that develop skills in S.T.E.A.M. (science, technology, engineering, art, and mathematics) and language and communication skills. This workshop features robots built with specific LEGO® bricks and elements and focuses on building robots (such as an airplane, boat, alligator, monkey, etc.) with different challenges and moving parts. Throughout the week, students will create several robots that incorporate a variety of parts, such as a motor, tilt sensor, or motion sensor. Students will use a specially designed LEGO USB Hub programmed through computer software to control their robot's movements. Students who wish to advance beyond the basic builds are encouraged to enroll in multiple sessions.

Maximum enrollment: 20  
Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$220

### 278 Wildcat Dodgeball (AGES 7+)

Get ready for a week of high-energy, action-packed fun with Wildcat Dodgeball! Led by Keystone coach Kyle Unruh, this program offers an exciting lineup of dodgeball games that will keep participants on their toes. Every day, from the classic dodgeball game to variations like Popcorn, Resurrection, and Medic, promises a new and thrilling challenge. Participants will experience the joy of friendly competition, teamwork, and strategic play. Join us for a week filled with dodging, ducking, diving, and laughter as we embrace the exhilarating world of Wildcat Dodgeball!

Maximum enrollment: 30  
Instructor: Kyle Unruh  
Tuition: \$200

### 280 Zen Me Yoga (AGES 7+)

Embark on a journey of self-discovery and tranquility in our Mindful Moments summer camp class. Tailored for kids seeking balance and inner calm, this class goes beyond relaxation techniques by empowering participants to unwind their mind, body, and soul independently and under pressure. Guided by experienced instructors, children will explore mindfulness practices that foster resilience and emotional well-being. From soothing meditation to stress-relief exercises, this class provides a safe space for kids to cultivate a peaceful mindset in moments of calm and during challenges. Join us for a transformative experience where kids can embrace inner peace, mindfulness, and resilience that will benefit them both on and off the mat.

Maximum enrollment: 20  
Instructor: Breyana Gadson  
Tuition: \$200

### 282 Embroidery & Beading! - Beginner (AGES 8+)

Discover the art of Embroidery & Beading in our Beginner class! Unleash your creativity as you learn the intricate craft of embroidery and embellishment. Whether you choose to design your artwork or select from various pre-made designs, this class offers a fantastic opportunity to create groovy masterpieces to adorn your walls. Take your creativity a step further by turning your embroidered creations into trendy iron-

on patches for backpacks or jackets. Join us for a journey where every stitch and bead brings your artistic vision to life, and your unique creations become wearable or hangable works of art. Get ready to explore the world of embroidery and beading, transforming ordinary fabrics into extraordinary expressions of your personal style!

Maximum enrollment: 12  
Instructor: Jordan Adame  
Tuition: \$200

#### **284 Out on the Town (AGES 8+)**

Prepare for an afternoon of endless excitement as we zip around town to your favorite destinations! Join us for a thrilling adventure that includes everything from bowling and laser tag to indoor mini-golf and beyond. This is your chance to experience non-stop fun and create memories that will last a lifetime. Hurry, spots are filling up fast, so seize the moment and sign up for a day packed with excitement, laughter, and unforgettable moments! Don't miss out on the thrill – let the adventure begin!

Maximum enrollment: 30  
Instructor: Myron Jones  
Tuition: \$310

#### **286 Rock & Roll Boot Camp (AGES 8+)**

Elevate your musical journey with the exclusive opportunity provided by Dr. Owen Duggan, the Academy's Director of Music. Young musicians are invited to delve into the world of guitar, drums, keyboard, and vocals under his expert guidance. Enjoy ample personal attention as you explore the foundations of music theory and master the art of playing a simple rock/blues song. This is your chance to refine your skills, unlock your musical potential, and embark on a rewarding musical adventure with a seasoned professional. Enroll now for a unique and personalized experience that will set you on the path to musical excellence!

Maximum enrollment: 12  
Instructor: Owen Duggan  
Tuition: \$200

#### **288B Culinary Skills - Advanced (Continued) - FULL DAY CLASS (AGES 9+)**

Are you ready for an exciting summer adventure? Join Chef Danny at the Advanced Culinary Arts and Crafts for a unique culinary experience. Learn how to make pizza and sushi while exploring flavors from different parts of the world. Get hands-on experience, enjoy yourself, and create tasty dishes. Don't miss out on the fun! Reserve your spot today for a summer filled with delicious creations and kitchen excitement.

\*\*When enrolling online in this full-day class, enter both Class 242A (the morning session) and 288B (the afternoon session), and also one of our lunch options. If you need assistance, call 210-736-5876.

Instructor: Daniel Arkhipov

#### **290 Create a "Rube Goldberg" (AGES 10+)**

A "Rube Goldberg" is a machine deliberately over-engineered to perform a simple task in a complex fashion. It is based upon premier cartoonist Rube Goldberg's work and is anything but simple ... and a strategist's "dream-come-true". Students will review the six simple machines, study designs, identify complex methods used to solve simplistic problems, create designs of their own, and attempt to create "Rube Goldberg" devices in the classroom. Physics concepts, such as inertia, transference

of energy, momentum, etc., will be examined as teams work together to create complex problems ... that were never meant to BE complex! Expect to experience problem-solving at its FINEST in this class! (Also, expect to have a LOT of fun!!)

\*Note: This class is, by design, a teacher-facilitated/student-guided classroom experience. Family & Friends will be invited to an end-of-class presentation on Friday.

Maximum enrollment: 20  
Instructor: JoAnne Burch  
Tuition: \$200

#### **292 3-D Printing (AGES 11+)**

Embark on a journey of discovery and creativity with our "3-D Printing Adventures: Design, Create, Innovate!" program this summer. My main goal of this course is to offer an engaging introduction to 3-D printing, where students bring their imaginative ideas to life. Our curriculum includes exciting projects, from designing custom keychains to constructing real-world models, encouraging the application of critical thinking and problem-solving skills. Participants will witness their designs materialize layer by layer, gaining a deeper understanding of the mechanics and science behind 3-D printing technology. This program perfectly blends creativity, technology, fun, and challenge and provides a supportive environment to innovate and explore. Sign up now for a summer filled with technological exploration and hands-on learning!

Maximum enrollment: 15  
Instructor: Josh Rochon  
Tuition: \$200

## Week 3: June 17, 18, 20, 21

### 4-Day Week Due to Juneteenth Holiday

#### 302 Blow Your Top (AGES 4-7)

Boom! Ever wonder how to make chemical reactions at home? Well, here is your chance! This action-packed class will teach us what it takes to cause explosions using solids, liquids, and gases. Get messy and excited with seven experiments that can be done at home with household materials. Get your own experiment kits! Learn about how pressure and temperature can create large explosions. Get all scientific on Friday for a Science Extravaganza!

Maximum enrollment: 20

Instructor: Clint Proctor

Tuition: \$160

#### 304 Sharks and Under the Sea (AGES 4-8)

Do you love Sharks? Have you seen Finding Nemo, Sponge Bob Square Pants, Jaws, or The Little Mermaid? If you love everything about the ocean, then this is your class! Come aboard the best sea adventure of the summer. Discover everything from the coral reefs, great white sharks, giant squids, electric eels, Dory, Squidward, and giant sea turtles to the anglerfish. Examine seashells and discuss what might have inhabited them. Make and take home a natural shark tooth or seashell necklace.

Maximum enrollment: 20

Instructor: Sylvia Sarate

Tuition: \$160

#### 306 LEGO® - Creative Challenges & Independent Projects (AGES 5-8)

Create unique two- and three-dimensional structures and objects using LEGO® bricks—problem-solving, individually and in a team setting. Examples of challenges include (1) using only one size or one color of bricks, (2) building a specific object, shape, or animal, and (3) building with a predetermined number of bricks. Math concepts, estimation, prediction, critical thinking, and reasoning are some of the many skills enhanced as students construct their LEGO bricks “builds.” These artistic builds are full of individual creativity. Verbal and communication skills are enhanced as the students describe their creations to others. In addition to imagination, math, and engineering skills are used as they progress from their initial concept to their finished projects. This class may be taken multiple times, as the challenges and projects are endless.

Maximum enrollment: 30

Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard

Tuition: \$160

#### 308 Junior Avengers Club (AGES 6-10)

Calling all young adventurers and aspiring superheroes! Welcome to the Junior Avengers Club, where extraordinary journeys and epic discoveries await your little ones. Dive into the thrilling world of Marvel superheroes as your child becomes a part of our exclusive academy. From the iconic Spider-Man to the mighty Thor, each day promises a new and exciting adventure that will captivate your child's imagination. Junior Avengers Club introduces thrilling challenges that encourage problem-solving, critical thinking, and creativity. Whether solving a mission puzzle or devising a strategy to defeat imaginary villains, your child will develop valuable skills in a supercharged environment.

Maximum enrollment: 15

Instructor: Hannah Rodriguez

Tuition: \$160

#### 310 Complete Chess (AGES 6-12)

Experience the world of chess with the Complete Chess summer program at San Antonio Academy! Why chess? Chess is not just a game. It's an unparalleled educational tool that enhances critical thinking, problem-solving, and strategic planning skills. Your child will gain invaluable life skills

## Week 3: June 17-21

### MORNING CLASSES

- 302 Blow Your Top (4-7)
- 304 Sharks and Under the Sea (4-8)
- 306 LEGO® - Creative Challenges & Independent Projects (5-8)
- 308 Junior Avengers Club (6-10)
- 310 Complete Chess (6-12)
- 312A Multiplication Masters (Week 1 of 2) (7-10)
- 314 Ball Up (7+)
- 316 Flag Football (7+)
- 318 S.T.E.A.M. Robotics – Computer Controlled Robots (7+)
- 320 Ukuleles Are Poppin! (7+)
- 322A Absurdly Artistic (FULL DAY CLASS) (8-11)
- 324 Minecraft Survivor (8+)
- 326 Rock & Roll Boot Camp (8+)
- 328 Among Us – Game Theory (9+)
- 330A Culinary Skills - Advanced (FULL DAY CLASS) (9+)
- 332 Wildcat War Games (9+)
- 334 3-D Printing (11+)

### AFTERNOON CLASSES

- 352 Hot Wheels® Racers (4-7)
- 354 Wildcat Multi-Sports Camp (5-10)
- 356 Minecraft Creative (5+)
- 358 Star Wars & Jedi Academy (6-10)
- 360 The Dance Party (6-11)
- 362 Complete Chess (6-12)
- 364 Wildcat Cheer (7-10)
- 366 LEGO® - Build a City (7+)
- 368 S.T.E.A.M. Robotics – Computer Controlled Robots (7+)

- 372 Wildcat Water Games (7+)
- 374 Zen Me Yoga (7+)
- 376B Absurdly Artistic (Continued) - FULL DAY CLASS (8-11)
- 378 Out on The Town (8+)
- 380 Rock & Roll Boot Camp (8+)
- 382B Culinary Skills - Advanced (Continued) - FULL DAY CLASS (9+)
- 384 Poker & Math (9+)
- 386 DIY Fashion! (10+)
- 388 3-D Printing (11+)

and have a fantastic time with their newfound hobby. Why choose Complete Chess? At Complete Chess, we strive to better the communities we serve by providing a complete chess education in a positive and nourishing environment. By making chess accessible, we hope to empower children and adults alike with the tools to increase their academic performance, decision-making, and leadership. We believe the seeds we plant today will create a better world tomorrow. Complete body, Complete mind, Complete Chess.

Maximum enrollment: 16

Instructor: Jesse Lozano

Tuition: \$160

### **312A Multiplication Masters (Week 1 of 2) (AGES 7-10)**

*Prerequisite: Participants MUST have completed SECOND GRADE. For rising 3rd-graders (or other students who have had little to no exposure to multiplication)*

This course is designed for students who have had little or no exposure to multiplication or for students who would benefit from additional time practicing and mastering these all-important foundational skills and concepts. During this two-week course, students will learn songs, finger-calculation tricks, and standard and non-traditional algorithms for mastering their facts. Students will go back to school in the fall with greater confidence in their ability to multiply and an increased enthusiasm for learning mathematics.

**\*\*When enrolling online, please enter BOTH 312A (Week 3, June 17, 18, 20, 21) and 426B (Week 4, June 24-28).**

Maximum enrollment: 20

Instructor: Karl Graf

Tuition: \$360

### **314 Ball Up (AGES 7+)**

Dribble, shoot, score! Step onto the court and dive into the world of basketball with our dynamic summer camp class! Designed to enhance fundamental skills and teamwork, young athletes will focus on mastering ball handling, layups, and reading court plays. Led by experienced coaches, participants will engage in friendly scrimmages, applying their newfound skills and fostering a love for the game. From precision passes to the exhilaration of teamwork, this class caters to all skill levels, providing personalized guidance and a supportive environment. Join us for a slam-dunk summer filled with dribbles, layups, and the joy of discovering the thrill of basketball on the court!

Maximum enrollment: 20

Instructor: Breyana Gadson

Tuition: \$160

### **316 Flag Football (AGES 7+)**

Certified Strength and Conditioning Specialist (C.S.C.S.) Kevin Wiley leads a fun-filled week of flag football. Activities and games will focus on instruction in the fundamentals, teamwork, and quick decision-making skills. Participants are grouped according to age and will enjoy games like The Gauntlet, Captain's Coming, The Floor is Lava, Volcanoes with Ice Cream, and more! In case of inclement weather, the class will meet with alternative activities planned.

Maximum enrollment: 20

Instructor: Kevin Wiley

Tuition: \$160

### **318 S.T.E.A.M. Robotics – Computer Controlled Robots (AGES 7+)**

Join us as we explore a series of cross-curricular, theme-based activities that develop skills in S.T.E.A.M. (science, technology, engineering, art, and mathematics) and language and communication skills. This workshop features robots built with specific LEGO® bricks and elements and focuses on building robots (such as an airplane, boat, alligator, monkey, etc.) with different challenges and moving parts. Throughout the week, students will create several robots that incorporate a variety of parts, such as a motor, tilt sensor, or motion sensor. Students will use a specially designed LEGO USB Hub programmed through computer software to control their robot's movements. Students who wish to advance beyond the basic builds are encouraged to enroll in multiple sessions.

Maximum enrollment: 20

Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard

Tuition: \$176

### **320 Ukuleles Are Poppin! (AGES 7+)**

Strum, drum, and play your favorite tunes at our Ukulele Camp! Join us for a musical adventure where you'll learn popular songs using ukuleles, keyboards, and percussion instruments. Unleash your inner rockstar in a camp filled with excitement and creativity. Don't miss out – sign up now for a harmonious experience that will have you making music in no time!

Maximum enrollment: 10

Instructor: Traci Navas

Tuition: \$160

### **322A Absurdly Artistic (FULL DAY CLASS) (AGES 8-11)**

Having done some unique and creative art activities with my grandchildren in our summer "Grandma" camps, I decided to offer an art course ... because the types of art they've done are LOTS of fun ... and some are ... well ... a bit absurd! :-} Students will be seeing art from a historical and international perspective in this class. The format will be done via rotation stations as they go from art form to art form, experiencing a variety of techniques. All work will be creative in nature (rather than "project" art), and I can pretty much assure you that some AMAZING results will be had! We'll have many choices, including 14th-century quilling and Turkish Ebru ("marbling"). We'll also use many different/unusual tools, like tuning forks (painting with sound waves), syringes, eye droppers, straws, and marbles ... and also experience a variety of textures. If you have a kid who "marches to the beat of a different drummer" AND loves art, THIS is an art class to choose!

**\*\*When enrolling online in this full-day class, enter both Class 322A (the morning session) and 376B (the afternoon session), and also one of our lunch options. If you need assistance, call 210-736-5876.**

Maximum enrollment: 20

Instructor: JoAnne Burch

Tuition: \$320

### **324 Minecraft Survivor (AGES 8+)**

Embark on a thrilling virtual survival challenge with our Minecraft Survivor camp! Campers will be grouped into teams and tasked with specific challenges, requiring them to collaborate to ensure the survival of their group. From building and tearing down structures to running and even flying within Minecraft, participants will engage in a series of exciting mini-games that test their teamwork and strategic skills. All the action takes place on a dedicated secure server, prioritizing

both cooperative play and safety. Get ready for an immersive experience where creativity meets strategy, and only the most resourceful teams will emerge victorious in the Minecraft Survivor challenge!

Maximum enrollment: 20  
Instructor: Frank & Amy Ogo  
Tuition: \$160

### **326 Rock & Roll Boot Camp (AGES 8+)**

Elevate your musical journey with the exclusive opportunity provided by Dr. Owen Duggan, the Academy's Director of Music. Young musicians are invited to delve into the world of guitar, drums, keyboard, and vocals under his expert guidance. Enjoy ample personal attention as you explore the foundations of music theory and master the art of playing a simple rock/blues song. This is your chance to refine your skills, unlock your musical potential, and embark on a rewarding musical adventure with a seasoned professional. Enroll now for a unique and personalized experience that will set you on the path to musical excellence!

Maximum enrollment: 12  
Instructor: Owen Duggan  
Tuition: \$160

### **328 Among Us - Game Theory (AGES 9+)**

Step into the intriguing world of Among Us - Game Theory class! With over 50,000,000 monthly players, this wildly popular game comes to life in the classroom. Explore Among Us in various forms, from the online game to board games and live-action adaptations. Students will delve into the art of deception, honing their skills to stay hidden, recognize suspicious behavior, and become adept detectives. This engaging class provides a controlled environment for beginners and veterans to experience the game, allowing them to test their wits in a fun and strategic setting. Do you have what it takes to be the imposter without being labeled "SUS"? Join us for an exciting journey into the thrilling realm of Among Us, where every move could be a clue, and trust is a precious commodity!

Maximum enrollment: 15  
Instructor: Jerry Campa  
Tuition: \$160

### **330A Culinary Skills - Advanced (FULL DAY CLASS) (AGES 9+)**

Are you ready for an exciting summer adventure? Join Chef Danny at the Advanced Culinary Arts and Crafts for a unique culinary experience. Learn how to make pizza and sushi while exploring flavors from different parts of the world. Get hands-on experience, enjoy yourself, and create tasty dishes. Don't miss out on the fun! Reserve your spot today for a summer filled with delicious creations and kitchen excitement.

\*\*When enrolling online in this full-day class, enter both Class 330A (the morning session) and 382B (the afternoon session), and also one of our lunch options. If you need assistance, call 210-736-5876.

Maximum enrollment: 16  
Instructor: Daniel Arkhipov  
Tuition: \$352

### **332 Wildcat War Games (AGES 9+)**

Come become part of the Wildcat War Games! Learn how to work as a team and win the daily war battles. Develop leadership skills as you see firsthand how to overcome obstacles and use various tactical strategies during battle. We will use multiple battle equipment, including water blasters,

Nerf guns, water balloons, and more. Learn to use the high ground, camouflage, and shields to become the ultimate warrior! Battles are won in the mind long before they are won on the battlefield! Learn what it takes.

Maximum enrollment: 20  
Instructor: John MacLaren  
Tuition: \$160

### **334 3-D Printing (AGES 11+)**

Embark on a journey of discovery and creativity with our "3-D Printing Adventures: Design, Create, Innovate!" program this summer. My main goal of this course is to offer an engaging introduction to 3-D printing, where students bring their imaginative ideas to life. Our curriculum includes exciting projects, from designing custom keychains to constructing real-world models, encouraging the application of critical thinking and problem-solving skills. Participants will witness their designs materialize layer by layer, gaining a deeper understanding of the mechanics and science behind 3-D printing technology. This program perfectly blends creativity, technology, fun, and challenge and provides a supportive environment to innovate and explore. Sign up now for a summer filled with technological exploration and hands-on learning!

Maximum enrollment: 15  
Instructor: Josh Rochon  
Tuition: \$160

### **352 Hot Wheels® Racers (AGES 4-7)**

VROOM! VROOM! Start your engines! This exciting, fast-paced class teaches the scientific principles of momentum, force, inertia, speed, and acceleration. Receive a driver's license, trophies, and a racing bag, and collect a new Hot Wheels® daily! Get ready for the big race on Friday! Everyone is a winner in Hot Wheels® Racers.

Maximum enrollment: 20  
Instructor: Clint Proctor  
Tuition: \$160

### **354 Wildcat Multi-Sports Camp (AGES 5-10)**

Welcome to The Wildcat's Multi-Sports Adventure. Embark on an exciting journey where your athletes explore the thrill of golf swings, master the art of pickleball, tennis, soar to new heights with ultimate frisbee, navigate the frisbee course, and enhance speed & agility. Each session is a blend of fun and learning, from practicing golf techniques to developing precision in pickleball, mastering frisbee throws, conquering frisbee golf challenges, and building lightning-fast reflexes through speed and agility drills. Get ready for an adventure-packed class that not only hones sports skills but also cultivates teamwork, resilience, and a passion for active living while having a fantastic time.

Maximum enrollment: 20  
Instructor: John MacLaren  
Tuition: \$160

### **356 Minecraft Creative (AGES 5+)**

Embark on a virtual adventure like never before with our "Minecraft Creative Camp"! Immerse yourself in the dynamic and safe learning environment as campers delve into the imaginative realms of Minecraft. Together, they'll create, explore, and play on a dedicated and secure server exclusively for Summer At The Academy students. Instructors will guide participants, helping them master the essentials of multiplayer

dynamics and providing essential lessons on online safety. Campers will be organized into teams with specific tasks and challenges, fostering teamwork and camaraderie. Join us to build and explore together in this virtual wonderland, where creativity knows no bounds and the pixels come to life in the hands of our young architects and adventurers!

Maximum enrollment: 20  
Instructor: Frank & Amy Ogo  
Tuition: \$160

### **358 Star Wars & Jedi Academy (AGES 6-10)**

We are calling all young Jedi, Padawan, Mandalorian, and Baby Yodas! Are you ready to experience the thrilling world of Star Wars like never before? Are you prepared to embark on an exciting journey through the galaxy far away? Join us for an unforgettable Galactic Star Wars adventure as we explore the iconic universe loved by fans of all ages. This class is specially designed for K-5th graders, offering an immersive and engaging experience they won't forget. Don't miss out on this unique opportunity to explore the Force and embark on an unforgettable adventure! May the Force be with you as we journey together through the fantastic world of Star Wars!

Maximum enrollment: 20  
Instructor: Sylvia Sarate  
Tuition: \$160

### **360 The Dance Party (AGES 6-11)**

Get ready to groove and move in The Dance Party! Calling all dancers to join the fun as we learn exciting dance routines, make new friends, and share our dance skills. Whether you're a beginner, intermediate, or advanced dancer, all are welcome in this vibrant dance community. Ages 6-11 years old will come together for a dance extravaganza where creativity knows no bounds, and every step is a celebration. Join us for a dance-filled adventure where rhythm, friendship, and self-expression take center stage. Let's dance to new skills, new friends, and unforgettable moments on the dance floor!

Maximum enrollment: 20  
Instructor: Karen Johnson  
Tuition: \$160

### **362 Complete Chess (AGES 6-12)**

Experience the world of chess with the Complete Chess summer program at San Antonio Academy! Why chess? Chess is not just a game. It's an unparalleled educational tool that enhances critical thinking, problem-solving, and strategic planning skills. Your child will gain invaluable life skills and have a fantastic time with their newfound hobby. Why choose Complete Chess? At Complete Chess, we strive to better the communities we serve by providing a complete chess education in a positive and nourishing environment. By making chess accessible, we hope to empower children and adults alike with the tools to increase their academic performance, decision-making, and leadership. We believe the seeds we plant today will create a better world tomorrow. Complete body, Complete mind, Complete Chess.

Maximum enrollment: 16  
Instructor: Jesse Lozano  
Tuition: \$160

### **364 Wildcat Cheer (AGES 7-10)**

Does your child have a lot of spirit and energy? If so, this is the class for them. During the week, students will learn various cheer techniques, including jumps, basic tumbling, stunts, motions, cheers/chants, and a dance. By the end of the week,

the students will learn a complete cheer/dance routine to perform on Friday. Students will also receive a cheer shirt and bow for the performance. Come cheer with us!

Maximum enrollment: 20  
Instructor: Amanda Niño  
Tuition: \$160

### **366 LEGO® - Build a City (AGES 7+)**

Explore the exciting world of LEGO® bricks and unleash your creativity as you construct a vibrant miniature city! Build awe-inspiring structures like airports, fire and police stations, skyscrapers, sports stadiums, office buildings, homes, bridges, towers, train stations, city hall, schools, hospitals, roads, parks, playgrounds, farms, and ranches, all using the iconic LEGO® bricks and elements. Embark on a journey that blends fun and learning, where mathematics and engineering principles come to life in the design of your unique creations. Dive into measurement, estimation, architectural forms, and geometric concepts while building your cityscape. Discover the art of "interlocking" and roof-building techniques to craft solid structures that stand tall and proud. Design and customize vehicles like cars, trucks, planes, boats, and buses, adding a dynamic touch to your LEGO® cityscape. Each week brings a fresh opportunity to create something entirely unique, as diverse as the participants' imaginations. Sign up for multiple sessions and let your imagination soar to new heights!

Maximum enrollment: 30  
Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$160

### **368 S.T.E.A.M. Robotics – Computer Controlled Robots (AGES 7+)**

Join us as we explore a series of cross-curricular, theme-based activities that develop skills in S.T.E.A.M. (science, technology, engineering, art, and mathematics) and language and communication skills. This workshop features robots built with specific LEGO® bricks and elements and focuses on building robots (such as an airplane, boat, alligator, monkey, etc.) with different challenges and moving parts. Throughout the week, students will create several robots that incorporate a variety of parts, such as a motor, tilt sensor, or motion sensor. Students will use a specially designed LEGO USB Hub programmed through computer software to control their robot's movements. Students who wish to advance beyond the basic builds are encouraged to enroll in multiple sessions.

Maximum enrollment: 20  
Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$176

### **370 Ukuleles Are Poppin! (AGES 7+)**

Strum, drum, and play your favorite tunes at our Ukulele Camp! Join us for a musical adventure where you'll learn popular songs using ukuleles, keyboards, and percussion instruments. Unleash your inner rockstar in a camp filled with excitement and creativity. Don't miss out – sign up now for a harmonious experience that will have you making music in no time!

Maximum enrollment: 10  
Instructor: Traci Navas  
Tuition: \$160

### **372 Wildcat Water Games (AGES 7+)**

Beat the summer heat with Wildcat Water Games! As the temperatures rise, and outdoor play becomes a must, our

program provides the perfect solution for kids to stay cool and have a blast. Designed to offer a refreshing outdoor experience, Wildcat Water Games features a range of interactive games and competitions that promise hours of friendly fun. Please note that water will be involved, so make sure your child is prepared with a change of clothes to fully enjoy the wet and wild adventure. Join us for a splashing good time where laughter, camaraderie, and staying cool under the sun take center stage!

Maximum enrollment: 25  
Instructor: Cameron Bly  
Tuition: \$160

### **374 Zen Me Yoga (AGES 7+)**

Embark on a journey of self-discovery and tranquility in our Mindful Moments summer camp class. Tailored for kids seeking balance and inner calm, this class goes beyond relaxation techniques by empowering participants to unwind their mind, body, and soul independently and under pressure. Guided by experienced instructors, children will explore mindfulness practices that foster resilience and emotional well-being. From soothing meditation to stress-relief exercises, this class provides a safe space for kids to cultivate a peaceful mindset in moments of calm and during challenges. Join us for a transformative experience where kids can embrace inner peace, mindfulness, and resilience that will benefit them both on and off the mat.

Maximum enrollment: 20  
Instructor: Breyana Gadson  
Tuition: \$160

### **376B Absurdly Artistic (Continued) - FULL DAY CLASS (AGES 8-11)**

Having done some unique and creative art activities with my grandchildren in our summer "Grandma" camps, I decided to offer an art course because the types of art they've done are LOTS of fun and some are...well...a bit absurd! :-} Students will see art from a historical and international perspective in this class. The format is done via rotation stations as they go from art form to art form, experiencing a variety of techniques. All work is creative in nature (rather than "project" art), and I can assure you that some AMAZING results will be had! We'll have many choices, including 14th-century quilling and Turkish Ebru ("marbling"). We'll also use different/unusual tools, like tuning forks (painting with sound waves), syringes, eye droppers, straws, and marbles...and also experience a variety of textures. If you have a kid who "marches to the beat of a different drummer" AND loves art, THIS is an art class to choose!

Maximum enrollment: 12  
Instructor: Owen Duggan  
Tuition: \$160

### **382B Culinary Skills - Advanced (Continued) - FULL DAY CLASS (AGES 9+)**

Are you ready for an exciting summer adventure? Join Chef Danny at the Advanced Culinary Arts and Crafts for a unique culinary experience. Learn how to make pizza and sushi while exploring flavors from different parts of the world. Get hands-on experience, enjoy yourself, and create tasty dishes. Don't miss out on the fun! Reserve your spot today for a summer filled with delicious creations and kitchen excitement.

\*\*When enrolling online in this full-day class, enter both Class 330A (the morning session) and 382B (the afternoon session), and also one of our lunch options. If you need assistance, call 210-736-5876.

Instructor: Daniel Arkhipov

### **384 Poker & Math (AGES 9+)**

Immerse yourself in the thrilling Poker & Math class, where fun, strategy, and friendly competition collide for an unforgettable experience. Explore the intricacies of various poker games, unraveling the math and probability behind each move. Envision a dynamic and entertaining environment where every dealt hand is an opportunity to learn, laugh, and achieve victory. This class transcends mere card-playing, offering a chance to create lasting memories and relish the joy of being a winner. Embark on this immersive journey now, and secure your seat for a captivating mix of skill-building and pure enjoyment – the ultimate poker adventure awaits!

Maximum enrollment: 20  
Instructor: Jerry Campa  
Tuition: \$160

### **386 DIY Fashion! (AGES 10+)**

Unleash your creativity and style in DIY Fashion! In this dynamic class, participants will embark on a fashion journey, crafting five wearable masterpieces in just five days. Express yourself through cool accessories, upcycle old clothing items, and personalize your very own T-shirt! This class encourages self-expression and teaches basic sustainability principles by transforming something old into something new. Students will proudly showcase their newfound skills by wearing their unique creations. Join us for a week of fashion-forward fun where every stitch tells a story, and individuality takes center stage. Get ready to elevate your style, embrace sustainability, and let your imagination run wild in the world of DIY Fashion!

Maximum enrollment: 15  
Instructor: Jordan Adame  
Tuition: \$160

### 388 3-D Printing (AGES 11+)

Embark on a journey of discovery and creativity with our “3-D Printing Adventures: Design, Create, Innovate!” program this summer. My main goal of this course is to offer an engaging introduction to 3-D printing, where students bring their imaginative ideas to life. Our curriculum includes exciting projects, from designing custom keychains to constructing real-world models, encouraging the application of critical thinking and problem-solving skills. Participants will witness their designs materialize layer by layer, gaining a deeper understanding of the mechanics and science behind 3-D printing technology. This program perfectly blends creativity, technology, fun, and challenge and provides a supportive environment to innovate and explore. Sign up now for a summer filled with technological exploration and hands-on learning!

Maximum enrollment: 15  
Instructor: Josh Rochon  
Tuition: \$160

## Week 4: June 24-28

### 402 Artistic Adventures (AGES 4-6)

Calling all little artists! In this camp, nature will inspire students to create masterpieces and make new discoveries. Students will get to step out into nature for an exciting hands-on experience to source materials for their art projects, such as leaf collages, flower pinch pots, sun catchers, and much more. In this camp, exploration is guaranteed, creativity will shine, and learning will be endless!

Maximum enrollment: 15  
Instructor: Abbey Weaver  
Tuition: \$200

### 404 Skidamarink Kinder Fun (AGES 4-6)

Hands on fun! Squash squishy finger paint. Sing nursery rhymes, learn hand rhymes & listen to stories about wise old Nasrettin's hungry coat, monkeys playing tricks, Kohava the talented Wonder Child, and how Cucaracha Martinez' husband, Raton Perez, comes back to life after falling into the stew (what is Cucaracha to do?!). Create pictures with fingerprints and beautiful art using watercolor, tempera, and sea sponges. Paint a slithering wooden snake or a spinning top and a catch-it cone (try your skill!). Make a colorful sunburst from a large coffee filter, decorate a magical lantern jar, and string beads. What a fun way to spend the week...don't miss it!

Maximum enrollment: 10  
Instructor: Susan Moore  
Tuition: \$200

### 406 Super-Tastic Cartoons Camp (AGES 4-6)

Step into the whimsical world of cartoons with this dynamic course designed to unlock the vibrant realm of cartooning and its diverse expressions. Geared towards fostering creativity and skill development, students will embark on a thrilling journey to master the art of creating comic strips, graphic novels, and single-panel comics. From crafting cartoon vehicles and robots to conjuring an enchanted house, participants will enhance their artistic abilities and unravel each character's unique storytelling capacities. Join us for a camp filled with laughter, imagination, and the joy of bringing characters to life through the magic of cartoons. Ignite your passion for illustration and storytelling as you dive into the super-tastic world of cartoon creation!

Maximum enrollment: 20  
Instructor: Eric Cohn  
Tuition: \$200

### 408 Hot Wheels® Racers (AGES 4-7)

VROOM! VROOM! Start your engines! This exciting, fast-paced class teaches the scientific principles of momentum, force, inertia, speed, and acceleration. Receive a driver's license, trophies, and a racing bag, and collect a new Hot Wheels® daily! Get ready for the big race on Friday! Everyone is a winner in Hot Wheels® Racers.

Maximum enrollment: 20  
Instructor: Clint Proctor  
Tuition: \$200

### 410 LEGO® - Creative Challenges & Independent Projects (AGES 5-8)

Create unique two- and three-dimensional structures and objects using LEGO® bricks—problem-solving, individually and in a team setting. Examples of challenges include (1) using only one size or one color of bricks, (2) building a specific object,

shape, or animal, and (3) building with a predetermined number of bricks. Math concepts, estimation, prediction, critical thinking, and reasoning are some of the many skills enhanced as students construct their LEGO bricks "builds." These artistic builds are full of individual creativity. Verbal and communication skills are enhanced as the students describe their creations to others. In addition to imagination, math, and engineering skills are used as they progress from their initial concept to their finished projects. This class may be taken multiple times, as the challenges and projects are endless.

Maximum enrollment: 30

Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard

Tuition: \$200

#### 412 Ninja Skills (AGES 5-8)

Do you want to learn to be a Ninja? Do you love swords, throwing stars, nunchucks, and knives? We will have daily sword battles. Learn to be one of the characters from Naruto, Ninja Turtles, or Kungfu Panda. Practice the skills needed to be a stealth fighter dominating the ninja world. This class is designed to keep high-energy kids engaged while learning dynamic movement concepts and building character values. Come run, jump, kick, and tumble into this fantastic experience.

Maximum enrollment: 20

Instructor: John MacLaren

Tuition: \$200

#### 414 Jr. Doctor (AGES 5-9)

So, you want to be in the medical field, or simply learn how the body works? We will take an in-depth look at the different systems of the body. Participants will assume the role of a doctor or nurse and learn how the organs work and function together. You will dress like a physician, use medical equipment, and evaluate and care for various injuries. This is a must-take class for all aspiring healthcare professionals - inspire your way to the future!

Maximum enrollment: 20

Instructor: Sylvia Sarate

Tuition: \$200

#### 416 Act Up With Drama Kids This Summer - "Make Them Laugh" (AGES 5-12)

Prepare for a week-long escapade into the whimsical world of laughter and entertainment at our extraordinary camp! Inspired by the timeless words of Milton Berle, who declared that "laughter is an instant vacation," this experience goes beyond the ordinary. Campers will engage in zany drama activities and master the art of comedy and clowning, creating their own moments of hilarity. Picture the thrill of witnessing these emerging comedians showcase their talents in a dazzling Big Show finale, promising an unforgettable fusion of joy, surprises, and loud laughter. Don't miss the chance to join us for a week of pure delight, forging friendships, and creating memories in a laughter-filled haven - reserve your spot now for an enchanting journey into the magic of instant vacations through the art of humor!

Maximum enrollment: 30

Instructor: Sandra Detamore

Tuition: \$200

#### 418 Wildcat Soccer (AGES 5+)

Score goals and have a ball in Wildcat Soccer, where the world's most popular sport takes center stage at Summer At The Academy! Led by Keystone soccer coach Kyle Unruh, this week-long program promises a fun-filled adventure of skill development, techniques, lead-up games, and scrimmages suitable for all skill levels. Participants will not only sharpen their soccer prowess but also delve into the rich history of the sport, culminating in an exciting tournament at the end of the week. Activities will be designed for both large and small groups, ensuring a dynamic and inclusive experience. As a token of achievement, participants will receive a well-deserved medal at the end of

## Week 4: June 24-28

the week. Rain or shine, the class is prepared with alternative activities to keep the soccer spirit alive. Join us for a week of soccer excitement, sportsmanship, and the joy of kicking it with friends in Wildcat Soccer!

Maximum enrollment: 30  
Instructor: Kyle Unruh  
Tuition: \$200

#### **420 Christmas in June (AGES 6-8)**

Welcome to Christmas in June, where the spirit of the holiday season meets the warmth of summer! Students will embark on a joyful journey of crafting and creating in this festive and creative summer camp class. From delightful Christmas treats to charming Hanukkah surprises, our young campers will immerse themselves in the art of making cards, ornaments, and gifts that capture the magic of the holidays.

Maximum enrollment: 15  
Instructor: Beth Flournoy  
Tuition: \$200

#### **422 Junior Avengers Club (AGES 6-10)**

Calling all young adventurers and aspiring superheroes! Welcome to the Junior Avengers Club, where extraordinary journeys and epic discoveries await your little ones. Dive into the thrilling world of Marvel superheroes as your child becomes a part of our exclusive academy. From the iconic Spider-Man to the mighty Thor, each day promises a new and exciting adventure that will captivate your child's imagination. Junior Avengers Club introduces thrilling challenges that encourage problem-solving, critical thinking, and creativity. Whether solving a mission puzzle or devising a strategy to defeat imaginary villains, your child will develop valuable skills in a supercharged environment.

Maximum enrollment: 15  
Instructor: Hannah Rodriguez  
Tuition: \$200

#### **424 Complete Chess (AGES 6-12)**

Experience the world of chess with the Complete Chess summer program at San Antonio Academy! Why chess? Chess is not just a game. It's an unparalleled educational tool that enhances critical thinking, problem-solving, and strategic planning skills. Your child will gain invaluable life skills and have a fantastic time with their newfound hobby. Why choose Complete Chess? At Complete Chess, we strive to better the communities we serve by providing a complete chess education in a positive and nourishing environment. By making chess accessible, we hope to empower children and adults alike with the tools to increase their academic performance, decision-making, and leadership. We believe the seeds we plant today will create a better world tomorrow. Complete body, Complete mind, Complete Chess.

Maximum enrollment: 16  
Instructor: Jesse Lozano  
Tuition: \$200

#### **426B Multiplication Masters (Week 2 of 2) (AGES 7-10)**

*Prerequisite: Participants MUST have completed SECOND GRADE. For rising 3rd-graders (or other students who have had little to no exposure to multiplication)*

This course is designed for students who have had little or no exposure to multiplication or for students who would benefit from additional time practicing and mastering these all-important foundational skills and concepts. During this two-

week course, students will learn songs, finger-calculation tricks, and standard and non-traditional algorithms for mastering their facts. Students will go back to school in the fall with greater confidence in their ability to multiply and an increased enthusiasm for learning mathematics.

**\*\*When enrolling online, please enter BOTH 312A (Week 3, June 17, 18, 20, 21) and 426B (Week 4, June 24-28).**

Instructor: Karl Graf

#### **428 Bill Nye, Science Guy - Experiments! (AGES 7-11)**

Come to Bill Nye's 2024 science lab with new and returning experiments, demonstrations, and popular online videos contributing to your knowledge. During the week, we will perform "experiments" and discover how unique and fun science can be! New activities will challenge you daily to uncover the "why and how"! In this class, you will be encouraged to be "curious" and "ask" lots of questions...which will lead to understanding common scientific principles. New & Returning students are welcome.

Maximum enrollment: 20  
Instructor: Jerry Campa  
Tuition: \$200

#### **430 S.T.E.A.M. Robotics - Computer Controlled Robots (AGES 7+)**

Join us as we explore a series of cross-curricular, theme-based activities that develop skills in S.T.E.A.M. (science, technology, engineering, art, and mathematics) and language and communication skills. This workshop features robots built with specific LEGO® bricks and elements and focuses on building robots (such as an airplane, boat, alligator, monkey, etc.) with different challenges and moving parts. Throughout the week, students will create several robots that incorporate a variety of parts, such as a motor, tilt sensor, or motion sensor. Students will use a specially designed LEGO USB Hub programmed through computer software to control their robot's movements. Students who wish to advance beyond the basic builds are encouraged to enroll in multiple sessions.

Maximum enrollment: 20  
Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$220

#### **432 Ukuleles Are Poppin! (AGES 7+)**

Strum, drum, and play your favorite tunes at our Ukulele Camp! Join us for a musical adventure where you'll learn popular songs using ukuleles, keyboards, and percussion instruments. Unleash your inner rockstar in a camp filled with excitement and creativity. Don't miss out - sign up now for a harmonious experience that will have you making music in no time!

Maximum enrollment: 10  
Instructor: Traci Navas  
Tuition: \$200

#### **434 Zen Me Yoga (AGES 7+)**

Embark on a journey of self-discovery and tranquility in our Mindful Moments summer camp class. Tailored for kids seeking balance and inner calm, this class goes beyond relaxation techniques by empowering participants to unwind their mind, body, and soul independently and under pressure. Guided by experienced instructors, children will explore mindfulness practices that foster resilience and emotional well-being. From soothing meditation to stress-relief exercises, this class provides a safe space for kids to cultivate a peaceful mindset

in moments of calm and during challenges. Join us for a transformative experience where kids can embrace inner peace, mindfulness, and resilience that will benefit them both on and off the mat.

Maximum enrollment: 20  
Instructor: Breyana Gadson  
Tuition: \$200

#### **436 Minecraft Survivor (AGES 8+)**

Embark on a thrilling virtual survival challenge with Minecraft Survivor camp! Campers will be grouped into teams and tasked with specific challenges, requiring them to collaborate to ensure the survival of their group. From building and tearing down structures to running and flying within Minecraft, participants engage in a series of exciting mini-games that test their teamwork and strategic skills. All action takes place on a dedicated secure server, prioritizing both cooperative play and safety. Get ready for an immersive experience where creativity meets strategy, and only the most resourceful teams will emerge victorious in the Minecraft Survivor challenge!

Maximum enrollment: 20  
Instructor: Frank & Amy Ogo  
Tuition: \$200

#### **438A Out on the Town (FULL DAY CLASS) (AGES 8+)**

Prepare for a day of endless excitement as we zip around town to your favorite destinations! Join us for a thrilling adventure that includes everything from bowling, laser tag to indoor mini-golf, theme parks, and beyond. This is your chance to experience non-stop fun and create memories that will last a lifetime. Hurry, spots are filling up fast, so seize the moment and sign up for a day packed with excitement, laughter, and unforgettable moments! Don't miss out on the thrill – let the adventure begin!

\*\*When enrolling online in this full-day class, enter both Class 438A (the morning session) and 484B (the afternoon session), and also one of our lunch options. If you need assistance, call 210-736-5876.

Maximum enrollment: 30  
Instructor: Myron Jones  
Tuition: \$620

#### **440 Rock & Roll Boot Camp (AGES 8+)**

Elevate your musical journey with the exclusive opportunity provided by Dr. Owen Duggan, the Academy's Director of Music. Young musicians are invited to delve into the world of guitar, drums, keyboard, and vocals under his expert guidance. Enjoy ample personal attention as you explore the foundations of music theory and master the art of playing a simple rock/blues song. This is your chance to refine your skills, unlock your musical potential, and embark on a rewarding musical adventure with a seasoned professional. Enroll now for a unique and personalized experience that will set you on the path to musical excellence!

Maximum enrollment: 12  
Instructor: Owen Duggan  
Tuition: \$200

#### **442A Culinary Skills - Advanced (FULL DAY CLASS) (AGES 9+)**

Are you ready for an exciting summer adventure? Join Chef Danny at the Advanced Culinary Arts and Crafts for a unique culinary experience. Learn how to make pizza and sushi while exploring flavors from different parts of the world. Get hands-on experience, enjoy yourself, and create tasty dishes. Don't

miss out on the fun! Reserve your spot today for a summer filled with delicious creations and kitchen excitement.

\*\*When enrolling online in this full-day class, enter both Class 442A (the morning session) and 492B (the afternoon session), and also one of our lunch options. If you need assistance, call 210-736-5876.

Maximum enrollment: 16  
Instructor: Daniel Arkhipov  
Tuition: \$440

#### **444 Learn & Launch – Advanced Rocketry (AGES 10+)**

Explore the physics of rocketry in this make-n-take rocket class. We will use models, the NASA curriculum, and build our own toys to study Newton's Laws and the physics of propulsion. Various projectiles will be launched all week, propelled by air, compressed air, water, and fuels. Students will build their own Alpha rockets and launch them at the San Antonio Gun Club field. Family & Friends are invited to meet the class at the San Antonio Gun Club and share in the excitement & thrill as the rockets are launched.

Maximum enrollment: 20  
Instructor: JoAnne Burch  
Tuition: \$210

#### **446 Lacrosse Skills and Games (AGES 11+)**

Take your lacrosse game to the next level with our Lacrosse Skills and Games course! Designed for players looking to elevate their skills, this program builds upon the basics while encouraging more advanced participants to strengthen their foundations. Participants receive expert instruction on fundamental and challenging lacrosse skills, pushing them to enhance their abilities daily. The focus is on having fun while growing as a young player. Join us for a dynamic and engaging experience where players are challenged to develop their skills, foster teamwork, and enjoy the thrill of playing lacrosse at an elevated level. Whether you're honing fundamentals or tackling advanced techniques, this course is tailored to provide a supportive environment for every lacrosse enthusiast to thrive and excel on the field.

Maximum enrollment: 30  
Instructor: Jack Matthews  
Tuition: \$200

#### **448A Wildcat Leadership & Service (FULL DAY CLASS) (AGES 11+)**

To become influential leaders in their school and community, students will learn about leadership, beginning with themselves using Habitudes by Dr. Tim Elmore as a guide. Habitudes is not just another leadership program. This course is grounded in extensive research and utilizes language, images, and stories specifically designed to resonate with today's emerging generation, teaching life skills and leadership characteristics fresh and engagingly. Habitudes help students build character, handle criticism, learn to use feedback for personal improvement, become better models of healthy leadership by increasing self-awareness, and turn their core values into actions that inspire peers. Our class will use this course's skills and leadership models to volunteer in San Antonio.

\*\*When enrolling online in this full-day class, enter both Class 448A (the morning session) and 496B (the afternoon session), and also one of our lunch options. If you need assistance, call 210-736-5876.

Maximum enrollment: 15  
Instructor: Alexia Cardona-Solis/Jessica Garcia  
Tuition: \$500

#### **452 Math Toy Store (AGES 4-7)**

Cha-Ching! Show me the money! This class is designed to expose young children to good financial principles through coins and currency and how to make good choices. Each student will receive a cash drawer of money with coins and bills. Hands-on games, unlimited manipulatives, and a real-life store in class will jump-start their math and negotiation skills. Students will buy multiple toys a day to take home! Let's get to learning about money!

Maximum enrollment: 20

Instructor: Clint Proctor

Tuition: \$200

#### **454 Pet Vet (AGES 4-8)**

Do you LOVE animals? Then you will LOVE this camp! Learn how to feed, take care of, and love your Pets! You will role-play as a Veterinarian, technician, office staff & pet owner. What are the responsibilities of a pet owner? Learn how to treat superficial injuries. Discover what medications, vaccinations, and shots are needed to keep your pet and others healthy. This class is a unique opportunity to teach you how to care for and love your pet. On Friday, you may bring your pet to class in a proper kennel with the help of your parents or guardian (please check with the instructor).

Maximum enrollment: 20

Instructor: Sylvia Sarate

Tuition: \$200

#### **456 Explode Into Science (AGES 5-8)**

Come one, come all! This week's class is sure to amaze and build up your curiosity. Best Science Camp of the Summer! You will develop deep thinking skills, solve practical problems, hypothesize, and make informed decisions. This interactive class will surely make you explode with excitement as you learn to make chemicals and gasses change shape, state, and flash. Come prepared, for this is no ordinary class. If you like Steve Spangler, and Bill Nye, or you love to blow things up, then you will surely love this class. Together, we will create the largest, messiest, and biggest explosions known to mankind! You will go home telling everyone what you learned and did that day. This is a must-take class. Come in 45 minutes early on Friday with your entire family to see the show that everyone is talking about.

Maximum enrollment: 20

Instructor: John MacLaren

Tuition: \$200

#### **458 Act Up With Drama Kids This Summer - "Make Them Laugh" (AGES 5-12)**

Prepare for a week-long escapade into the whimsical world of laughter and entertainment at our extraordinary camp! Inspired by the timeless words of Milton Berle, who declared "laughter is an instant vacation," this experience goes beyond the ordinary. Campers engage in zany drama activities and master the art of comedy and clowning, creating their own moments of hilarity. Picture the thrill of witnessing these emerging comedians showcase their talents in a dazzling Big Show finale, promising an unforgettable fusion of joy, surprises, and laughter. Don't miss the chance to join us for a week of pure delight, forging friendships, and creating memories in a laughter-filled haven - reserve your spot for an enchanting journey into the magic of instant vacations through the art of humor!

Maximum enrollment: 30

Instructor: Sandra Detamore

Tuition: \$200

#### **460 Wildcat Sports Camp (AGES 5+)**

Gear up for a week of sports excitement with Keystone Coach Kyle Unruh at Wildcat Sports Camp! This dynamic program offers a blend of traditional and non-traditional sports, ensuring a fun and engaging experience for participants. Throughout the week, campers will enjoy a variety of activities, from the fast-paced action of rugby to creative kickball variations, as well as soccer and hockey. Under Coach Kyle's guidance, participants will not only build their skills in each sport but also experience the thrill of friendly competition and teamwork. Join us for a week of sportsmanship, camaraderie, and the joy of exploring a diverse range of athletic endeavors in Wildcat Sports Camp!

Maximum enrollment: 30

Instructor: Kyle Unruh

Tuition: \$200

#### **462 Junior Avengers Club (AGES 6-10)**

Calling all young adventurers and aspiring superheroes! Welcome to the Junior Avengers Club, where extraordinary journeys and epic discoveries await your little ones. Dive into the thrilling world of Marvel superheroes as your child becomes a part of our exclusive academy. From the iconic Spider-Man to the mighty Thor, each day promises a new and exciting adventure that will captivate your child's imagination. Junior Avengers Club introduces thrilling challenges that encourage problem-solving, critical thinking, and creativity. Whether solving a mission puzzle or devising a strategy to defeat imaginary villains, your child will develop valuable skills in a supercharged environment.

Maximum enrollment: 15

Instructor: Hannah Rodriguez

Tuition: \$200

#### **464 The Dance Party (AGES 6-11)**

Get ready to groove and move in The Dance Party! Calling all dancers to join the fun as we learn exciting dance routines, make new friends, and share our dance skills. Whether you're a beginner, intermediate, or advanced dancer, all are welcome in this vibrant dance community. Ages 6-11 years old will come together for a dance extravaganza where creativity knows no bounds, and every step is a celebration. Join us for a dance-filled adventure where rhythm, friendship, and self-expression take center stage. Let's dance to new skills, new friends, and unforgettable moments on the dance floor!

Maximum enrollment: 20

Instructor: Karen Johnson

Tuition: \$200

#### **466 Complete Chess (AGES 6-12)**

Experience the world of chess with the Complete Chess program at San Antonio Academy! Why chess? Chess is not just a game. It's an unparalleled educational tool that enhances critical thinking, problem-solving, and strategic planning skills. Your child will gain invaluable life skills and have a fantastic time with their newfound hobby. Why choose Complete Chess? At Complete Chess, we strive to better the communities we serve by providing a complete chess education in a positive and nourishing environment. By making chess accessible, we hope to empower children and adults alike with the tools to increase their academic performance, decision-making, and leadership. We believe the seeds we plant today will create a better world tomorrow. Complete body, Complete mind, Complete Chess.

Maximum enrollment: 16

Instructor: Jesse Lozano

Tuition: \$200

#### **468 Learn & Launch – Jr Rocketry (AGES 7-9)**

We'll use interactive stations, models, NASA curriculum, and books to learn about rocketry and space travel. Kids will have fun learning the basics of Newton's Laws and the physics of propulsion as they experiment with various projectiles throughout the week ... balloon rockets, "stomp" rockets, water rockets, and more! Students will build and launch a Star Hopper rocket in class on Friday. Family & Friends are invited to the "Launch Party" to share in the excitement and thrill!

Maximum enrollment: 20

Instructor: JoAnne Burch

Tuition: \$210

#### **470 Ball Up (AGES 7+)**

Dribble, shoot, score! Step onto the court and dive into the world of basketball with our dynamic summer camp class! Designed to enhance fundamental skills and teamwork, young athletes will focus on mastering ball handling, layups, and reading court plays. Led by experienced coaches, participants will engage in friendly scrimmages, applying their newfound skills and fostering a love for the game. From precision passes to the exhilaration of teamwork, this class caters to all skill levels, providing personalized guidance and a supportive environment. Join us for a slam-dunk summer filled with dribbles, layups, and the joy of discovering the thrill of basketball on the court!

Maximum enrollment: 20

Instructor: Breyana Gadson

Tuition: \$200

#### **472 LEGO® - Build a City (AGES 7+)**

Explore the exciting world of LEGO® bricks and unleash your creativity as you construct a vibrant miniature city! Build awe-inspiring structures like airports, fire and police stations, skyscrapers, sports stadiums, office buildings, homes, bridges, towers, train stations, city hall, schools, hospitals, roads, parks, playgrounds, farms, and ranches, all using the iconic LEGO® bricks and elements. Embark on a journey that blends fun and learning, where mathematics and engineering principles come to life in the design of your unique creations. Dive into measurement, estimation, architectural forms, and geometric concepts while building your cityscape. Discover the art of "interlocking" and roof-building techniques to craft solid structures that stand tall and proud. Design and customize vehicles like cars, trucks, planes, boats, and buses, adding a dynamic touch to your LEGO® cityscape. Each week brings a fresh opportunity to create something entirely unique, as diverse as the participants' imaginations. Sign up for multiple sessions and let your imagination soar to new heights!

Maximum enrollment: 30

Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard

Tuition: \$200

#### **474 Super-Tastic Cartoons Camp (AGES 7+)**

Step into the whimsical world of cartoons with this dynamic course designed to unlock the vibrant realm of cartooning and its diverse expressions. Geared towards fostering creativity and skill development, students will embark on a thrilling journey to master the art of creating comic strips, graphic novels, and single-panel comics. From crafting cartoon vehicles and robots to conjuring an enchanted house, participants will enhance their artistic abilities and unravel each character's unique storytelling capacities. Join us for a camp filled with laughter, imagination, and the joy of bringing characters to life through

the magic of cartoons. Ignite your passion for illustration and storytelling as you dive into the super-tastic world of cartoon creation!

Maximum enrollment: 20

Instructor: Eric Cohn

Tuition: \$200

#### **476 S.T.E.A.M. Robotics – Computer Controlled Robots (AGES 7+)**

Join us as we explore a series of cross-curricular, theme-based activities that develop skills in S.T.E.A.M. (science, technology, engineering, art, and mathematics) and language and communication skills. This workshop features robots built with specific LEGO® bricks and elements and focuses on building robots (such as an airplane, boat, alligator, monkey, etc.) with different challenges and moving parts. Throughout the week, students will create several robots that incorporate a variety of parts, such as a motor, tilt sensor, or motion sensor. Students will use a specially designed LEGO USB Hub programmed through computer software to control their robot's movements. Students who wish to advance beyond the basic builds are encouraged to enroll in multiple sessions.

Instructor: Alexia Cardona-Solis/Jessica Garcia

## Week 5: July 1-3

### 3-Day Week Due to Independence Day Holiday

#### 502 Our Planet, Our World STEAM Art (AGES 4-6)

Immerse your young artists in a transformative journey with our “Our Planet, Our World STEAM Art” summer camp class. This engaging and hands-on course invites students to explore the intersection of Science, Technology, Engineering, Art, and Mathematics (STEAM) through a creative lens. Participants will be inspired to envision a brighter future for our planet through captivating art projects, crafts, and games. Each activity, from eco-friendly art projects to recycled crafts, is designed to instill a sense of environmental responsibility and encourage sustainable practices. Join us for a summer filled with imagination, creativity, and the power to impact our world positively. Let the artistic journey begin!

Maximum enrollment: 20

Instructor: Eric Cohn

Tuition: \$120

#### 504 Extreme Dinosaurs (AGES 4-8)

Do you want to see a 6-foot T-Rex that moves and roars? Do you get excited about Dinosaurs? This camp will take you back to the old times. Dinosaurs will come alive during this camp! Let's learn about these fantastic cold-blooded reptiles from the past. What did dinosaurs eat? How did they move? Where did they live? Whatever happened to them? Your child will learn about these larger-than-life, amazing animals! Come hunt for dinosaur eggs and break them open to find a real-life replica dinosaur inside. Create your own fossil to take home. Are you scared, or are you curious? I would recommend some of both! Imagination, excitement, curiosity, and discovery are all part of this amazing class!

Maximum enrollment: 20

Instructor: Sylvia Sarate

Tuition: \$120

#### 506 LEGO® - Creative Challenges & Independent Projects (AGES 5-8)

Create unique two- and three-dimensional structures and objects using LEGO® bricks—problem-solving, individually and in a team setting. Examples of challenges include (1) using only one size or one color of bricks, (2) building a specific object, shape, or animal, and (3) building with a predetermined number of bricks. Math concepts, estimation, prediction, critical thinking, and reasoning are some of the many skills enhanced as students construct their LEGO bricks “builds.” These artistic builds are full of individual creativity. Verbal and communication skills are enhanced as the students describe their creations to others. In addition to imagination, math, and engineering skills are used as they progress from their initial concept to their finished projects. This class may be taken multiple times, as the challenges and projects are endless.

Maximum enrollment: 30

Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard

Tuition: \$120

#### 508 Wildcat War Games (AGES 5-8)

Come become part of the Wildcat War Games! Learn how to work as a team and win the daily war battles. Develop leadership skills as you see firsthand how to overcome obstacles and use various tactical strategies during battle. We will use multiple battle equipment, including water blasters, Nerf guns, water balloons, and more. Learn to use the high ground, camouflage, and shields to become the ultimate warrior! Battles are won in the mind long before they are won on the battlefield! Learn what it takes.

Maximum enrollment: 20

Instructor: John MacLaren

Tuition: \$120

## Week 5: July 1-3

### MORNING CLASSES

- 502 Our Planet, Our World STEAM Art (4-6)
- 504 Extreme Dinosaurs (4-8)
- 506 LEGO® - Creative Challenges & Independent Projects (5-8)
- 508 Wildcat War Games (5-8)
- 510 Wildcat Sports Camp (5+)

- 564 STEAM Robotics - Motorized Machines & Mechanisms (7+)
- 566 Wildcat Dodgeball (7+)
- 568 Wildcat Water Games (7+)
- 570 DIY Fashion! (10+)
- 572 3-D Printing (11+)

### 510 Wildcat Sports Camp (AGES 5+)

Gear up for a week of sports excitement with Keystone Coach Kyle Unruh at Wildcat Sports Camp! This dynamic program offers a blend of traditional and non-traditional sports, ensuring a fun and engaging experience for participants. Throughout the week, campers will enjoy a variety of activities, from the fast-paced action of rugby to creative kickball variations, as well as soccer and hockey. Under Coach Kyle's guidance, participants will not only build their skills in each sport but also experience the thrill of friendly competition and teamwork. Join us for a week of sportsmanship, camaraderie, and the joy of exploring a diverse range of athletic endeavors in Wildcat Sports Camp!

Maximum enrollment: 30  
Instructor: Kyle Unruh  
Tuition: \$120

### 512 Culinary Arts and Crafts - Beginners (AGES 6-9)

Welcome to Beginners Culinary Arts and Crafts, where a delectable journey of culinary exploration awaits you! Led by Chef Danny, this engaging class is tailored for budding chefs eager to learn various culinary skills. From crafting ocean cookies to mastering the art of candy sushi, participants will embark on a delightful adventure in the kitchen. Explore different aspects of cooking and create unique dishes inspired by diverse cultures, turning every session into a flavorful experience. Join us for a summer filled with creativity, delicious discoveries, and the joy of cooking in Beginners Culinary Arts and Crafts. Get ready to savor the flavors of fun!

Maximum enrollment: 16  
Instructor: Daniel Arkhipov  
Tuition: \$132

### 514 The Dance Party (AGES 6-11)

Get ready to groove and move in The Dance Party! Calling all dancers to join the fun as we learn exciting dance routines, make new friends, and share our dance skills. Whether you're a beginner, intermediate, or advanced dancer, all are welcome in this vibrant dance community. Ages 6-11 years old will come together for a dance extravaganza where creativity knows no bounds, and every step is a celebration. Join us for a dance-filled adventure where rhythm, friendship, and self-expression take center stage. Let's dance to new skills, new friends, and unforgettable moments on the dance floor!

Maximum enrollment: 20  
Instructor: Karen Johnson  
Tuition: \$120

### 516 STEAM Robotics - Motorized Machines & Mechanisms (AGES 7+)

Join us to enjoy a series of cross-curricular, theme-based activities that develop STEAM skills: Science, Technology, Engineering, Art, and Mathematics, as well as language and communication concepts. This workshop features robots built with specific LEGO® bricks and elements and focuses on various moving parts. Try creating an airplane, boat, alligator, or a monkey! Throughout the week, participants will build several robots that incorporate a variety of parts, such as a motor, tilt sensor, and motion sensor. Those wishing to advance beyond basic builds are encouraged to enroll in additional sessions.

Maximum enrollment: 20  
Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$132

### 518 Minecraft Survivor (AGES 8+)

Embark on a thrilling virtual survival challenge with our Minecraft Survivor camp! Campers will be grouped into teams and tasked with specific challenges, requiring them to collaborate to ensure the survival of their group. From building and tearing down structures to running and even flying within Minecraft, participants will engage in a series of exciting mini-games that test their teamwork and strategic skills. All the action takes place on a dedicated secure server, prioritizing both cooperative play and safety. Get ready for an immersive experience where creativity meets strategy, and only the most resourceful teams will emerge victorious in the Minecraft Survivor challenge!

Maximum enrollment: 20  
Instructor: Frank & Amy Ogo  
Tuition: \$120

### 520 3-D Printing (AGES 11+)

Embark on a journey of discovery and creativity with our "3-D Printing Adventures: Design, Create, Innovate!" program. My main goal of this course is to offer an engaging introduction to 3-D printing, where students bring their imaginative ideas to life. Our curriculum includes exciting projects, from designing custom keychains to constructing real-world models, encouraging the application of critical thinking and problem-solving skills. Participants will witness their designs materialize layer by layer, gaining a deeper understanding of the mechanics and science behind 3-D printing technology. This program perfectly blends creativity, technology, fun, and challenge and provides a supportive environment to innovate and explore. Sign up now for a summer filled with technological exploration and hands-on learning!

Maximum enrollment: 15  
Instructor: Josh Rochon  
Tuition: \$120

### 552 Pet Vet (AGES 4-8)

Do you LOVE animals? Then you will LOVE this camp! Learn how to feed, take care of, and love your Pets! You will role-play as a Veterinarian, technician, office staff & pet owner. What are the responsibilities of a pet owner? Learn how to treat superficial injuries. Discover what medications, vaccinations, and shots are needed to keep your pet and others healthy. This class is a unique opportunity to teach you how to care for and love your pet. On Friday, you may bring your pet to class in a proper kennel with the help of your parents or guardian (please check with the instructor).

Maximum enrollment: 20  
Instructor: Sylvia Sarate  
Tuition: \$120

### 554 Harry Potter Magic Camp (AGES 5-8)

Best Magic of the summer! Do you want to learn and play Quidditch? Would you love to make your very own Nimbus 2000 and a magical wizarding wand to take home? Make Potions by brewing unique concoctions like Felix Felicis, Love Potions, Polyjuice Potion, the Elixir of Life, Veritaserum and more. You will dress each day in a Cloak and tie and experience role-play adventures every day! See what house you really belong in. See a fantastic collection of authentic film props and dolls. It is really something you just have to see! If you love Harry Potter, then don't miss this camp! Come experience the Magic!

Maximum enrollment: 20  
Instructor: John MacLaren  
Tuition: \$120

### 556 Minecraft Creative (AGES 5+)

Embark on a virtual adventure like never before with our "Minecraft Creative Camp"! Immerse yourself in the dynamic and safe learning environment as campers delve into the imaginative realms of Minecraft. Together, they'll create, explore, and play on a dedicated and secure server exclusively for Summer At The Academy students. Instructors will guide participants, helping them master the essentials of multiplayer dynamics and providing essential lessons on online safety. Campers will be organized into teams with specific tasks and challenges, fostering teamwork and camaraderie. Join us to build and explore together in this virtual wonderland, where creativity knows no bounds and the pixels come to life in the hands of our young architects and adventurers!

Maximum enrollment: 20  
Instructor: Frank & Amy Ogo  
Tuition: \$120

### 558 Wildcat Cheer (AGES 7-10)

Does your child have a lot of spirit and energy? If so, this is the class for them. During the week, students will learn various cheer techniques, including jumps, basic tumbling, stunts, motions, cheers/chants, and a dance. By the end of the week, the students will learn a complete cheer/dance routine to perform on Friday. Students will also receive a cheer shirt and bow for the performance. Come cheer with us!

Maximum enrollment: 20  
Instructor: Amanda Niño  
Tuition: \$120

### 560 LEGO® - Vehicle Design & Racing (AGES 7+)

Using LEGO® bricks and elements, students design and build their own racing vehicles or work with a group. In the process, they learn how size, weight, stability, and the force of gravity affect the performance of their vehicles. Mathematics and engineering concepts are involved in the designs of their creations. After testing their unique builds on the four-lane race track, the students can redesign their vehicles, if needed, to enhance their vehicles' power and speed during continual racing on the track. It's fun for all.

Maximum enrollment: 30  
Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$120

### 562 Our Planet, Our World STEAM Art (AGES 7+)

Immerse your young artists in a transformative journey with our "Our Planet, Our World STEAM Art" summer camp class. This engaging and hands-on course invites students to explore the intersection of Science, Technology, Engineering, Art, and Mathematics (STEAM) through a creative lens. Participants will be inspired to envision a brighter future for our planet through captivating art projects, crafts, and games. Each activity, from eco-friendly art projects to recycled crafts, is designed to instill a sense of environmental responsibility and encourage sustainable practices. Join us for a summer filled with imagination, creativity, and the power to impact our world positively. Let the artistic journey begin!

Maximum enrollment: 20  
Instructor: Eric Cohn  
Tuition: \$120

### 564 STEAM Robotics - Motorized Machines & Mechanisms (AGES 7+)

Join us to enjoy a series of cross-curricular, theme-based activities that develop STEAM skills: Science, Technology, Engineering, Art, and Mathematics, as well as language and communication concepts. This workshop features robots built with specific LEGO® bricks and elements and focuses on various moving parts. Try creating an airplane, boat, alligator, or a monkey! Throughout the week, participants will build several robots that incorporate a variety of parts, such as a motor, tilt sensor, and motion sensor. Those wishing to advance beyond basic builds are encouraged to enroll in additional sessions.

Maximum enrollment: 20  
Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$132

### 566 Wildcat Dodgeball (AGES 7+)

Get ready for a week of high-energy, action-packed fun with Wildcat Dodgeball! Led by Keystone coach Kyle Unruh, this program offers an exciting lineup of dodgeball games that will keep participants on their toes. Every day, from the classic dodgeball game to variations like Popcorn, Resurrection, and Medic, promises a new and thrilling challenge. Participants will experience the joy of friendly competition, teamwork, and strategic play. Join us for a week filled with dodging, ducking, diving, and laughter as we embrace the exhilarating world of Wildcat Dodgeball!

Maximum enrollment: 30  
Instructor: Kyle Unruh  
Tuition: \$120

### 568 Wildcat Water Games (AGES 7+)

Beat the summer heat with Wildcat Water Games! As the temperatures rise, and outdoor play becomes a must, our program provides the perfect solution for kids to stay cool and have a blast. Designed to offer a refreshing outdoor experience, Wildcat Water Games features a range of interactive games and competitions that promise hours of friendly fun. Please note that water will be involved, so make sure your child is prepared with a change of clothes to fully enjoy the wet and wild adventure. Join us for a splashing good time where laughter, camaraderie, and staying cool under the sun take center stage in Wildcat Water Games!

Maximum enrollment: 25  
Instructor: Cameron Bly  
Tuition: \$120

### 570 DIY Fashion! (AGES 10+)

Unleash your creativity and style in DIY Fashion! In this dynamic class, participants will embark on a fashion journey, crafting five wearable masterpieces in just five days. Express yourself through cool accessories, upcycle old clothing items, and personalize your very own T-shirt! This class encourages self-expression and teaches basic sustainability principles by transforming something old into something new. Students will proudly showcase their newfound skills by wearing their unique creations. Join us for a week of fashion-forward fun where every stitch tells a story, and individuality takes center stage. Get ready to elevate your style, embrace sustainability, and let your imagination run wild in the world of DIY Fashion!

Maximum enrollment: 15  
Instructor: Jordan Adame  
Tuition: \$120

### 572 3-D Printing (AGES 11+)

Embark on a journey of discovery and creativity with our “3-D Printing Adventures: Design, Create, Innovate!” program this summer. My main goal of this course is to offer an engaging introduction to 3-D printing, where students bring their imaginative ideas to life. Our curriculum includes exciting projects, from designing custom keychains to constructing real-world models, encouraging the application of critical thinking and problem-solving skills. Participants will witness their designs materialize layer by layer, gaining a deeper understanding of the mechanics and science behind 3-D printing technology. This program perfectly blends creativity, technology, fun, and challenge and provides a supportive environment to innovate and explore. Sign up now for a summer filled with technological exploration and hands-on learning!

Maximum enrollment: 15  
Instructor: Josh Rochon  
Tuition: \$120

## Week 6: July 8-12

### 602 Treasure Hunt Art Camp (AGES 4-6)

Embark on a creative expedition with our “Treasure Hunt Art Camp,” where young artists wield their art tools to explore the mysteries of lost and found treasures. Join us on a thrilling journey worldwide, navigating through imaginative scenarios, avoiding shark attacks, and having a blast. This unique camp blends adventure with artistic expression as students craft dazzling diamonds, recreate lost ships, and even send messages in a bottle. Each project is an opportunity to dive into the excitement of a treasure hunt while honing artistic skills. Unleash your inner adventurer and artist, and join us for a summer filled with creative exploration and the joy of discovering hidden treasures through the magic of art!

Maximum enrollment: 20  
Instructor: Eric Cohn  
Tuition: \$200

### 604 Hot Wheels® Racers (AGES 4-7)

VROOM! VROOM! Start your engines! This exciting, fast-paced class teaches the scientific principles of momentum, force, inertia, speed, and acceleration. Receive a driver’s license, trophies, and a racing bag, and collect a new Hot Wheels® daily! Get ready for the big race on Friday! Everyone is a winner in Hot Wheels® Racers.

Maximum enrollment: 20  
Instructor: Clint Proctor  
Tuition: \$200

### 606 Math on the Move (AGES 4-7)

Math on the Move is a fun and interactive class that will reinforce students’ core math skills and strengthen areas that need extra focus. The class objective is to get kids moving and stimulated through various body and mind-stimulating activities to grow their knowledge of mathematics. Math on the Move presents arithmetic as motivational hands-on activities that children can and want to do, such as handling objects to solve problems, math games, math centers, and kinesthetic activities requiring them to think beyond rote learning! My goal in this class is to keep kids engaged and motivated to explore targeted concepts. Math on the Move will strengthen number sense, geometry, introduction to money, and investigate measurement. This class is designed to engage all learners and allow them to practice their skills at a level of comfortable success. Let me share my love for teaching math and allow your child the gift of enthusiasm as they explore math concepts this summer.

Maximum enrollment: 20  
Instructor: Jenny Castillo  
Tuition: \$200

### 608 Geology Rocks! (AGES 4-8)

Do you love fossils, gemstones, and volcanoes? In this hands-on experience, participants will dig for fossils and create dinosaur tracks to take home. What are the types of rocks, and how do they cycle? Use pans to sift through the “river bed” like the gold miners did long ago. Organize and observe a variety of specimens, and use a magnifying glass, microscope, or stereoscope to see how they look up close. Catch the gold fever and learn why this camp ROCKS!

Maximum enrollment: 20  
Instructor: Sylvia Sarate  
Tuition: \$200

## Week 6: July 8-12

### MORNING CLASSES

- 602 Treasure Hunt Art Camp (4-6)
- 604 Hot Wheels® Racers (4-7)
- 606 Math on the Move (4-7)
- 608 Geology Rocks! (4-8)
- 610 LEGO® - Creative Challenges & Independent Projects (5-8)
- 612 Christmas in July (6-8)
- 614 Disney STEAM Magic (6-8)
- 616 Culinary Arts and Crafts - Beginners (6-9)
- 618 The Dance Party (6-11)
- 620 Complete Chess (6-12)
- 622 Passion for Fashion (7-9)
- 624 Bill Nye, Science Guy - Experiments! (7-11)
- 626 LEGO® - Vehicle Design & Racing (7+)
- 628 Movement Speed Training & Games (7+)
- 630 Ukuleles Are Poppin! (7+)
- 632 Zen Me Yoga (7+)
- 634 Drawing 101 (8+)
- 636 Minecraft Survivor (8+)
- 638 Rock & Roll Boot Camp (8+)
- 640 Marshmallow Blasters (9-12)
- 642 3-D Printing (11+)

### AFTERNOON CLASSES

- 652 Pirate Cove: Pirates, Parrots and Learning, Oh My!!! (4-6)
- 654 Blow Your Top (4-7)
- 656 Reading Safari (4-7)
- 658 Murder Mystery (5-8)
- 660 Ninja Skills (5-8)
- 662 Minecraft Creative (5+)
- 664 Complete Chess (6-12)
- 668 Ball Up (7+)
- 670 Ice Cream Shoppe (7+)
- 672 LEGO® - Build a City (7+)
- 674 STEAM Robotics - Motorized Machines & Mechanisms (7+)
- 676 Treasure Hunt Art Camp (7+)
- 678 Ukuleles Are Poppin! (7+)
- 680 Variety Sports Camp (7+)
- 682 Embroidery & Beading! - Beginner (8+)
- 684 Out on The Town (8+)
- 686 Rock & Roll Boot Camp (8+)
- 688 Christmas in July (9+)
- 690 Dungeons & Dragons - Tabletop RPG (9+)
- 692 Journey to Your Best Self (10+)
- 694 3-D Printing (11+)

### 610 LEGO® - Creative Challenges & Independent Projects (AGES 5-8)

Create unique two- and three-dimensional structures and objects using LEGO® bricks—problem-solving, individually and in a team setting. Examples of challenges include (1) using only one size or one color of bricks, (2) building a specific object, shape, or animal, and (3) building with a predetermined number of bricks. Math concepts, estimation, prediction, critical thinking, and reasoning are some of the many skills enhanced as students construct their LEGO bricks “builds.” These artistic builds are full of individual creativity. Verbal and communication skills are enhanced as the students describe their creations to others. In addition to imagination, math, and engineering skills are used as they progress from their initial concept to their finished projects. This class may be taken multiple times, as the challenges and projects are endless.

Maximum enrollment: 30

Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard

Tuition: \$200

### 612 Christmas in July (AGES 6-8)

Welcome to Christmas in July, where the spirit of the holiday season meets the warmth of summer! Students will embark on a joyful journey of crafting and creating in this festive and creative summer camp class. From delightful Christmas treats to charming Hanukkah surprises, our young campers will immerse themselves in the art of making cards, ornaments, and gifts that capture the magic of the holidays.

Maximum enrollment: 15

Instructor: Beth Flournoy

Tuition: \$200

### 614 Disney STEAM Magic (AGES 6-8)

Step into a magical world of creativity with our Disney STEM Magic Camp – perfect for little Disney fans! Unleash your child's hands, minds, and imagination through exciting STEAM challenges and art projects inspired by Mickey and Friends, Monster's Inc., Frozen, Toy Story, Moana, and more. Each activity is a unique and fun exploration, blending science and art for hands-on learning inspired by beloved characters and movies. Join us for a journey where magic meets education, and your child's favorite tales come to life through engaging and enchanting projects!

Maximum enrollment: 20

Instructor: Michelle Wiley

Tuition: \$200

### 616 Culinary Arts and Crafts - Beginners (AGES 6-9)

Welcome to Beginners Culinary Arts and Crafts, where a delectable journey of culinary exploration awaits you! Led by Chef Danny, this engaging class is tailored for budding chefs eager to learn various culinary skills. From crafting ocean cookies to mastering the art of candy sushi, participants will embark on a delightful adventure in the kitchen. Explore different aspects of cooking and create unique dishes inspired by diverse cultures, turning every session into a flavorful experience. Join us for a summer filled with creativity, delicious discoveries, and the joy of cooking in Beginners Culinary Arts and Crafts. Get ready to savor the flavors of fun!

Maximum enrollment: 16

Instructor: Daniel Arkhipov

Tuition: \$220

### 618 The Dance Party (AGES 6-11)

Get ready to groove and move in The Dance Party! Calling all dancers to join the fun as we learn exciting dance routines, make new friends, and share our dance skills. Whether you're a beginner, intermediate, or advanced dancer, all are welcome in this vibrant dance community. Ages 6-11 years old will come together for a dance extravaganza where creativity knows no bounds, and every step is a celebration. Join us for a dance-filled adventure where rhythm, friendship, and self-expression take center stage. Let's dance to new skills, new friends, and unforgettable

moments on the dance floor!

Maximum enrollment: 20

Instructor: Karen Johnson

Tuition: \$200

### **620 Complete Chess (AGES 6-12)**

Experience the world of chess with the Complete Chess summer program at San Antonio Academy! Why chess? Chess is not just a game. It's an unparalleled educational tool that enhances critical thinking, problem-solving, and strategic planning skills. Your child will gain invaluable life skills and have a fantastic time with their newfound hobby. Why choose Complete Chess? At Complete Chess, we strive to better the communities we serve by providing a complete chess education in a positive and nourishing environment. By making chess accessible, we hope to empower children and adults alike with the tools to increase their academic performance, decision-making, and leadership. We believe the seeds we plant today will create a better world tomorrow. Complete body, Complete mind, Complete Chess.

Maximum enrollment: 16

Instructor: Jesse Lozano

Tuition: \$200

### **622 Passion for Fashion (AGES 7-9)**

If you have a passion for fashion, this is the camp for you! Students will get to express their unique style and create one-of-a-kind designs, all while learning about the importance of sustainable fashion. Learn about the effects of fast fashion on the planet and how we can make a difference. Students will up-cycle and repurpose to create projects such as scrunchies, tie-dye t-shirts, throw pillows, tote bags, and more!

Maximum enrollment: 15

Instructor: Abbey Weaver

Tuition: \$200

### **624 Bill Nye, Science Guy - Experiments! (AGES 7-11)**

Come to Bill Nye's 2024 science lab with new and returning experiments, demonstrations, and popular online videos contributing to your knowledge. During the week, we will perform "experiments" and discover how unique and fun science can be! New activities will challenge you daily to uncover the "why and how"! In this class, you will be encouraged to be "curious" and "ask" lots of questions...which will lead to understanding common scientific principles. New & Returning students are welcome.

Maximum enrollment: 20

Instructor: Jerry Campa

Tuition: \$200

### **626 LEGO® - Vehicle Design & Racing (AGES 7+)**

Using LEGO® bricks and elements, students design and build their own racing vehicles or work with a group. In the process, they learn how size, weight, stability, and the force of gravity affect the performance of their vehicles. Mathematics and engineering concepts are involved in the designs of their creations. After testing their unique builds on the four-lane race track, the students can redesign their vehicles, if needed, to enhance their vehicles' power and speed during continual racing on the track. It's fun for all.

Maximum enrollment: 30

Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard

Tuition: \$200

### **628 Movement Speed Training & Games (AGES 7+)**

Boost your athletic performance with our Movement Speed Training & Games class! Tailored for aspiring athletes, this program introduces specific movement footwork skills essential for success on the playing field in a variety of sports. Students will delve into understanding and demonstrating efficient movement patterns, with ample opportunities to showcase their skills through game-like speed and quickness scenarios throughout the week. Whether you're sprinting, changing directions, or enhancing agility, this class provides valuable insights and practical training to elevate your overall performance. Join us for a dynamic week where every move brings you closer to improved speed, agility, and success in your favorite sports!

Maximum enrollment: 30

Instructor: Kevin Wiley

Tuition: \$200

### **630 Ukuleles Are Poppin! (AGES 7+)**

Strum, drum, and play your favorite tunes at our Ukulele Camp! Join us for a musical adventure where you'll learn popular songs using ukuleles, keyboards, and percussion instruments. Unleash your inner rockstar in a camp filled with excitement and creativity. Don't miss out – sign up now for a harmonious experience that will have you making music in no time!

Maximum enrollment: 10

Instructor: Traci Navas

Tuition: \$200

### **632 Zen Me Yoga (AGES 7+)**

Embark on a journey of self-discovery and tranquility in our Mindful Moments summer camp class. Tailored for kids seeking balance and inner calm, this class goes beyond relaxation techniques by empowering participants to unwind their mind, body, and soul independently and under pressure. Guided by experienced instructors, children will explore mindfulness practices that foster resilience and emotional well-being. From soothing meditation to stress-relief exercises, this class provides a safe space for kids to cultivate a peaceful mindset in moments of calm and during challenges. Join us for a transformative experience where kids can embrace inner peace, mindfulness, and resilience that will benefit them both on and off the mat.

Maximum enrollment: 20

Instructor: Breyana Gadson

Tuition: \$200

### **634 Drawing 101 (AGES 8+)**

Embark on a creative journey with Drawing 101! This class is a comprehensive guide to mastering the techniques and tricks used in realistic drawing. Students will delve into the fundamentals of perspective, shading, and blending, learning to add texture to their artwork for a lifelike touch. Studying the works of other artists will serve as inspiration, providing insights into spotting and incorporating various techniques. Participants will bring animals and still life to vivid expression on paper through engaging exercises and projects. Please note that this course requires the ability to focus and the maturity to stay on task, ensuring a rewarding and immersive learning experience for budding artists. Join us for Drawing 101, where creativity knows no bounds, and every stroke brings you closer to the world of realistic and captivating art!

Maximum enrollment: 20

Instructor: Linda Cowan

Tuition: \$200

### 636 Minecraft Survivor (AGES 8+)

Embark on a thrilling virtual survival challenge with our Minecraft Survivor camp! Campers will be grouped into teams and tasked with specific challenges, requiring them to collaborate to ensure the survival of their group. From building and tearing down structures to running and even flying within Minecraft, participants will engage in a series of exciting mini-games that test their teamwork and strategic skills. All the action takes place on a dedicated secure server, prioritizing both cooperative play and safety. Get ready for an immersive experience where creativity meets strategy, and only the most resourceful teams will emerge victorious in the Minecraft Survivor challenge!

Maximum enrollment: 20  
Instructor: Frank & Amy Ogo  
Tuition: \$200

### 638 Rock & Roll Boot Camp (AGES 8+)

Elevate your musical journey with the exclusive opportunity provided by Dr. Owen Duggan, the Academy's Director of Music. Young musicians are invited to delve into the world of guitar, drums, keyboard, and vocals under his expert guidance. Enjoy ample personal attention exploring the foundations of music theory and master the art of playing a simple rock/blues song. This is your chance to refine skills, unlock musical potential, and embark on a rewarding musical adventure with a seasoned professional. Enroll now for a unique and personalized experience that sets you on the path to musical excellence!

Maximum enrollment: 12  
Instructor: Owen Duggan  
Tuition: \$200

### 640 Marshmallow Blasters (AGES 9-12)

Come have a BLAST with us! You will create your very own P.V.C. Marshmallow Blaster and take it home! However, you will use it during the week first. You will learn how to use your blaster, as well as how to work as part of a team to capture or take out your opponents. Discover through practice and training how to ambush your rivals or shoot from a distance to take the opponents out before they can get to you. Use engineering principles to design the best equipment, maybe a shield, a longer barrel, or camouflage? Who will qualify as a sniper or a sharpshooter? Who will win the daily battle? Can anyone take out Mr. MacLaren? It will be a BLAST!

Maximum enrollment: 20  
Instructor: John MacLaren  
Tuition: \$200

### 642 3-D Printing (AGES 11+)

Embark on a journey of discovery and creativity with our "3-D Printing Adventures: Design, Create, Innovate!" program. This course is to offers an engaging introduction to 3-D printing, where students bring imaginative ideas to life. Our curriculum includes exciting projects, from designing custom keychains to constructing real-world models, encouraging the application of critical thinking and problem-solving skills. Participants will witness their designs materialize layer by layer, gaining a deeper understanding of the mechanics and science behind 3-D printing technology. This program perfectly blends creativity, technology, fun, and challenge and provides a supportive environment to innovate and explore. Sign up now for a summer of technological exploration and hands-on learning!

Maximum enrollment: 15  
Instructor: Josh Rochon  
Tuition: \$200

### 652 Pirate Cove: Pirates, Parrots and Learning, Oh My!!! (AGES 4-6)

Ahoy, young buccaneers! Join our Pirate Cove for a fun-filled learning adventure. Set sail into the world of kid-friendly pirates, mastering map skills with daily challenges. Dive into funny pirate books craft themed treasures, conduct experiments, and embark on STEAM projects. Cap it all off with a thrilling treasure hunt. Shiver me timbers and learn the Jolly Roger way – where each day is a voyage into the exciting world of pirates!

Maximum enrollment: 20  
Instructor: Michelle Wiley  
Tuition: \$200

### 654 Blow Your Top (AGES 4-7)

Boom! Ever wonder how to make chemical reactions at home? Well, here is your chance! This action-packed class will teach us what it takes to cause explosions using solids, liquids, and gases. Get messy and excited with seven experiments that can be done at home with household materials. Get your own experiment kits! Learn about how pressure and temperature can create large explosions. Get all scientific on Friday for a Science Extravaganza!

Maximum enrollment: 20  
Instructor: Clint Proctor  
Tuition: \$200

### 656 Reading Safari (AGES 4-7)

Embark on a reading safari where young people explore the wild world of words. Through captivating tales and literacy adventures, students will navigate the rich landscape of storytelling. Engage in thrilling literacy activities under the safari sun and unlock the treasures hidden within the pages of each story. Additionally, we will engage in hands-on activities to learn and practice phonics skills. Our safari guide will cover the following daily lesson objectives: phonological awareness, phonemic awareness, and Read-Aloud in a fun, engaging learning environment. Students will participate in tactile techniques using various materials to manipulate letter sounds and engage in new stories daily. Get ready for a wild ride through the jungle of words!

Maximum enrollment: 20  
Instructor: Jenny Castillo  
Tuition: \$200

### 658 Murder Mystery (AGES 5-8)

Are you curious and want to learn forensics and biology techniques used to solve crimes? Do you want to be a detective like Sherlock Holmes, Nancy Drew, an F.B.I. agent, or a Police officer? Take our class to learn all about fingerprinting, D.N.A., and crime solving. Through this class, you will discover how forensic specialists navigate their impeccable observation skills through the power of deductive reasoning and gut intuition. Make and use the tools of a real C.S.I. agent, and together, we will create and solve a murder mystery.

Maximum enrollment: 20  
Instructor: Sylvia Sarate  
Tuition: \$200

### 660 Ninja Skills (AGES 5-8)

Do you want to learn to be a Ninja? Do you love swords, throwing stars, nunchucks, and knives? We will have daily sword battles. Learn to be one of the characters from Naruto, Ninja Turtles, or Kungfu Panda. Practice the skills needed to be a

stealth fighter dominating the ninja world. This class is designed to keep high-energy kids engaged while learning dynamic movement concepts and building character values. Come run, jump, kick, and tumble into this fantastic experience.

Maximum enrollment: 20  
Instructor: John MacLaren  
Tuition: \$200

#### **662 Minecraft Creative (AGES 5+)**

Embark on a virtual adventure like never before with our "Minecraft Creative Camp"! Immerse yourself in the dynamic and safe learning environment as campers delve into the imaginative realms of Minecraft. Together, they'll create, explore, and play on a dedicated and secure server exclusively for Summer At The Academy students. Instructors will guide participants, helping them master the essentials of multiplayer dynamics and providing essential lessons on online safety. Campers will be organized into teams with specific tasks and challenges, fostering teamwork and camaraderie. Join us to build and explore together in this virtual wonderland, where creativity knows no bounds and the pixels come to life in the hands of our young architects and adventurers!

Maximum enrollment: 20  
Instructor: Frank & Amy Ogo  
Tuition: \$200

#### **664 Complete Chess (AGES 6-12)**

Experience the world of chess with the Complete Chess summer program at San Antonio Academy! Why chess? Chess is not just a game. It's an unparalleled educational tool that enhances critical thinking, problem-solving, and strategic planning skills. Your child will gain invaluable life skills and have a fantastic time with their newfound hobby. Why choose Complete Chess? At Complete Chess, we strive to better the communities we serve by providing a complete chess education in a positive and nourishing environment. By making chess accessible, we hope to empower children and adults alike with the tools to increase their academic performance, decision-making, and leadership. We believe the seeds we plant today will create a better world tomorrow. Complete body, Complete mind, Complete Chess.

Maximum enrollment: 16  
Instructor: Jesse Lozano  
Tuition: \$200

#### **668 Ball Up (AGES 7+)**

Dribble, shoot, score! Step onto the court and dive into the world of basketball with our dynamic summer camp class! Designed to enhance fundamental skills and teamwork, young athletes will focus on mastering ball handling, layups, and reading court plays. Led by experienced coaches, participants will engage in friendly scrimmages, applying their newfound skills and fostering a love for the game. From precision passes to the exhilaration of teamwork, this class caters to all skill levels, providing personalized guidance and a supportive environment. Join us for a slam-dunk summer filled with dribbles, layups, and the joy of discovering the thrill of basketball on the court!

Maximum enrollment: 20  
Instructor: Breyana Gadson  
Tuition: \$200

#### **670 Ice Cream Shoppe (AGES 7+)**

Indulge in a sweet summer adventure with our Ice Cream Shoppe class! Imagine a world of homemade ice cream, crafts, and games centered around everyone's favorite frozen treat. Each day brings a new ice cream recipe to whip up, and artistic activities include ice cream watercolor painting, crafting collage cards, and sculpting tiny ice cream artworks. Get ready for some exciting ice cream-themed games, including a whipped cream relay race, an ice cream cone water balloon toss, and a blind ice cream taste test. This camp is a dream come true for ice cream lovers, combining delicious creations with creative expression and playful challenges. Join us for a scoop of fun and laughter in the Ice Cream Shoppe, where every moment is a sweet celebration of summertime delights!

Maximum enrollment: 20  
Instructor: Linda Cowan  
Tuition: \$220

#### **672 LEGO® - Build a City (AGES 7+)**

Explore the exciting world of LEGO® bricks and unleash your creativity as you construct a vibrant miniature city! Build awe-inspiring structures like airports, fire and police stations, skyscrapers, sports stadiums, office buildings, homes, bridges, towers, train stations, city hall, schools, hospitals, roads, parks, playgrounds, farms, and ranches, all using the iconic LEGO® bricks and elements. Embark on a journey that blends fun and learning, where mathematics and engineering principles come to life in the design of your unique creations. Dive into measurement, estimation, architectural forms, and geometric concepts while building your cityscape. Discover the art of "interlocking" and roof-building techniques to craft solid structures that stand tall and proud. Design and customize vehicles like cars, trucks, planes, boats, and buses, adding a dynamic touch to your LEGO® cityscape. Each week brings a fresh opportunity to create something entirely unique, as diverse as the participants' imaginations. Sign up for multiple sessions and let your imagination soar to new heights!

Maximum enrollment: 30  
Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$200

#### **674 STEAM Robotics - Motorized Machines & Mechanisms (AGES 7+)**

Join us to enjoy a series of cross-curricular, theme-based activities that develop STEAM skills: Science, Technology, Engineering, Art, and Mathematics, as well as language and communication concepts. This workshop features robots built with specific LEGO® bricks and elements and focuses on various moving parts. Try creating an airplane, boat, alligator, or a monkey! Throughout the week, participants will build several robots that incorporate a variety of parts, such as a motor, tilt sensor, and motion sensor. Those wishing to advance beyond basic builds are encouraged to enroll in additional sessions.

Maximum enrollment: 20  
Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$220

### **676 Treasure Hunt Art Camp (AGES 7+)**

Embark on a creative expedition with our “Treasure Hunt Art Camp,” where young artists wield their art tools to explore the mysteries of lost and found treasures. Join us on a thrilling journey worldwide, navigating through imaginative scenarios, avoiding shark attacks, and having a blast. This unique camp blends adventure with artistic expression as students craft dazzling diamonds, recreate lost ships, and even send messages in a bottle. Each project is an opportunity to dive into the excitement of a treasure hunt while honing artistic skills. Unleash your inner adventurer and artist, and join us for a summer filled with creative exploration and the joy of discovering hidden treasures through the magic of art!

Maximum enrollment: 20  
Instructor: Eric Cohn  
Tuition: \$200

### **678 Ukuleles Are Poppin! (AGES 7+)**

Strum, drum, and play your favorite tunes at our Ukulele Camp! Join us for a musical adventure where you'll learn popular songs using ukuleles, keyboards, and percussion instruments. Unleash your inner rockstar in a camp filled with excitement and creativity. Don't miss out – sign up now for a harmonious experience that will have you making music in no time!

Maximum enrollment: 10  
Instructor: Traci Navas  
Tuition: \$200

### **680 Variety Sports Camp (AGES 7+)**

Dive into the world of sports with our Variety Sports Camp, where every day is a new adventure on the field or in the gym! Perfect for young athletes, this camp explores a range of sports and activities. From basketball to wiffle ball, relay races, and more, campers engage in various sports that cater to different interests and skill levels. Our coaches guide campers through skill-building drills, friendly competitions, and team challenges. It's an opportunity for campers to discover their favorite sports, develop new skills, and foster a love for an active lifestyle. Join us for a week of sportsmanship, camaraderie, and the thrill of trying something new each day. Variety Sports Camp is the ultimate playground for young athletes to unleash their potential and have a blast with their friends.

Maximum enrollment: 30  
Instructor: Cameron Bly  
Tuition: \$200

### **682 Embroidery & Beading! - Beginner (AGES 8+)**

Discover the art of Embroidery & Beading in our Beginner class! Unleash your creativity as you learn the intricate craft of embroidery and embellishment. Whether you choose to design your artwork or select from various pre-made designs, this class offers a fantastic opportunity to create groovy masterpieces to adorn your walls. Take your creativity a step further by turning your embroidered creations into trendy iron-on patches for backpacks or jackets. Join us for a journey where every stitch and bead brings your artistic vision to life, and your unique creations become wearable or hangable works of art. Explore the world of embroidery and beading, transforming ordinary fabrics into extraordinary expressions of your personal style!

Maximum enrollment: 12  
Instructor: Jordan Adame  
Tuition: \$200

### **684 Out on the Town (AGES 8+)**

Prepare for an afternoon of excitement as we zip around town to your favorite destinations! Join us for a thrilling adventure that includes everything from bowling and laser tag to indoor mini-golf and beyond. This is your chance to experience non-stop fun and create memories that will last a lifetime. Hurry, spots are filling up fast, so seize the moment and sign up for a day packed with excitement, laughter, and unforgettable moments! Don't miss out on the thrill – let the adventure begin!

Maximum enrollment: 30  
Instructor: Myron Jones  
Tuition: \$310

### **686 Rock & Roll Boot Camp (AGES 8+)**

Elevate your musical journey with the exclusive opportunity provided by Dr. Owen Duggan, the Academy's Director of Music. Young musicians are invited to delve into the world of guitar, drums, keyboard, and vocals under his expert guidance. Enjoy ample personal attention as you explore the foundations of music theory and master the art of playing a simple rock/blues song. This is your chance to refine your skills, unlock your musical potential, and embark on a rewarding musical adventure with a seasoned professional. Enroll now for a unique and personalized experience that will set you on the path to musical excellence!

Maximum enrollment: 12  
Instructor: Owen Duggan  
Tuition: \$200

### **688 Christmas in July (AGES 9+)**

Welcome to Christmas in July, where the spirit of the holiday season meets the warmth of summer! Students will embark on a joyful journey of crafting and creating in this festive and creative summer camp class. From delightful Christmas treats to charming Hanukkah surprises, our young campers will immerse themselves in the art of making cards, ornaments, and gifts that capture the magic of the holidays.

Maximum enrollment: 15  
Instructor: Beth Flournoy  
Tuition: \$200

### **690 Dungeons & Dragons - Tabletop RPG (AGES 9+)**

Embark on an epic adventure with our Dungeons and Dragons class—an introduction to the oldest tabletop RPG, D&D! Whether you're a seasoned adventurer or a newcomer, this class is designed for both beginners and experts alike. Participants will immerse themselves in a fantastical realm, creating characters, becoming familiar with the rules, and exploring a world that has inspired numerous books, games, and movies. Choose from a variety of roles and classes, with opportunities for experienced students to step into the coveted role of Dungeon Master for a day. All materials, including characters, maps, and dice, will be provided. All you need is the will to succeed and your most creative self to thrive and survive in the captivating world of Dungeons & Dragons! Join us for a week of storytelling, strategy, and adventure where every choice shapes your destiny in a world filled with magic and mystery. May your rolls be high, and your quests legendary!

Maximum enrollment: 20  
Instructor: Jerry Campa  
Tuition: \$200

### 692 Journey to Your Best Self (AGES 10+)

Prioritize your personal growth this summer and have fun while doing it. Explore emotions, self-control, empathy, courage, self-esteem, and growth mindset. Learn lifetime skills such as breathing exercises, journaling, positive affirmations, and much more. Participants will also enjoy fun crafts and activities: create a journal, friendship pins, calming glitter jars, D.I.Y. bath bombs and affirmation bracelets. Grow your confidence, master mindfulness, and make lasting friendships with this week-long journey to your best self!

Maximum enrollment: 15  
Instructor: Abbey Weaver  
Tuition: \$200

### 694 3-D Printing (AGES 11+)

Embark on a journey of discovery and creativity with our "3-D Printing Adventures: Design, Create, Innovate!" program this summer. My main goal of this course is to offer an engaging introduction to 3-D printing, where students bring their imaginative ideas to life. Our curriculum includes exciting projects, from designing custom keychains to constructing real-world models, encouraging the application of critical thinking and problem-solving skills. Participants will witness their designs materialize layer by layer, gaining a deeper understanding of the mechanics and science behind 3-D printing technology. This program perfectly blends creativity, technology, fun, and challenge and provides a supportive environment to innovate and explore. Sign up now for a summer filled with technological exploration and hands-on learning!

Maximum enrollment: 15  
Instructor: Josh Rochon  
Tuition: \$200

## Week 7: July 15-19

### 702 Art Gone Wild: "African Safari" (AGES 4-6)

Let's have a roaring good time learning about some fantastic African animals. With a "wild" imagination, students will travel to some of the farthest places to learn about truly exceptional and unique animals. We will create and read books about the animals we study each day. Students will also learn how easy it is to draw animals such as lions, zebras, elephants, giraffes, and more by following step-by-step directions. While learning to draw, kids will also discover fun facts about each featured animal. We will explore important science content such as animal behavior, features, and habitats. Students can use colored pencils, markers, crayons, oil pastels, watercolors, and more to create their own "Wild Animal" craft projects. So come along for a safari with us and explore the wonderful wild world of animals living in Africa.

Maximum enrollment: 20  
Instructor: Michelle Wiley  
Tuition: \$200

### 704 Artistic Adventures (AGES 4-6)

Calling all little artists! In this camp, nature will inspire students to create masterpieces and make new discoveries. Students will get to step out into nature for an exciting hands-on experience to source materials for their art projects, such as leaf collages, flower pinch pots, sun catchers, and much more. In this camp, exploration is guaranteed, creativity will shine, and learning will be endless!

Maximum enrollment: 15  
Instructor: Abbey Weaver  
Tuition: \$200

### 706 Face Painting (AGES 4-7)

Get ready for a week of face-painting fun! Join us as students learn to paint flowers, butterflies, and adorable animals on their faces. We'll kick off with simple designs like flowers and gradually move to more exciting animals, such as cats, foxes, bunnies, and even wolves. The creativity doesn't stop there – students will also explore face-painting fantasy creatures like dragons and unicorns or dive into Halloween-themed fun with zombies and spiderwebs. Every day is a new adventure, with students deciding what to paint next. To top it off, students will take home their own face painting set at the end of the week to keep the artistic fun going!

Maximum enrollment: 15  
Instructor: Tian Xing  
Tuition: \$200

### 708 Making Chinese Food is A Piece of Cake! (AGES 4-7)

Everyone on the planet loves Chinese food. It's delicious and fun to make. Since your instructor is a native of China and loves to prepare authentic Chinese dishes, she will ensure you gain plenty of hands-on experience making dumplings, spring rolls (a Chinese New Year must-have), healthy fried rice with eggs and vegetables, and green onion pancakes. On the last day, we will draw these four dishes on a white T-shirt and write the Chinese characters for these dishes we made together and the detailed recipes on paper to bring home!

Maximum enrollment: 15  
Instructor: Xueling Xu  
Tuition: \$200

### 710 Math Toy Store (AGES 4-7)

Cha-Ching! Show me the money! This class is designed to expose young children to good financial principles through coins and currency and how to make good choices. Each student will receive a cash drawer of money with coins and bills. Hands-on games, unlimited manipulatives, and a real-life store in class will jump-start their math and negotiation skills. Students will buy multiple toys a day to take home! Let's get to learning about money!

Maximum enrollment: 20

Instructor: Clint Proctor

Tuition: \$200

### 712 Reading Safari (AGES 4-7)

Embark on a reading safari where young people explore the wild world of words. Through captivating tales and literacy adventures, students will navigate the rich landscape of storytelling. Engage in thrilling literacy activities under the safari sun and unlock the treasures hidden within the pages of each story. Additionally, we will engage in hands-on activities to learn and practice phonics skills. Our safari guide will cover the following daily lesson objectives: phonological awareness, phonemic awareness, and Read-Aloud in a fun, engaging learning environment. Students will participate in tactile techniques using various materials to manipulate letter sounds and engage in new stories daily. Get ready for a wild ride through the jungle of words!

Maximum enrollment: 20

Instructor: Jenny Castillo

Tuition: \$200

### 714 LEGO® - Creative Challenges & Independent Projects (AGES 5-8)

Create unique two- and three-dimensional structures and objects using LEGO® bricks—problem-solving, individually and in a team setting. Examples of challenges include (1) using only one size or one color of bricks, (2) building a specific object, shape, or animal, and (3) building with a predetermined number of bricks. Math concepts, estimation, prediction, critical thinking, and reasoning are some of the many skills enhanced as students construct their LEGO bricks "builds." These artistic builds are full of individual creativity. Verbal and communication skills are enhanced as the students describe their creations to others. In addition to imagination, math, and engineering skills are used as they progress from their initial concept to their finished projects. This class may be taken multiple times, as the challenges and projects are endless.

Maximum enrollment: 30

Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard

Tuition: \$200

### 716 Act Up With Drama Kids This Summer - "Make Them Laugh" (AGES 5-12)

Prepare for a week-long escapade into the whimsical world of laughter and entertainment at our extraordinary camp! Inspired by the timeless words of Milton Berle, who declared that "laughter is an instant vacation," this experience goes beyond the ordinary. Campers will engage in zany drama activities and master the art of comedy and clowning, creating their own moments of hilarity. Picture the thrill of witnessing these emerging comedians showcase their talents in a dazzling Big Show finale, promising an unforgettable fusion of joy, surprises, and loud laughter. Don't miss the chance to join us for a week of pure delight, forging friendships, and creating memories in a laughter-filled haven – reserve your spot now for an enchanting journey into the magic of instant vacations through the art of humor!

Maximum enrollment: 30

Instructor: Sandra Detamore

Tuition: \$200

## Week 7: July 15-19

- 702 Art Gone Wild: "African Safari" (4-6)
- 704 Artistic Adventures (4-6)
- 706 Face Painting (4-7)
- 708 Making Chinese Food is A Piece of Cake! (4-7)
- 710 Math Toy Store (4-7)
- 712 Reading Safari (4-7)
- 714 LEGO® - Creative Challenges & Independent Projects (5-8)
- 716 Act Up With Drama Kids This Summer - "Make Them Laugh" (5-12)
- 718 Wildcat Sports Camp (5+)
- 720 Culinary Arts and Crafts - Beginners (6-9)
- 722 Complete Chess (6-12)
- 724 Back in the Day (7+)
- 726 Mad About Movies Art Camp (7+)
- 728 Meteorite Mysteries (7+)
- 730 STEAM Robotics - Motorized Machines & Mechanisms (7+)
- 732 Ukuleles Are Poppin! (7+)
- 734 Minecraft Survivor (8+)
- 736A Out on the Town (FULL DAY CLASS) (8+)
- 738 Rock & Roll Boot Camp (8+)
- 740 Murder Mystery (9+)
- 742 Poker & Math (9+)
- 744 Wildcat War Games (9+)

### AFTERNOON CLASSES

- 752 Mad About Movies Art Camp (4-6)
- 754 Math on the Move (4-7)
- 756 Snakes & Spiders (4-7)
- 758 Paint Me a Story - Art and Literature (5-8)
- 760 Jr. Doctor (5-9)
- 762 Act Up With Drama Kids This Summer - "Make Them Laugh" (5-12)
- 764 Star Wars & Jedi Academy (6-10)
- 766 The Dance Party (6-11)
- 768 Complete Chess (6-12)
- 770 NASA Knows Newton (7-9)
- 772 Passion for Fashion (7-9)
- 774 LEGO® - Build a City (7+)
- 776 STEAM Robotics - Motorized Machines & Mechanisms (7+)
- 778 Ukuleles Are Poppin! (7+)
- 780 Wildcat Dodgeball (7+)
- 782 Face Painting (8+)
- 784 Making Chinese Food is a Piece of Cake! (8+)
- 786 Minecraft Survivor (8+)
- 788B Out on the Town (Continued) - FULL DAY CLASS (8+)
- 790 Pie Kitchen (8+)
- 792 Rock & Roll Boot Camp (8+)
- 794 Among Us – Game Theory (9+)

### **718 Wildcat Sports Camp (AGES 5+)**

Gear up for a week of sports excitement with Keystone Coach Kyle Unruh at Wildcat Sports Camp! This dynamic program offers a blend of traditional and non-traditional sports, ensuring a fun and engaging experience for participants. Throughout the week, campers will enjoy a variety of activities, from the fast-paced action of rugby to creative kickball variations, as well as soccer and hockey. Under Coach Kyle's guidance, participants will not only build their skills in each sport but also experience the thrill of friendly competition and teamwork. Join us for a week of sportsmanship, camaraderie, and the joy of exploring a diverse range of athletic endeavors in Wildcat Sports Camp!

Maximum enrollment: 30

Instructor: Kyle Unruh

Tuition: \$200

### **720 Culinary Arts and Crafts - Beginners (AGES 6-9)**

Welcome to Beginners Culinary Arts and Crafts, where a delectable journey of culinary exploration awaits you! Led by Chef Danny, this engaging class is tailored for budding chefs eager to learn various culinary skills. From crafting ocean cookies to mastering the art of candy sushi, participants will embark on a delightful adventure in the kitchen. Explore different aspects of cooking and create unique dishes inspired by diverse cultures, turning every session into a flavorful experience. Join us for a summer filled with creativity, delicious discoveries, and the joy of cooking in Beginners Culinary Arts and Crafts. Get ready to savor the flavors of fun!

Maximum enrollment: 16

Instructor: Daniel Arkhipov

Tuition: \$220

### **722 Complete Chess (AGES 6-12)**

Experience the world of chess with the Complete Chess summer program at San Antonio Academy! Why chess? Chess is not just a game. It's an unparalleled educational tool that enhances critical thinking, problem-solving, and strategic planning skills. Your child will gain invaluable life skills and have a fantastic time with their newfound hobby. Why choose Complete Chess? At Complete Chess, we strive to better the communities we serve by providing a complete chess education in a positive and nourishing environment. By making chess accessible, we hope to empower children and adults alike with the tools to increase their academic performance, decision-making, and leadership. We believe the seeds we plant today will create a better world tomorrow. Complete body, Complete mind, Complete Chess.

Maximum enrollment: 16

Instructor: Jesse Lozano

Tuition: \$200

### **724 Back in the Day (AGES 7+)**

This course is centered around Laura Ingalls Wilder's book, *Farmer Boy*. Each day, students will cook and make crafts from the book. They will bake bread, make butter and jam, sew, weave, make a candle and soap, make an apple hand-pie, and hand-squeezed lemonade. While the students work on their projects, we will listen to the story and learn what life was like for a child in the 1800s.

Maximum enrollment: 20

Instructor: Linda Cowan

Tuition: \$200

### **726 Mad About Movies Art Camp (AGES 7+)**

Calling all movie enthusiasts and creative minds! Dive into the whimsical world of Mad About Movies Art Camp, a camp specially crafted for those who adore films, kooky characters, animations, and illustrations. Join us on an imaginative journey where beloved characters like minions, dinosaurs, and out-of-this-world environments come to life through the magic of movies and art. From exploring animated wonders to unleashing your artistic flair, this camp celebrates cinematic creativity. Get ready for a reel adventure filled with laughter, inspiration, and the chance to bring your favorite characters and scenes to vivid life through the magic of art and movies. Join us for a camp that turns the ordinary into the extraordinary, where every frame is a canvas for your boundless imagination!

Maximum enrollment: 20

Instructor: Eric Cohn

Tuition: \$200

### **728 Meteorite Mysteries (AGES 7+)**

Who doesn't like rocks? What if your child could study the most interesting "rocks" on this planet - meteorites? Kids will learn the basics of geology (how to test and classify rocks), where "rocks from the heavens" come from, what they're made of, and how they are processed after discovery. The class will include an examination of actual meteorites. Via lessons & labs created at NASA, students will broaden their knowledge of rocks . . . even those from space!

Maximum enrollment: 15

Instructor: JoAnne Burch

Tuition: \$200

### **730 STEAM Robotics - Motorized Machines & Mechanisms (AGES 7+)**

Join us to enjoy a series of cross-curricular, theme-based activities that develop STEAM skills: Science, Technology, Engineering, Art, and Mathematics, as well as language and communication concepts. This workshop features robots built with specific LEGO® bricks and elements and focuses on various moving parts. Try creating an airplane, boat, alligator, or a monkey! Throughout the week, participants will build several robots that incorporate a variety of parts, such as a motor, tilt sensor, and motion sensor. Those wishing to advance beyond basic builds are encouraged to enroll in additional sessions.

Maximum enrollment: 20

Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard

Tuition: \$220

### **732 Ukuleles Are Poppin! (AGES 7+)**

Strum, drum, and play your favorite tunes at our Ukulele Camp! Join us for a musical adventure where you'll learn popular songs using ukuleles, keyboards, and percussion instruments. Unleash your inner rockstar in a camp filled with excitement and creativity. Don't miss out - sign up now for a harmonious experience that will have you making music in no time!

Maximum enrollment: 10

Instructor: Traci Navas

Tuition: \$200

### **734 Minecraft Survivor (AGES 8+)**

Embark on a thrilling virtual survival challenge with our Minecraft Survivor camp! Campers will be grouped into teams and tasked with specific challenges, requiring them to collaborate to ensure the survival of their group. From building

and tearing down structures to running and even flying within Minecraft, participants will engage in a series of exciting mini-games that test their teamwork and strategic skills. All the action takes place on a dedicated secure server, prioritizing both cooperative play and safety. Get ready for an immersive experience where creativity meets strategy, and only the most resourceful teams will emerge victorious in the Minecraft Survivor challenge!

Maximum enrollment: 20  
Instructor: Frank & Amy Ogo  
Tuition: \$200

#### **736A Out on the Town (FULL DAY CLASS) (AGES 8+)**

Prepare for a day of endless excitement as we zip around town to your favorite destinations! Join us for a thrilling adventure that includes everything from bowling, laser tag to indoor mini-golf, theme parks, and beyond. This is your chance to experience non-stop fun and create memories that will last a lifetime. Hurry, spots are filling up fast, so seize the moment and sign up for a day packed with excitement, laughter, and unforgettable moments! Don't miss out on the thrill – let the adventure begin!

\*\*When enrolling online in this full-day class, enter both Class 736A (the morning session) and 788B (the afternoon session), and also one of our lunch options. If you need assistance, call 210-736-5876.

Maximum enrollment: 30  
Instructor: Myron Jones  
Tuition: \$620

#### **738 Rock & Roll Boot Camp (AGES 8+)**

Elevate your musical journey with the exclusive opportunity provided by Dr. Owen Duggan, the Academy's Director of Music. Young musicians are invited to delve into the world of guitar, drums, keyboard, and vocals under his expert guidance. Enjoy ample personal attention as you explore the foundations of music theory and master the art of playing a simple rock/blues song. This is your chance to refine your skills, unlock your musical potential, and embark on a rewarding musical adventure with a seasoned professional. Enroll now for a unique and personalized experience that will set you on the path to musical excellence!

Maximum enrollment: 12  
Instructor: Owen Duggan  
Tuition: \$200

#### **740 Murder Mystery (AGES 9+)**

Are you curious and want to learn forensics and biology techniques used to solve crimes? Do you want to be a detective like Sherlock Holmes, Nancy Drew, an F.B.I. agent, or a Police officer? Take our class to learn all about fingerprinting, D.N.A., and crime solving. Through this class, you will discover how forensic specialists navigate their impeccable observation skills through the power of deductive reasoning and gut intuition. Make and use the tools of a real C.S.I. agent, and together, we will create and solve a murder mystery.

Maximum enrollment: 20  
Instructor: Sylvia Sarate  
Tuition: \$200

#### **742 Poker & Math (AGES 9+)**

Immerse yourself in the thrilling Poker & Math class, where fun, strategy, and friendly competition collide for an unforgettable experience. Explore the intricacies of various poker games,

unraveling the math and probability behind each move. Envision a dynamic and entertaining environment where every dealt hand is an opportunity to learn, laugh, and achieve victory. This class transcends mere card-playing, offering a chance to create lasting memories and relish the joy of being a winner. Embark on this immersive journey now, and secure your seat for a captivating mix of skill-building and pure enjoyment – the ultimate poker adventure awaits!

Maximum enrollment: 20  
Instructor: Jerry Campa  
Tuition: \$200

#### **744 Wildcat War Games (AGES 9+)**

Come become part of the Wildcat War Games! Learn how to work as a team and win the daily war battles. Develop leadership skills as you see firsthand how to overcome obstacles and use various tactical strategies during battle. We will use multiple battle equipment, including water blasters, Nerf guns, water balloons, and more. Learn to use the high ground, camouflage, and shields to become the ultimate warrior! Battles are won in the mind long before they are won on the battlefield! Learn what it takes.

Maximum enrollment: 20  
Instructor: John MacLaren  
Tuition: \$200

#### **752 Mad About Movies Art Camp (AGES 4-6)**

Calling all movie enthusiasts and creative minds! Dive into the whimsical world of Mad About Movies Art Camp, a camp specially crafted for those who adore films, kooky characters, animations, and illustrations. Join us on an imaginative journey where beloved characters like minions, dinosaurs, and out-of-this-world environments come to life through the magic of movies and art. From exploring animated wonders to unleashing your artistic flair, this camp celebrates cinematic creativity. Get ready for a reel adventure filled with laughter, inspiration, and the chance to bring your favorite characters and scenes to vivid life through the magic of art and movies. Join us for a camp that turns the ordinary into the extraordinary, where every frame is a canvas for your boundless imagination!

Maximum enrollment: 20  
Instructor: Eric Cohn  
Tuition: \$200

#### **754 Math on the Move (AGES 4-7)**

Math on the Move is a fun and interactive class that reinforces students' core math skills and strengthens areas that need extra focus. The objective is to get kids moving and stimulated through various body and mind-stimulating activities to grow their knowledge of mathematics. Math on the Move presents arithmetic as motivational hands-on activities that children can and want to do, such as handling objects to solve problems, math games, math centers, and kinesthetic activities requiring them to think beyond rote learning! My goal in this class is to keep kids engaged and motivated to explore targeted concepts. Math on the Move will strengthen number sense, geometry, introduction to money, and investigate measurement. This class is designed to engage all learners and allow them to practice their skills at a level of comfortable success. Let me share my love for teaching math and allow your child the gift of enthusiasm as they explore math concepts this summer.

Maximum enrollment: 20  
Instructor: Jenny Castillo  
Tuition: \$200

### **756 Snakes & Spiders (AGES 4-7)**

Embark on an extraordinary adventure as a nature detective! Explore the fascinating world of spiders, reptiles, and amphibians up close. Dive into the excitement with playdough and art, discovering the amazing lives of these cool critters. Build fantastic habitats to take home, and get ready to create your very own animal skeleton replica – it's going to be a blast! This class is loaded with everything you've ever wanted to know about creepy crawlers and slithery pals. And here's the best part – become a fearless explorer and wrap a REAL snake around you! Don't miss out on the coolest adventure in learning about animals – join us for an unforgettable experience!

Maximum enrollment: 20

Instructor: Clint Proctor

Tuition: \$200

### **758 Paint Me a Story - Art and Literature (AGES 5-8)**

Combine literature and art, and your child will show you how creative they can be! This class will use a literature-based curriculum to explore language and stories while making art. Students will learn to draw a dancing giraffe and create a moonlit sky based on the popular book, "Giraffes Can't Dance." They will also learn about texture and the use of bright colors as they create captivating pieces inspired by Eric Carle. Our art activities will perfectly complement the stories we read together. Students will be exposed to different art techniques as they create masterpieces inspired by popular children's books.

Maximum enrollment: 20

Instructor: Michelle Wiley

Tuition: \$200

### **760 Jr. Doctor (AGES 5-9)**

So, you want to be in the medical field, or simply learn how the body works? We will take an in-depth look at the different systems of the body. Participants will assume the role of a doctor or nurse and learn how the organs work and function together. You will dress like a physician, use medical equipment, and evaluate and care for various injuries. This is a must-take class for all aspiring healthcare professionals - inspire your way to the future!

Maximum enrollment: 20

Instructor: Sylvia Sarate

Tuition: \$200

### **762 Act Up With Drama Kids This Summer - "Make Them Laugh" (AGES 5-12)**

Prepare for a week-long escapade into the whimsical world of laughter and entertainment at our extraordinary camp! Inspired by the timeless words of Milton Berle, who declared that "laughter is an instant vacation," this experience goes beyond the ordinary. Campers will engage in zany drama activities and master the art of comedy and clowning, creating their own moments of hilarity. Picture the thrill of witnessing these emerging comedians showcase their talents in a dazzling Big Show finale, promising an unforgettable fusion of joy, surprises, and loud laughter. Don't miss the chance to join us for a week of pure delight, forging friendships, and creating memories in a laughter-filled haven – reserve your spot now for an enchanting journey into the magic of instant vacations through the art of humor!

Maximum enrollment: 30

Instructor: Sandra Detamore

Tuition: \$200

### **764 Star Wars & Jedi Academy (AGES 6-10)**

We are calling all young Jedi, Padawan, Mandalorian, and Baby Yodas! Are you ready to experience the thrilling world of Star Wars like never before? Are you prepared to embark on an exciting journey through the galaxy far away? Join us for an unforgettable Galactic Star Wars adventure as we explore the iconic universe loved by fans of all ages. This class is specially designed for K-5th graders, offering an immersive and engaging experience they won't forget. Don't miss out on this unique opportunity to explore the Force and embark on an unforgettable adventure! May the Force be with you as we journey together through the fantastic world of Star Wars!

Maximum enrollment: 20

Instructor: John MacLaren

Tuition: \$200

### **766 The Dance Party (AGES 6-11)**

Get ready to groove and move in The Dance Party! Calling all dancers to join the fun as we learn exciting dance routines, make new friends, and share our dance skills. Whether you're a beginner, intermediate, or advanced dancer, all are welcome in this vibrant dance community. Ages 6-11 years old will come together for a dance extravaganza where creativity knows no bounds, and every step is a celebration. Join us for a dance-filled adventure where rhythm, friendship, and self-expression take center stage. Let's dance to new skills, new friends, and unforgettable moments on the dance floor!

Maximum enrollment: 20

Instructor: Karen Johnson

Tuition: \$200

### **768 Complete Chess (AGES 6-12)**

Experience the world of chess with the Complete Chess summer program at San Antonio Academy! Why chess? Chess is not just a game. It's an unparalleled educational tool that enhances critical thinking, problem-solving, and strategic planning skills. Your child will gain invaluable life skills and have a fantastic time with their newfound hobby. Why choose Complete Chess? At Complete Chess, we strive to better the communities we serve by providing a complete chess education in a positive and nourishing environment. By making chess accessible, we hope to empower children and adults alike with the tools to increase their academic performance, decision-making, and leadership. We believe the seeds we plant today will create a better world tomorrow. Complete body, Complete mind, Complete Chess.

Maximum enrollment: 16

Instructor: Jesse Lozano

Tuition: \$200

### **770 NASA Knows Newton (AGES 7-9)**

Your child can master the basics of physical science in this course! We'll learn all about Sir Isaac Newton's "Three Laws of Motion" using "education from space" (produced by NASA), rotation labs, and even a song! Experience IS the best teacher, and "hands-on," inquiry-based science provides the experience your budding young scientist needs to understand physical science's most important concepts. Learning was NEVER this much fun before . . . and perfecting the "clean & jerk" method of table cloth removal – with the table still SET – is just icing on the "Cake of Pre-Physics Knowledge"!

Maximum enrollment: 20

Instructor: JoAnne Burch

Tuition: \$200

### **772 Passion for Fashion (AGES 7-9)**

If you have a passion for fashion, this is the camp for you! Students will get to express their unique style and create one-of-a-kind designs, all while learning about the importance of sustainable fashion. Learn about the effects of fast fashion on the planet and how we can make a difference. Students will up-cycle and repurpose to create projects such as scrunchies, tie-dye t-shirts, throw pillows, tote bags, and more!

Maximum enrollment: 15  
Instructor: Abbey Weaver  
Tuition: \$200

### **774 LEGO® - Build a City (AGES 7+)**

Explore the exciting world of LEGO® bricks and unleash your creativity as you construct a vibrant miniature city! Build awe-inspiring structures like airports, fire and police stations, skyscrapers, sports stadiums, office buildings, homes, bridges, towers, train stations, city hall, schools, hospitals, roads, parks, playgrounds, farms, and ranches, all using the iconic LEGO® bricks and elements. Embark on a journey that blends fun and learning, where mathematics and engineering principles come to life in the design of your unique creations. Dive into measurement, estimation, architectural forms, and geometric concepts while building your cityscape. Discover the art of “interlocking” and roof-building techniques to craft solid structures that stand tall and proud. Design and customize vehicles like cars, trucks, planes, boats, and buses, adding a dynamic touch to your LEGO® cityscape. Each week brings a fresh opportunity to create something entirely unique, as diverse as the participants’ imaginations. Sign up for multiple sessions and let your imagination soar to new heights!

Maximum enrollment: 30  
Instructor: Jim O’Brien (in memory of Beth O’Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$200

### **776 STEAM Robotics - Motorized Machines & Mechanisms (AGES 7+)**

Join us to enjoy a series of cross-curricular, theme-based activities that develop STEAM skills: Science, Technology, Engineering, Art, and Mathematics, as well as language and communication concepts. This workshop features robots built with specific LEGO® bricks and elements and focuses on various moving parts. Try creating an airplane, boat, alligator, or a monkey! Throughout the week, participants will build several robots that incorporate a variety of parts, such as a motor, tilt sensor, and motion sensor. Those wishing to advance beyond basic builds are encouraged to enroll in additional sessions.

Maximum enrollment: 20  
Instructor: Jim O’Brien (in memory of Beth O’Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$220

### **778 Ukuleles Are Poppin! (AGES 7+)**

Strum, drum, and play your favorite tunes at our Ukulele Camp! Join us for a musical adventure where you’ll learn popular songs using ukuleles, keyboards, and percussion instruments. Unleash your inner rockstar in a camp filled with excitement and creativity. Don’t miss out – sign up now for a harmonious experience that will have you making music in no time!

Maximum enrollment: 10  
Instructor: Traci Navas  
Tuition: \$200

### **780 Wildcat Dodgeball (AGES 7+)**

Get ready for a week of high-energy, action-packed fun with Wildcat Dodgeball! Led by Keystone coach Kyle Unruh, this program offers an exciting lineup of dodgeball games that will keep participants on their toes. Every day, from the classic dodgeball game to variations like Popcorn, Resurrection, and Medic, promises a new and thrilling challenge. Participants will experience the joy of friendly competition, teamwork, and strategic play. Join us for a week filled with dodging, ducking, diving, and laughter as we embrace the exhilarating world of Wildcat Dodgeball!

Maximum enrollment: 30  
Instructor: Kyle Unruh  
Tuition: \$200

### **782 Face Painting (AGES 8+)**

Get ready for a week of face-painting fun! Join us as students learn to paint flowers, butterflies, and adorable animals on their faces. We’ll kick off with simple designs like flowers and gradually move to more exciting animals, such as cats, foxes, bunnies, and even wolves. The creativity doesn’t stop there – students will also explore face-painting fantasy creatures like dragons and unicorns or dive into Halloween-themed fun with zombies and spiderwebs. Every day is a new adventure, with students deciding what to paint next. To top it off, students will take home their own face painting set at the end of the week to keep the artistic fun going!

Maximum enrollment: 15  
Instructor: Tian Xing  
Tuition: \$200

### **784 Making Chinese Food is a Piece of Cake! (AGES 8+)**

Everyone on the planet loves Chinese food. It’s delicious and fun to make. Since your instructor is a native of China and loves to prepare authentic Chinese dishes, she will ensure you gain plenty of hands-on experience making dumplings, spring rolls (a Chinese New Year must-have), healthy fried rice with eggs and vegetables, and green onion pancakes. On the last day, we will draw these four dishes on a white T-shirt and write the Chinese characters for these dishes we made together and the detailed recipes on paper to bring home!

Maximum enrollment: 15  
Instructor: Xueling Xu  
Tuition: \$200

### **786 Minecraft Survivor (AGES 8+)**

Embark on a thrilling virtual survival challenge with our Minecraft Survivor camp! Campers will be grouped into teams and tasked with specific challenges, requiring them to collaborate to ensure the survival of their group. From building and tearing down structures to running and even flying within Minecraft, participants will engage in a series of exciting mini-games that test their teamwork and strategic skills. All the action takes place on a dedicated secure server, prioritizing both cooperative play and safety. Get ready for an immersive experience where creativity meets strategy, and only the most resourceful teams will emerge victorious in the Minecraft Survivor challenge!

Maximum enrollment: 20  
Instructor: Frank & Amy Ogo  
Tuition: \$200

**788B Out on The Town (Continued) - FULL DAY CLASS (AGES 8+)**

Prepare for a day of endless excitement as we zip around town to your favorite destinations! Join us for a thrilling adventure that includes everything from bowling, laser tag to indoor mini-golf, theme parks, and beyond. This is your chance to experience non-stop fun and create memories that will last a lifetime. Hurry, spots are filling up fast, so seize the moment and sign up for a day packed with excitement, laughter, and unforgettable moments! Don't miss out on the thrill – let the adventure begin!

\*\*When enrolling online in this full-day class, enter both Class 736A (the morning session) and 788B (the afternoon session), and also one of our lunch options. If you need assistance, call 210-736-5876.

Instructor: Myron Jones

**790 Pie Kitchen (AGES 8+)**

Whisk your budding chefs into a world of pie-making magic. Students will create their pies daily, from flaky and graham cracker crusts to an ice box, fruit, savory, and hand pies. The sweetest part? They'll compile their tried and true recipes into a personalized, illustrated cookbook – a delicious souvenir of their culinary adventures. Join us for a short and sweet journey where every day is filled with the joy of making and savoring homemade pies!

Maximum enrollment: 20

Instructor: Linda Cowan

Tuition: \$220

**792 Rock & Roll Boot Camp (AGES 8+)**

Elevate your musical journey with the exclusive opportunity provided by Dr. Owen Duggan, the Academy's Director of Music. Young musicians are invited to delve into the world of guitar, drums, keyboard, and vocals under his expert guidance. Enjoy ample personal attention as you explore the foundations of music theory and master the art of playing a simple rock/blues song. This is your chance to refine your skills, unlock your musical potential, and embark on a rewarding musical adventure with a seasoned professional. Enroll now for a unique and personalized experience that will set you on the path to musical excellence!

Maximum enrollment: 12

Instructor: Owen Duggan

Tuition: \$200

**794 Among Us – Game Theory (AGES 9+)**

Step into the intriguing world of Among Us - Game Theory class! With over 50,000,000 monthly players, this wildly popular game comes to life in the classroom. Explore Among Us in various forms, from the online game to board games and live-action adaptations. Students will delve into the art of deception, honing their skills to stay hidden, recognize suspicious behavior, and become adept detectives. This engaging class provides a controlled environment for beginners and veterans to experience the game, allowing them to test their wits in a fun and strategic setting. Do you have what it takes to be the imposter without being labeled "SUS"? Join us for an exciting journey into the thrilling realm of Among Us, where every move could be a clue, and trust is a precious commodity!

Maximum enrollment: 15

Instructor: Jerry Campa

Tuition: \$200

**796 A Journey Into The World of Ethics & Professional Behavior (AGES 10+)**

Join our course to explore the fascinating world of ethical and professional behavior! We'll focus on professionals like doctors and engineers, discovering their crucial roles in communities. Dive into exciting stories about good choices, teamwork, and kindness. Engage with cool projects and games, and don't miss our grand finale – a group project where you'll present an ethical case to your friends. Plus, get ready for a special session with a superstar guest speaker, an expert in doing the right thing! It's an incredible learning adventure you won't want to miss – sign up now.

Maximum enrollment: 20

Instructor: Sherry Omid

Tuition: \$200

## Week 8: July 22-26

### 802 Blow Your Top (AGES 4-7)

Boom! Ever wonder how to make chemical reactions at home? Well, here is your chance! This action-packed class will teach us what it takes to cause explosions using solids, liquids, and gases. Get messy and excited with seven experiments that can be done at home with household materials. Get your own experiment kits! Learn about how pressure and temperature can create large explosions. Get all scientific on Friday for a Science Extravaganza!

Maximum enrollment: 20

Instructor: Clint Proctor

Tuition: \$200

### 804 Face Painting (AGES 4-7)

Get ready for a week of face-painting fun! Join us as students learn to paint flowers, butterflies, and adorable animals on their faces. We'll kick off with simple designs like flowers and gradually move to more exciting animals, such as cats, foxes, bunnies, and even wolves. The creativity doesn't stop there – students will also explore face-painting fantasy creatures like dragons and unicorns or dive into Halloween-themed fun with zombies and spiderwebs. Every day is a new adventure, with students deciding what to paint next. To top it off, students will take home their own face painting set at the end of the week to keep the artistic fun going!

Maximum enrollment: 15

Instructor: Tian Xing

Tuition: \$200

### 806 Making Chinese Food is A Piece of Cake! (AGES 4-7)

Everyone on the planet loves Chinese food. It's delicious and fun to make. Since your instructor is a native of China and loves to prepare authentic Chinese dishes, she will ensure you gain plenty of hands-on experience making dumplings, spring rolls (a Chinese New Year must-have), healthy fried rice with eggs and vegetables, and green onion pancakes. On the last day, we will draw these four dishes on a white T-shirt and write the Chinese characters for these dishes we made together and the detailed recipes on paper to bring home!

Maximum enrollment: 15

Instructor: Xueling Xu

Tuition: \$200

### 808 Math on the Move (AGES 4-7)

Math on the Move is a fun and interactive class that will reinforce students' core math skills and strengthen areas that need extra focus. The class objective is to get kids moving and stimulated through various body and mind-stimulating activities to grow their knowledge of mathematics. Math on the Move presents arithmetic as motivational hands-on activities that children can and want to do, such as handling objects to solve problems, math games, math centers, and kinesthetic activities requiring them to think beyond rote learning! My goal in this class is to keep kids engaged and motivated to explore targeted concepts. Math on the Move will strengthen number sense, geometry, introduction to money, and investigate measurement. This class is designed to engage all learners and allow them to practice their skills at a level of comfortable success. Let me share my love for teaching math and allow your child the gift of enthusiasm as they explore math concepts this summer.

Maximum enrollment: 20

Instructor: Jenny Castillo

Tuition: \$200

### 810 Sing With Your Bestie! Be a Rockstar! (AGES 4-7)

Learning a new language and culture is made much easier by listening to songs, singing the songs, and using TPR. We will learn numbers, weather expressions, the Spanish version of popular nursery rhymes, authentic Spanish nursery rhymes, days of the week, months of the year, and basic Spanish expressions. We will sing the Spanish birthday song learned in class

## Week 8: July 22-26

### MORNING CLASSES

- 802 Blow Your Top (4-7)
- 804 Face Painting (4-7)
- 806 Making Chinese Food is A Piece of Cake! (4-7)
- 808 Math on the Move (4-7)
- 810 Sing With Your Bestie! Be a Rockstar! (4-7)
- 812 Jr. Engineering (5-8)
- 814 LEGO® - Creative Challenges & Independent Projects (5-8)
- 816 Marshmallow Blasters (5-8)
- 818 "Mum" Is the Word (5-8)
- 820 Act Up With Drama Kids This Summer - "Make Them Laugh" (5-12)
- 822 Wildcat Sports Camp (5+)
- 824 Culinary Arts and Crafts - Beginners (6-9)
- 826 The Dance Party (6-11)
- 828 Complete Chess (6-12)
- 830 Ball Up (7+)
- 832 Movement Speed Training & Games (7+)
- 834 Pajama Party (7+)
- 836 STEAM Robotics - Motorized Machines & Mechanisms (7+)
- 838 Minecraft Survivor (8+)
- 840 Rock & Roll Boot Camp (8+)
- 842 Among Us – Game Theory (9+)
- 844 3-D Printing (11+)

### AFTERNOON CLASSES

- 852 Hot Wheels® Racers (4-7)
- 854 Reading Safari (4-7)
- 856 Bugs, Spiders & Snakes... Oh NO! (5-8)
- 858 Wildcat War Games (5-8)
- 860 Act Up With Drama Kids This Summer - "Make Them Laugh" (5-12)
- 862 Complete Chess (6-12)
- 864 Let's RAP, ACT, and Learn About BIRDS! (7-10)
- 866 LEGO® - Build a City (7+)
- 868 STEAM Robotics - Motorized Machines & Mechanisms (7+)
- 870 Wildcat Dodgeball (7+)
- 872 Zen Me Yoga (7+)
- 874 Embroidery & Beading! - Beginner (8+)
- 876 Face Painting (8+)
- 878 Making Chinese Food is A Piece of Cake! (8+)
- 880 Minecraft Survivor (8+)
- 882 Out on the Town (8+)
- 884 Rock & Roll Boot Camp (8+)
- 886 Sing With Your Bestie! Taylor Swift Edition (8+)
- 888 What Can You Do With a T-shirt? (8+)
- 890 Artificial Intelligence: Adventures for Young Minds (10+)
- 892 3-D Printing (11+)

at our birthday party when we conclude our fun-filled week! They will leave with the book they will create in class with the lyrics for the songs and everything else we have completed!

Maximum enrollment: 15  
Instructor: Gloria Lowe  
Tuition: \$200

### **812 Jr. Engineering (AGES 5-8)**

Do you love building bridges, skyscrapers, cars, and protective enclosures? Every day, you will discover firsthand how to create and build unique structures needed in society. Work in a team to race against the clock to design a way to protect an egg when it's dropped. Build the tallest structure given specific materials. Build a bridge that can support the most weight before falling apart. Design and create a car that goes the farthest by overcoming friction. You will love every daily STEM challenge. Learn to work as a team and as an individual to capture the coveted Jr. Engineering Award of Excellence! Imagination, design, creativity, and the ability to build plays a part in becoming the Ultimate Jr. Engineer. New challenges every week!

Maximum enrollment: 20  
Instructor: Sylvia Sarate  
Tuition: \$200

### **814 LEGO® - Creative Challenges & Independent Projects (AGES 5-8)**

Create unique two- and three-dimensional structures and objects using LEGO® bricks—problem-solving, individually and in a team setting. Examples of challenges include (1) using only one size or one color of bricks, (2) building a specific object, shape, or animal, and (3) building with a predetermined number of bricks. Math concepts, estimation, prediction, critical thinking, and reasoning are some of the many skills enhanced as students construct their LEGO bricks "builds." These artistic builds are full of individual creativity. Verbal and communication skills are enhanced as the students describe their creations to others. In addition to imagination, math, and engineering skills are used as they progress from their initial concept to their finished projects. This class may be taken multiple times, as the challenges and projects are endless.

Maximum enrollment: 30  
Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$200

### **816 Marshmallow Blasters (AGES 5-8)**

Come have a BLAST with us! You will create your very own P.V.C. Marshmallow Blaster and take it home! However, you will use it during the week first. You will learn how to use your blaster, as well as how to work as part of a team to capture or take out your opponents. Discover through practice and training how to ambush your rivals or shoot from a distance to take the opponents out before they can get to you. Use engineering principles to design the best equipment, maybe a shield, a longer barrel, or camouflage? Who will qualify as a sniper or a sharpshooter? Who will win the daily battle? Can anyone take out Mr. MacLaren? It will be a BLAST!

Maximum enrollment: 20  
Instructor: John MacLaren  
Tuition: \$200

### **818 "Mum" Is the Word (AGES 5-8)**

Children are often reluctant to get involved in a theater class due to a lack of self-confidence. Pantomime is naturally the

most appropriate introduction to acting because it allows children to experience being on a stage in a non-threatening manner. Join us as we lead children in creating their own stories and then "telling" those stories using pantomime. In this class, students focus on storytelling techniques (within any artistic venue), visualization/presentation of "objects," body control and movement techniques for communicating specific objects & actions, and the use of traditional "white face" makeup. The culminating experience will be an actual presentation utilizing traditional costume, makeup, and music. Family & Friends will be invited to this performance on Friday... and you might want to bring a camera. Some GREAT pics can be assured!

Maximum enrollment: 10  
Instructor: JoAnne Burch  
Tuition: \$200

### **820 Act Up With Drama Kids This Summer - "Make Them Laugh" (AGES 5-12)**

Prepare for a week-long escapade into the world of laughter and entertainment! Inspired by the timeless words of Milton Berle, who declared that "laughter is an instant vacation," this experience goes beyond the ordinary. Campers will engage in zany drama activities and master the art of comedy and clowning, creating their own moments of hilarity. Picture the thrill of witnessing these emerging comedians showcase their talents in a dazzling Big Show finale, promising an unforgettable fusion of joy, surprises, and loud laughter. Don't miss the chance to join us for a week of pure delight, forging friendships, and creating memories in a laughter-filled haven - reserve your spot now for an enchanting journey into the magic of instant vacations through the art of humor!

Maximum enrollment: 30  
Instructor: Sandra Detamore  
Tuition: \$200

### **822 Wildcat Sports Camp (AGES 5+)**

Gear up for a week of sports excitement with Keystone Coach Kyle Unruh at Wildcat Sports Camp! This dynamic program offers a blend of traditional and non-traditional sports, ensuring a fun and engaging experience for participants. Throughout the week, campers will enjoy a variety of activities, from the fast-paced action of rugby to creative kickball variations, as well as soccer and hockey. Under Coach Kyle's guidance, participants will not only build their skills in each sport but also experience the thrill of friendly competition and teamwork. Join us for a week of sportsmanship, camaraderie, and the joy of exploring a diverse range of athletic endeavors in Wildcat Sports Camp!

Maximum enrollment: 30  
Instructor: Kyle Unruh  
Tuition: \$200

### **824 Culinary Arts and Crafts - Beginners (AGES 6-9)**

Welcome to Beginners Culinary Arts and Crafts, where a delectable journey of culinary exploration awaits you! Led by Chef Danny, this engaging class is tailored for budding chefs eager to learn various culinary skills. From crafting ocean cookies to mastering the art of candy sushi, participants will embark on a delightful adventure in the kitchen. Explore different aspects of cooking and create unique dishes inspired by diverse cultures, turning every session into a flavorful experience. Join us for a summer filled with creativity, delicious discoveries, and the joy of cooking in Beginners Culinary Arts and Crafts. Get ready to savor the flavors of fun!

Maximum enrollment: 16  
Instructor: Daniel Arkhipov  
Tuition: \$220

### **826 The Dance Party (AGES 6-11)**

Calling all dancers to join the fun as we learn exciting dance routines, make new friends, and share our dance skills. Whether you're a beginner, intermediate, or advanced dancer, all are welcome in this vibrant dance community. Ages 6-11 years old will come together for a dance extravaganza where creativity knows no bounds, and every step is a celebration. Join us for a dance-filled adventure where rhythm, friendship, and self-expression take center stage. Let's gain new skills, new friends, and unforgettable moments on the dance floor!

Maximum enrollment: 20  
Instructor: Karen Johnson  
Tuition: \$200

### **828 Complete Chess (AGES 6-12)**

Experience the world of chess with the Complete Chess program at San Antonio Academy! Why chess? Chess is not just a game. It's an unparalleled educational tool that enhances critical thinking, problem-solving, and strategic planning skills. Your child will gain invaluable life skills and have a fantastic time with their newfound hobby. Why choose Complete Chess? At Complete Chess, we strive to better the communities we serve by providing a complete chess education in a positive and nourishing environment. By making chess accessible, we hope to empower children and adults alike with the tools to increase their academic performance, decision-making, and leadership. We believe the seeds we plant today will create a better world tomorrow. Complete body, Complete mind, Complete Chess.

Maximum enrollment: 16  
Instructor: Jesse Lozano  
Tuition: \$200

### **830 Ball Up (AGES 7+)**

Dribble, shoot, score! Step onto the court and dive into the world of basketball with our dynamic summer camp class! Designed to enhance fundamental skills and teamwork, young athletes will focus on mastering ball handling, layups, and reading court plays. Led by experienced coaches, participants will engage in friendly scrimmages, applying their newfound skills and fostering a love for the game. From precision passes to the exhilaration of teamwork, this class caters to all skill levels, providing personalized guidance and a supportive environment. Join us for a slam-dunk summer filled with dribbles, layups, and the joy of discovering the thrill of basketball on the court!

Maximum enrollment: 20  
Instructor: Breyana Gadson  
Tuition: \$200

### **832 Movement Speed Training & Games (AGES 7+)**

Boost your athletic performance with our Movement Speed Training & Games class! Tailored for aspiring athletes, this program introduces specific movement footwork skills essential for success on the playing field in a variety of sports. Students will delve into understanding and demonstrating efficient movement patterns, with ample opportunities to showcase their skills through game-like speed and quickness scenarios throughout the week. Whether you're sprinting, changing directions, or enhancing agility, this class provides valuable insights and practical training to elevate your overall performance. Join us for a dynamic week where every move brings you closer to improved speed, agility, and success in your favorite sports!

Maximum enrollment: 30  
Instructor: Kevin Wiley  
Tuition: \$200

### **834 Pajama Party (AGES 7+)**

Get ready for the ultimate girlie girl experience in our Pajama Party! This lively gathering is all about fun and relaxation. Join us for a night of creativity and camaraderie as we learn different braids, paint fingernails, and enjoy makeovers. Dive into the world of DIY jewelry and hair bows, and express your style by creating a custom sleep-over shirt and pillowcase. The night wouldn't be complete without a movie and popcorn, and of course, we'll whip up some delicious s'mores and more! This Pajama Party is the perfect opportunity to hang out with friends, share laughter, and create lasting memories in a cozy and playful atmosphere. Join us for an unforgettable night of pampering and fun where every girl can feel like a star!

Maximum enrollment: 20  
Instructor: Linda Cowan  
Tuition: \$200

### **836 STEAM Robotics - Motorized Machines & Mechanisms (AGES 7+)**

Join us to enjoy a series of cross-curricular, theme-based activities that develop STEAM skills: Science, Technology, Engineering, Art, and Mathematics, as well as language and communication concepts. This workshop features robots built with specific LEGO® bricks and elements and focuses on various moving parts. Try creating an airplane, boat, alligator, or a monkey! Throughout the week, participants will build several robots that incorporate a variety of parts, such as a motor, tilt sensor, and motion sensor. Those wishing to advance beyond basic builds are encouraged to enroll in additional sessions.

Maximum enrollment: 20  
Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$220

### **838 Minecraft Survivor (AGES 8+)**

Embark on a thrilling virtual survival challenge with our Minecraft Survivor camp! Campers will be grouped into teams and tasked with specific challenges, requiring them to collaborate to ensure the survival of their group. From building and tearing down structures to running and even flying within Minecraft, participants will engage in a series of exciting mini-games that test their teamwork and strategic skills. All the action takes place on a dedicated secure server, prioritizing both cooperative play and safety. Get ready for an immersive experience where creativity meets strategy, and only the most resourceful teams will emerge victorious in the Minecraft Survivor challenge!

Maximum enrollment: 20  
Instructor: Frank & Amy Ogo  
Tuition: \$200

### **840 Rock & Roll Boot Camp (AGES 8+)**

Elevate your musical journey with the exclusive opportunity provided by Dr. Owen Duggan, the Academy's Director of Music. Young musicians are invited to delve into the world of guitar, drums, keyboard, and vocals under his expert guidance. Enjoy ample personal attention as you explore the foundations of music theory and master the art of playing a simple rock/blues song. This is your chance to refine your skills, unlock your musical potential, and embark on a rewarding musical adventure with a seasoned professional. Enroll now for a unique and personalized experience that will set you on the path to musical excellence!

Maximum enrollment: 12  
Instructor: Owen Duggan  
Tuition: \$200

### **842 Among Us – Game Theory (AGES 9+)**

Step into the intriguing world of Among Us - Game Theory class! With over 50,000,000 monthly players, this wildly popular game comes to life in the classroom. Explore Among Us in various forms, from the online game to board games and live-action adaptations. Students will delve into the art of deception, honing their skills to stay hidden, recognize suspicious behavior, and become adept detectives. This engaging class provides a controlled environment for beginners and veterans to experience the game, allowing them to test their wits in a fun and strategic setting. Do you have what it takes to be the imposter without being labeled "SUS"? Instructor: Jerry Campa  
Tuition: \$200

### **844 3-D Printing (AGES 11+)**

Embark on a journey of discovery and creativity with our "3-D Printing Adventures: Design, Create, Innovate!" program. My main goal of this course is to offer an engaging introduction to 3-D printing, where students bring their imaginative ideas to life. Our curriculum includes exciting projects, from designing custom keychains to constructing real-world models, encouraging the application of critical thinking and problem-solving skills. Participants will witness their designs materialize layer by layer, gaining a deeper understanding of the mechanics and science behind 3-D printing technology. This program perfectly blends creativity, technology, fun, and challenge and provides a supportive environment to innovate and explore. Sign up now for a summer filled with technological exploration and hands-on learning!

Maximum enrollment: 15  
Instructor: Josh Rochon  
Tuition: \$200

### **852 Hot Wheels® Racers (AGES 4-7)**

VROOM! VROOM! Start your engines! This exciting, fast-paced class teaches the scientific principles of momentum, force, inertia, speed, and acceleration. Receive a driver's license, trophies, and a racing bag, and collect a new Hot Wheels® daily! Get ready for the big race on Friday! Everyone is a winner in Hot Wheels® Racers.

Maximum enrollment: 20  
Instructor: Clint Proctor  
Tuition: \$200

### **854 Reading Safari (AGES 4-7)**

Embark on a reading safari where young people explore the wild world of words. Through captivating tales and literacy adventures, students will navigate the rich landscape of storytelling. Engage in thrilling literacy activities under the safari sun and unlock the treasures hidden within the pages of each story. Additionally, we will engage in hands-on activities to learn and practice phonics skills. Our safari guide will cover the following daily lesson objectives: phonological awareness, phonemic awareness, and Read-Aloud in a fun, engaging learning environment. Students will participate in tactile techniques using various materials to manipulate letter sounds and engage in new stories daily. Get ready for a wild ride through the jungle of words!

Maximum enrollment: 20  
Instructor: Jenny Castillo  
Tuition: \$200

### **856 Bugs, Spiders & Snakes...Oh NO! (AGES 5-8)**

Who loves bugs & insects? This class is an adventure as you focus on creepy, crawly, slippery creatures. Dissect a real grasshopper and discover what the inside really looks like! Examine a natural snakeskin. Make a bug mask and study the life cycle of a butterfly. Create your bugs using marshmallows, pretzels, and raisins; you can eat them later. Use nets & magnifying glasses to capture and study the most notable bugs from the outside world! Come play with real worms as we explore their external anatomy and release them to their natural habitat. This is such a fun and exciting class; your child will talk about it for weeks to come. Space is limited to 20, so sign up early so your kids don't bug you.

Maximum enrollment: 20  
Instructor: Sylvia Sarate  
Tuition: \$200

### **858 Wildcat War Games (AGES 5-8)**

Become part of the Wildcat War Games! Learn to work as a team and win daily war battles. Develop leadership skills as you see firsthand how to overcome obstacles and use various tactical strategies during battle. Using battle equipment such as water blasters, Nerf guns, water balloons, and more, campers learn to use the high ground, camouflage, and shields to become the ultimate warrior! Battles are won in the mind long before they are won on the battlefield! Learn what it takes.

Maximum enrollment: 20  
Instructor: John MacLaren  
Tuition: \$200

### **860 Act Up With Drama Kids This Summer - "Make Them Laugh" (AGES 5-12)**

Prepare for an escapade into the world of laughter and entertainment! Inspired by the timeless words of Milton Berle, who declared that "laughter is an instant vacation," this experience goes beyond the ordinary. Campers engage in many drama activities and master the art of comedy and clowning, creating their own moments of hilarity. Witness these emerging comedians showcase their talents in a dazzling Big Show finale, promising an unforgettable fusion of joy, surprises, and laughter. Don't miss the chance to join us for a week of pure delight, forging friendships, and creating memories in a laughter-filled haven – reserve your spot now for a journey into the magic of instant vacations through the art of humor!

Maximum enrollment: 30  
Instructor: Sandra Detamore  
Tuition: \$200

### **862 Complete Chess (AGES 6-12)**

Experience the world of chess with the Complete Chess program at San Antonio Academy! Why chess? Chess is not just a game. It's an unparalleled educational tool that enhances critical thinking, problem-solving, and strategic planning skills. Your child will gain invaluable life skills and have a fantastic time with their newfound hobby. Why choose Complete Chess? At Complete Chess, we strive to better the communities we serve by providing a complete chess education in a positive and nourishing environment. By making chess accessible, we hope to empower children and adults alike with the tools to increase their academic performance, decision-making, and leadership. We believe the seeds we plant today will create a better world tomorrow. Complete body, Complete mind, Complete Chess.

Maximum enrollment: 16  
Instructor: Jesse Lozano  
Tuition: \$200

### **864 Let's RAP, ACT, and Learn About BIRDS! (AGES 7-10)**

Here's a chance for your child to be immersed in the physiology, migration patterns, adaptations, contributions ... and BEAUTY of birds! This class is based upon a dramatized rap, "Protect the Birds," performed by a nationally award-winning public school ecology club - presented at a Keep Texas Beautiful conference. As students prepare to rap/act out the verses (in which our topics are embedded), they will come to appreciate the unique attributes of "our feathered friends." They will also learn about protecting the environment so that we may "protect the birds" in our daily lives. In quoting Dr. Thomas Lovejoy: "If you take care of the birds, you take care of most of the world's big problems."

Maximum enrollment: 15  
Instructor: JoAnne Burch  
Tuition: \$200

### **866 LEGO® - Build a City (AGES 7+)**

Explore the exciting world of LEGO® bricks and unleash your creativity as you construct a vibrant miniature city! Build awe-inspiring structures like airports, fire and police stations, skyscrapers, sports stadiums, office buildings, homes, bridges, towers, train stations, city hall, schools, hospitals, roads, parks, playgrounds, farms, and ranches, all using the iconic LEGO® bricks and elements. Embark on a journey that blends fun and learning, where mathematics and engineering principles come to life in the design of your unique creations. Dive into measurement, estimation, architectural forms, and geometric concepts while building your cityscape. Discover the art of "interlocking" and roof-building techniques to craft solid structures that stand tall and proud. Design and customize vehicles like cars, trucks, planes, boats, and buses, adding a dynamic touch to your LEGO® cityscape. Each week brings a fresh opportunity to create something entirely unique, as diverse as the participants' imaginations. Sign up for multiple sessions and let your imagination soar to new heights!

Maximum enrollment: 30  
Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$200

### **868 STEAM Robotics - Motorized Machines & Mechanisms (AGES 7+)**

Join us to enjoy a series of cross-curricular, theme-based activities that develop STEAM skills: Science, Technology, Engineering, Art, and Mathematics, as well as language and communication concepts. This workshop features robots built with specific LEGO® bricks and elements and focuses on various moving parts. Try creating an airplane, boat, alligator, or a monkey! Throughout the week, participants will build several robots that incorporate a variety of parts, such as a motor, tilt sensor, and motion sensor. Those wishing to advance beyond basic builds are encouraged to enroll in additional sessions.

Maximum enrollment: 20  
Instructor: Jim O'Brien (in memory of Beth O'Brien), Rosemary Pratt, & Robin Bernhard  
Tuition: \$220

### **870 Wildcat Dodgeball (AGES 7+)**

Get ready for a week of high-energy, action-packed fun with Wildcat Dodgeball! Led by Keystone coach Kyle Unruh, this program offers an exciting lineup of dodgeball games that will keep participants on their toes. Every day, from the classic dodgeball game to variations like Popcorn, Resurrection, and Medic, promises a new and thrilling challenge. Participants

will experience the joy of friendly competition, teamwork, and strategic play. Join us for a week filled with dodging, ducking, diving, and laughter as we embrace the exhilarating world of Wildcat Dodgeball!

Maximum enrollment: 30  
Instructor: Kyle Unruh  
Tuition: \$200

### **872 Zen Me Yoga (AGES 7+)**

Embark on a journey of self-discovery and tranquility in our Mindful Moments summer camp class. Tailored for kids seeking balance and inner calm, this class goes beyond relaxation techniques by empowering participants to unwind their mind, body, and soul independently and under pressure. Guided by experienced instructors, children will explore mindfulness practices that foster resilience and emotional well-being. From soothing meditation to stress-relief exercises, this class provides a safe space for kids to cultivate a peaceful mindset in moments of calm and during challenges. Join us for a transformative experience where kids can embrace inner peace, mindfulness, and resilience that will benefit them both on and off the mat.

Maximum enrollment: 20  
Instructor: Breyana Gadson  
Tuition: \$200

### **874 Embroidery & Beading! - Beginner (AGES 8+)**

Discover the art of Embroidery & Beading in our Beginner class! Unleash your creativity as you learn the intricate craft of embroidery and embellishment. Whether you choose to design your artwork or select from various pre-made designs, this class offers a fantastic opportunity to create groovy masterpieces to adorn your walls. Take your creativity a step further by turning your embroidered creations into trendy iron-on patches for backpacks or jackets. Join us for a journey where every stitch and bead brings your artistic vision to life, and your unique creations become wearable or hangable works of art. Get ready to explore the world of embroidery and beading, transforming ordinary fabrics into extraordinary expressions of your personal style!

Maximum enrollment: 12  
Instructor: Jordan Adame  
Tuition: \$200

### **876 Face Painting (AGES 8+)**

Get ready for a week of face-painting fun! Join us as students learn to paint flowers, butterflies, and adorable animals on their faces. We'll kick off with simple designs like flowers and gradually move to more exciting animals, such as cats, foxes, bunnies, and even wolves. The creativity doesn't stop there – students will also explore face-painting fantasy creatures like dragons and unicorns or dive into Halloween-themed fun with zombies and spiderwebs. Every day is a new adventure, with students deciding what to paint next. To top it off, students will take home their own face painting set at the end of the week to keep the artistic fun going!

Maximum enrollment: 15  
Instructor: Tian Xing  
Tuition: \$200

### **878 Making Chinese Food is a Piece of Cake! (AGES 8+)**

Everyone on the planet loves Chinese food. It's delicious and fun to make. Since your instructor is a native of China and loves to prepare authentic Chinese dishes, she will ensure you gain plenty of hands-on experience making dumplings, spring rolls (a Chinese New Year must-have), healthy fried rice with eggs and vegetables, and green onion pancakes. On the last day, we will draw these four dishes on a white T-shirt and write the Chinese characters for these dishes we made together and the detailed recipes on paper to bring home!

Maximum enrollment: 15

Instructor: Xueling Xu

Tuition: \$200

### **880 Minecraft Survivor (AGES 8+)**

Embark on a thrilling virtual survival challenge with our Minecraft Survivor camp! Campers will be grouped into teams and tasked with specific challenges, requiring them to collaborate to ensure the survival of their group. From building and tearing down structures to running and even flying within Minecraft, participants will engage in a series of exciting mini-games that test their teamwork and strategic skills. All the action takes place on a dedicated secure server, prioritizing both cooperative play and safety. Get ready for an immersive experience where creativity meets strategy, and only the most resourceful teams will emerge victorious in the Minecraft Survivor challenge!

Maximum enrollment: 20

Instructor: Frank & Amy Ogo

Tuition: \$200

### **882 Out on the Town (AGES 8+)**

Prepare for an afternoon of endless excitement as we zip around town to your favorite destinations! Join us for a thrilling adventure that includes everything from bowling and laser tag to indoor mini-golf and beyond. This is your chance to experience non-stop fun and create memories that will last a lifetime. Hurry, spots are filling up fast, so seize the moment and sign up for a day packed with excitement, laughter, and unforgettable moments! Don't miss out on the thrill – let the adventure begin!

Maximum enrollment: 30

Instructor: Myron Jones

Tuition: \$310

### **884 Rock & Roll Boot Camp (AGES 8+)**

Elevate your musical journey with the exclusive opportunity provided by Dr. Owen Duggan, the Academy's Director of Music. Young musicians delve into the world of guitar, drums, keyboard, and vocals under his expert guidance. Enjoy ample personal attention as you explore the foundations of music theory and master the art of playing a simple rock/blues song. This is your chance to refine skills, unlock musical potential, and embark on a rewarding musical adventure with a seasoned professional. Enroll now for a unique and personalized experience that will set you on the path to musical excellence!

Maximum enrollment: 12

Instructor: Owen Duggan

Tuition: \$200

### **886 Sing With Your Bestie! Taylor Swift Edition (AGES 8+)**

Learn literary skills by singing along to Taylor Swift's songs! Learn academic skills such as foreshadowing, metaphors, similes, and more! Use the songs to help visualize these skills. We will end the week by making custom friendship bracelets.

Maximum enrollment: 20

Instructor: Gloria Lowe

Tuition: \$200

### **888 What Can You Do With a T-shirt? (AGES 8+)**

We are calling all creative spirits! Students will embark on exciting projects to alter T-shirts into personalized masterpieces daily. From creating stylish altered shirts to crafting trendy no-sew tote bags and braided headbands and even playing a fun bean-toss game, this camp is a vibrant celebration of wearable art. Unleash your creativity as you turn ordinary T-shirts into unique, fashion-forward items. Join us for a camp where self-expression knows no bounds, and each day brings a new opportunity to showcase your style in a fun and fabulous way!

Maximum enrollment: 20

Instructor: Linda Cowan

Tuition: \$200

### **890 Artificial Intelligence: Adventures for Young Minds (AGES 10+)**

Dive into the world of machine learning and artificial intelligence in our exciting course! Discover how AI systems work and how they interact with users. Your mission? Design and test a system that learns to respond to typed texts. We'll even explore ChatGPT, a super-smart language model from OpenAI, and learn fantastic strategies for using it. Plus, meet our Science Q&A Chatbot for interactive science fun! The best part? A visit to Trinity University to see and play with intelligent robots. Cap it all off with a fantastic final project to show off your newfound skills! Get ready for a learning adventure like no other – sign up now!

Maximum enrollment: 20

Instructor: Sherry Omid

Tuition: \$200
