

# PERSONALIZED, ENGAGING TUTORING AND HOMEWORK HELP — ANY TIME, ANY PLACE

You are the expert on your child's needs, we are the expert on personalized tutoring. Through Georgia's CLASS Act Program, students have a \$1,000 stipend to use on a tutoring vendor chosen by you — the parents and guardians of Clayton County students. We believe FEV Tutor should be that choice. Apply now to get your first choice of tutors - applications close March 27.

Here's what you should know about FEV Tutor and our award-winning approach to accelerated learning:

## INDIVIDUALIZED LEARNING PLANS (ILP)

*Target each student's learning gaps while accommodating different learning styles*

First, we pull your child's assessment data from NWEA MAP to better understand where their knowledge gaps are and what topics we need to focus on during our tutoring sessions. Then, we create individualized learning plans based on each child's NWEA MAP results, targeting the Georgia standards and skills they need to successfully complete their GMAS assessments.

FEV Tutor can provide support in math and ELA. Our tutoring sessions are designed to accelerate each child's learning and get them up to grade level.

## PARENT ENGAGEMENT & ACCESSIBILITY

*Keep critical family stakeholders fully informed 24/7*

As part of your program, our Customer Care Team is available daily by phone and email to help you understand your child's progress and needs. Plus, you can log into your child's FEV Tutor Dashboard anytime to watch recorded tutoring sessions and view exit ticket scores, learning plans, participation points, and more.

## LOWEST HOURLY RATE

*Your CLASS Act stipend goes furthest with FEV Tutor*

Our competitive pricing structure enables us to provide 28 personalized sessions to each student, ensuring they have the time to build the skills they need to master each subject and successfully prepare for their GMAS assessment.

## BEST-IN-CLASS TUTORS

*FEV Tutors are highly qualified and thoroughly trained*

Every FEV tutor is a highly qualified subject matter expert with a bachelor's degree in education, social science or engineering. They go through a background check and fingerprinting and then complete an extensive, multi-week training program. They also receive ongoing coaching and skill-building sessions to ensure they're using the latest tutoring best practices.

## EXAM BOOT CAMPS

*Georgia Milestones Assessment System (GMAS) and general exam preparation available*

FEV Tutor helps get your child ready to meet proficiency with GMAS and general exam preparation. Students are also able to work with their tutors to access archived sample GMAS or general exam questions to better aid in their exam prep.

## FLEXIBLE SCHEDULING

*Tutoring schedule that meets each student's availability*

We provide students with flexible and dynamic scheduling options for tutoring, including nights and weekends and before and after school.
