Spring Branch Independent School District

Summer School

2024

Spring Branch ISD offers summer programming for students in grades PK-12. The programs focus on the development of the student. Arranged as camps, students engage in learning activities focusing on literacy, numeracy and language development in the elementary grades. Secondary students focus on content specific intervention, credit recovery and original credit.

“The beautiful thing about summer school in SBISD is that it provides a variety of opportunities to get students excited about learning and build on their strengths through engaging experiences and aligned interventions,” said Julie Baggerly, SBISD director of intervention services.
