January 17, 2024

Board of Trustees Lake Dallas Independent School District P.O. Box 548 Lake Dallas, Texas 75065

To the Board of Trustees and the Citizens of the Lake Dallas Independent School District:

The Annual Comprehensive Financial Report of the Lake Dallas Independent School District (District) for the fiscal year ended August 31, 2023, is now submitted. Responsibility for the data's accuracy and the presentation's completeness and fairness, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to fairly present the financial position and results of the District's various funds and account groups. All disclosures necessary to enable the reader to understand the District's financial activities have been included.

Generally accepted accounting principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. In addition, the District's MD&A can be found immediately following the independent auditor's report.

The Lake Dallas Independent School District Board of Trustees (Board), a seven-member group, is the level of government, which has responsibilities for overall activities related to public elementary and secondary school education within the jurisdiction of the District. The District received funding from local, state, and federal funding sources. The District is not included in any other governmental "reporting entity" as defined in Section 2100, Codification of Governmental Accounting and Financial Reporting Standards, since Board members are elected by the public and have decision-making authority, the power to designate management, the responsibility to influence operations and primary accountability for fiscal matters significantly.

# Profile of the District

Lake Dallas ISD includes all the funds of the District, as well as any component units for which the District is financially accountable.

Lake Dallas ISD is adjacent to Lewisville Lake in North Texas. The school district covers 9.8 square miles in Denton County, with the beauty of the lake as a backdrop. Lake Dallas, Shady Shores, Corinth, and Hickory Creek are the four towns within the boundaries of Lake Dallas ISD. With a focus on family and community, Lake Dallas ISD is excited about the achievement of the three elementary schools, one middle school, and one high school. Our mission is to provide a quality education so students can reach their full academic and social potential.

Located approximately 30 miles from downtown Dallas on the growing I-35 corridor, the District has recorded an increased population over the past several decades. As a result, the character of the District has changed from a part-time recreational and retirement community to a year-round residential area. New home construction has been significant but has slowed dramatically in recent years.

The Lake Dallas ISD is approximately twenty miles from the Dallas/Ft. Worth metroplex and from DFW International Airport. The Dallas-Ft. Worth area is an important center of trade, finance, and other major services. The quality of life and diversified economic base make this area one of the choice home, industrial, and manufacturing places to locate. This economic footing should allow for sustained growth in the future.

Lake Dallas ISD educates 3,900 students on five campuses. The District offers programs and educational opportunities that are suited to the needs of a broad spectrum of students. Student attendance is commendable. Lake Dallas ISD schools, programs, staff, and students earn state and regional recognition regularly.

A challenging curriculum, dedicated staff, and supportive community ensure exceptional educational opportunities for all students. Lake Dallas schools continually strive for academic excellence in all areas. Lake Dallas ISD is dedicated to giving every student the best possible education through an intensive core curriculum based on the Texas Education Agency guidelines and an array of specialized, challenging instructional and career programs.

Lake Dallas ISD is committed to being one of the nation's best school systems, continually improving and refining instructional programs and organizational operations in the interest of effectiveness, productivity, and economy. Our standards for students and staff members are high, and we strive to raise them higher.

### Major Initiatives

The District Curriculum is vertically aligned throughout all grade levels and based on the Texas Essential Knowledge and Skill (TEKS). The District has a vibrant, growing student population, an excellent array of programs, a strong curriculum, access to various intellectual resources, and a progressive, innovative atmosphere. An educated School Board, a skilled administration, a professional, dedicated, and inventive staff, and an involved community make Lake Dallas ISD a leader in education.

Lake Dallas ISD voters approved a \$105 million bond package to update several campuses across the District. The bond package was created under the direction of a long-range planning committee led by community members.

In February 2023, Lake Dallas ISD sold \$35,000,000 to investors, which represents the remaining amount of the original \$105,000,000 bond package. The district's bonds were successfully marketed to investors at an "All-In" true interest rate of 4.10%, 0.21% below the estimated interest rate previously communicated to the Board of Trustees.

The district has maintained its credit rating of 'AA-' as issued by Standards and Poors. The ratings reflect that LDISD has very strong household income levels, a diverse and growing tax base, and a strong financial position, with management consistently maintaining strong revenues supported by conservative budgeting. The 'AAA-enhanced rating assigned to the district's series 2023 bonds reflects the credit enhancement provided by the Texas Permanent School Fund. These funds will primarily be used to renovate the High School fine arts wing, renovate High School classrooms, and build a Career and Technical Education building.

Construction has been completed on the projects listed below:

- Corinth Elementary School Safety and security updates, as well as physical and visual updates to its campus building
- Lake Dallas Middle School Significant physical education and athletic improvements to replace decades-old space on its campus. Parking and traffic flow have been improved.
- Lake Dallas High School Extensive updates to modernize the campus, including new
  educational space, new campus administration space, and a new multipurpose indoor
  extracurricular facility. The updates have also increased safety and security.

# Financial Information

The Annual Comprehensive Financial Report for the year ended August 31, 2022, is prepared in accordance with generally accepted accounting principles (GAAP) and conformance with standards of financial reporting established by the Governmental Accounting Standards Board (GASB) using guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA). This report covers all funds of the District. Presented funds are organized into three types dictated by the nature of the activities involved.

Governmental Fund Types:

General Fund Debt Service Fund Capital Projects Fund Special Revenue Funds

Proprietary Fund Types: Internal Service Funds Enterprise Fund

Fiduciary Fund Type: Agency Funds

# Financial Policies and Planning

The annual budget serves as the foundation for the District's financial planning and control. The objective of budgetary controls is to ensure compliance with legal provisions and provide a roadmap to meet state and local goals.

Most of the District's planning effort is focused on the District's Improvement Plan. Campus Improvement plans are analyzed to form a cohesive District Plan. This plan includes criteria for measuring and ultimately reaching success. The District Improvement Plan also has long-term goals that form the basis of long-term planning.

# **Budgetary Controls**

The budgetary controls' objective is to ensure compliance with legal provisions in the annual appropriated budget approved by the Board of Trustees. Every school district in Texas is required by law to prepare and file a budget with the Texas Education Agency. Activities of the general fund, food service fund, and debt service fund are included in the District's budget.

Budgetary control (the level at which expenditures cannot legally exceed appropriations) is maintained at the functional category level within each fund. These functional categories are defined by the Texas Education Agency and identify the purpose of the transactions. A listing of these categories, as well as related financial information, is included herein. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control—encumbered amounts lapse at year-end.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

# Internal Controls

The extent of internal controls a school district should establish is a judgment that management must make. Management's decision regarding the scope of internal control necessary is affected by circumstances such as the size of the organization and the number of personnel available. Consideration must be given to the relationship between costs and benefits. In addition, the nature of internal control is such that even appropriate internal control methods and systems will not guarantee that a school district's objectives will be achieved, nor will they ensure its success.

Internal control procedures are established to provide reasonable assurance regarding the achievement of objectives in the following categories:

- · Reliability of financial reporting
- · Effectiveness and efficiency of operations
- Compliance with applicable laws and regulations

# Relevant Financial Policy

The School Board has been instrumental in maintaining and increasing the reserves of the District. The Board recognizes that maintaining an appropriate fund balance is critical in the District's financial planning and budgeting processes. Although fund balance levels could be affected by legislative actions and the amount of available state and federal resources, the Board has been proactive in building the District's reserves to fund unanticipated expenditures or offset future short-term revenue reductions. In addition, the Board has maintained an appropriate fund balance to avoid short-term borrowing and to demonstrate financial stability, therefore preserving or enhancing its bond rating.

# State Funding

The state of Texas's current system provides public education funding via a financing formula that weighs student attendance levels, property value per student, and the District's tax effort.

#### Debt Administration

The District has deployed various debt management practices to lower its borrowing costs. These include refunding existing bonds at a lower rate and prepaying bonds before the scheduled maturity. Such actions have provided the District's taxpayers with over \$28 million of direct savings since 2012. These practices have helped the District maintain its credit rating of 'A.A.-.' The ratings reflect that LDISD has very strong household income levels, a diverse and growing tax base, and a very strong financial position, with management consistently maintaining very strong revenues supported by conservative budgeting. The 'AAA' enhanced rating assigned to the District's series 2021 bonds reflects the credit enhancement provided by the Texas Permanent School Fund.

# Enrollment

Enrollment has fallen as the District and families grapple with pandemic closures and health concerns. The school district plans its budget based on estimated student enrollment and state aid earned based on student attendance. The District anticipated growth going into the new school year, but student enrollment declined as a result of the COVID-19 pandemic. The shift to remote learning caused by concerns about the virus led some families to withdraw their children from traditional public schools and enroll them in alternative education options such as homeschooling or private schools. Additionally, some families moved to different areas to escape the pandemic, leading to changes in student populations. Enrollment is projected to be stagnant over the next several years.

# District Facilities

District facilities are in very good condition. The District maintains all of its facilities with internal staff. Lake Dallas Middle School and Corinth Elementary were built in the 1980s, with major additions and substantial renovations occurring in the 2000s. Lake Dallas High School was built in 1998, with additional classrooms and athletic spaces added in 2007. Shady Shores Elementary School was built in 2004. With the passing of a bond election in 2021, renovations and additions will occur at Lake Dallas High School, Lake Dallas Middle School, Lake Dallas Elementary School, and Corinth Elementary School.

Campus	Year Built	Additions
Lake Dallas High School	1998	2007, 2023
Lake Dallas Middle School	1980	2003, 2023
Corinth Elementary School	1985	2001, 2023
Lake Dallas Elementary School	2009	
Shady Shores Elementary School	2004	

The community is one of unconditional support for the District. Lake Dallas ISD has a history of 5bond elections since 1995. All five bond elections have passed with overwhelming support. The District also held a Tax Rate election in 2008 and won with an 84% passage rate. Residents continue to support the school and demand a quality education for their students.

# Independent Audit

District policy and State law require an annual audit by an independent certified public accountant. Lake Dallas ISD's School Board has selected the accounting firm of Hankins, Eastup, Deaton, Tonn, and Seay to perform this audit. An audit report is generated, and the audit firm makes a presentation to the School Board each January. The audit, which is included in the financial section of this report, meets all state and federal reporting requirements.

#### Education

Lake Dallas ISD is a public school system whose District mission is to create an educational environment to prepare every child to achieve their lifelong academic and social potential. Recognizing that the quality of life, both today and in the future, depends upon the quality of education provided by the public schools, the Lake Dallas Independent School District is dedicated to education and committed to meeting the needs of every individual. The District's vision is to champion a dynamic model of future-focused education.

LDHS is also proud to be one of the first high schools in North Texas to form a partnership with North Central Texas College, enabling LDHS students to receive college hours up to earning an associate degree while in high school.

The results of the State of Texas Assessment of Academic Readiness (STAAR) show Lake Dallas ISD students performing above regional and state averages in all subjects of the state assessments. In addition, Lake Dallas High School students perform above state and regional averages in College Readiness Indicators.

# Economic Condition and Outlook

Over the last several years, Lake Dallas ISD's local economy has experienced an upturn. The diversity of businesses located in the area and the range of housing available, combined with the transpiration grid of the metroplex and proximity to Dallas-Fort Worth and Alliance airports, provide a degree of protection from the economic cycle affecting many other school districts. The District's relationship with the local communities assures the development projects selected by the cities are also desirable for the community at large. With the expansion of I.H. 35, the community has seen economic growth and expansion of its commercial tax base.

# Financial Awards Programs

This District has submitted its annual comprehensive financial report (CAFR) to the Association of School Business Officials (ASBO) for the purpose of participating in their awards program. The ASBO Certificate of Excellence in Financial Reporting recognizes school districts that have met the highest standards of excellence in school financial reporting.

The purpose of the program is to:

- A. Encourage school systems to adopt and use generally accepted accounting principles.
- B. Encourage school systems to adopt sound budgetary and financial reporting procedures.
- C. Recognize excellence in school financial reporting.
- D. Contribute to enhancing the credibility of financial management of school systems by recognizing and publicizing excellence in school financial reporting.

The District has also submitted its ACFR to the Government Finance Officers Association (GFOA) for their review. The GFOA Certificate of Achievement for Excellence in Financial Reporting is awarded to easily readable and efficiently organized Annual Comprehensive Financial Reports. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. We believe that our current Annual Comprehensive Financial Report meets the GFOA's and ASBO's program requirements.

The District has received both of these prestigious awards for twenty consecutive years. We believe that our current report conforms to the Certificate of Excellence Program requirements.

#### Board of Trustees

The Board of Trustees holds its regular monthly meeting on the third Monday of each month in the Board Room in Lake Dallas ISD Central Services Building, 104 Swisher Road. Proper public notice is given for all meetings.

The Lake Dallas Board of Trustees welcomes public participation in its meetings and encourages citizens to express their views on matters affecting the students of our community.

# **Outstanding Staff**

Highly competent, dedicated staff members work together at every level to promote high academic standards and to provide every student with educational opportunities to meet individual needs and interests. Teachers emphasize a strong curriculum, effective instructional techniques, and consistent student discipline.

Lake Dallas staff members recognize the importance of personal attention. Both tutoring and enrichment programs are provided to enhance student development.

Many Lake Dallas personnel pursue professional growth through university coursework, educational workshops, and staff development sessions. Many have advanced degrees. Staff commitment to personal growth ensures continuing academic excellence for Lake Dallas ISD.

# Supportive Community

Community support and involvement are evident in Lake Dallas ISD. Strong PTA groups provide support for the schools and a strong link between home and school. Parent volunteers serve hundreds of hours in various capacities - from helping with extracurricular activities to assisting students and teachers in the classrooms. The community has continually shown the value it places on quality education through the financial and personal support it has given the District.

### Comprehensive Safety Program

The District takes every reasonable precaution regarding the safety of students, employees, visitors, and all others with whom it conducts business. The District has developed, implemented, and promoted a comprehensive safety program. The program includes guidelines and procedures for responding to emergencies. See policy CK (Local).

Policies are in place related to:

- Use, possession, or exhibition of a firearm, an illegal knife, a club, or a prohibited weapon, as those terms are defined in the Penal Code,
- Conduct that contains the elements of the offense of aggravated assault, sexual assault, aggravated sexual assault, arson, murder, capital murder, criminal attempt to commit murder or capital murder, indecency with a child, or aggravated kidnapping, as those offenses are defined in the Penal Code;
- Drug- or alcohol-related offenses described in Education Code 37.006
- · Criminal mischief

# · Persistent misbehavior

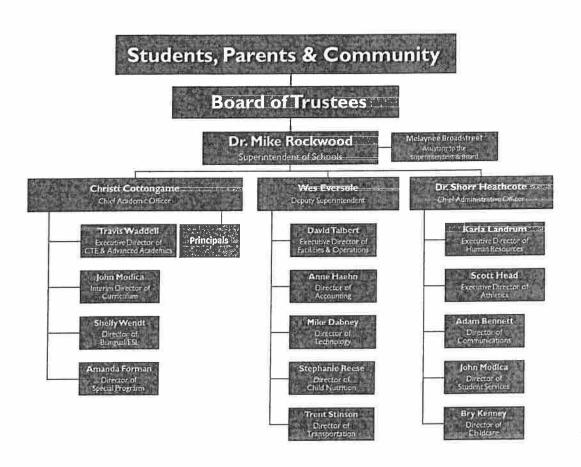

Each school has effective emergency procedures that can be implemented on short notice and that will ensure optimum safety for students and school personnel. Lake Dallas ISD has two resource officers to assist with safety issues. The Superintendent has the authority to dismiss school for a part of a day or longer periods, if necessary, in case of unusual or emergencies. Campus principals have designed and implemented a system to familiarize employees and students with evacuation procedures and ensure evacuation diagrams are appropriately posted. Principals also conduct fire, tornado, or other emergency drills to provide orderly movement to the safest areas available for students and personnel.

Independent Auditor's Report

Lake Dallas Independent School District Lake Dallas, Texas

# Opinion

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Lake Dallas Independent School District as of and for the year ended August 31, 2023 and the related notes to the financial statements, which collectively comprise Lake Dallas Independent School District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Lake Dallas Independent School District as of August 31, 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financials section of our report. We are required to be independent of Lake Dallas Independent School District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Lake Dallas Independent School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Lake Dallas Independent School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Lake Dallas Independent School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 25 through 31 and the Teacher Retirement System schedules on page 82 through 90 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Lake Dallas Independent School District's basic financial statements. The combining and individual nonmajor fund financial statements, the required TEA schedules listed in the table of contents, and the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the required TEA schedules, and the Schedule of Expenditures of Federal Awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

# Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 19, 2024 on our consideration of Lake Dallas Independent School District's internal control over financial reporting and on our tests of the compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Lake Dallas Independent School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Lake Dallas Independent School District's internal control over financial reporting and compliance.

# LAKE DALLAS INDEPENDENT SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED AUGUST 31, 2023 (UNAUDITED)

As management of Lake Dallas Independent School District, we offer readers of the District's financial statement this narrative overview and analysis of the financial activities of the District for the year ended August 31, 2023. The District has implemented Government Accounting Standards Board Statement 34 "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments". Please read this narrative in conjunction with the independent auditors' report on page 23, and the District's Basic Financial Statements that begin on page 35.

# FINANCIAL HIGHLIGHTS

- The liabilities and deferred inflows of resources of Lake Dallas Independent School District exceeded its assets and deferred outflows of resources at the close of the most recent fiscal period by \$9,299,979 (negative net position). Of this amount, \$(23,066,123) (negative unrestricted net position) may be used to meet the District's ongoing obligations to citizens and creditors in accordance with the District's fiscal policies.
- The District's total net position increased by \$4,584,502 during the fiscal year from the results of current year operations.
- As of the close of the current fiscal period, the District's governmental funds reported combined ending fund balances of \$62,629,734. 21.3% of this total amount, \$13,369,921, is unassigned and available for use within the District's policies.
- At the end of the current fiscal period, unassigned fund balance for the general fund was \$13,369,921 or 33.1% of the total general fund expenditures, an increase of \$192,286 from the prior year. Final general fund revenues were 0.5% more than final revenue estimates.

# OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities (on pages 35 through 37). These provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements (starting on page 38) report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. For proprietary activities, fund financial statements tell how goods or services of the District were sold to departments within the District or to external customers and how the sales revenues covered the expenses of the goods or services. The remaining statements, fiduciary statements, provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the District.

The notes to the financial statements (starting on page 51) provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The combining statements for nonmajor funds contain even more information about the District's individual funds. These are not required by TEA. The sections labeled TEA Required Schedules and Federal Awards Section contain data used by monitoring or regulatory agencies for assurance that the District is using funds supplied in compliance with the terms of grants.

# Reporting the District as a Whole

# The Statement of Net Position and the Statement of Activities

The analysis of the District's overall financial condition and operations begins on page 35. Its primary purpose is to show whether the District is better off or worse off as a result of the year's activities. The Statement of Net Position includes all the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources at the end of the year while the Statement of Activities includes all revenues and expenses generated by the District's operations during the year. These apply the accrual basis of accounting (the basis used by private sector companies).

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The District's revenues are divided into those provided by outside parties who share the costs of some programs, such as tuition received from students from outside the district and grants provided by the U.S. Department of Education to assist children with disabilities or from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by TEA in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the District's net position and changes in them. The District's net position (the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources) provide one measure of the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the District, however, you should consider nonfinancial factors as well, such as changes in the District's average daily attendance or its property tax base and the condition of the District's facilities.

In the Statement of Net Position and the Statement of Activities, we divide the District into two kinds of activities:

- · Governmental activities—Most of the District's basic services are reported here, including the instruction, counseling, co-curricular activities, food services, transportation, maintenance, community services, and general administration. Property taxes, tuition, fees, and state and federal grants finance most of these activities.
- · Business-type activities—The District charges a fee to "customers" to help it cover all or most of the cost of services it provides in the child care program.

# Reporting the District's Most Significant Funds

# **Fund Financial Statements**

The fund financial statements begin on page 38 and provide detailed information about the most significant funds—not the District as a whole. Laws and contracts require the District to establish some funds, such as grants received under the U.S. Department of Education. The District's administration **establishes** many other funds to help it control and manage money for particular purposes (like campus activities). The District's two kinds of funds—governmental and proprietary—use different accounting approaches.

· Governmental funds—Most of the District's basic services are reported in governmental funds. These use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

· Proprietary funds—The District reports the activities for which it charges users (whether outside customers or other units of the District) in proprietary funds using the same accounting methods employed in the Statement of Net Position and the Statement of Activities. In fact, the District's enterprise fund (one category of proprietary funds) are the business-type activities reported in the government-wide statements but containing more detail and additional information, such as cash flows. The internal service funds (the other category of proprietary funds) report activities that provide supplies and services for the District's other programs and activities—such as the District's print shop and computer operations.

# The District as Trustee

# Reporting the District's Fiduciary Responsibilities

The District is the trustee, or custodian, for money raised by student activities. The District's custodial activity is reported in a separate Statement of Custodial Net Position and Statement of Changes in Custodial Net Position on pages 48 and 49. We exclude these resources from the District's other financial statements because the District cannot use these assets to finance its operations. The District is only responsible for ensuring that the assets reported in this fund are used for their intended purposes.

#### GOVERNMENT-WIDE FINANCIAL ANALYSIS

The following analysis of comparative balances and changes therein is presented for the current and prior year's operations and a discussion of significant changes in the accounts. The analysis focuses on the net position (Table I) and changes in net position (Table II) of the District's governmental activities.

Net position of the District's governmental activities increased from (\$13,884,481) to (\$9,299,979). Unrestricted net position – the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – was (\$23,066,123) at August 31, 2023. The increase was due to current year asset purchases not depreciation expense and an increase in debt.

In 2023, net position of our business-type activities stayed the same due to funds transfer from the General Fund. This activity is relatively insignificant to the overall operations of the District, but it represents significant services to the District through the Child Care program.

The cost of all governmental activities for the current fiscal year was \$56,641,012. However, as shown in the Statement of Activities on pages 36 and 37, the amount that our taxpayers ultimately financed for these activities through District taxes was only \$40,605,220 because some of the costs were paid by those who directly benefited from the programs \$1,351,627 or by other governments and organizations that subsidized certain programs with grants and contributions \$6,918,635 or by State equalization funding \$9,264,664.

# THE DISTRICT'S FUNDS

As the District completed the year, the governmental funds (as presented in the balance sheet on page 38) reported a combined fund balance of \$62,629,734, which is \$34,080,110 higher than last year's total of \$28,549,624. Included in this year's total change in fund balance is an increase of \$192,286 in the district's General Fund, a \$543,343 increase in the Debt Service Fund, and a \$33,335,793 increase in the Capital Project Fund.

Although State funding was less than projected based upon a lower enrollment than the previous year, the higher interest rates on investments helped offset the decrease. The General Fund generated \$993,691 in investment revenue, which was \$869,950 more than the previous year. Freeze-adjusted taxable values increased by 17.1% to over \$2.59 billion, driven by the increased property values and new construction. The adopted tax rate decreased by \$0.0574 to \$1.4429 per \$100 valuation. Even with a reduction of the property tax rate, total current taxes collected increased from the previous year by \$2,230,507 to \$26,267, 383. As per the State of Texas school funding formula, State aid decreased by \$3,236,474 to \$11,709,575. Total actual General Fund revenue was \$40,576,981, which was \$50,343 more than originally budgeted.

As the General Fund budget dedicates almost 84% to fund personnel costs, the modest increase in reserves was also due to a decrease in staff because of lower student enrollment. Personnel savings were recognized in direct instruction (\$437,678), curriculum and instructional staff development (\$130,764), and student transportation (\$153,730). Savings were also recognized in facilities maintenance and operations (\$280,565), funded in part by custodial vacancies. Due to planned cost reductions and savings, the adopted General Fund deficit of \$712,879 was mitigated. The fund balance increase of \$192,286 represents 0.48% of total expenditures.

As of the end of the current fiscal year, the District's General Fund balance was \$13,605,420. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Approximately 99% of this total amount (\$13,605,420) constitutes an unassigned fund balance, which is available for spending at the district's discretion.

The District's General Fund balance of \$13,605,420, reported on page 38, differs from the General Fund's budgetary fund balance of \$12,352,122 reported in the budgetary comparison schedule on page 81. This is principally due to cost savings in all functions.

The Debt Service Fund also took advantage of the current interest rate environment, generating \$408,456 in interest revenue. The Debt Service fund ended the year with a total fund balance of \$2,951,313, all of which is reserved for the payment of debt service.

In February 2023, the district sold \$35,000,000 to bond investors, which represents the remaining amount of the original \$105,000,000 2019 bond package. This sale helped increase the Capital Project Fund by \$33,353,468 to an ending fund balance of \$45,201,462. This balance will be dedicated to future construction that will be occurring within the next several years.

# THE DISTRICT'S BUDGET

Over the course of the year, the Board of Trustees revised the District's budget several times. These budget amendments fall into three categories. The first category includes amendments and supplemental appropriations that were approved shortly after the beginning of the year and reflect the actual beginning balances (versus the amounts we estimated in August 2022). The second category includes changes that the Board made during the year to reflect new information regarding revenue sources and expenditure needs. The third category involves amendments moving funds from programs that did not need all the resources originally appropriated to them to programs with resource needs.

# CAPITAL ASSETS AND DEBT ADMINISTRATION

### Capital Assets

At August 31, 2023, the District had \$153,474,631 (net of accumulated depreciation) invested in a broad range of capital assets, including facilities and equipment for instruction, transportation, athletics, administration, and maintenance. This amount represents a net decrease of \$2,026,472, or 1.3%, above last year, due to construction projects.

This fiscal period's major additions consisted of furniture, equipment and building improvements paid for out of the Capital Projects Fund.

More detailed information about the District's capital assets is presented in Note 4 to the financial statements.

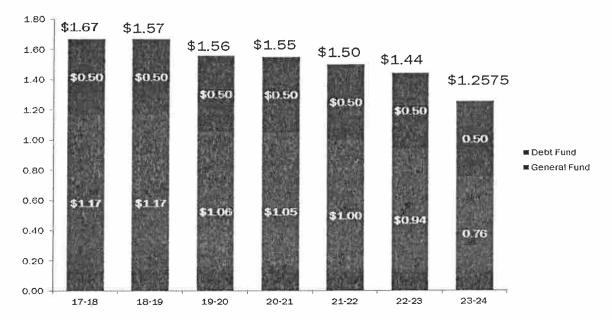

### **Debt Administration**

At year-end, the District had \$203,429,726 in long-term debt (including bonds, notes payable, accreted interest on bonds and discount/premium on debt issuance) versus \$175,693,328 last year-an increase of 15.8%.

More detailed information about the District's long-term debt is presented in Note 5 to the financial statements.

# ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Federal, state, and local guidelines direct the budget development process. The Texas Education Agency (TEA) requires the General, Food Service, and Debt Service funds to be budgeted and adopted annually by the District's Board of Trustees. The tax rate has two components: the tax for maintenance and operations and the tax to service long-term debt. Maintenance and operations 2024 budget revenue is based on a tax rate of \$1.2575/100 valuation, a decrease of \$0.18 from the preceding year. This new tax rate is down from a high point in 2005-2006 of \$1.86. The chart below reflects the tax rate history of the District.

Budgetary issues addressed include a budget based on student growth (the basis of state funding), striving to reach Federal, State, and local goals, maintaining current programs, and budgeting funds to adhere to all state and federal mandates.

The General Fund accounts for most of the day-to-day operations of the District. Debt Service Fund expenditures account for voter-authorized debt payments. The Child Nutrition Fund supports the student food service program and is funded by user fees and reimbursements from the National School Breakfast and Lunch program.

The school district anticipates receiving 58.7% of its general fund revenue from taxes and other local sources. The District expects a decrease in state funding of approximately \$3.4 Million. The Texas Legislature passed a school finance and property tax reform bill (HB3) that increased public education funding and financed property tax compression. State funds account for 39.0% of the total budgeted general fund operating revenue. Federal funds account for the remaining 2.3% of operating revenue. An overall General Fund budgeted revenue increase of 2% is a result of the current funding formula for the State of Texas.

The Debt Service Fund accounts for the accumulation of resources and the payment of bonds approved by the voters. The debt service expenditure budget of \$16.2 Million will be used to service debt liabilities during the 2023-24 school year.

The Child Nutrition budget is projected to be \$2 million and is financed from student/staff charges and federal funding. In addition, The National School Breakfast and Lunch Program will provide funding for students during the 2023-2024 school year.

For years, when possible, the District has reduced budgets to allow for increases in personnel and supply costs. Even with those cuts, the District has worked to maintain a competitive position in recruiting and retaining quality staff. Inflationary costs for goods and services, new program costs that result from requirements of the State and Federal accountability system, and other new requirements have all been incorporated into the proposed budget.

#### CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's business office, at Lake Dallas Independent School District, 104 Swisher, Lake Dallas, Texas 75065, (940) 497-4039.

# LAKE DALLAS INDEPENDENT SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION AUGUST 31, 2023

EXHIBIT C-2

110 0001 01, 2020	
Total Fund Balances - Governmental Funds	\$ 62,629,734
1 The assets and liabilities of the Internal Service Funds are included in governmental activities, but are not reported in the fund financial statements.	268,974
2 Capital assets used in governmental activities are not financial resources and therefore are not reported in the fund financial statements.	215,341,491
3 Accumulated depreciation has not been included in the fund financial statements.	(61,866,860)
4 Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68 in the amount of \$12,691,406, a Deferred Resource Inflow related to TRS in the amount of \$1,437,660 and a Deferred Resource Outflow related to TRS in the amount of \$5,391,336. This amounted to a decrease in Net Position in the amount of \$8,737,730.	(8,737,730)
5 Bonds payable have not been included in the fund financial statements.	(169,696,798)
6 Accreted interest on capital appreciation bonds has not been included in the fund financial statements.	(12,285,025)
7 Bond discounts and premiums are not recognized in the fund financial statements.	(21,447,903)
8 Property tax revenue reported as unavailable revenue in the fund financial statements was recognized as revenue in the government-wide financial statements.	554,430
9 Deferred charge for refunding has not been included in the fund financial statements.	2,585,823
10 Interest on outstanding debt is accrued in the government-wide financial statements, whereas in the fund financial statements interest expenditures are reported when due.	(288,775)
11 Included in the items related to government-wide long-term debt is the recognition of the District's proportionate share of the net Other Post-Employment Benefit (OPEB) liability required by GASB 75 in the amount of \$7,138,475, a Deferred Resource Inflow related to TRS OPEB in the amount of \$11,810,335, and a Deferred Resource Outflow related to TRS OPEB in the amount of \$2,591,470. This amounted to a net decrease in Net Position in the amount of \$16,357,340.	(16,357,340)
19 Net Position of Governmental Activities	\$ (9,299,979)

# LAKE DALLAS INDEPENDENT SCHOOL DISTRICT EXPRECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES,

AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED AUGUST 31, 2023

Total Net Change in Fund Balances - Governmental Funds	\$ 34,080,110
Current year capital outlays are expenditures in the fund financial statements, but they are shown as increases in capital assets in the government-wide financial statements. The effect of reclassifying the 2023 capital outlays is to increase net position.	2,949,080
Depreciation is not recognized as an expense in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation is to decrease net position in the government-wide financial statements.	(4,975,552)
Current year long-term debt principal payments on bonds payable, loans and payments of accreted interest on capital appreciation bonds are expenditures in the fund financial statements, but are shown as reductions in long-term debt in the government-wide financial statements.	8,644,492
Current year interest accretion on capital appreciation bonds is not reflected in the fund financial statements, but is shown as an increase in long term liabilities in the government-wide financial statements.	(1,380,320)
Bond premiums and discounts are not amortized in the governmental funds but are capitalized in the statement of net position.	977,772
The implementation of GASB 68 required that certain expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of 8/31/2022 caused the ending net position to increase in the amount of \$35,740. Contributions made before the measurement but during the 2022 FY were also de-expended and recorded as a reduction in the net pension liability for the District. These contributions were replaced with the District's pension expense for the year of \$566,450, which caused a net decrease in net position. The impact of all of these is to decrease net position by \$530,710.	(530,710)
Revenues from property taxes are shown as unavailable in the fund financial statements until they are considered available to finance current expenditures, but such revenues are recognized when assessed, net of an allowance for uncollectible amounts, in the government-wide financial statements.	(99,136)
Current year issuances of bonds are shown as other financing sources in the fund financial statements, but are shown as increases in long-term debt in the government-wide financial statements.	(34,875,000)
The premiums on the current year issuances of bonds are recorded as other financing sources in the fund financial statements, but are shown as an increase in long-term debt in the government-wide financial statements.	(1,103,342)
Current year amortization of the deferred charge for refundings is not reflected in the fund financial statements, but is shown as a reduction of the deferred loss in the government-wide financial statements.	(136,582)
Interest on outstanding debt is accrued in the government-wide financial statements, whereas in the fund financial statements interest expenditures are reported when due.	(56,788)
The implementation of GASB 75 required that certain expenditures be de-expended and recorded as deferred resource outflows. TRS OPEB contributions made after the measurement date of 8/31/2022 but during the current fiscal year caused the ending net position to decrease in the amount of \$7,893. These contributions were replaced with the District's OPEB expense for the year, which was a \$1,098,371 expense and also caused a increase in net position. The impact of both of these is to increase the change in net position by \$1,090,478.	1,090,478
Change in Net Position of Governmental Activities	\$ 4,584,502

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Lake Dallas Independent School District (the "District") is a public educational agency operating under the applicable rules and regulations of the State of Texas. The District's combined financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units in conjunction with the Texas Education Agency's Financial Accountability System Resource Guide (FAR). The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

#### A. REPORTING ENTITY

The Board of Trustees, a seven member group elected by registered voters of the District, has fiscal accountability over all activities related to public elementary and secondary education within the jurisdiction of the District. The board of trustees are elected by the public. The trustees as a body corporate have the exclusive power and duty to govern and oversee the management of the public schools of the district. All powers and duties not specifically delegated by statute to the Texas Education Agency (Agency) or to the State Board of Education are reserved for the trustees, and the Agency may not substitute its judgment for the lawful exercise of those powers and duties by the trustees. The District is not included in any other governmental "reporting entity" as defined in Section 2100, Codification of Governmental Accounting and Financial Reporting Standards.

The District's Basic financial statements include the accounts of all District operations. The criteria for including organizations as component units within the District's reporting entity, as set forth in Section 2100 of GASB's <u>Codification of Governmental Accounting and Financial Reporting</u> Standards, include whether:

- the organization is legally separate (can sue and be sued in their own name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is fiscal dependency by the organization on the District

Based on the aforementioned criteria, the Lake Dallas Independent School District has no component units.

### B. BASIS OF PRESENTATION

The government-wide financial statements (the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. The effect of interfund activity, within the governmental and business-type activities columns, has been removed from these statements however interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given program and 2) operating or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

#### Fund Financial Statements:

The District segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Separate statements are presented for governmental and proprietary activities. These statements present each major fund as a separate column on the fund financial statements; all non-major funds are aggregated and presented in a single column.

Governmental funds are those funds through which most governmental functions typically are financed. The measurement focus of governmental funds is on the sources, uses and balance of current financial resources. The District has presented the following major governmental funds:

- 1. General Fund This fund is established to account for resources financing the fundamental operations of the District, in partnership with the community, in enabling and motivating students to reach their full potential. All revenues and expenditures not required to be accounted for in other funds are included here. This is a budgeted fund and any fund balances are considered resources available for current operations. Fund balances may be appropriated by the Board of Trustees to implement its responsibilities.
- 2. Debt Service Fund This fund is established to account for payment of principal and interest on long-term general obligation debt and other long-term debts for which a tax has been dedicated. This is a budgeted fund. Any unused sinking fund balances are transferred to the General Fund after all of the related debt obligations have been met.
- 3. Capital Projects Fund This fund is established to account for proceeds, from the sale of bonds and other resources to be used for Board authorized acquisition, construction, or renovation, as well as, furnishings and equipping of major capital facilities. Upon completion of a project, any unused bond proceeds are transferred to the Debt Service Fund and are used to retire related bond principal.

#### Additionally, the District reports the following fund types:

- 1. Special Revenue Funds These funds are established to account for federally financed or expenditures legally restricted for specified purposes. In many special revenue funds, any unused balances are returned to the grantor at the close of specified project periods. For funds in this fund type, project accounting is employed to maintain integrity for the various sources of funds.
- 2. Enterprise Fund The District utilizes an enterprise fund to account for the Districts' activities for which outside users are charged a fee roughly equal to the cost of providing the goods or services of those activities. The District uses this fund to account for its child care program, because the child care program is generally self-supporting and does not normally require subsidies from the general fund.
- 3. Internal Service Funds The District utilizes Internal Service Funds to account for revenues and expenses related to services provided to parties inside the District on a cost reimbursement basis. These funds facilitate distribution of support costs to the users of support services. The District has internal service funds for its print shop and computer operations.

4. Fiduciary Funds - The District reports the Custodial Fund as a Fiduciary Fund. Custodial Funds are custodial in nature and account for activities of student and employee groups. Custodial Funds use the accrual basis of accounting to recognize assets, liabilities, revenues and expenses. The Custodial Funds exist with the explicit approval of, and are subject to revocation by, the Board.

The internal service funds are proprietary fund types. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for the proprietary funds include the cost of personal and contractual services, supplies and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

#### C. MEASUREMENT FOCUS/BASIS OF ACCOUNTING

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide statements and fund financial statements for proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The economic resources measurement focus means all assets, deferred outflows of resources, liabilities and deferred inflows of resources (whether current or non-current) are included on the statement of net position and the operating statements present increases (revenues) and decreases (expenses) in net total position. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time the liability is incurred.

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual; i.e., when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The District considers property taxes as available if they are collected within 60 days after year-end. A 90 day availability period is used for recognition of all other Governmental Fund revenues. Expenditures are recorded when the related fund liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences are recorded only when payment is due.

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS-Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS-Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

The revenue susceptible to accrual are property taxes, charges for services, interest income and intergovernmental revenues. No income from investments reported in one fund is assigned to another fund. All other Governmental Fund Type revenues are recognized when received.

Revenues from state and federal grants are recognized as earned when the related program expenditures are incurred. Funds received but unearned are reflected as unearned revenues, and funds expended but not yet received are shown as receivables.

Revenue from investments, including governmental external investment pool, is based upon fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Most investments are reported at amortized cost when the investments have remaining maturities of one year or less at time of purchase. External investment pools are permitted to report short-term debt investments at amortized cost, provided that the fair value of those investments is not significantly affected by the impairment of the credit standing of the issuer, or other factors. For that purpose, a pool's short-term investments are those with remaining maturities of up to ninety days.

In accordance with the FAR, the District has adopted and installed an accounting system which exceeds the minimum requirements prescribed by the State Board of Education and approved by the State Auditor. Specifically, the District's accounting system uses codes and the code structure presented in the Accounting Code Section of the FAR.

#### D. BUDGETARY CONTROL

Formal budgetary accounting is employed for all required Governmental Fund Types, as outlined in TEA's FAR module, and is presented on the modified accrual basis of accounting consistent with generally accepted accounting principles. The budget is prepared and controlled at the function level within each organization to which responsibility for controlling operations is assigned.

The official school budget is prepared for adoption for required Governmental Fund Types prior to August 20 of the preceding fiscal year for the subsequent fiscal year beginning September 1. The budget is formally adopted by the Board of Trustees at a public meeting held at least ten days after public notice has been given. The budget is prepared by fund, function, object, and organization. The budget is controlled at the organizational level by the appropriate department head or campus principal within Board allocations. Therefore, organizations may transfer appropriations as necessary without the approval of the board unless the intent is to cross fund, function or increase the overall budget allocations. Control of appropriations by the Board of Trustees is maintained within Fund Groups at the function code level and revenue object code level.

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund, Child Nutrition Fund and the Debt Service Fund. The special revenue funds and the Capital Projects Fund adopt project-length budgets which do not correspond to the District's fiscal year. Each annual budget is presented on the modified accrual basis of accounting which is consistent with generally accepted accounting principles. The budget is amended throughout the year by the Board of Trustees. Such amendments are reflected in the official minutes of the Board.

A reconciliation of fund balances for both appropriated budget and nonappropriated budget special revenue funds is as follows:

#### August 31, 2023 Fund Balance

Appropriated Budget Funds - Food Service Special Revenue Fund \$1,321,923

Nonappropriated Budget Funds - 87,475

All Special Revenue Funds

\$1,409,398

#### E. ENCUMBRANCE ACCOUNTING

The District employs encumbrance accounting, whereby encumbrances for goods or purchased services are documented by purchase orders and contracts. An encumbrance represents a commitment of Board appropriation related to unperformed contracts for goods and services. The issuance of a purchase order or the signing of a contract creates an encumbrance but does not represent an expenditure for the period, only a commitment to expend resources. Appropriations lapse at August 31 and encumbrances outstanding at that time are either canceled or appropriately provided for in the subsequent year's budget. There were no outstanding encumbrances at August 31, 2023 that were subsequently provided for in the 2023-24 budget.

#### F. PREPAYMENTS

Certain payments to vendors reflect cost applicable to future accounting periods and are recorded using the consumption method in both government-wide and fund financial statements. The prepaid items have been identified as a non-spendable fund balance since it is not available for other subsequent expenditures.

#### G. INVENTORIES

The consumption method is used to account for inventories of printing supplies and computer equipment. Under this method, these items are carried in an inventory account of the respective fund at cost, using the first-in, first-out method of accounting and are subsequently charged to expenditures when consumed.

#### H. INTERFUND RECEIVABLES AND PAYABLES

Short-term amounts owed between funds are classified as "Due to/from other funds". Interfund loans are classified as "Advances to/from other funds" and are offset by a fund balance reserve account. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances" and "internal advances".

#### I. CAPITAL ASSETS

Capital assets, which includes property, plant, equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their acquisition value. Repairs and maintenance are recorded as expenses. Renewals and betterments are capitalized. Interest has not been capitalized during the construction period on property, plant and equipment.

Assets capitalized have an original cost of \$5,000 or more and over one-year of useful life. Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful lives are as follows:

Buildings and Improvements Furniture and Equipment 50 Years 7-10 Years

#### J. COMPENSATED ABSENCES

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay any amounts when employees separate from service with the District. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

### K. CASH EQUIVALENTS

For purposes of the statement of cash flows, investments are considered to be cash equivalents if they are highly liquid with maturities of three months or less.

#### L. NET POSITION

Net position represents the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources. Net investment in Capital Assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds and the deferred charge for refunding. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislations adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Unrestricted net position are available for general governmental uses. When both restricted and unrestricted net position are available, restricted net position are expended before unrestricted net position is such use is consistent with the restricted purpose.

#### M. LONG-TERM OBLIGATIONS

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as debt service expenditures in the year bonds are issued.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

The net pension and net OPEB liability are reduced through the General Fund.

#### N. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

Deferred outflows and inflows of resources are reported in the statement of financial position as described below:

A deferred outflow of resources is a consumption of a government's net assets (a decrease in assets in excess of any related decrease in liabilities or an increase in liabilities in excess of any related increase in assets) by the government that is applicable to a future reporting period. The District has three items that qualify for reporting in this category:

**Deferred outflows of resources for refunding** - Reported in the government-wide statement of net position, the deferred charge on bond refundings results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The amount of deferred outflows reported in the governmental activities for the deferred charge on bond refundings at August 31, 2023 was \$2,585,823.

Deferred outflows of resources for pensions - Reported in the government-wide financial statement of net position, this deferred outflow results from pension plan contributions made after the measurement date of the net pension liability and the results of differences between expected and actual actuarial experiences. The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year. The other pension related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with pensions through the pension plan which is currently approximately 5.7052 years.

The amount of deferred outflows reported in the governmental activities for deferred pension expenses at August 31, 2023 was \$5,391,336.

Deferred outflows of resources for OPEB- Reported in the government-wide financial statement of net position, this deferred outflow results from OPEB plan contributions made after the measurement date of the net OPEB liability and the results of differences between expected and actual investment earnings and changes in proportionate share. The deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the next fiscal year. The other OPEB related deferred outflows will be amortized over the expected remaining service lives of all employees (active and inactive employees) that are provided with OPEB through the OPEB plan which is currently approximately 9.2179 years. The amount of deferred outflows reported for deferred OPEB expense at August 31, 2023 was \$2,591,470.

A deferred inflow of resources is an acquisition of a government's net assets (an increase in assets in excess of any related increase in liabilities or a decrease in liabilities in excess of any related decrease in assets) by the government that is applicable to a future reporting period. The District has three items that qualify for reporting in this category:

**Deferred inflows of resources for unavailable revenues** - Reported only in the governmental funds balance sheet, unavailable revenues from property taxes arise under the modified accrual basis of accounting. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The District reported property taxes that are unavailable as deferred inflows of resources in the fund financial statements. The amount of deferred inflows of resources reported in the governmental funds at August 31, 2023 was \$554,430.

**Deferred inflows of resources for pensions** - Reported in the government-wide financial statement of net position, these deferred inflows result primarily from differences between projected and actual earnings on pension plan investments and other actuarial and other assumption differences. These amounts will be amortized over a closed 5-year period. In fiscal year 2023, the District reported deferred inflows of resources for pensions in the governmental activities in the amount of \$1,437,660.

Deferred inflows of resources for OPEB - Reported in the government-wide financial statement of net position, these deferred inflows result primarily from differences between expected and actual experience and from changes in assumptions. These amounts will be amortized over the average expected remaining service life (AERSL) of all members (9.2179 years for the 2022 measurement year). In fiscal year 2023, the District reported deferred inflows of resources for OPEB in the governmental activities in the amount of \$11,810,335.

#### O. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal 2023, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

During the year ended August 31, 2023, the District participated in the Texas Association of School Boards Risk Management Fund (the Fund). The Fund was created and is operated under provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The following are Funds the District participated in during the year ended August 31, 2023.

#### Workers' Compensation Aggregate Deductible

During the year ended August 31, 2023, the District met its statutory workers' compensation obligations through participation in the TASB Risk Management Fund (the Fund). The Fund's Workers Compensation Program is authorized by Chapter 504, Texas Labor Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties. The Fund provides statutory workers' compensation benefits to its members and their injured employees.

The District participates in the Fund's reimbursable aggregate deductible program. As such, the member is responsible for a certain amount of claims liability as outlined on the member's Contribution and Coverage Summary document. After the member's deductible has been met, the Fund is responsible for additional claims liability.

The Fund and its members are protected against higher than expected claims cost through the purchase of stop loss coverage for any claim in excess of the Fund's self-insured retention of \$2.0 million. The Fund uses the services of an independent actuary to determine reserve adequacy and fully funds those reserves. As of August 31, 2022, the fund carries a discounted reserve of \$50,647,775 for future development on reported claims and claims that have been incurred but not yet reported. For the year-ended August 31, 2023, the Fund anticipates no additional liability to members beyond their contractual obligations for payment of contributions and reimbursable aggregate deductibles.

The Fund engages the services of independent auditors to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2022, are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

#### **Unemployment Compensation Pool**

During the year ended August 31, 2023, Lake Dallas ISD provided unemployment compensation coverage to its employees through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Unemployment Compensation Program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

The Fund meets its quarterly obligation to the Texas Workforce Commission. Expenses are accrued monthly until the quarterly payment has been made. Expenses can be reasonably estimated; therefore there is no need for specific or aggregate stop loss coverage for the Unemployment Compensation pool. For the year ended August 31, 2023, the Fund anticipates that Lake Dallas ISD has no additional liability beyond the contractual obligation for payment of contribution.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2022, are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

#### Auto, Liability and Property Programs

During the year ended August 31, 2023, Lake Dallas ISD participated in the following TASB Risk Management Fund (the Fund) programs:

Auto Liability
Auto Physical Damage
Legal Liability
Privacy & Information Security
Property

The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

The Fund purchases stop-loss coverage for protection against catastrophic and larger than anticipated claims for its Auto, Liability and Property programs. The terms and limits of the stop-loss program vary by line of coverage. The Fund uses the services of an independent actuary to determine the adequacy of reserves and fully funds those reserves. For the year ended August 31, 2023, the Fund anticipates Lake Dallas ISD has no additional liability beyond the contractual obligations for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2022, are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

#### P. ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### NOTE 2. FUND BALANCE

The District has implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions." This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent.

<u>Fund Balance Classification:</u> The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The District has classified prepaid items as being nonspendable as these items are not expected to be converted to cash.
- <u>Restricted</u>: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. Debt service resources are to be used for future servicing of the District's bonded debt and are restricted through debt covenants. Federal and State grant resources are being restricted because their use is restricted pursuant to the mandates of the Federal or State grants. Capital projects resources are restricted for future capital outlay.
- <u>Committed</u>: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the District's Board of Trustees. The Board of Trustees establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The Board of Trustees have committed resources as of August 31, 2023 for campus activities.
- Assigned: This classification includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Trustees or through the Board of Trustees delegating this responsibility to other individuals in the District by Board resolution. Under the Board's adopted policy, the Superintendent has been given the authority to assign amounts for specific purposes. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund.
- <u>Unassigned</u>: This classification includes all amounts not included in other spendable classifications, including the residual fund balance for the General Fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board of Trustees has provided otherwise in its commitment or assignment actions.

The details of the fund balances are included in the Governmental Funds Balance Sheet (pages 38) and are described below:

#### General Fund

The General Fund has unassigned fund balance of \$13,369,921 at August 31, 2023. Prepayments (prepaid items) of \$24,145 are considered nonspendable fund balance.

#### Other Major Funds

The Debt Service Fund has restricted funds of \$2,638,116 at August 31, 2023 consisting primarily of property tax collections that are restricted for debt service payments on bonded debt. The Capital Projects Fund has restricted funds of \$44,976,800 at August 31, 2023 consisting primarily of unspent bond funds.

#### Other Funds

The fund balance of \$58,402 of the Campus Activity Fund (a special revenue fund) is shown as committed due to Board policy committing those funds to campus activities. The fund balance of \$1,321,923 in the Food Service Fund is shown as restricted for food service operations. The other fund balances of \$29,073 in the other special revenue funds are restricted due to grant agreements.

#### NOTE 3. DEPOSITS AND INVESTMENTS

The District's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the District's agent bank approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

#### 1. Cash Deposits:

At August 31, 2023, the carrying amount of the District's deposits checking accounts and interest-bearing savings accounts was \$1,966,022 which includes \$1,088 petty cash and the combined bank balance was \$2,364,361. The District's cash deposits at August 31, 2023 were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name.

#### 2. Investments:

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) Investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The district is in substantial compliance with the requirements of the Act and with local policies.

In compliance with the Public Funds Investment Act, the District has adopted a deposit and investment policy. That policy addresses the following risks:

- a. Custodial Credit Risk Deposits: In the case of deposits, this is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. As of August 31, 2023, the District's cash balances totaled \$2,364,361. This entire amount was either collateralized with securities held by the District's financial institution's agent in the District's name or covered by FDIC insurance. Thus, the District's deposits are not exposed to custodial credit risk at August 31, 2023.
- b. Custodial Credit Risk Investments: For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At August 31, 2023, the District held all of its investments in four public funds investment pools (TexPool, Lone Star, LOGIC and Texas Range). Investments in external investment pools are considered unclassified as to custodial credit risk because they are not evidenced by securities that exist in physical or book entry form.
- c. Credit Risk This is the risk that an issuer or other counterparty to an investment will be unable to fulfill its obligations. The rating of securities by nationally recognized rating agencies is designed to give an indication of credit risk. Credit risk is monitored and controlled by purchasing quality related instruments that have been evaluated by agencies such as Standard and Poor's or Moody's Investment Services.

The District utilizes government investment pools as part of its investment strategy.

Board policy states that investment pools must:

- 1. Have an average weighted maturity of less than two years;
- 2. Are invested exclusively in obligations approved by Government Code Chapter 2256, Subchapter A, regarding authorized investments (Public Funds Investment Act):
- 3. Are continuously rated by at least one nationally recognized investment rating firm of not less than AAA or its equivalent; and
- 4. Conform to the requirements in Government Code Section 2256.016(b) and (c) relating to the eligibility of investment pools to receive and invest funds of investing entities.

The credit quality rating for the four investment pools range from AAA (Standard and Poor's) to AAAm (Standard and Poor's)

- d. Interest Rate Risk This is the risk that changes in interest rates will adversely affect the fair value of an investment. The District manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to less than one year from the time of purchase. The weighted average maturity for each of the four investment pools is less than 120 days. The District follows its investment policy to limit investments only in government investments pools with average maturities of less than 120 days.
- e. Foreign Currency Risk This is the risk that exchange rates will adversely affect the fair value of an investment. At August 31, 2023, the District was not exposed to foreign currency risk.

f. Concentration of Credit Risk - This is the risk of loss attributed to the magnitude of the District's investment in a single issuer (i.e., lack of diversification). Concentration risk is defined as positions of 5 percent or more in the securities of a single issuer. Investment pools are excluded from the 5 percent disclosure requirement.

Public funds investment pools in Texas ("Pools") are established under the authority of the Interlocal Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the "Act"), Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: 1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; 2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and 3) maintain the fair value of its underlying investment portfolio within one half of one percent of the value of its shares.

The District's investments in Pools are reported at an amount determined by the fair value per share of the pool's underlying portfolio, unless the pool is 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

The District's investments at August 31, 2023, are shown below:

Name	Carrying Amount	Fair Value	Maturity <u>Date</u>
TexPool	\$ 379,400	\$ 379,400	N/A
Texas Range	61,980,118	61,980,118	N/A
Lone Star	993,353	993,353	N/A
LOGIC	135,807	135,807	N/A
Total	\$63,488,678	\$63,488,678	

#### Fair Value Measurements

The District categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The District's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The District's investment in Texpool, Texas Range, Lone Star, and Logic (statewide 2a7-like external investment pools) are not required to be measured at fair value but are measured at amortized cost.

#### NOTE 4. CAPITAL ASSETS

Capital asset activity for the year ended August 31, 2023, was as follows:

	Balance September 1	Additions/ Completions	Retirement/ Adjustments	Balance August 31
Governmental Activities:				
Capital assets, not being depreciated:				
Land	\$ 7,295,038	\$ -	\$ -	\$ 7,295,038
Work in Progress				
Total capital assets, not being depreciated	7,295,038	-	-	7,295,038
Capital assets, being depreciated:				
Buildings and Improvements	193,805,519	2,527,603	-	196,333,122
Furniture and Equipment	11,291,854	421,477		11,713,331
Total capital assets, being depreciated	205,097,373	2,949,080	-	208,046,453
Less accumulated depreciation for:	.,	·		
Buildings and Improvements	(49,006,171)	(4,403,588)	-	(53,409,759)
Furniture and Equipment	(7,885,137)	(571,964)	-	(8,457,101)
Total accumulated depreciation	(56,891,308)	(4,975,552)	-	(61,866,860)
Total capital assets being depreciated, net	148,206,065	(2,026,472)		146,179,593
Governmental activities capital assets, net	\$ 155,501,103	\$ (2,026,472)	<u> </u>	\$ 153,474,631

Depreciation expense was charged as direct expense to programs of the District as follows:

Governmental activities:	
Instruction	\$2,900,991
Instructional Resources & Media Services	60,752
Curriculum & Instructional Staff Development	97,410
Instructional Leadership	103,867
School Leadership	287,147
Guidance, Counseling & Evaluation Services	168,999
Social Work Services	1,480
Health Services	42,759
Student (Pupil) Transportation	187,493
Extracurricular Activities	137,751
General Administration	184,823
Plant Maintenance and Operations	618,797
Security & Data Processing Services	155,638
Capital Outlay and Other	27,645
Total depreciation expense-Governmental activities	<u>\$4,975,552</u>

### NOTE 5. LONG-TERM DEBT

Long-term debt includes par bonds, capital appreciation (deep discount) serial bonds and a loan. All long-term debt represents transactions in the District's governmental activities. No long-term debt exists in the District's business-type activities.

The District has entered into a continuing disclosure undertaking to provide Annual Reports and Material Event Notices to the State Information Depository of Texas (SID), which is the Municipal Advisory Council. This information is required under SEC Rule 15c2-12 to enable investors to analyze the financial condition and operations of the District.

The following is a summary of the changes in the District's Long-term Debt for the year ended August 31, 2023:

	Interest Rate	Amount Original	Amounts Outstanding		Refunded/	Amounts Outstanding	Due Within
<u>Description</u>	Payable	Issue	9/1/2022	Additions	Retired	8/31/2023	One Year
Bonded Indebtness:							
1999 Bklg/Refunding	4.40-6.06%	\$ 8,861,571	\$ 489,213	\$ -	\$ 489,213	\$ -	\$ -
2001 Bldg/Refunding	4.00-5.70%	13,264,871	3,842,645	-	149,105	3,693,540	673,810
2013 Refunding	2.00-4.00%	8,955,000	8,855,000	-	-	8,855,000	•
2014 Refunding	2.00-4.00%	9,295,000	6,075,000	-	865,000	5,210,000	900,000
2015 Refunding	0.47-5.00%	19,063,027	16,414,065	-	3,448,507	12,965,558	33,831
2016 Refunding	2.00-4.00%	24,877,700	22,357,700	-	370,000	21,987,700	435,000
2019 Building Bonds	4.00-5.00%	16,130,000	14,120,000	-	745,000	13,375,000	780,000
2019-A Building Bonds	3.00-5.00%	63,900,000	63,525,000	-	-	63,525,000	490,000
2021 Refunding	3.00%	6,540,000	5,835,000	_	625,000	5,210,000	645,000
2023 Building Bonds	4.00-5.00%	34,875,000		34,875,000		34,875,000	835,000
Total Bonded Indebtedness			141,513,623	34,875,000	6,691,825	169,696,798	4,792,641
Accreted Interest			12,857,372	1,380,320	1,952,667	12,285,025	1,772,902
Discount/Premium on Issuance of	Debt		21,322,333	1,103,342	977,772	21,447,903	1,035,824
Total Other Obligations			34,179,705	2,483,662	2,930,439	33,732,928	2,808,726
Total Obligations of District			\$ 175,693,328	\$ 37,358,662	\$ 9,622,264	\$ 203,429,726	\$ 7,601,367

The 2001, 2015, and 2016 bond series include outstanding capital appreciation bonds in the principal amount of \$5,631,798. The bonds mature variously through 2033. Interest accrues on these bonds each February 15 and August 15, even though the interest is not paid until maturity. The accrued interest of \$12,285,025 is accounted for as Accrued Interest Payable-Capital Appreciation Bonds.

General Obligation Bonds are direct obligations issued on a pledge of the general taxing power for the payment of the debt obligations of the District. General Obligation Bonds require the District to compute, at the time taxes are levied, the rate of tax required to provide (in each year bonds are outstanding) a fund to pay interest and principal at maturity. The District is in compliance with this requirement.

There are a number of limitations and restrictions contained in the various general obligation bonds indentures. The District is in compliance with all significant limitations and restrictions at August 31, 2023.

Presented below is a summary of general obligation bond requirements to maturity:

	General Obligation			
Year Ended			Total	
August 31,	<u>Principal</u>	<u>Interest</u>	Requirements	
2024	\$ 4,792,641	\$ 11,393,298	\$ 16,185,939	
2025	4,461,254	9,167,040	13,628,294	
2026	4,568,711	9,062,483	13,631,194	
2027	4,689,570	8,939,874	13,629,444	
2028	4,665,176	8,965,268	13,630,444	
2029-2033	28,104,446	36,581,372	64,685,818	
2034-2038	43,385,000	19,516,619	62,901,619	
2039-2043	30,260,000	11,634,775	41,894,775	
2044-2048	36,660,000	5,239,763	41,899,763	
2049	8,110,000	<u>267,544</u>	<u>8,377,544</u>	
	<u>\$169,696,798</u>	\$120,768,036	<u>\$290,464,834</u>	

#### NOTE 6. DEBT REFUNDING AND DEFEASED BONDS OUTSTANDING

In August 2023, the District advance refunded \$3,420,000 (par value) of bonds by paying \$3,423,713 of District funds into an irrevocable escrow account. No refunding bonds were issued. All future payments on the refunded bonds will be paid from the escrow account. The refunded bonds will be redeemed in August 2024, the call date of the bonds.

In the current and prior years, the District has issued refunding bonds and advance refunded bonds to defease certain outstanding bonds for the purpose of consolidation and to achieve debt service savings. The District has placed the proceeds from the refunding issues in irrevocable escrow accounts with a trust agent to ensure payment of debt service on the refunded bonds.

Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the District's financial statements. Although defeased, the refunded debt from those issues will not be actually retired until the call dates have come due. On August 31, 2023, \$3,420,000 of bonds outstanding are considered defeased.

In prior years, the District issued refunding bonds to defease certain outstanding bonds for the purpose of consolidation and to achieve debt service savings. The District has placed the proceeds from the refunding issues in irrevocable escrow accounts with a trust agent to ensure payment of debt service on the refunded bonds.

Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the District's financial statements. Although defeased, the refunded debt from those earlier issues will not be actually retired until the call dates have come due or until maturity if they are not callable issues. On August 31, 2023, \$870,000 of bonds outstanding are considered defeased.

The District's deferred charges on bond refundings are as follows:

Balance - August 31, 2022	\$2,722,405
Current year amortization	(136,582)
Balance - August 31, 2023	\$2,585,823

#### NOTE 7. PROPERTY TAXES

Property taxes are considered available when collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. The District levies its taxes on October 1 on the assessed (appraised) value listed as of the prior January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due upon receipt of the tax bill and are past due and subject to interest if not paid by February 1 of the year following the October 1 levy date. The assessed value of the property tax roll upon which the levy for the 2022-23 fiscal year was based was \$2,887,504,774. Taxes are delinquent if not paid by August 31. Delinquent taxes are subject to both penalty and interest charges plus 15 % delinquent collection fees for attorney costs.

The tax rates assessed for the year ended August 31, 2023, to finance General Fund operations and the payment of principal and interest on general obligation long-term debt were \$0.9429 and \$0.50 per \$100 valuation, respectively, for a total of \$1.4429 per \$ 100 valuation.

Current tax collections for the year ended August 31, 2023 were 99.41% of the year-end adjusted tax levy. Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible taxes within the General and Debt Service Funds are based on historical experience in collecting taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature. As of August 31, 2023, property taxes receivable, net of estimated uncollectible taxes, totaled \$481,996 and \$227,554 for the General and Debt Service Funds, respectively.

Property taxes are recorded as receivables and unavailable revenues at the time the taxes are assessed. Revenues are recognized as the related ad valorem taxes are collected. Additional amounts estimated to be collectible in time to be a resource for payment of obligations incurred during the fiscal year and therefore susceptible to accrual in accordance with Generally Accepted Accounting Principles have been recognized as revenue.

### NOTE 8. DEFINED BENEFIT PENSION PLAN

Plan Description. Lake Dallas Independent School District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at https://trs.texas.gov/pages/aboutpublications.aspx, by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698, or by calling (512)542-6592.

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in this manner are determined by the System's actuary.

Contributions. Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86<sup>th</sup> Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025.

Contribution Rates		
	<u> 2022</u>	<u>2023</u>
Member	8.0%	8.0%
Non-Employer Contributing Entity (State)	7.75%	8.0%
Employers	7.75%	8.0%
Lake Dallas ISD FY2023 Employer Contributions	3	\$ 1,034,494
Lake Dallas ISD FY2023 Member Contributions		\$ 2,415,532
Lake Dallas ISD FY2023 NECE On-Behalf Contr	ibutions	\$ 1,806,262

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including the TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers including public schools are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding source or a privately sponsored source, from non-educational and general, or local funds.
- All public schools must contribute 1.7 percent of the member's salary beginning in fiscal year 2022, gradually increasing to 2 percent in fiscal year 2025.

In addition to the employer contributions listed above, there are additional surcharges an employer is subject to.

• When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Actuarial Assumptions. The total pension liability in the August 31, 2022 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date August 31, 2021 rolled forward

to August 31, 2022

Actuarial Cost Method Individual Entry Age Normal

Asset Valuation Method Fair Value
Single Discount Rate 7.00%
Long-term expected Investment Rate of Return 7.00%
Municipal Bond Rate as of August 2022 3.91%
Inflation 2.30%

Salary Increases Including Inflation 2.95% to 8.95%

Benefit Changes During the Year None
Ad hoc Post Employment Benefit Changes None

The actuarial methods and assumptions are used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2021. For a full description of these assumptions please see the actuarial valuation report dated November 12, 2021.

Discount Rate. A single discount rate of 7.00 percent was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7.00 percent. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 8.50 percent of payroll in fiscal year 2020 gradually increasing to 9.55 percent of payroll over the next several years. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7.00%.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2022 are summarized below:

Asset Class	Target Allocation <sup>1</sup>	Long-Term Expected Arithmetic Real Rate of Return <sup>2</sup>	Expected Contribution To Long-Term Portfolio Returns
Global Equity			
U.S.	18%	4.6%	1.12%
Non-U.S. Developed	13%	4.9%	0.90%
Emerging Markets	9%	5.4%	0.75%
Private Equity	14%	7.7%	1.55%
Stable Value			
Government Bonds	16%	1.0%	0.22%
Absolute Return <sup>4</sup>	0%	3.7%	0.00%
Stable Value Hedge Funds	5%	3.4%	0.18%
Real Return			
Real Estate	15%	4.1%	0.94%
Energy, Natural Resources	6%	5.1%	0.37%
Commodities	0%	3.6%	0.00%
Risk Parity			
Risk Parity	8%	4.6%	0.43%
Leverage			
Cash	2%	3.0%	0.01%
Asset Allocation Leverage	-6%	3.6%	-0.05%
Inflation Expectation	•		2.70%
Volatility Drag <sup>3</sup>	-		<u>-0.93%</u>
Total	100%		8.19%

Discount Rate Sensitivity Analysis. The following table presents the Net Pension Liability of the plan using the discount rate of 7.00 percent, and what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00 percent) or one percentage point higher (8.00 percent) than the current rate.

	1% Decrease in Discount Rate (6.00%)	Discount Rate (7.00%)	1% Increase in Discount Rate (8.00%)
Lake Dallas ISD's proportionate share of the net pension liability:	\$19,743,016	\$12,691,406	\$6,975,745

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At August 31, 2023, Lake Dallas Independent School District reported a liability of \$12,691,406 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to Lake Dallas Independent School District. The amount recognized by Lake Dallas Independent School District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with Lake Dallas Independent School District were as follows:

District's Proportionate share of the collective net pension liability	\$12,691,406
State's proportionate share that is associated with the District	21,970,498
Total	<u>\$34,661,904</u>

<sup>&</sup>lt;sup>1</sup> Target allocations are based on the FY22 policy model.

<sup>&</sup>lt;sup>2</sup> Capital Market Assumptions come from Aon Hewitt (as of 08/31/2022).

<sup>&</sup>lt;sup>3</sup> The volatility drag results from the conversion between arithmetic and geometric mean returns.

<sup>&</sup>lt;sup>4</sup> Absolute Return includes credit sensitive investments.

The net pension liability was measured as of August 31, 2021 and rolled forward to August 31, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2021 thru August 31, 2022.

At August 31, 2022 the employer's proportion of the collective net pension liability was 0.0213777265%, an increase of 1.2% from its proportionate share of 0.0211266077% at August 31, 2021.

Changes Since the Prior Actuarial Valuation – The actuarial assumptions and methods have been modified since the determination of the prior year's Net Pension Liability. These new assumptions were adopted in conjunction with an actuarial experience study. The primary assumption change was the lowering of the single discount rate from 7.25 percent to 7.00 percent.

For the year ended August 31, 2023, Lake Dallas Independent School District recognized pension expense of \$1,806,262 and revenue of \$1,806,262 for support provided by the State.

At August 31, 2023, Lake Dallas Independent School District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (The amounts shown below will be the cumulative layers from the current and prior years combined.):

	Deferred	
	Outflows of	Inflows of
	Resources	Resources
Differences between expected and actual economic experience	\$ 184,024	\$ 276,697
Changes in actuarial assumptions	2,364,822	589,380
Difference between projected and actual investment earnings	1,253,871	•
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	554,125	571,583
Contributions paid to TRS subsequent to the measurement date	1,034,494	-
Total	\$5,391,336	\$1,437,660

The net amounts of the District's balances of deferred outflows and inflows of resources (not including the deferred contribution paid subsequent to the measurement date) related to pensions will be recognized in pension expense as follows:

Year ended August 31:	Pension Expense Amount
2024	\$ 902,617
2025	442,742
2026	(33,656)
2027	1,404,666
2028	202,813
Thereafter	_

### NOTE 10. DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS

*Plan Description.* The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS- Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan with a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

*OPEB Plan Fiduciary Net Position.* Detail information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.texas.gov/pages/aboutpublications.aspx; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

*Benefits Provided.* TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic postemployment benefit changes; including automatic COLAs.

The premium rates for retirees are reflected in the following table:

TRS-Care Monthly for Retirees				
	<b>Medicare</b>	Non-Medicare		
Retiree*	\$ 135	\$ 200		
Retiree and Spouse	529	689		
Retiree* and Children	468	408		
Retiree and Family	1,020	999_		

<sup>\*</sup> or surviving spouse

Contributions. Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

#### **Contribution Rates**

· <del></del>	<u>2022</u>	<u>2023</u>
Active Employee	0.65%	0.65%
Non-Employer Contributing Entity (State)	1.25%	1.25%
Employers	0.75%	0.75%
Federal/private Funding remitted by Employers	1.25%	1.25%
Lake Dallas ISD FY23 Employer Contributions	\$23	39,420
Lake Dallas ISD FY23 Member Contributions \$1		96,696
Lake Dallas ISD FY23 NECE On-behalf Contributions	\$36	56,239

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to, regardless of whether or not they participate in the TRS Care OPEB program. When hiring a TRS retiree, employers are required to pay to TRS Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$83 million in fiscal year 2022 from the Federal Rescue Plan Act (ARPA) to help defray Covid-19-related health care costs during fiscal year 2022.

Actuarial Assumptions. The actuarial valuation was performed as of August 31, 2021. Update procedures were used to roll forward the Total OPEB Liability to August 31, 2022.

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.

The following assumptions and other inputs used for members of TRS-Care are based on an established pattern of practice and are identical to the assumptions used in the August 31, 2021 TRS pension actuarial valuation that was rolled forward to August 31, 2022:

Rates of Mortality	General Inflation
Rates of Retirement	Wage Inflation
Rates of Termination	Rates of Disability

The active mortality rates were based on 90 percent of the RP-2014 Employee Mortality Tables for males and females, with full generational mortality using Scale BB. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using the ultimate improvement rates from the mortality projection scale MP-2018.

Additional Actuarial Methods and Assumptions:

Valuation Date August 31, 2021 rolled forward

to August 31, 2022

Actuarial Cost Method Individual Entry Age Normal

2.30% Inflation 3.91% Single Discount Rate

Based on specific plan experience **Aging Factors** 

Third-party administrative expenses related to the Expenses delivery of health care benefits are included in the

age-adjusted claim costs

3.05% to 9.05%, including inflation Projected Salary Increases **Election Rates** 

Normal Retirement: 65% participation prior to age 65

and 40% participation after age 65 None

Ad hoc post-employment benefit changes

Discount Rate. A single discount rate of 3.91% was used to measure the total OPEB liability. There was an increase of 1.96 percent in the discount rate since the previous year. Because the plan is essentially a "pay-asyou-go" plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to not be able to make all future benefit payments of current plan members. Therefore, the municipal bond rate was used for the longterm rate of return and was applied to all periods of projected benefit payments to determine the total OPEB liability.

The source of the municipal bond rate is the Fidelity "20-year Municipal GO AA Index" as of August 31, 2021 using the fixed-income market data/yield curve/data municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds.

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used 3.91%) in measuring the Net OPEB Liability.

	1% Decrease in	Current Single Discount	1% Increase in
	Discount Rate (2.91%)	Rate (3.91%)	Discount Rate (4.91%)
District's proportionate share of the Net OPEB			07.000.10.6
Liability:	\$8,416,829	\$7,138,475	\$5,882,136

Healthcare Cost Trend Rates Sensitivity Analysis - The following schedule shows the impact of the net OPEB liability if a healthcare trend rate that is one-percentage less than or one-percentage point greater than the health trend rates is assumed.

	1% Decrease in Healthcare Trend Rate	Current Single Healthcare Trend Rate	1% Increase in Healthcare Trend Rate	
District's proportionate share of the Net OPEB Liability:	\$5,882,136	\$7,138,475	\$8,767,158	

OPEB Liabilities, OPEB Expenses, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs. At August 31, 2023, the District reported a liability of \$7,138,475 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District.

The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's Proportionate share of the collective Net OPEB Liability

\$ 7,138,475

State's proportionate share that is associated with the District

\$ 8,707,818

Total

\$15,846,283

The Net OPEB Liability was measured as of August 31, 2021 and rolled forward to August 31, 2022 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer's proportion of the Net OPEB Liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2021 thru August 31, 2022.

At August 31, 2022 the employer's proportion of the collective Net OPEB Liability was 0.0298132021%, a decrease of 1.5% compared to the August 31, 2021 proportionate share of 0.0302654626%.

Changes Since the Prior Actuarial Valuation – The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

• The discount rate changed from 1.95 percent as of August 31, 2021 to 3.91 percent as of August 31, 2022. This change decreased the Total OPEB Liability.

Changes of Benefit Terms Since the Prior Measurement Date – There were no changes in benefit terms since the prior measurement date.

The amount of OPEB expense recognized by the District in the reporting period was \$(1,158,017).

At August 31, 2023, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred	
	Outflows of	Inflows of
	Resources	Resources
Differences between expected and actual economic experience	\$ 396,874	\$ 5,946,990
Changes in actuarial assumptions	1,087,331	4,959,388
Difference between projected and actual investment earnings	21,264	
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	846,581	903,957
Contributions paid to TRS subsequent to the measurement date	239,420	
Total	\$2,591,470	\$11,810,335

The net amounts of the employer's balances of deferred outflows and inflows of resources (not including the deferred contribution paid subsequent to the measurement date but before the end of the District's reporting period, of \$239,420; which will reduce the OPEB liability in fiscal year 2024) related to OPEB will be recognized in OPEB expense as follows:

Year ended August 31:	OPEB Expense Amount
2024	\$ (1,666,722)
2025	(1,666,645)
2026	(1,363,928)
2027	(954,100)
2028	(1,282,841)
Thereafter	(2,524,049)

#### NOTE 10. SCHOOL DISTRICT RETIREE HEALTH PLAN

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. These on-behalf payments are recognized as equal revenues and expenditures/expenses by the District. For the year ended August 31, 2023, the contribution made on behalf of the District was \$165,306.

#### NOTE 11. HEALTH CARE

During the year ended August 31, 2023, employees of Lake Dallas Independent School District were covered by the TRS-Active Care health insurance plan (the Plan). The District contributed \$245 per month per employee to the Plan and employees, at their option, authorized payroll withholdings to pay any additional contribution and contributions for dependents. All contributions were paid to a self-funded pool. The Plan was authorized by Section 21.922, Texas Education Code and was documented by contractual agreement.

### NOTE 12. INTERFUND TRANSFERS AND BALANCES

Virtually all of the interfund balances below are short-term loans due to the fact that checking account balances for most governmental funds are pooled into one demand account. There are no interfund balances that are not expected to be repaid within one year.

Interfund balances at August 31, 2023, consisted of the following individual fund receivables and payables:

<u>Fund</u>	Advances to Other Funds	Advances from Other Funds
Major Funds:		
General Fund:		
Special Revenue Funds	\$1,315,788	\$ -
Capital Projects Fund	-	465,904
Debt Service Fund	-	1,031,419
Internal Service Fund	-	7,474
Custodial Fund	<u>277,761</u>	
Total General Fund	1,593,549	1,504,797
Capital Projects Fund:	,	
General Fund	465,904	
Debt Service Fund:		
General Fund	1,031,419	
Total Major Funds	3,090,872	1,315,788
Non-Major Funds:		
Special Revenue Funds:		
General Fund		1,315,788
Internal Service Fund:		
Special Revenue Fund	<u>7,474</u>	
Custodial Fund:		
General Fund		<u>277,761</u>
Total Non-Major Funds	7,474	1,593,549
	<u>\$3,098,346</u>	<u>\$3,098,346</u>

#### NOTE 13. RECEIVABLES FROM OTHER GOVERNMENTS

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita Programs. Amounts due from federal and state governments as of August 31, 2023, are summarized below. All federal grants shown below are passed through the TEA and are reported on the combined financial statements as Due from Other Governments.

	State	Federal	Local	
Fund	Entitlements	Grants	Governments	Total
Special Revenue	<u>\$</u>	\$1,429,495	<u>\$</u>	\$1,429,495
Total	\$ <u> </u>	\$1,429,495	\$	<u>\$1,429,495</u>

#### NOTE 14. CONTINGENT LIABILITIES

The Tax Reform Act of 1986 imposed regulations on tax-exempt bond issues. Governmental bonds issued after August 31, 1986 are subject to the rebate provisions of the Tax Reform Act of 1986. The rebate applies to earnings from bond issue proceeds investments which exceed bond issue stated interest rates. The exact amount of liability, if any, will not be known until as long as five years from the bond issuance date. At August 31, 2023 there was no estimated rebate liability.

#### NOTE 15. LITIGATION AND CONTINGENCIES

The District is not a party to any legal actions, accordingly, no provision for losses has been recorded in the accompanying combined financial statements for such contingencies.

The District participates in numerous state and Federal grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at August 31, 2023 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

#### NOTE 16. REVENUES FROM LOCAL AND INTERMEDIATE SOURCES

During the current year, revenues from local and intermediate sources consisted of the following:

	General Fund	Special Revenue Funds	Debt Service Fund	Capital Projects Fund	Total
Property taxes	\$ 26,458,068	\$ -	\$ 14,023,241	\$ -	\$ 40,481,309
Food sales	-	770,338	_	-	770,338
Investment income	993,691	4,215	408,456	1,261,244	2,667,606
Penalties, interest and other					
tax related income	152,603	-	70,444	-	223,047
Co-curricular student activities	99,504	-	-	-	99,504
Other	407,475	66,039		445,681	919,195
Total	\$ 28,111,341	\$ 840,592	\$ 14,502,141	\$ 1,706,925	\$ 45,160,999

#### NOTE 17. UNEARNED REVENUE

Unearned revenue at year-end consisted of the following:

		Special	
	General	Revenue	
	Fund	Fund	Total
Unearned Grants	\$ -	\$108,767	\$108,767

#### NOTE 18. GENERAL FUND FEDERAL SOURCE REVENUES

	FALN		Total Grant
Program or Source	Number	Amount	or Entitlement
General Fund:			
Impact Aid	84.041	\$453,258	\$453,258
Medicaid Administrative Claiming			
Program-MAC	93.778	7,351	7,351

Federal Flood Control	10.904	134,280	134,280
Total for General Fund		<u>\$893,263</u>	\$893,263

#### NOTE 19. SUBSEQUENT EVENTS

Management evaluates subsequent events through the date of the report, which is the date the financial statements were available to be issued.

#### NOTE 20. LEASES

In June 2017, GASB issued Statement No. 87 - Leases. This statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The initial adoption date was postponed to fiscal years beginning after June 15, 2021 (FY2022) by GASB Statement No. 95 - Postponement of the Effective Dates of Certain Authoritative Guidance, which was issued in May of 2020.

Per review of the agreements identified by the District as potential leases, the leases were determined to either not meet the definition of a lease or were immaterial to the financial statements.

#### NOTE 21. SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENTS

In May 2020, GASB issued Statement No. 96 – Subscription-Based Information Technology Arrangements ("SBITA"). This statement increases the usefulness of governments' financial statements by requiring recognition of certain right-to-use subscription assets and corresponding subscription liabilities for SBITAs that were previously recognized as outflows of resources based on the payment provisions of the contract. The statement is effective for fiscal years beginning after June 15, 2022.

Per review of the information technology arrangements identified by the District as potential SBITAs, the arrangements were determined to either not meet the definition of a SBITA, or were immaterial to the financial statements.

### LAKE DALLAS INDEPENDENT SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION FOR THE YEAR ENDED AUGUST 31, 2023

#### PENSION LIABILITY:

Changes of benefit terms:

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Changes of assumptions:

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period:

• The discount rate changed from 7.25 percent as of August 31, 2021 to 7.00 percent as of August 31, 2022. This change increased the total pension liability.

#### OPEB LIABILITY:

Changes of benefit terms:

There were no changes in benefit terms since the prior measurement date.

Changes of assumptions:

The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

• The discount rate changed from 1.95 percent as of August 31, 2021 to 3.91 percent as of August 31, 2022. This change decreased the Total OPEB Liability.

# OTHER SUPPLEMENTARY INFORMATION NONMAJOR GOVERNMENTAL FUNDS SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for proceeds of specific revenue sources that are legally restricted to expenditure for specified purposes.

Activities accounted for in the Special Revenue Funds are:

AP5	Did your LEA expend any bilingual education program state allotment funds during the LEA's fiscal year?	Yes
AP6	Does the LEA have written policies and procedures for its bilingual education program?	Yes
AP7	List the total state allotment funds received for bilingual education programs during the LEA's fiscal year.	\$274,803
AP8	List the actual direct program expenditures for bilingual education programs during the LEA's fiscal year.	\$303,349

STATISTICAL SECTION (UNAUDITED)

#### **Statistical Section**

This part of the Lake Dallas Independent School District's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents	Page
Financial Trends	116
These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.	
Revenue Capacity	125
These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.	
Debt Capacity	132
These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	
Demographic and Economic Information	138
These schedules offer demographic and economic indicators to help the reader understand the environment within the government's financial activities take place.	
Operating Information	144
These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports for the relevant year.

Source: The Statement of Net Position for the Lake Dallas Independent School District.

Notes: (1) Effective for the fiscal year ended August 31, 2013, the District implemented GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position. With the implementation of this standard, balances previously reported as "Net Assets" are now reported as "Net Position".

- (2) Fiscal years prior to 2013 included in this schedule are shown as adjusted for changes required by GASB Statement No. 65, Items Previously Reported as Assets and Liabilities.
- (3) Net position for fiscal year 2014 was adjusted in 2015 for the implementation of GASB Statement No. 68, Accounting and Financial Reporting for Pensions, and Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date. Adjustment to periods prior to 2014 was not practical.

Lake Dallas ISD	203,429,726	100.000%	203,429,726
Total direct and overlapping debt			\$ 259,068,184

Source: Taxable value data used to estimate applicable percentages provided by the Municipal Advisory Council. Debt outstanding data provided by each governmental unit.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Lake Dallas Independent School District. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of each entity's taxable assessed value that is within the District's boundaries and dividing it by each entity's total taxable assessed value.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Trustees Lake Dallas Independent School District Lake Dallas, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Lake Dallas Independent School District, as of and for the year ended August 31, 2023, and the related notes to the financial statements, which collectively comprise Lake Dallas Independent School District's basic financial statements, and have issued our report dated January 19, 2024.

#### Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Trustees Lake Dallas Independent School District Lake Dallas, Texas

#### Report on Compliance for Each Major Federal Program

#### Opinion on Each Major Federal Program

We have audited Lake Dallas Independent School District's compliance with the types of compliance requirements identified as subject to audit in the OMB Compliance Supplement that could have a direct and material effect on each of Lake Dallas Independent School District's major federal programs for the year ended August 31, 2023. Lake Dallas Independent School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Lake Dallas Independent School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2023.

#### Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Lake Dallas Independent School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Lake Dallas Independent School District's compliance with the compliance requirements referred to above.

#### Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Lake Dallas Independent School District's federal programs.

#### Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Lake Dallas Independent School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, Government Auditing Standards, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Lake Dallas Independent School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, Government Auditing Standards, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform
  audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence
  regarding Lake Dallas Independent School District's compliance with the compliance requirements referred to
  above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Lake Dallas Independent School District's internal control over compliance relevant
  to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report
  on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of
  expressing an opinion on the effectiveness of Lake Dallas Independent School District's internal control over
  compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

#### Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

# LAKE DALLAS INDEPENDENT SCHOOL DISTRICT NOTES TO SUPPLEMENTARY SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS YEAR ENDED AUGUST 31, 2023

- 1. The District uses the fund types specified in Texas Education Agency's Financial Accountability System Resource Guide. Special Revenue Funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund. Generally, unused balances are returned to the grantor at the close of specified project periods.
- 2. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial resources measurement focus. All Federal grant funds were accounted for in a Special Revenue Fund which is a Governmental Fund type. With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current assets.

The modified accrual basis of accounting is used for the Governmental Fund types and Agency Funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on Long-Term Debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as unearned revenues until earned.

- 3. The District participates in numerous state and Federal grant programs that are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at August 31, 2023, may be impaired. In the opinion of the District, there are not significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provisions has been recorded in the accompanying combined financial statements for such contingencies.
- 4. The period of availability for federal grant funds for the purposes of liquidation of outstanding obligations made on or before the ending date of the federal project period extended 30 days beyond the federal project period ending date, in accordance with provisions in the Uniform Guidance.
- 5. During the current year, the District received the following funds which are not included in the Schedule of Expenditures of Federal Awards.

Total Expenditures of Federal Awards \$3,823,814

Medicaid Reimbursement (SHARS) 298,374

Federal Revenues per Financial Statements \$4,122,188
